With A Sturdy Captain

and True-Hearted Crew--the Good Ship Weathered the Storm

This Community is our ship. We are depending upon it to get us safely into port. . . .

The Captain and the crew of this good ship are no one else but ourselves and our neighbors. Working together with and for one another, we can bring our ship safely through the storm of competitive business, safely into the port of greater prosperity for one and all. . . . .

But each member of the crew must do his share. Are we doing all we can, all the time? If not, let's start today. If we are, then let's do more. Boost and work hard for McHenry. . .
