BOWMANVILLE, JAN. 8, 1896.

Parliament blundered when fixing the opening for January 2nd.

The Dominion Parliament expires April 25 if collapse does not come sooner.

There are seven vacancies in the Dominion Senate, three were recently filled.

The Ottawa Government is having hard lines. Five bye-elections with three defeats and two greatly reduced majorities.

The election for the Commons in Jacques Cartier, Que., last week was a stunning defeat for the Government.

Three more Dominion elections are pending—Charlevoix, Que., West Huron Ont.; and Victoria, B. C. Liberals are hopeful of winning all.

The Liberals went out of power under the premiership of Hon. Alex. Mackenzie and Conservatives are going out under Sir Mackenzie Bowell. Is there anything in a name?

The town has lost the services of two capable men and popular councillors in the retirement of Messrs. J. C. Vanstone and W. McKay. They did not seem to care for the position and much against the wishes of their colleagues and the citizens generally declined re-election, It is some satisfaction, however, to know that their seats will be occupied by two tried and good men. If the council of 1896 can succeed in keeping the rate down to 18 mills without neglecting any proper or necessary expenditure in any of the departments and hand over the town to their successors at the end of the year in a good state of repair they will do well.

We congratulate the members of the Town Council on being elected by acclamation for 1896. Why they have been so highly favored we do not know, except that the electors are pretty generally satisfied with their course during 1895. Mistakes were made, no doubt, but they have possibly been errors of judgment rather than of design. Many think the expendture on Roads and Streets has been excessive, being over $3000. We should like to see an explanation on this particular matter from the committee for the benefit of the complaining ones; we have no doubt the reason for this large increase is not difficult of presentation. Messrs. Spry, Hillier and Jeffery were the members of that committee, we understand.

THE STATESMAN has watched with more than ordinary interest the conduct of Mayor Loscombe during the past three years, and so far as we can judge no man who has occupied the mayoral chair during the last 2 decades has pursued a fairer course or got along more agreeably with the members of Council over whom he has presided. No wonder then that he should be honored with another election by acclamation. His legal knowledge has been of considerable service to the town in many instances, and possibly he has been quite as acceptable to the electors generally as to the council. Many men descend in the estimation of their constituents the longer they serve in public positions, but this has not been the case with Mayor Loscombe. This is his sixth year as municipal head of this corporation. May it be his best in every respect.

Politics are badly tangled at Ottawa just now, the Cabinet having split into two factions with Premier Bowell and six other ministers in one fold and Hon Foster and six other former ministers of the Bowell cabinet, who have resigned, in the other. The causes of the split are said to be a loss of confidence in the Premier's ability to longer pilot the political ship, through the troubled waters of adverse public opinion as manifested in the bye elections recently held and the ambitions of Mr. Foster to step into the Premier's shoes. The most likely outcome of the tangle at present is dissolution and an early appeal to the country. Possibly Mr Laurier, Liberal Leader, may be called upon in a few days to form a new government.

Bowmanville, Dec. 23, 1895.

BOWMANVILLE ATTRACTS THEM.

On questioning Bowmanville merchants we are pleased to find that they have done a good trade the past year. All report an increase and speak hopeful of the future. Two or three reasons are given for the increased volume of business in Bowmanville. Among the reasons assigned are these: Better prices for grain have been paid here than in neighboring towns; many western farmers do not like the trolley cars in Oshawa as their horses are frightened so easily by them; women and children are afraid to drive alone on Oshawa streets, hence they come here to trade. Another potent reason is that Bowmanville merchants keep well assorted stocks and sell cheap. Goods cannot be bought cheaper anywhere than they have been selling in this town lately. The special bargain days have brought hundreds of well-pleased buyers to Bowmanville and all the merchants have profited by their presence here. We have even heard of several farmers selling their produce in other places and coming here to spend the money because the goods they wanted were being sold so cheaply here. Never have our merchants advertised more liberally and judiciously in THE STATESMAN. Indeed, many ladies tell us they are as much interested in what advertisers present in our columns every week as in the reading columns. We are told that people from Clarke, Manvers, Cartwright and even East Whitby have been coming to Bowmanville to deal lately. Glad to hear that our merchants are pleasing their customers so well.

If you had taken two of Carter's Little Liver Pills before retiring you would not have had that coated tongue or bad taste in the mouth this morning. Keep a vial with you for occasional use.

TYROLEAN TROUBADOURS AND SWISS WARBLERS.

Our citizens will be pleased to learn that arrangements have been completed for an entertainment by these celebrated Musical Artists, in our Town Hall, on Thursday, Jan. 16th. The Troubadours and Swiss Warblers are spoken of in the highest terms by the press in every land they have visited and those who attend can rely on hearing one of the best musical treats ever given in the town. The Company will be assisted in their program by Elmer P. Ransom who as a prestidigitateur has no equal. For all round entertaining power, Mr. Ransom is the greatest in the field. His experiments are both humorous and mystifying. Plan of Hall at Big 20. Tickets 25c. Reserved seats 35c. Read the following from Rev. T De Witt Talmage, and others:

Mr. Ransom appeared at the Grand Concert and Entertainment in the Brooklyn Tabernacle on Nov. 26, 1892, and Feb. 22 1893 (twice within three months) appearing both times before over 9,000 people. His entertainment is the best and most interesting on the platform

REV. T. DE WITT TALMAGE,
Brooklyn Tabernacle.

Without a doubt the most attractive feature of the evening's program was the singing of the Tyrolean Troubadours Mitzi Meister, J Kolm, Hans Glieber and Helene Kolm, who compose the Tyrolean quartette, have voices of remarkable range, and the singing of their national songs warbles, yodles and solos was the feature of the evening's entertainment.—New York Herald

The feature of the evening was the singing of the Tyrolean Troubadours with zither and guitar accompaniment. These able artists more than came up to expectation, as was manifested by their repeated encores. Their voices blend very harmoniously and are very powerful and brilliant.—Brooklyn Daily Times

Maltine with Cod Liver Oil and Hypophosphites—A Food, Medicine, and Digestive.

Thousands of invalids are starving—starving in the midst of plenty and despite the tender care of loved ones. Health is restored, not by what is eaten, but by what is digested. Maltine with Cod Liver Oil and Hypophosphites is a *food*, for it is rich in the nourishing properties of wheat, oats, and barley; a *medicine*, for it is combined with the best Norwegian oil, which it renders palatable, non-irritating, and readily assimilated; and a powerful *digestive*, for it acts rapidly upon starchy foods, making them soluble and capable of supplying in abundance the elements of nutrition. One bottle is of greater remedial value than ten bottles of any emulsion. Try it.

The Secret of Good Crops.

The modern farmer is not content to use the antiquated tools and methods of his fathers. In this age of keen competition, the farmer who wishes to prosper needs and gets the most improved farming implements; and by reading the best agricultural literature, he keeps in touch with the spirit of progress that prevades our farming communities. He is particular, also, in regard to the kind of seed he uses and the manner he plants it. The seed must be of the highest fertility and grown from the highest cultivated and most profitable varieties of stock. The great firm of D M Ferry & Co., Windsor, Ont., fully appreciate this fact, as it is attested by their progressive business methods and the quality of the seed which they supply farmers and gardeners through dealers all over the country. The reliabilities and fertilities of their seeds are proverbial and the largest seed business in the world has been created by their sale. In evidence of this firm's knowledge of the wants and requirment of planters, large and small, is *Ferry's Seed Annual* for 1896. This book is of the greatest value to farmers and gardeners—a veritable encyclopædia of planting and farming knowledge It contains more useful and practical information than many text books that are sold for a dollar or more, yet it will be mailed to any one sending his name and address on a postal card to the firm.

The King of Farm Papers.

There is really no doubt that the Chicago Breeder's Gazette—now in its fourteenth year—is at the present time America's foremost farm newspaper. It is a weekly of from twenty to twenty-four pages, with colored cover, original illustrations. It publishes each year more valuable matter of detailing the experiences of successful farmers and stockmen than any other agricultural journal in the United States. Its market reports are the best published. It is the only paper that publishes full statement as to how the high priced stock marketed at the Chicago Yards was bred fed and handled. It employs the most practical writers only, and is taken and read by the most intelligent farmers of the country than any other publication of its kind in existence. Sample copy free. Address J. H. Saunders Publishing Co., 358 Dearborn street Chicago, Ill.

We are proud of Toronto for electing R. J. Fleming as mayor again. The healthy moral influence must still be paramount to elect him with a majority of nearly 2000 over a strong candidate like Ald. Shaw who was backed by the potent election influences, namely liquor, lucre and lodges. No doubt the people now see their mistake in placing a much less capable man in the position in 1894 an action which they soon seemed to repent of and now to remedy the evils that have become rampant, have recalled the one man of purity, perseverance and principle, who is expected to lead this progressive city on to a better and more successful condition than prevails at present. Our readers will be pleased also to learn that two men well and favorably known to many of them—W. T. R. Preston and F. S. Spence—have been elected to the city council and will, we should think, prove valuable assistants to Mayor Fleming in his proposed muuicipal reforms.

EVERYBODY IN KING'S CO.—Everybody in King's Co., N. B., knows Mr. Geo. S. Dryden, of Mitchell & Dryden, Sussex, N. B. He says: "Norway Pine Syrup is the best cough remedy I have ever used. My wife had a very bad cough that was most distressing for ten days. I tried the Norway Pine Syrup and one bottle cured her. I never found its equal." Geo. S. Dryden.

A TERRIBLE VERDICT.

A Man Plainly Told that He Would Never Walk Out Again.

So The Doctors Said.

He is Saved and Cured by Paine's Celery Compound.

The Only Reliable Cure for Kidney Disease.

When Mr. H. Ball, the well known auctioneer, of Chatham, Ont., was told by his physicians that he would never walk again, it simply amounted to telling him that his days on earth were short. Kidney disease was doing its deadly work; physicians and medicines had failed, and the last ray of hope had almost fled forever. Mr. Ball, having heard wondrous reports about the medicinal virtues of Paine's Celery Compound, wisely decided to give the great medicine a trial. He was not disappointed; health and strength returned, weight increased, and to-day, he is a new man. He tells of his wonderful escape from death as follows:—

"I was so seriously ill I was obliged to take to my bed, where I laid for four months. The doctors here and in Toronto said my trouble was Addison's disease of the kidneys, and told me I would never walk again. I commenced to use Paine's Celery Compound. After having used a number of bottles I was enabled to attend to business, and felt like a new man. Before using the Compound I was very much reduced in flesh; to-day I weigh over 200 pounds. I can affirm with confidence and honesty that Paine's Celery Compound saved my life."

MANY, MANY THANKS.

The very heartiest thanks of Charles Dickinson, THE STATESMAN Carrier boy, is hereby expressed to his patrons who so very generously remembered him on New Years Day. Through storm and sunshine for two years he has delivered the paper and now retires from the route. The numerous twenty-five cent pieces he received speak in a practical way of his faithfulness to his patrons. His successor is Charles Cox.

A mirror could not lie if it wanted to. The glass has nothing to gain by flattery. If the roses of health and plumpness of beauty are leaving your face, your mirror will tell you so. You can see for yourself you are in danger of losing the admiration which is every woman's due. You may not really realize it, but health is the greatest beautifier in the world. Lotions, plasters, creams and cosmetics cannot make as good a complexion as health can. They cannot hide the story of ill-health. They merely emphasize it. Health shows in clearness of eyes and skin, in redness of lips and vivacity of manner and expression. Disease is proved positively by the absence of these things. When a woman sees the indications of ill-health in the face, she may with almost absolute certainty look for the cause in one or both of two conditions—constipation, and derangement of the organs distinctly feminine. These things in themselves are in some degree related, and nine-tenths of all the sickness of women come from them. Dr. Pierce's Favorite Prescription will cure permanently and positively any so-called "female complaint." Dr. Pierce's Pleasant Pellets will cure constipation. There is no reason in the world why a woman should not be perfectly healthy. It rests with herself. If she will take these truly wonderful remedies, and follow a few hygienic measures, she may become perfectly strong and healthy in all ways. She will gain in health, strength and flesh. Hollows and angles will give place to fullness and grace. She will be that noblest and most beautiful of all creation—a perfect woman. All druggists sell Dr. Pierce's medicines, but if you care to know more about them and to know all of the grandest medical truths, send 21 one-cent stamps to cover customs and mailing *only*, and a complete copy of Dr. Pierce's 1008 page book, "The People's Common Sense Medical Adviser" will be sent post-paid. It is a veritable medical library, complete in one volume. Several finely illustrated chapters are devoted to the consideration of diseases of women and their successful home-treatment. Address, World's Dispensary Medical Association, 663 Main St., Buffalo, N.Y.
