BOYS and GIRLS! Would you like to have the most attractive Writing Cabinet in your school without cost to you? Read how you can get one of these wonderful cabinets, in this issue of the Plaindealer.

Today? Yesterday? Tomorrow?

Letter received at the office of the Railway Mail service at Boston: "Dear Sirs: The Evening Bulletin has not been coming regularly. Today I got yesterday's paper and when I get yesterday's paper today the next day I get the paper of the day before the day of the paper I got the day before. Last year I received the paper of the day before and never once was there a miscue. Please fix it."

Largest Outdoor Arena

The stadium, Soldier field, at Chicago, is said to be the largest outdoor arena in the world.

There are as many different kinds of tires as there are prices

As many as 6 to 15 different types of tires will fit your rims—you could pay any one of the 6 to 15 different prices asked for them and get tire service.

You, however, may drive your car differently than the next fellow does. Maybe you drive it harder, faster— or maybe easier, slower. Perhaps you'll drive it thousands of miles farther—or thousands of miles less. You travel different roads, with different loads.

There is **one type and size** of tire, therefore, which is the most economical buy **for you**—for **your** particular needs. That's where our service is different. **We help you to pick that tire.** Often we save a customer money by pointing out where a low-price tire is all his driving will require.

We carry all types of tires—all Goodyears. By properly tiring your car—**at lowest cost to you**—we know we'll win your permanent trade. Come in, talk over your needs—no obligation.

Finds Home-Made Fluid for Treating Anemia

Boston.—A liver extract that will be effective in treating pernicious anemia can be made at home with very little effort, Dr. William B. Castle and Morris A. Bowie of Harvard University Medical school have reported to the American Medical association.

This will prove a great boon to sufferers from this disease who are unable to afford the high price of the commercial liver extracts or of the more palatable calves' liver. Eating half a pound of beef liver a day soon becomes a tiresome ordeal, yet this has been the only chance for life and health for many of the poor who suffer from pernicious anemia.

The domestic extract is as effective as the commercial ones and may be made in the ordinary kitchen by any reasonably intelligent person, the Harvard scientists declared. Only the usual domestic utensils are needed. The cost of the beef liver is practically the only cost. The extract is palatable and may be drunk hot or cold, with or without salt. It is said to taste something like beef broth.

The process of making it consists in general of grinding the liver, soaking it in cold water, straining, heating and restraining. The ordinary meat grinder, strainer, enamel pots, glass jars and jelly bags found in most kitchens are the only utensils required. The success of the procedure depends on the care and exactness with which the directions for the various steps in the process are followed. Doctor Castle and Mr. Bowie gave these in detail in their report.

Apple Statistics

The Baldwin apple was raised near Lowell, Mass., about 1750. The Jonathan and Northern Spy were grown in New York, the Grimes Golden in West Virginia and the Maiden Blush in various places before 1800. The Red Astrachan was imported from Russia in 1835, the Rome Beauty was grown in Ohio by 1848, the Stayman Winesap appeared in Kansas in 1866 and the Delicious in Iowa in 1895.

Snake-Charming an Art

The Quihis or snake charmers are among the most interesting people in India. They learn their art from childhood and constitute a caste apart. A Quihi is an important man around the Indian hotels which want to keep their gardens free of snakes.

EASY! QUICK! GLYCERIN MIX FOR CONSTIPATION

Simple glycerin, buckthorn bark, saline, etc., as mixed in Adlerika, relieves constipation in TWO hours! Most medicines act on only lower bowel, but Adlerika acts on BOTH upper and lower bowel, removing poisons you never thought were in your system. Just ONE spoonful relieves GAS, sour stomach and sick headache. Let Adlerika give stomach and bowels a REAL cleaning and see how good you feel! Thomas P. Bolger, Druggist.

Daring Voyage

John Traynor and Ivan Olsen were the first to cross the Atlantic ocean in a rowboat. On July 5, 1881, they left Bath, Maine, in a rowboat named City of Bath and reached Falmouth, England, August 24 of the same year.

Running Backwards

Once a writer wrote "by bounds and leaps," instead of "leaps and bounds," and gave several readers palpitation of the heart.—St. Louis Globe-Democrat.

31x5.25	9.95
30x5.50	10.95

Tough ~ Sturdy ~ Safe ~ Saving

THE New Firestone Oldfield Tire is one of the many achievements directly traceable to the Firestone Supremacy in the tire field.

Consider the many advantages of the New Firestone Oldfield. These tires are not "second-line tires." Their high quality is equal to other "first lines" by actual test. Finer cotton means a stronger and better carcass. More rubber between the plies gives better protection to the cords, longer life and greater flexibility.

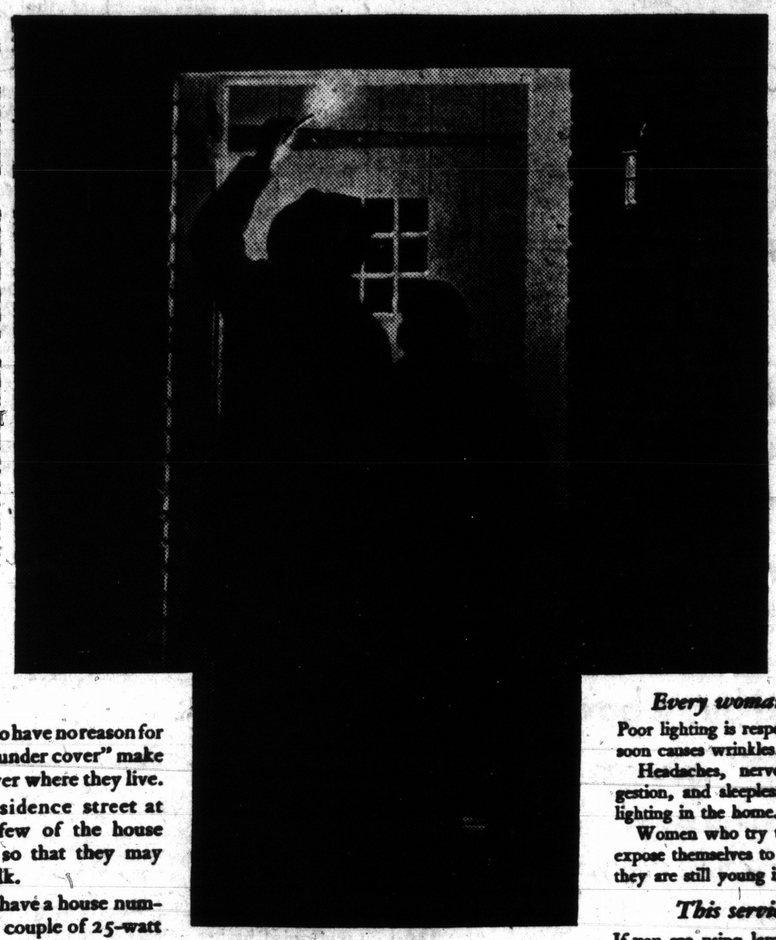
Come in today and examine these.

Buss-Page Motor Sales

"We Serve After We Sell"

PHONE 30 McHENRY, ILL.

Are you trying to keep your house number *a secret?*



MANY people who have no reason for trying to keep "under cover" make it hard to discover where they live.

Walk along any residence street at night and notice how few of the house numbers are lighted up so that they may be seen from the sidewalk.

How ridiculous it is to have a house number if it can't be seen! A couple of 25-watt lamps would make it easy for Opportunity to find your door after dark.

And what would burning such lamps four or five hours every night cost? Not 60c a month!

Light means cheerfulness

What a difference it makes to the caller if he looks into a brilliantly lighted home when the door is opened to him. He feels that he is having a cheerful reception, and his genial impulses are quickened.

Light encourages the flow of wit and promotes friendliness.

And how little it costs to light up for cheerfulness. Lamps are better, and electricity is lower in price today than ever before. It would cost you only about half a cent an hour to have a lamp burning in that empty socket.

And think of the improvement it would make in the appearance of things!

Every woman should know this

Poor lighting is responsible for squinting, which soon causes wrinkles.

Headaches, nervousness, fatigue, faulty digestion, and sleeplessness are often due to poor lighting in the home.

Women who try to get along with poor light expose themselves to the risk of looking old while they are still young in years.

This service is free to you

If you are using lamps that are not of correct wattage for securing the best lighting results, or if your fixtures are not suitably placed, our home lighting specialist can give you directions for making such changes as may be desirable. This service will cost you nothing. Just phone us when a call will suit your convenience.

This advertisement is published in the interest of a more beneficial use of electricity and to inform you how to obtain the best lighting service for the current consumed
