3 REASONS

We believe that we can give you better values in RUBBER FOOTWEAR than can any other dealers.

Here Are Three Reasons Why.

QUANTITY: Quantity buying counts. Our total Rubber Order given this season for our stores amounted to some 50,000 pairs. Our stock is large, well assorted and consists of over 100 distinct lines, affording ample selection from which to choose.

QUALITY: We sell Maple Leaf Rubbers - the best, and therefore the cheapest. No loitering in buying Maple Leaf Rubbers—satisfaction in every pair.

UNIFORMLY LOW PRICES: We buy Maple Leaf Rubbers in wholesale quantities direct from the makers, thereby getting the best possible discounts. Quantity buying combined with price selling results in uniform low prices to all.

Chamberlain's Cough Remedy is Pleasant to Take

The finest quality of granulated loaf sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in its preparation give it a flavor similar to maple syrup, making it quite pleasant to take. Mr. W. L. Roderick, of Poolesville, Md., in speaking of his remedy, says: "I have used Chamberlain's Cough Remedy with my children for several years and can truthfully say it is the best preparation of the kind I know of. The children like to take it and it has no injurious after effect. For sale by all druggists.

REGULAR MEETING OF COUNCIL.

NOT MUCH BUSINESS TRANSACTED MONDAY EVENING.

Collector Nicholls Now on the Warpath With the Roll for 1904.

Our town fathers met in regular monthly session on Tuesday, Mayor Sootheran and all members being present with the exception of Ald. Stager.

The minutes of the last regular and special meetings were read and confirmed.

Communications.

From Messrs. R. E. Buckner & Co., Chicago, quoting price of one-man roller.—Board of Works.

From Town Solicitor Hopkins, stating that Jos. Thornhill was acting illegally in excavating gravel close to the roadway and in failing to fence dangerous spots. If he persisted the Council should take out an injunction.—Left in the Solicitor's hands.

From E. D. Morris, Toronto, asking to be informed as to hitch in dealing with Lindsay gas franchise.....Mayor Sootheran—"I communicated with Mr. Morris by telephone and said we had been told about his suspension of operations in Collingwood. He informed me that one of the conditions of that bargain was that citizens should subscribe for $20,000 of stock in the undertaking, and he had until November 1905 to complete his contract there."—Police and Lighting committee.

From C. D. Dyke, local manager Bell Telephone Co., informing Council that no unused poles belonging to his Company had been left on the street.....Mayor Sootheran—"That's right, and I understand the L. H. & P. Co. poles have also been picked up."—Fyled.

From Thos. Killaby, Kent-st. east, claiming that an extension recently made by Mr. Thos. McConnell to his boathouse was on the street line and interfered with the view of the river. .....Mayor Sootheran—"I don't think Mr. Killaby is a ratepayer, and anyway, Mr. McConnell holds that he is on his own property and says he is willing to pay his share of the cost of the survey, as he thinks Mr. Killaby's dwelling is partly on the street."—Board of Works.

From Flavelles Limited, asking that a crossing be put in on King-st. opposite their poultry department for the accommodation of pluckers.—Fyled, the crossing having been constructed some days ago.

From Dr. Gillespie, respecting the raising of the roof of his office. Chief Nevison, the Fire Warden, maintained that the laying of shingles in mortar was a violation of the new fire by-law.....Ald. O'Rielly—"We violated the by-law in building the addition to the weigh-scale house." .....On motion Mr. Ed. Daly was heard concerning a somewhat similar request, and it was decided to instruct the Fire Warden to take no action in either case.

From Fred Brohm, respecting his poll tax.—Finance committee.

From J. A. McCamus, objecting to an interest charge on overdue taxes.—Referred to Finance committee in opposition to Ald. O'Rielly, who said everyone should be treated alike.

A number of accounts were read and dealt with in the usual way.

Clerk Knowlson reported that the collector's settlement in connection with the return of 1903 roll was in his hands.—Referred to the Auditor.

An Error in Judgment.

Ald. O'Rielly moved, seconded by Ald. McCrea, that the L. H. & P. Co. be notified that the new light ordered on King-st. is not located 200 feet west of King and St. Peter-sts., as ordered, and that same must be changed at once.

In connection with the above matter quite a deputation appeared, Capt. Fee and Mr. Kennedy being the spokesmen. The former said the light was 71 feet out of position, and thought it should go still further west. The discussion brought out that Mr. Staples had had something to do with the locating of the light on the strength of alleged telephone message from Aldermen McCrea, O'Rielly and Cinnamon.

Ald. O'Rielly at once fyled an indignant denial, and said that the L. H. & Power Co. had a way of throwing blame on others as a reason for neglecting to carry out instructions. He (Ald. O'Rielly) wished to tell them and others that he had not interfered in the matter in question.

Ald. McWatters—"If the Co. had put the light where directed there would not have been any trouble. I didn't give any order."

Ald. McCrea—"I'm certain I didn't."

Ald. O'Rielly—"Under the contract the Company must put in poles where needed, but to save themselves trouble they attached the light to a pole not in position. They did the same thing in the case of another light on St. Paul-st. and caused friction."

Ald. Cinnamon—"I think Mr. Walter Reesor has been jollying the alderman a bit. I had nothing to do with the placing of the lamp."

The resolution was adopted.

On a vote being taken the amendment was declared lost.

Ald. O'Rielly—"It's just a case of smashing the rules whenever it suits."

A Batch of By-laws.

On motion Council went into committee of the whole to deal with a couple of by-laws, Ald. Maunder in the chair. The first was an amendment of the Cabmen's by-law, reducing the maximum penalty from $50 to $20; the second authorized the Mayor to execute a contract for the construction of certain sewers; and the third appointed Mr. Nicholls, tax collector for 1904. The by-laws were given a third reading when the committee rose.

Sundry Matters.

Aldermen O'Rielly, and Robinson, that a three plank walk be built from the south end of Logie-st. to Mr. D. Hudson's new house.—Carried.

Aldermen Cinnamon and O'Rielly, that the action of Mayor Sootheran in insuring the steam roller for $2,500 at a premium of $41.25 for 12 months be approved.—Carried.

Aldermen O'Rielly and McWatters, that the Mayor be authorized to get a Guarantee Co. bond for $5000 on Collector Nicholls.—Carried.

Council then adjourned.

A COMMON CAUSE OF LOSS TO INEXPERIENCED BREEDERS

Methods of Prevention and Extermination of the Pests.

The presence of parasites is one of the primary causes of unprofitableness and disease in a flock of poultry man to examine his birds Ottawa. The fowls are rarely examined, and the reason of their poor condition is not discovered or even considered. There it will pay every poultry man to examine the birds carefully before they go into winter quarters, as their health and comfort during the next six months depend largely upon their freedom from vermin. There are three distinct groups of parasites preying upon the domestic fowl,—fleas, lice and mites.

Groups of Parasites.—Only one species of flea, the bird flea lives upon the fowl. This flea is provided with a sharp piercing mouth; it attacks the fowls at night and through causing constant irritation and loss of blood does much harm. The mouth of the louse differs from the mouth of the flea in that it is not sharp and used for piercing, but simply for biting. Lice bite sharply and cause considerable pain. The most injurious of the mites is the red fowl mite. This is yellowish-white to dark red in color, according to the quantity of blood it contains. The blood is drawn from the fowls at night, and during the day the might hides in the cracks and crevices of the house. When the chickens appear in poor health they should be examined at nights, and if mites are found, treatment should be resorted to.

Prevention and Extermination.—If the poultry house is old and contains cracks and crevices, all the nests, roosts and other fixtures should be removed from it, and the walls and ceiling covered with heavy building paper and limewash. The latter should be applied hot and fairly liquid so as to enter every crevice in the building. Its quality will be improved by adding to every gallon of the wash one-quarter pound of soft soap previously dissolved in boiling water, also a small quantity of salt. The material taken from the house should be burned, and new roosting quarters and inside fittings put in. These fittings should be simple in construction and easily removable so that the vermin can be destroyed.

Before the fowls return to the house they should be thoroughly dusted with insect powder or sulphur. By dusting each fowl over a box or paper, the powder can be well rubbed among the quills of the feathers, and the excess will not be wasted. The coal tar treatment for the destruction of the gape worm can be effectively used to rid fowls of vermin. The fowls are placed in a barrel, the inside of which is coated with a mixture of coal tar and coal oil of the consistency of paint, and top of the barrel is covered. The lice are overcome by the coal tar fumes and fall to the bottom of the barrel. A paper should be placed to catch the vermin when they fall, so they may be destroyed.

The poultry requires cleaning and limewashing twice a year. The roost should be removed and treated with coal tar or kerosene every week, and the nests frequently cleaned and new straw put in them.

It is necessary to regularly examine young chicks for head lice. If present, the lice will be found in the down or feathers on the chick's head. If not destroyed, they will so weaken the chick that it will die from loss of blood. The lice can be removed by smearing the chick's head with grease or sweet oil to which a few drops of carbolic acid have been added.

Scaly Leg.—This disease is quite prevalent in flocks of neglected poultry, and is due to a species of mite. The scales of the legs and feet become raised and separated, and a chalk-like excretion accumulates between and over them; rough lumpy crusts are formed, and under these the mites live and breed. The diseased legs and feet of the chickens should be well washed with a small, stiff brush, warm water and soap. The crusts should then be removed and a mixture of equal parts of sulphur and lard rubbed into the affected parts. After three or four days the legs of the chickens that were treated should be cleansed with soap and warm water.

Our Thanksgiving Sale

Means Economy For You.

And Economy means Independence. "The money that you save now means leisure in the future."

There is vastly more truth than fiction in these words. One of the best ways to economize is to buy the dry goods needs of the entire family at Ford's. It is true economy—wise economy, because you get the benefit of our syndicate buying and strictly cash selling, which means that the savings effected often makes your valuable dollar do double duty.

STYLE & ECONOMY.

Labor Man Wins.

London, Nov. 3.—(C. A. P.)—Thomas Richardson, labor candidate, defeated Sir John Alexander Cockburn, who stood as a tariff reformer, in the bye-election for West Monmouthshire, by a majority of 4,635 votes. The vacancy was caused by the death of Sir William Harcourt, whose majority in 1900 was 3,575. Though Sir John Cockburn had radical tendencies, his candidature was endorsed in a letter from Mr. Chamberlain. Sir John Cockburn was Premier and Chief Secretary of South Australia in 1889-90, and after holding various other offices, was appointed Agent-General for that colony in 1901.

Killed By Trolley Car.

Toronto, Nov. 4.—Struck by one car and thrown under the wheels of another, Mark Capel, a coachman in the employ of Mrs. Daniels of 55 Elm avenue, was run over at the corner of Bay and Front streets last night and almost instantly killed. Capel was struck by a Bathurst street car and fell in front of the Winchester street car. Before the latter could be brought to a stop the first wheel has passed diagonally across his body. Rotheroe, his companion, was carried on the fender of the Bathurst street car for a considerable distance, but beyond a cut over the eye and a bad shaking up he was unharmed.

Oom Paul's Funeral.

London, Nov. 4.—Mr. Botha yesterday issued the program to be observed at the funeral of Mr. Kruger.

The remains will lie in state at Cape Town for a week, and will then be conveyed by special train to Pretoria, the final interment taking place on December 16.

The Government has promised to facilitate the attendance of Afrikanders from all parts of the country by relaxing the stringency of the permit regulations.

In Pretoria the ceremony will be of a semi-military character, and funeral orations will be delivered by Mr. Botha and other Boer leaders.

Head Caught and Crushed.

Toronto, Nov. 8.—Death came suddenly and in a peculiar way to Thomas Cuff, an employe of the Frazee Cartage Co., yesterday afternoon.

He was on the seat of one of the large moving vans operated by the company which had been driven in to the wagon shed in rear of the storage house on College street. The driver alighted and went to the horses' heads to back the wagon under the shed. It did not go in as straight as was wanted, and he brought the horses forward again. As he did so, Cuff stood up for some reason and his head was caught and crushed between the hood over the driver's seat and the edge of the shed roof. When the horses were again backed, the body fell to the ground.

Dr. Ferguson was called, but death had been instantaneous. Coroner Elliott will open an inquest to-day. Cuff was about 50 years of age.

Caught By Steam.

Brantford, Nov. 8.—An Armenian, name unknown, was badly scalded at Waterous Engine works yesterday morning. He was working in a tank when the steam was accidentally turned on. Unable to escape the man beat frantically at the side of the tank, but those outside did not notice it for some time. As soon as it was noticed the steam was hurriedly turned off and the Armenian pulled out of the tank. He was badly scalded in the face, neck, hands and wrists, and all exposed parts.

Toronto Boxing Tournament.

Toronto, Nov. 5.—Twenty-two entries have already been made for the annual Fall city amateur boxing championships that will be decided here beginning Thanksgiving night. The outside candidates include a heavyweight from Alliston.

Provincial Elections in Quebec.

Quebec, Nov. 5.—At a meeting of the Provincial Cabinet yesterday morning it was decided to dissolve the Legislature, the day of nomination being fixed for Nov. 18, and the day of polling for Nov. 25.

Troops Charge Students.

Innsbruck, Austria, Nov. 5.—The rioting of the students at the university has become so serious during the night that troops with fixed bayonets marched into the midst of the German demonstrators. An artist named Pexey was killed by a bayonet thrust through the heart and many persons were wounded. Eight Germans and ten Italians were wounded. The building occupied by the Italian faculty of the university was wrecked.
