THE CHAMPION

MILTON, MAR. 10, 1892.

JAMES BEATY, Sr., ex-M.P. of Toronto, for many years publisher of the Leader, died on Saturday, having attained the great age of 94. He was born in Killisbandra, County Cavan, Ireland, came to Canada in 1818 and settled at Toronto, which at that time had a population of about five hundred.

THE annual report of the Provincial Inspector of Prisons says that 358 persons, of whom 308 were vagrants, were committed to Milton jail in 1891, against 327 in 1890 and 332 in 1889. The inspector found the books of the jail well kept, beds, bedding, &c., clean and tidy, discipline and management good, and the institution on the whole "a model prison in its every appointment and all its surroundings."

A number of municipal councils, including that of this county, have sent petitions to the Ontario Legislature, praying that bonuses and tax exemptions to manufactures be prohibited and it is likely that an Act to that effect will be passed during the present session. If the ratepayers of Milton wish to give the proposed bonus to Mr. Winn, the Hamilton shoe manufacturer, they had better lose no time about it.

THE Ottawa Government has appointed a commission to enquire into the effects of the liquor traffic in Canada, the results of laws which have been passed to regulate it, the probable results of the passage of a prohibitory law, and to collect other information on the subject of prohibition. The following gentlemen compose the commission: Sir Joseph Hickson, of Montreal, late manager of the G. T. R., ex-Mayor Clarke, of Toronto, Judge McDonald, of Brockville, Rev. Jos. McLeod, D. D., of Frederickton, N. B., Grand Lecturer of the Sons of Temperance, and G. A. Gigault, ex-M.P. for Rouville.

THE proposed petition against the return of Mr. D. Henderson as M.P. for Halton has not and will not be filed. Mr. Henderson's opponents have done wisely in giving up the idea of a protest, by which they could have gained little even though they succeeded in unseating him on account of the bungling in the advertising of the returning officer's proclamation for the late bye-election, and the county's escape from another election contest is a subject for congratulation. Halton will do very well with Mr. Henderson as her representative until the next general election and when that comes the Liberals of the county will not find themselves or their cause any the weaker on account of their present forbearance.

PROHIBITION is at discount at Ottawa. There was a meeting of the legislative committee of the Dominion Alliance last week in the lower room of the House of Commons, at which it was announced that all efforts to procure a leader for the prohibition party in the House of Commons to succeed Mr. Jamieson, ex-M. P., appointed to a judgeship in Wellington, had failed, that the position had been offered to Messrs. Dickey and Scriver and that both had declined it. The subject of submitting the usual prohibition resolution in the House was then discussed and it was decided not to submit one this year. During the discussion Mr. McMullen said that he had been ten years in Parliament, had voted for every "temperance" resolution submitted to the House during that period, but had gained nothing by it in his constituency, where there was one prohibitionist township in which the electors would not permit the issue of a single license. Yet at the last election they voted against him to the tune of a majority of 212, though his opponent was a prominent brewer and maltster.

ON Friday, in the Ontario Legislature, Mr. Meredith attacked the Government on the prohibition question, charged it with being responsible for the Scott Act failure, and with retaining the license law as a source of power and of revenue. He challenged the Government to prohibit the issue of licenses in Ontario if its leaders were sincere in their professions of sympathy with the so-called temperance movement. Mr. Mowat, in his reply, reminded the House that the leader of the opposition, though so zealous in behalf of the prohibition party, was not a prohibitionist and did not profess to be one. Mr. Meredith was tremendously anxious that the Reform party should adopt prohibition as a part of its platform because he thought it would be a good thing for his own party, and would give him a "better chance than during the past twenty years or than he is likely to have during the next twenty years." The Reform party did not claim to be a prohibition party; some of its supporters were prohibitionists and some were not. Though the Government had legislated for the promotion of temperance, and though desirous to promote it, the legislation had been adopted with some reluctance because it was more likely to weaken the party than to strengthen it. Hon. G. W. Ross remarked that the fact that Mr. Meredith had just spent a week in working for the election of a brewer, was not very good evidence of his sincerity on behalf of prohibition. There was little in the debate to encourage the prohibition party.

License Law an Improvement on Scott Act.

Globe.

The St. John, N.B., Telegraph notes the fact that the number of prisoners committed to the common gaols for drunkenness in Ontario has diminished from 4,797 in 1889 to 3,614 in 1891, a falling off of 1,183. The tendency of the times in many countries is toward higher license charges and fewer licenses, though in Ontario the number of licenses has increased, owing to the repeal of the Scott Act in many counties. The Telegraph says it is gratifying to find that under these seemingly unfavorable conditions the amount of drunkenness decreases, a result no doubt due to the rigid inspection and enforcement of the law under the Provincial system, with strong central control. "We do not know what are the intentions of the Provincial Government in this regard, but we do confidently hold that the Ontario license system is an improvement upon our own; that a similar system might be adopted here with advantage both to the Provincial revenues and to the well-being of the community.

HALTON WINS AGAIN.

At Osgoode Hall, Toronto, on Tuesday, before Hagarty, C. J. O., Osler and Maclennan, JJ. A., Meredith, J., County of Halton v. G. T. R. Co.—Judgment on appeal by the defendants from the judgment of the Common Pleas Division Court, affirming the judgment of Robinson, J., adjudging to the plaintiffs the sum of $65,000 and $5,881.61 interest, on a bond dated 9th March, 1874, conditioned for the repayment of the sum named, being the amount of a bonus granted by the plaintiff corporation to the Hamilton and North-western Railway Company, in case within the period of 21 years, the latter should cease to be an independent company, or in default of such repayment, for the payment of $100,000. In 1888 an agreement was entered into by the Hamilton & North-western Railway Company with the defendants, by which the two companies were amalgamated as one and by which the plaintiffs claimed the former lost its independence within the meaning of the bond. The defendants appealed from the judgment of the court below, on the grounds, among others, that no damage accrued to the plaintiffs by reason of the agreement, and that therefore only nominal damages at most should have been awarded, that that the $100,000 being by way of penalty could not be recovered, that the union of the two companies did not destroy the independence of the Hamilton and North-western Railway Co., and that the plaintiffs by certain dealings with the latter cempany had waived their right to object to the amalgamation complained of. The court unanimously affirmed the judgment of the courts below and agreed with the reasons given. Appeal dismissed with costs. S. H. Blake, Q.C., and Walter Cassels, Q.C., for the appellants. Robinson, Q. C., and Bain, Q. C., for the respondents.

MERCIERISM IS DEAD.

QUEBEC REJECTS THE BOODLERS.

QUEBEC, March 8.—The final result of to-day's polling in the Province of Quebec is an exact reversal of the Mercierite majority in the last Legislature, the relative strength being, Tories about 53, Liberals about 20, the result of course in a few seats being not yet certain. The result was completely unexpected by both parties. Each hoped to win by a small majority. As may easily be supposed the Mercierites are dumbfounded. Of all the ex-Ministers Mr. Mercier alone with Mr. Shehyn, are left standing. Robidoux, Boyer, Duhamel and Laugelier are badly beaten, as are also Turgeon, Desmarais, Dechene, Carrier and all the confessed Mercierites, almost to a man. The few Opposition members elected are straight Liberals, and an excellent nucleus of a reconstructed party. On the other hand all the De Boucherville Ministers have been elected, and their majority is so formidable that it will probably become a source of real weakness. The excitement to-night in the old Liberal stronghold of Quebec was intense. The weather was mild, the whole population was in the brilliantly lighted streets, conversing in groups, or assembled before the newspaper offices where the results were announced by means of magic lanterns. Before L'Electeur especially several thousand people were assembled. When at 5.50 it was known that the Centre had gone Conservative and that Mr. Shehyn's majority in the East did not exceed 300, Mr. Mercier's friends became discouraged and prepared for news of defeat. Mr. Mercier arrived in this city late in the afternoon and awaited the result at his residence on Debrobeouf street. The Tories are wild with joy. Their stump speakers are haranguing the crowd in every corner of the city. Torchlight processions are everywhere being organized. L'Electeur will to morrow explain the defeat by the old charge of a conspiracy organized in Ottawa for the ruin of the Mercier party in Quebec. Tory papers on the contrary consider their victory as the just expression of popular indignation against boodling. As a matter of fact both parties are intensely astonished and do not know what to think. In any case Mercierism is dead.

Campbellville Jottings.

Miss Chapman is visiting friends in Toronto at present.

It is our painful duty to announce this week the very sudden death of Mrs. John Moffatt, jr. Her husband went to Guelph on Saturday, leaving his wife in her usual health, and returned in the evening to find that she was ill; but they supposed it to be nothing serious and did not send for assistance. Mr. Moffatt was awakened Sunday morning about 3 o'clock by his daughter and on going to his wife's bedside found her unconscious and shortly afterwards she breathed her last.

The concert given by "C" Company band on the evening of 29th Feb'y was fairly well patronized by our citizens and they were well repaid by the excellent music of the band. Mr. Fax did not take so well as on his previous appearance in our village, no doubt owing to the fact that a number of his pieces were the same as before.

A very successful party took place at the residence of Mr. Chas. Allen, Kelso, on Friday evening last. A number of young folks in our village attended and report a very enjoyable party. The music was furnished by Mr. Dave Robinson.

Mr. C. J. Lewis is moving into his new residence this week.

Some of our residences are becoming quite popular, owing to the brilliant names which they carry, such as "The Pavilion," "The White House," "Chaftsbury Hall," "Rideau Hall," and so on.

Miss Anderson, who has been keeping house for W. J. Kidney during the past eight months, returned to her home in Paris last week, Mr. Kidney having secured a permanent housekeeper.

We are glad to see the genial face of Mr. Wm. Burns again, he having just recovered from a severe attack of typhoid fever.

Your correspondent overheard a conversation the other evening which he does not just understand the meaning of. It was as follows:—(Scene, Kidney's corner) First party: "Are you going to the club to-night?" Second party: "Don't know; what's on?" First party: "I think there is to be an eight-round go between two well known sports and that Hiram Walker is to be referee." Together: "Let's go."

NAT BURLEY.

Comparisons with other Provinces place Ontario in a most favorable light and show how much the public owe to Mr. Mowat's wise and statesmanlike Government. The Montreal Star gives the debts of the other Provinces, as follows: Quebec, $34,000,000; Nova Scotia, $1,552,500; New Brunswick, $2,159,749; Manitoba, $3,442,198; British Columbia, $1,772,871. Alongside with these debts it places Ontario with not only no debt but a substantial surplus of $5,285,000, and sighs because the other Provinces, Quebec especially, present such a miserable contrast to Ontario.—Hamilton Times.

THE GREAT NORTHWEST.

The steady settlement of lands in Montana and Washington, the substantial growth of their cities, and the constant increase of their railway mileage, have rendered these states a centre of interest for business men, capitalists and settlers. The best explanation of this growth is found in a study of the capabilities and resources of the states, which are fully set forth in the three folders entitled "Golden Montana," "Eastern Washington" and "Western Washington," just issued by the Northern Pacific Railroad.

As a route to the Northwest the Northern Pacific stands unrivalled. From St. Paul and Minneapolis its express trains reach principal points in Minnesota, North Dakota, Manitoba, Montana, Idaho, Oregon and Washington. It is the only line with through sleeping car service from Chicago to these states, and the only line running both Pullman tourist and free colonist sleeping cars west of St. Paul and Minneapolis. Passengers from the east should ask for through tickets via the Wisconsin Central Line and Northern Pacific Railroad, thus securing the advantage of through sleeping cars (Pullman first class or Pullman tourist) from Chicago, Ill.

A noteworthy feature of the Northern Pacific Route is the fact that holders of second class tickets to western points on this line are allowed the privilege of stopping over at Spokane, Wash., and all points west of there for the purpose of examining lands.

The dining cars on the Northern Pacific are an important part of its service, and in connection with the grand scenery make this a favorite line for tourists to California and other sections of the west.

District Passenger Agts. of the Northern Pacific Railroad will take pleasure in supplying the Montana and Washington folders above referred to; also, maps, time cards and any special information desired; or application can be made to Chas. S. Fee, G. P. & T. A., N. P. R. R., St. Paul, Minn. tf.

The success of the Progressives, or Liberals, in the London County Council elections last Saturday places them in a strong majority in the Council. Among the monopolies which they will now be able to sweep away will be the grant kept alive from the time of Charles II. which enables the Duke of Bedford to draw $125,000 from Convent Garden market, and a similar sum exacted by another great family from the Spitalfields market.

Sir Henry Bessemer recommends the issue of bank notes made of metal and says that forgery or fraud would in that case be impossible. He proposes that a thin plate of aluminum should be suitably stamped and engraved, about the size of a florin, and be used to serve the purpose of a one pound note, and Sir Henry is of opinion that by means of a newly invented process, the metallic bank note could be manufactured so as to defy the most ingenious forger.

On Sunday Eastbourne was once more the scene of a disorder arising out of the hostility towards the Salvation Army frequently shown there. During the day a mob fiercely attacked the Salvationists in the street, and the police, though making strong efforts to keep order, were overpowered. As the result of repeated scrimmages, many persons were injured, including a number of Salvation "lassies," several of whom fainted. One of these ladies was so badly hurt that it was necessary to remove her to the hospital.

On Saturday another extensive distribution of food to the destitute was made at Vienna, when 12,000 loaves of bread were distributed from four different stations, along with a quantity of meat, sausages and milk. It was touching to see the processions of applicants, in which there were hundreds of children from the age of three upwards, many clothed only so far as to have a handkerchief about the lions and another about the neck. With bony fingers they seized on the food and showed their gratitude in their eyes. After a weary wait in the snow 27 women fainted in the crowd.

The claim made by Canada, on the strength of Engineer Ogilvie's survey, that the boundary line of Alaska was located too far east, where it crosses the Yukon river, has been confirmed by the report of the surveyors sent out by the United States Government. The 141st meridian is the line between the two countries, and this crosses the Yukon nearly 40 miles west of where it has hitherto been supposed to cross. This gives Canada the very valuable Forty Mile Creek gold mines, where the President a few months ago appointed a postmaster.—Canadian-American.
