THIS PAPER may be found on file at Geo. P. Rowell & Co's Newspaper Advertising Bureau (10 Spruce St.), where advertising contracts may be made for it IN NEW YORK.

FLESHERTON:
THURSDAY, MAY 13, 1886.

THE JURY SYSTEM.

We last week closed our columns to any further discussion of this subject, on account of the personalities introduced. So long as correspondents discuss any question upon its merits, without introducing purely extraneous matter, the columns of THE ADVANCE are open and free to any person wishing to use them for discussion of all legitimate public questions. But just as soon as these discussions drift into personalities and billingsgate, it is high time to put on the "choker."

We this week received a letter from S. P. in reply to F. T. C., but as we closed our columns to any further controversy on this subject last week, we cannot publish S. P's letter, the purport of which is that F. T. C. "*was* at Owen Sound last Assizes from beginning to end, but your correspondent (F. T. C.) was not there one whole night before the Assizes at Owen Sound this spring were closed, and yet he saw such wonders there after night." Now, it does not appear to us that F. T. C. said he observed the things complained of during the late spring assizes at Owen Sound, or at the fall assizes held in the same place. Nor did it appear to us that F. T. C. was personal in his remarks, even admitting his motives to have been such as S. P. asserted them to be. Had there been anything personal in F. T. C's article on the Jury system we would have eliminated the same before publishing in our columns. But we saw absolutely nothing objectionable then, and have not altered our opinion in this respect since. The article was general in its character, and contained many palpable truths and advanced ideas concerning the jury system, As such we commented on the same editorially in our issue of the week before last.

We trust S. P. will take our remarks in the spirit intended, assuring him, that if we had seen anything personal in F. T. C's remarks, we would certainly have given him every opportunity for vindication. As it is, we cannot see that individual rights have in any sense been tampered with.

"INSINIWATIONS."

The Hanover *Post* wickedly insinuates, that the Durham *Chronicle* man, having secured a pass and gone to Ottawa last week, may return to South Grey with different views in regard to the proper representative to send to Ottawa at the next general elections. This time, however, the *Post* has really misinterpreted Mr. Jenkins' motives. He did not go to Ottawa office-seeking—although if he happens to have a nice "fat plum" thrust into his mouth, we think he'd be a bigger fool than we take him to be if he refused to take it.

A NEW INDUSTRY.

We welcome to Flesherton Mr. Geo. Hayes, who, a short time ago, took up his abode in this go-ahead place. Mr. Hayes is a pumpmaker with a most excellent reputation throughout the County and has come to establish himself in the pump business in Flesherton. Get your pumps repaired or made by Mr. Hayes.

"Young Climax's" Ancestors.

In reference to the "Warambie" horses, ancestors of Mr. Jas. T. Wilson's handsome young stallion, "Young Climax," we clip the following from a recent issue of the *Toronto Daily Mail*:—

SUBSCRIBER KEENE.—Are Warmanbie horses noted either for speed or endurance? A friend writes as follows:—"In Saturday's issue of *The Mail* (the 5th inst.) you say you knew nothing of 'Warmanbie horses.' I know the Warmanbie horse. He is owned near Lindsay, county Victoria. Was imported from England; is thoroughbred running stock. He took gold medal at Centennial exhibition, and Terror took silver medal at the same time, both in roadster class. Old Warmanbie is a beautiful bright bay in color, is very hollow-faced, and has lost an eye. His pedigree evidently assisted him in winning gold medal."

The Valentine breed are all trotters. They are also fine rangey horses, fit for carriage purposes or roadsters. The intelligent breeders of Grey are reminded that "*Young Climax*" sprang from that breed of horses, the Messenger, which were unequalled twenty or thirty years ago, as carriage, road, and farm horses. No further recommendation is necessary.

MARVELOUS.—One dose of Dr. Chase's Liver Cure will cure Sick Headache, Dizziness, and Sour Stomach. 1 to 2 bottles are warranted to cure Lives Complaint, Indigestion and Biliousness. Sold by W. Richardson.

To break up a cold or cough or its ill results there is no better remedy than Hagyard's Pectoral Balsam.

A SEVERE TRIAL.—Those who endure the torturing pangs of neuralgia, rheumatism, sciatica, lumbago, and similar painful complaints are severely tried, but there is a speedy relief in Hagyard's Yellow Oil as thousands who have used it joyfully testify. It banishes pain and lameness quickly.

ONE DOLLAR AGAINST FIVE HUNDRED.—Isaac Brown, of Bothwell Ont., was afflicted with chronic humor in the blood. He says one dollar bottle of Burdock Blood Bitters was worth more than $500.00 paid for other medicines. It is a reliable blood purifier.

A DOUBLE BENEFIT.—Harry Ricardo, of Toronto, certifies to the benefits received from the use of Hagyard's Yellow Oil as a cure for rheumatism and deafness, his affliction with these combined troubles being a severe one.

THE HECTIC FLUSH, pale hollow cheeks and precarious appetite, indicate worms. Freeman's Worm Powders will quickly and effectually remove them.

"Facts and Figures"

To the Editor of The Advance.

Regarding which ("Facts and figures") *Fair Play* represents the *Piper* somewhat, who being asked whether he could play, "Within a mile of Edinboro' Toon," replied, "Why maun I cud play within ten yards o' it!"

Fair Play is playing just so far from the truth. It is a pity to spoil his picture, but justice requires the truth, minus the silly assurance and impudence of such a *mismomer*.

The assessment of the proposed new Section, according to the Roll of 1886—the latest—is $29,000 and a small fraction, with no immediate prospects of increase.

The assessment of Section 5, as it now stands, for same year, is $156,520, but with a prospective increase to at least $160,000 average. The Station section assessment nas fallen off, it seems, $1,000 last year!

The expenditure of the Sections would be approximately—No 5, first teacher $500, second teacher $250, third $200, and say $75 for expenses; total $1025, less $180 Government and Municipal appropriations—the sum actually received last year—leaves the sum of $845 for general purposes. Then must be added $175 as interest, and $130 as sinking fund, upon the issue of $3,500 of Debentures, annually for 20 years—making the total to be raised $1150. To provide for this a rate of 7 mills in the dollar would be required.

The new section—call it the Station section—would upon the same mode be:—Teacher $250, expenses $50, making $300. Then must be added the cost for school site, furniture, and school house, say $1000, and *not a cent less*. Thus, interest at 5½ per cent., $55 annually and $45.50 sinking fund, making a total to be raised of $400.50, less say $20 as Government and Municipal appropriations; for the average attendance can not be out of the teens. To provide for this, a rate of 13 mills in the dollar, and a fraction is required. The difference obtained is striking and very much in favor of union, viz., 6 mills in the dollar, which of itself is more than the average school tax of the Township. By what process your correspondent obtained a difference of only 1¼ mills, is only known by his own arithmetic.

The difference is equally striking supposing school houses were expunged from the calculation. The one would have to pay 10 7-20 mills in the dollar, whilst the united section would pay only 5 3-10 mills, or less than one-half.

If only $3000 of Debentures be used, it would show a still greater contrast in favor of union. But take his own mode, to pay all in one year; then the cost of school house &c., would be $1280. This upon $29,000 assessment would require 44 7-50 mills, for the Station. Flesherton debentures $3500, school $845, total $4345, would require 27 8-50 mills, difference 16 49-50 mills, which the Station would pay more than the united section.

The more valuable advantages from a united school must be seen in the higher grade of education afforded for advanced scholars. The deprivation of the very young for a winter or two is not to be compared with the greater privileges for those of sufficient years to realize and benefit by the difference.

It is unfortunate that personalities have characterized the discussion, and in the warm contention the true features and advantages of union have been overlooked, or disregarded.

I repeat most emphatically, that a section of $29,000 assessment cannot support an efficient school, that is, upon the evidence of sections of this and other Townships. It is true, in passion men may dare and threaten, and sacrifice, and do what under calmer circumstances they would regret and repent of—what assuredly would happen in this case if disinterested men granted the opportunity.

In this communication the matter is squarely stated, and investigation is solicited. No man or men, or body of men, having these facts before them, would sanction so great a mistake as to divide the section.

DR. CHRISTOE.

Unfermented Wine.

BY MISS S. WILLMOTT.

The vine in Eastern lands was regarded as one of the choicest blessings that God had bestowed upon his people Its fruit, while most delicious to the taste, was exceedingly nutritious and conducive to health Therefore, in Scripture it frequently symbolized the richness and fulness of the gospel feast. It grew luxuriantly, and produced prodigious cluster of grapes, as reported by the messengers who were sent to spy out the land of Canaan.

Palestine was indeed a land of vineyards, and as the heritage of obedience, it is said, "They shall sit every man under his vine and under his fig-tree."

We not only gather from the Bible, but from other sources, that wine anciently was the mere pressed juice of the grape, free from fermentation.

The Egpytians drank no fermented wine—they believe it to be an invention of an evil genius—but partook freely of the pure juice of the grape. As was customary, the attendant, or cup-bearer, pressed the juice into the cup, and immediately bore it to his master; this is corroborated by the interesting narrative of the dream of Pharaoh's chief butler: "In my dream behold a vine was before me, and in the vine were three branches; and it was as though it budded, and her blossoms shot forth; and the clusters thereof brought forth grapes; and Pharaoh's cup was in my hand; and I took the grapes and pressed them into Pharaoh's cup, and I gave the the cup into Pharaoh's hand"

Notwithstanding, every Bible reader must observe, that various wines are spoken of, and as so much is said of the wine cup, it has been too generally accepted, especially at the present day, that all beverages bearing that name must necessarily be fermented, and therefore intoxicating, which was not the case; that such wines were made and used, all must admit, but to affirm they were sanctioned by God is at variance with the whole tenor of the inspired word. God's heaviest judgements are pronounced upon the drunkard. The wine which the Lord approved was found in the cluster, accordingly to his own declaration, "Thus saith the Lord, as the new wine is found in the cluster, and one saith, Destroyed it not, for a blessing is in it."

Christ forseeing that term "wine" would be misunderstood most carefully guarded the Cup that symbolized his shed blood from, that appelation. Neither he nor his apostles called it wine, but "the Cup." "the Cup of blessing," "the fruit of the vine."

At the close of the "Passover Supper," which Christ had just commemorated with his disciples for the last time, and when about to fulfil in his own body all it had prefigured, "He took the Cup (the passover cup, the pure juice of the grape, in accordance with the expresssed law of that institution which strictly excluded all leaven from the elements of the feast,) and when he had given thanks, he gave it to them, and they all drank of it; and he said unto them, This is my blood of the new testament which is shed for many. Verily I say unto you, I will drink no more of the fruit of the vine, until that day that I drink it new in the kingdom of God."

We think there is conclusive proof, in which the highest scientific authorities agree, that alcohol does not exist in the in the fruit of the vine, neither in its growth, nor in its decay, but it is the sole product of fermentation. By this chemical process the essential quality of the juice is destroyed, and converted into an intoxicant.

The art, of perverting this beneficent God-bestowed blessing into a curse, most assuredly emanated from "the Evil One," who employed man as his agent, to carry out his infamous devices. No language or pen can portray in the faintest degree the told and untold miseries that have followed in its course. Ruined homes, blighted hopes, crushed hearts, the destruction of the body, and banishment from God; for it is written, "No drunkard shall enter the kingdom of God." We wonder not this pervertion of God's bounty shall call forth his indigation, and fearful denunciations: "Woe to the crown of pride, to the drunkards of Ephraim; The crown of pride, the drunkards of Ephraim shall be trodden under feet." "Woe unto him that giveth his neighbor drink!" "Wine is a mocker." We are commanded not even to look upon it, when it giveth its color in the cup. For alas! "at the last it biteth like a serpent and stingeth like an adder!"

We wonder, with profound astonishment, that the church of the living God has been so long in recognizing the imperative duty of removing from the table of the Lord, that which we are strictly forbidden even to look upon. This is a vital question, all must admit. It therefore demands a most careful, earnest, and prayerful consideration. That sad consequences have resulted from the apathy of the church in this matter, many affirm. And shall they be repeated? Shall the commemoration of that most precious and sacred ordinance, instituted by Christ himself, and bequeathed as a legacy to perpetuate his dying love, be symbolized by an element that contains in itself the germ of moral ruin and death? O, that the church would awake to her responsibility, and throw around the weak her protecting arm.

Many there are who have deprecated the evil of temperance, and are striving to reform, and have therefore pledged themselves "to abstain from all intoxicants, except for medicinal and sacramental purposes." And here we pause a moment to ask, is it not high time this second reserve, if not the first, should be forever erased from the "Temperance Pledge?"

There are earnest ones, but weak, who in full confidence in the ordinances of the Lord's house, forgetting that through wine or strong drink they have lost their will-power to control their appetites, have approached the table of the Lord, thereby testifying, by partaking of the emblems of Christ's broken body and shed blood, their faith in the atonement made for sin, when, alas! the first sip from the deceptive cup inflames their desire for more, and they go on without power to resist, until their sun sets in endless night.

Dear sisters, members of the Women's Christian Temperance Union, and all who are in sympathy with this great Temperance Reform, let us each and all awake to the duty of the hour, and by voice and pen, give no rest, until the fatal desecration of the "Lord's Table" be swept away.

The Jury System.

From the Thornbury Standard.

The Flesherton ADVANCE has a splendid editorial on the Jury System in its issue of last week. We would like to see more of this kind of editorial in other papers, and cure the evil.

FEVER colic, unnatural appetite, fretfulness, weakness, and convulsions, are some of the effects of Worms in Children; destroy the worms with Dr. Low's Worm Syrup.

USE PROF. LOW'S SULPHUR SOAP for Prickly Heat, Nettle Rash, Scaley Eruption, Itch, and all diseased conditions of the skin.

MCGREGOR & PARKE'S CARBOLIC CERATE.—Have you and old Sore, Cut, Burn, Bruise, Corn, Bunion, Salt Rheum, Pimple, Blotches, Rough Hands or Face? If so, there is but one cure, namely, McGregor & Parke's Carboli Cerate. If you but try it, it will convince you. It costs but 25c. at the Drug Store.

ADVICE TO MOTHERS.—Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth? If so send at once and get a bottle of "Mrs. Winslow's Soothing Syrup' for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers; there is no mistake about it. It cures Dysentery and Diarrhœa, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP," and take no other kind.

MCGREGOR'S SPEEDY CURE.—When we say McGregor's Speedy Cure is the only perfect cure for Dyspepsia, Liver Complaints, Indigestion, and Impure Blood, we are telling plain facts, of which hundreds upon hundreds can testify who have been restored to perfect health by its use. We would therefore advise you strongly if you are a subject of any of the above troubles to give McGregor's Speedy Cure a trial and be convinced. It is sold in 50c. and $1.00 bottles at the Drug Store.

MINERAL POISON.—Nothing but pure extracts from plants and roots are used in preparing McGregor's Lung Compound, the modern and now popular remedy for Colds, Coughs, Bronchitis, Croup, Asthma, and all affections of the throat, lungs and chest. All mineral poisons and dangerous substances are avoided, which renders it safe for children or adults. Sold at 50c. at $1.00 per bottle at the Drug Store.

A PLEASANT DUTY.—"I fell it my duty to say," writes John Borton, of Desert P. Q., "that Burdock Blood Bitters cured my wife of liver complaint, from which she had been a chronic sufferer. Her distressing, painful symptoms soon gave way, and I can highly recommend the medicine to all suffering as she did."

NATIONAL PILLS are sugar coated, mild but thorough, and are the best Stomach and Liver Pill in use.

LADIES ONLY.—The complexion is often renbered unsightly by Pimples, Liver Spots, and Yellowness. These it is well known are caused from an inactive Liver and bad blood. Dr. Chase's Liver Cure purifies the blood and whole system. See Recipe Book for toilet recipes, hints and suggestions on how to preserve the complexion. Sold by W. Richardson.

A MODERN MIRACLE.—In a recent letter from R. W. Dowson, of Deloraine, Ont., he states that he has recovered from the worst form of dyspepsia, after suffering for fifteen years; and when a council of doctors pronounced him incurable he tried Burdock Blood Bitters, six bottles of which restored his health.

NEW ADVERTISEMENTS.

DEPARTMENTAL EXAMINATIONS.

—FOR—

Second and Third-Class Non-Professional Certificates.

NOTICE is hereby given to intending candidates for Second and Third-class non-professional certificates that their applications must be sent in to me filled and accompanied by the examination fee—two dollars. if writing for third-class only; four dollars, if writing for second and third-class—
