How many young men and young women are out off just as the future seems brightest and fullest of promise! They are taken away by the disease which causes over one-sixth of all the deaths in the world—the disease which doctors call consumption. There is absolutely no reason in the world why consumption should be fatal—why it should be even serious. It is a disease of the blood, and can be cured absolutely and always by purifying and enriching the blood. The only exception to this is the case where the disease has been neglected and improperly treated until it is stronger than the body—until the body has become so weak as to have lost the ability to recuperate. Dr. Pierce's Golden Medical Discovery will cure 98 per cent of all cases of consumption if used according to directions. It also cures all lingering coughs, bronchial and throat affections.

Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page Common Sense Medical Adviser, illustrated.

Special Advice to Ladies Who Contemplate Coloring Cotton Goods

If a merchant or any one else tells you that package dyes prepared for all wool goods will color cotton goods equally well, do not believe him. A person making such an assertion knows little about dyes and dyeing work.

Vegetable fibres require special dyes. Such dyes are not made by the makers of imitation and common package dyes. Special dyes for vegetable fibres, such as cotton and mixed goods, are made only by the proprietors of Diamond Dyes, and every color is simply perfection.

These special Diamond Dye cotton colors are great chemical discoveries, and confined entirely to the Diamond Dyes. The colors are sixteen in number, are immensely popular with carpet, rug and mat makers everywhere. Cotton goods dyed with these Diamond Dye Cotton colors never fade in sun or washing.

If you are about to dye cotton goods, or desire to color rags for carpets and mats, be sure and ask your merchant for Fast Diamond Dyes for Cotton and Mixed Goods. He should keep the full variety—sixteen useful colors.
