N. G. Council News

Some 30 ratepayers turned out for the semi-monthly North Gwillimbury Township Council meeting in the Municipal Chambers at Belhaven, Monday evening, July 15.

It was a light session consisting mostly of progress reports as a result of previous resolutions. Reports indicated that council is moving on many fronts to bring improvements to the township.

A resident of Springwood Rd., Mr. Curson, in the Filey Beach area, wanted a road closed or shut off to speeding traffic. He stated that speeding cars are raising much dust. Although this is a private road council asked the road committee to see what can be done.

Miller Boat Livery made application for the erection of a breakwall in front of their property. The application for this water lot had been sent to the Department of Land and Forests and only needed council's approval, this was granted.

The chairman of the sanitation committee has made arrangements for garbage collection along the beaches. This is a yearly problem that causes council some concern. The committee will arrange for suitable garbage containers to be placed at strategic locations.

A letter was received from Pine Beach Ratepayers Association asking council to provide the association with all resolutions pertaining to the Clark water system now being installed. The association was in favor of the system but was not too clear on the general details.

The spokesman for the association was prepared to assist the Clark Construction Co. providing that the work was carried out according to the bylaws and restrictions. Reeve Joseph O. Dales assured the delegation that their rights and the rights of council would be safeguarded.

Norman Summers, a local contractor, outlined a plan to set up a cottage protection scheme. The plan will provide protection the year round and include supervisory services to keep the owners informed as to snow conditions and other protective measures.

Reeve Dales said, "We are not opposed to private enterprise and if Mr. Summers can carry out his plans he has council's blessing."

According to a bylaw, already on the books, restricted areas can prevent huts, cabins, trailer camps, etc., from locating in their area. Council decided it was alright to have a trailer on their own property for temporary use.

Main St., in Keswick, has taken on a new look. Sewers have been installed, curbs set up and the road widened. Police Chief Pollock asked that parallel parking only be permitted. The entrance to the parking lot will be from Main St. and the cars will not be permitted to leave the lot directly onto the street. Previously angle parking caused considerable inconvenience to through traffic by backing out into the traffic stream.

Jersey Business Men sent a delegation to council to ask for more action in the establishment of more public parking space at the beaches. "Council has done considerable work on this problem," stated Reeve Dales. "I would like to see every road leading to the bay and lake be provided with ample parking space to provide suitable accommodation for our visitors."

Securing of ample park space on some of these water front lots was also a matter of concern to the council and it is hoped that in the near future something progressive can be done. Council thanked the Jersey men for bringing these matters to the attention of council.

Residents of Shore Crest area again waited on council to further the matter of parking along the Lake Shore Road in their district. The final outcome is that council will erect a guard rail at the foot of the road and consider the passing of a bylaw to prohibit parking on the road allowance. It was also felt that some effort to improve the beach at this point should be made and it is possible that the improvements can be considered in the budget for next year.

Clerk Winch was instructed to prepare a parking restriction bylaw for Lake Shore Rd. and Shore Crest Rd. in accordance with a specific recommendation by the police committee and that the necessary department approval be sought.

As a result of study the police committee plans to rescind the bylaw for wrecking yards. Wrecked cars must be out of view of the travelling public and the bylaw stated that a 10 foot fence be erected around the lot. It is felt that a fence in front of the lot would do the job if the yard is not on a corner lot.

On recommendation of Police Chief Alvin Pollock, Constable William Black was promoted to first class constable, effective July 1.

The fire hall in Keswick will be getting a new coat of paint on the walls and ceiling. The tender of Houston's Painting Service was accepted at a price of $160.

Council adjourned at 10.30 to meet again at 1 p.m. August 6. It was pointed out that delegations wishing to appear before council must arrange an appointment through Township Clerk Winch.

... GWILLIMBURY

Dutch Tea

The gardens of Mrs. William Goodall, Elmhurst Rd., Elmhurst Beach, Keswick, will be the scene of a Dutch tea party, Tuesday, July 23, from 2 to 5 p.m. Proceeds from the event will be used in support of the Scout and Cub Movement in North Gwillimbury Township.

Children's Outing

Some 20 children from the Ontario Crippled Children's Hospital, Toronto, will be the guests of Keswick Optimist and Opti-Mrs. clubs, Sunday, July 21, for an outing at the Harold King Farm, Keswick. The farm will be closed to the public on this day.

A full program has been planned for the children with boat rides on the lake, fishing in the farm private pond already stocked by officials of the Department of Game and Fisheries, a magician will entertain the youngsters with sleight of hand wizardry and a wandering troubadour will sing their favorite songs. Buffet lunch will round out the day for the children before returning to Toronto.
