This & That.

News, What the People Say, and What the Newspapers Say.

Eugenia.

From our own Correspondent.

[The foregoing should have appeared in our last week's issue.—ED.]

Christmas times has come again, bringing their usual quota of visitors. What a "spicy" time to get married! as several of our young friends have proven; and of course the citizens in general wish them all many years of happiness, and oceans of connubial felicity.

New Years Day—the time for tea meetings, sports, visiting, feasting—came and went. The shooting match was the main feature in the sports line here. Lots of crack shots on hand. Some fair work done, but cold was a little too keen for good work. Several of the Flesherton boys were out, and a lot of jolly, good-hearted fellows they were. Mr. Dick Heron of Maxwell, we believe, made the best single rifle shots of the day. But we fail to understand how it can be a "happy New Year" to those who imbibe FIRE WATER. It seems the stuff fires the brain, fires the blood, fires the tongue, fires the fist, irritates the bump of Combativeness, angers Destructiveness, bursts Force into Goativeness, and ends in complete pugilism—as usual with sore heads, black eyes, bloody nose, loss of teeth, &c. Surely its a Happy New Year with a vengeance!

On the 2nd inst., Mr. John Linton had a narrow escape from drowning. On going to the mill pond for a drink, he accidentally slipped off a board platform on to the ice with one foot. The ice being thin just at that point gave way, precipitating him into the water. Fortunately a block of ice supported his arm and thus prevented him from going under. However he reached the platform in safety, but do not know whether he forgot to take a drink or not.

Jan. 2nd.—A terrible snow-storm struck this place to-day. Jan. 3rd—Still raging. Thermometer at zero. Jan. 4th.—Blizzard still on hand. Surely it must be Wiggins' big storm?

Business suspended.

ONE-HALF A MILLION DOLLARS FOR POSTAGE.

George Stinson & Co., the celebrated Art Publishers, of Portland, Maine, undoubtedly pay more money for postage stamps than any other firm in the world; for the last five years their postage bill has averaged over two thousand dollars per week, making a grand aggregate of over five hundred and twenty thousand dollars; this is about three-hundredth part of all postage of every description collected by the United States government during that time, and in this connection it must be borne in mind that the country now has over fifty million souls, and 50,000 post-offices. But the enormous sum paid for postage represents only the cost of sending the light packages, letters and circulars, for large, heavy packages are sent by express and freight. Messrs. Stinson & Co. publish every description of pictures of the better class, and their trade now extends over the entire world. As an illustration of the fact that their trade reaches the furthermost parts of the earth, the following may be interesting: A short time since an order for an assortment of over three thousand large and expensive pictures was received from Tasmania, away down under the South Pole. Not many years ago Tasmania was penal colony of England, and its population was entirely of convicts and their keepers. Since the removal of the convicts, it has become a thrifty colony; this place is so remote, that three months are required for answer to a letter. Tons of pictures are sent to South America by Messrs. Stinson & Co., and West Africa sends to Portland for works of art; they have trade in every quarter of the globe where civilization has gained a foothold, commencing at the bottom, they have worked their way up to the top, step by step, and thereby, added to the greatest push and enterprise, they have that solid, practical experience that is always necessary to the best results, in all things. They carry in stock millions of pictures, and are at a moments notice ready to fill a five cent order, or one for thousands of dollars; they employ some five hundred artists, clerks, and workmen; their machinery and appointments are on a magnificent scale, and a trade of ten thousand dollars a day, on an average, is required to keep them moving in full blast. Their assortment of steel plates is especially fine, and ranks very high in artistic merit; many thousands of dollars are often spent on a single plate. They appreciate the value of printer's ink, and know how to use it to the best advantage; therefore they advertise largely and liberally in the newspapers—newspaper advertising was an important factor in laying the sound foundations of their great success, and without it, they state that it would have been utterly impossible for them to have reached their present position.

Stinson & Co. are a striking illustration of what can be accomplished by energy, industry, and good judgment. There is "room at the top"—all honor to those who fight their way up; This firm believes in standard goods and low prices, and on that principle their business is conducted. American homes should be made beautiful by refined and meritorious works of art; no one has any excuse for not adding to their homes the charms of pictures, for fine works of high art are within the reach of all.

Ayer's Hair Vigor improves the beauty of the hair and promotes its growth. It imparts an attractive appearance, a delightful and lasting perfume. While it stimulates the roots, cleanses the scalp, and adds elegance to luxuriance, its effects are enduring and thus it proves itself to be the best and cheapest article for toilet use.

SCROFULA

and all scrofulous diseases, Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me.

Yours respectfully, MRS. ANN O'BRIAN."
148 Sullivan St., New York, June 24, 1882.

☞All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. P. Wilds of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known *writer on the Boston Herald*, B. W. BALL, of *Rochester, N.H.*, writes, June 7, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a *complete cure*. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures **Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility,** and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.
