LOCAL MISCELLANY.

ROUND TOWN.

CONUNDRUM. A local conundrum—"going the rounds." Why is Sir John like the Canada? Because it covers a multitude of sins.

ADVERTISE is directed to the advertisement of Mr. D. G. Oliver, who offers great inducements at his store where he has a large stock of goods.

EXCURSION RETURNS. Mr. James Hamilton has built a large addition in the rear of his show rooms, which makes his premises the most commodious and complete of any like establishment in this section of the Province.

COMPLAINT. There is very keen competition in the Lindsay grain market now. Mr. E. Veitch, representing the Gibbs Bros., and Mr. Currie, of Port Perry, together with our popular local buyers, who are "second to none" are on the market.

NEW STATION. The new station at the Junction of the Victoria and Midland railways is completed. It is a neat wooden structure, 31 x 24, with agent's office and freight room. Mr. John Nicholls, formerly stationed at Fenelon Falls, is the agent.

SELL A FAVORITE RESORT. The Sturgeon Point Hotel still offers attractions for our citizens and those of neighboring towns. The fine weather of the past week induced many persons to give friend Dunham a call and more regretted the action. A popular man makes a house popular.

CHEESE FACTORY. A canvassing party consisting of Dr. Deloresé, Dr. Cutler, Dr. Rutledge of Toronto, Mr. Smith, P. Smith, J. Maclagan and several ladies returned on Wednesday from a two days' expedition to Rall Lake and Victoria. The members of the party brought home as trophies four trout. An exceedingly pleasant time was spent by all.

SIMPSON'S PATENT FURNACE. Fire proofing and ventilating arrangements in the Court House referred to in complimentary terms by the Grand Jury at their presentment at the fall assizes are now fully Mr. Geo. Stephenson, of Stephenson & Thompson, Mr. Stephenson's partner is highly pleased at the success of the invention.

A. E. REEKIE.

Dr. Ridgeland of Toronto, Mr. Smith, P. Smith, J. Maclagan and several ladies returned on Wednesday from a two days' expedition to Rall Lake and Victoria. The members of the party brought home as trophies four trout. An exceedingly pleasant time was spent by all.

SIMPSON'S PATENT FURNACE. Fire proofing and ventilating arrangements in the Court House referred to in complimentary terms by the Grand Jury at their presentment at the fall assizes are now fully Mr. Geo. Stephenson, of Stephenson & Thompson, Mr. Stephenson's partner is highly pleased at the success of the invention.

LOCAL MISCELLANY.

Busy Times are raging to the north of Cambray.

FRUIT SOCIAL. A fruit social will be held in the M. E. church, Peel-st., on Monday evening, Oct. 1st., commencing at 7.30. There will be singing, recitations, readings, etc.

NEW CROSSING. The street and bridge committee have acted wisely and in the interest of the town in replacing the crossing on William-st., north side of Kent, by one much wider and more substantial. Such improvements are consistent with economy.

HOTEL ACCOMMODATION DURING THE EXHIBITION. Mr. E. Benson, of the Benson House, has made extensive arrangements for the accommodation of a large number of visitors during the days of the Central Exhibition. Guests will find the same good fare and attendance that characterizes this house at all seasons.

APPLE TREES IN BLOSSOM. Mr. D. McGinnis, of lot 1, in the 11th con. of Emily, informs us that in his orchard are an ordinary sized apple-tree and a crab-tree in full blossom. One blossomed Sunday week, the other some time since. They evidently thought from the warm weather that summer was coming again.

BANK OF MONTREAL. This institution has decided to open an agency in Winnipeg, and has placed the management in the hands of Mr. C. Sweeney, the popular manager of the Lindsay branch. Mr. Sweeney has been here but a short time but has made many friends who will regret his departure. His place here will be taken by Mr. Porteous, from the head office.

BAZAAR. The ladies of St. Paul's congregation have for some time been preparing for a bazaar and sale of useful articles and have rented the store in Keenan's block lately occupied by Mrs. Sheridan, instead of Baker's block, as first announced. The sale will take place next week Oct. 2nd, 3rd, 4th and 5th. Meals and refreshments will be provided for the occasion and served by Mr. Sterling, in his restaurant, opposite.

RAILWAY ARRANGEMENTS FOR THE CENTRAL EXHIBITION. We would call the attention of our readers to the additional facilities for attending the Central Exhibition on Tuesday, Wednesday and Thursday in the way of extra trains which the Secretary has induced the Companies to run for the accommodation of exhibitors and visitors. Parties leaving Orillia at 6.30 a.m., Fenelon Falls at 7.00 Coboconk at 5.30 arrive at Lindsay at 7.55 and leaving Lindsay at 6 p.m. can arrive at Orillia at 8.40, Fenelon Falls at 8.30 or Coboconk at 9 p.m.

A BRAN STORY. The *Warder* vouches for the genuineness of the following been story and properly asks who can beat it. Mr. J. A. McWilliams who resides on lot 12, 7th con. Eldon, planted some beans last spring which were badly frozen after raising above the ground, and could appearance commenced to decay. They rallied, however, and have an excellent crop, and again the stocks dried up, but strange to say, the stocks are now quite fresh and are heavily laden with ripe beans, green beans and blossoms.

THE REASON WHY. A matter that has received a great deal of attention of late, remarks the Montreal *Gazette*, summarizing from the London *Globe*, is the question whether or not our exports of cattle to Great Britain do not cost more than the value of the same number of ordinary citizens.

FALL SHOW. The Emily Fall Show will be held in the drill shed, Omemee, Monday and Tuesday, 8th and 9th Oct.

GOOD TIMES. Our hard times seem to have touched bottom and things are rising. Everybody is hopeful—everybody is ready. Every improvement now that the grain is coming in so briskly and prices so fair.

FAREWELL. The many friends of Mr. Robt. Corbett entertained him at Clark's Monday evening. The supper was excellent. About thirty couple were present; dancing was kept up till "early morn." The young gentleman left for New York Tuesday.

HARTLEY.

[Correspondence of The Post.]

FESTIVAL AND LECTURE.—According to announcement the peach festival and lecture came off and was a grand success, except the size of the audience, which may be accounted for, first, too many of that class Paul describes in Phil, iii, 19; and secondly, the moonlight excursion got up to forestall us, forgetting the principles of the golden rule. Dr. Jeffers is able lecturer and treated his subject in a way perfectly original. It was a treat the like of which Hartley was never favoured with before and may never be again.

BELLEVILLE.

NARROW ESCAPE.—Mr. Jas. Brown M. P. for West Hastings, had a narrow escape from drowning on the 11th inst. It appears that some one had accidentally left the trap door of the cistern in his dwelling open, and on passing through the room, which was somewhat dark, he stepped into the hole and went to the bottom. The water was about eight feet in depth and as he not been a good swimmer he must have been drowned. His shouts were fortunately heard by some parties outside, who came to his rescue, and succeeded in extricating him from his unpleasant and dangerous position.—[Intelligencer.

DERRYVILLE.

[Correspondence of The Post.]

ANNIVERSARY.—Our Sunday school anniversary came off on Monday. The ladies spared no pains to make it a success. The children and congregation assembled first in the Methodist church for the intellectual feast. The pastor, Rev. Geo. Washington, M. A., called the meeting to order, and then called on the Gilead choir for a piece of music, after which Rev. A. C. Wilson, of Woodville, lead in prayer. The programme consisted of recitations by the school and addresses by Revs. Battle, Washington and Wilson, the choir singing between the speeches. The tea was served in the Orange hall. It was first class and all passed off admirably.

WOODVILLE.

PAINFUL ACCIDENT. A bad accident occurred at the Nipissing station here, on Monday last, by which Master Wm. Gilchrist, son of Mr. J. C. Gilchrist, postmaster, slipped from the top of a box car and dislocated his right shoulder. Happily the car was not in motion, or the consequences might have been fatal. Dr. McKay sprung the joint, and we are happy to say the patient is now doing well.

FOR THE CENTRAL EXHIBITION. Wendt Bros., of our village, are making and have in a fair way of completion, three very handsome and well built sideboards, together with an elaborate bedroom set, that one would hardly credit to a village like Woodville. They are to be exhibited at the Lindsay Exhibition, and will no doubt carry off high honors if not first prize.—Advocate.

CAMERON.

[Correspondence of The Post.]

FIRES.—Bush fires are raging all around us and on account of the very dry weather are doing much damage. On Tuesday last Mr. S. Campbell's barn with all its contents was burned by sparks from the burning bush. Our little village is also in great danger from a fire which is raging in a swamp about two miles south of us, and if rain does not soon come it is hard to foretell the consequences.

YOUNG BRITONS. A lodge of Young Britons is about to be organized here. They start with a membership of over twenty, and the promise of a good many more after they get started.

THAT PICNIC. The Post gives the number of people who attended the Tory circus at 1,500 and the *Warder* at 9,000. Intelligent Conservatives from Cameron who were present place the number at 2,000. This corroborates THE POST's statement.

BOBCAYGEON.

MAKING LIME. Bobcaygeon lime is attaining to a very considerable demand, and Mr. Boyd is now building two large perpetual draw kilns, each of which will manufacture 300 bushels of lime per day. It is probable that a large trade will be opened up for this article, put up in barrels. All Mr. Boyd's intention is to build four kilns, two on the river and two on Big Island. The manufacture will find employment for a large number of men, and will give an important item of business to the steamboats and railways in the district.

FISHY, BUT TRUE. A rather curious discovery has been made near Mr. Geo. Britten's farm, south Verulam. There is a small pond situated only a short distance from the creek which runs into Sturgeon lake at Dunn's Mills. This pond was recently discovered to be full of fish. The person who made the discovery caught four dozen fine fish in a very short time. The pond, no doubt, has been dried some time when the creek was low during the spring freshet, and fish running up the stream got into the pond and were left there before they were aware of how matters stood. Such cases are not rare, but it is rarely that this sort of thing happens, and the fish thus locked in have lived, spawned, and been happy. Undiscovered.

DROWNED. A man named William Morgan was drowned in 12-mile Lake here last Monday night. He was going home accompanied by a man named Tissow and his wife in a punt. He was sitting in the stern and fell overboard, and did not rise again.

LINDSAY.

COUNCIL PROCEEDINGS. The Council of Fenelon township met at Cambray, on Sept. 28th, pursuant to a call from the Reeve. Present, the Reeve, and Mess. Coats, Smithson, Isaac and Willock. The Reeve read Mr. Moffat's resignation as treasurer, and a petition from Taylor Parkin and others requesting a grant to be given on the 5th con. Minutes of last meeting read and approved. Mr. Coats moved, seconded by Mr. Isaac, that the following sums be apportioned and paid to the trustees of school sections for school purposes out of the County Treasury, fund, viz.: S. S. Nos. 1, 2, 4, 5, 6, 7, 8, and 9, $30 each; and that $10 be paid trustees of S.S. No. 10, providing the corporation of Eldon grant S$ to said section; and that $20 be paid to School Board, Fenelon Falls, providing Fenelon Township gives a like amount. Carried. Mr. Smithson moved, seconded by Mr. Coats, that a grant of $25 be made to repair the roads (Janes'rd by Geo. etc., in the following places, viz.: On the 5th con. south of lot 17, $30, grading, etc., Taylor Parkins, commissioner; on the 3rd con., north of lot 23, $10, Thomas Smithson, commissioner; on the 6th con., south of lot 20, $25, Jos. Metcoe, commissioner; on the 5th con., south of lot 12, $15, Joshua Anderson, commissioner; on quarter line between Lots 20 and 21, west of 6th con., $20, Geo. Sundays, commissioner; on quarter line east of Cambray, $15, A. H. Coats, commissioner; on Lindsay road, south of Sturgeon lake, $20, Geo. Willock, commissioner; on new road, that Jas. Bryson put in order for $5 including commission to Jas. Walker. Carried. Mr. Coats moved, seconded by Mr. Smithson, that H. J. Lytle be appointed treasurer of this township at a salary at the rate of $50 per annum in place of Mr. R. Moffat, resigned, on his furnishing security satisfactory to the Reeve, and that a by-law be introduced for that purpose. By-law passed in the usual way. Moved by Mr. Coats, seconded by Mr. Willock, that the Reeve be authorized to transfer the cemetery property held by this township to Fenelon Falls corporation on their paying the expenses of transferring said property, and that the amount now held, or in the hands of the commutation treasurer, be paid as the Reeve shall direct, and that the passing of this motion as refers to the transfer of said property be referred to Fenelon Falls Council. Carried. Moved by Mr. Coats, seconded by Mr. Isaac, that Samuel Nickell get an order for $19 as a charity; also that $19 be granted for Mrs. Pringle to be expended by Mr. Newcombe. Carried. Moved by Mr. Coats, seconded by Mr. Smithson, that Mr. Hand's bill for blank collector's receipts be passed, amounting to $8; also Mr. Dickson's bill for surveying on the 5th con. line, $12; also Mr. Flood, advertising Court of Revision, $3; Mr. Thompson, Ont. Statutes and order book, $1.75; also that the reeve and assessor receive $1 each, and the clerk $1.50, for collecting taxes for 1877; also the reeve be allowed $5 for equalizing union school sections and $1 commission on road grants; also that Robert Irwin get an order for $11 for repairing 5th con. and McGregor's bridge; Mr. Smithson, $1.20 commission fees; also that the trustees school section No. 2 get an order for $8.63, and the trustees of school section No. 7 for $4.30 school taxes levied and collected in 1875 and 1876; also that W. Fielding receive an order for $2 for work done on the east boundary.- Carried. Moved by Mr. Smithson, seconded by Mr. Willock, that the reeve be instructed to procure a fire and burglar-proof safe for the use of the township, and that he dispose of the old safe to the best advantage as soon as convenient. Carried. Moved by Mr. Coats, seconded by Mr. Willock, that Mr. Moffat get an order for $12, being a balance of salary, etc., including all claims against the corporation. Carried. Moved by Mr. Coats, seconded by Mr. Smithson, that the reports of the auditors be accepted and that they get an order for $5 each for their services. Carried. The council then adjourned, subject to a call from the reeve.—H. J. LYTLE, tp. clerk.

NOTE.—Some complaint is rather childishly made by the Fenelon *Gazette* about the council proceedings not being sent to that paper but the *Warder* and THE POST. The minutes can be copied from either of these papers by the *Gazette* for the same week. We have received the minutes from the present clerk with satisfactory promptitude and in that respect he is doing what is right.—[ED. POST.]

MANVERS.

MANVERS FAIR.—The fall show of the township of Manvers Agricultural Society will be held on the new grounds, Bethany, on Tuesday and Wednesday, 16th and 17th October.

PETERBOROUGH.

SUNK.—The Whistle Wing ran against a sunken pier in Little Lake Monday morning, stove a big hole in her side, and sank in twelve feet of water in a short time. Some of the crew were compelled to swim ashore. No lives lost.

"MURPHYISM."—The strength of the "Murphy wave" has affected the head lines of *The Peterboro* Ex-am-in-er-r-r which seems to be asseverating that "Issall right, ole fellar; I'm s'sound's doll-in-r-r."

MILLBROOK.

[Correspondence of The Post.]

THE LONDON CIRCUS showed here on Saturday and drew a considerable crowd out of whom the tavern keepers got the lion's share.

GRAIN is moving very slowly. Farmers are holding back for higher prices.

EXCURSION.—A goodly number of our citizens availed themselves of the cheap excursion to Midland City.

THE POTATO BEETLE is on the move and a noteworthy feature of it is that they are all heading in northerly direction. There is trouble in the family, the specimens this fall are not nearly so large or strong as their progenitors.

BUILDING NOTES.—Major Howden's residence is rapidly approaching completion and will be one of the neatest in town. McSowthen has let the contract for clearing out the block recently burnt and his saw mill is now engaged getting out the lumber for a similar erection next spring on the same foundations.

OUR PICNIC is to be a tame affair after all, and coincident with the Central Fair at Lindsay won't improve it much.

OMEMEE.

[Correspondence of The Post.]

RECOVERED.—Mr. Thomas McCann is out and at work again.

SERIOUSLY ILL.—Mr. Costello, township collector, is ill—we regret to learn seriously so.

"TEN DAYS."—A couple of tramps were led to the lock-up Tuesday evening for misbehaviour. They were up before the Reeve, Capt. Cottingham and Mr. Morrison and were sent up for 10 days.

THE BOWMAN HOUSE is being repainted.

THE GRAIN MARKET is lively, the highest prices being paid at the McCauley and Peplow grain houses.

ANOTHER CAMPING PARTY under the direction of Mr. J. A. Clark started for the lake Monday morning, to be away a week.

BULLETIN.—Mr. W. H. English has put out a bulletin-board. Prices moderate.

A CONUNDRUM.—Why should corporate officers and members only of a village be presented with complimentary excursion tickets? As mere freight their tariff would be at least one-third greater than that of the same number of ordinary citizens.

COMMERCIAL NEWS.

OFFICE OF THE CANADIAN POST,
LINDSAY, Sept. 27, 1877.

Business and Produce.

The grain market at Lindsay has been remarkably active the past week and deliveries have been very large Purchases up to date have been greatly in excess of previous years; but this is rather an evidence of the heavy crop than a rush of grain from all quarters, for great numbers are holding for an advance, and will do so till after Christmas. Whether they will make or lose by the speculation is difficult to say. Good judges anticipate that wheat will fluctuate between $1 and $1.20, and probably this will be the range. Of course a cessation of hostilities in Europe would cause a heavy decline. A fall of 5c. to 6c. has taken place within the past two days, owing to an advance in ocean freights and to telegrams from Liverpool cancelling orders in consequence of the downward tendency there. Those who came in expecting $1.16 or $1.18, which was paid on Monday, were somewhat disappointed at receiving only our quotations. Concerning prospects of prices we give the subjoined comments of the *Mail*:—

"Parties who are calculating upon high prices ruling in English wheat markets during the coming season would do well to remember that prices have already become high. If we trace the actual course of prices since last year, it will be seen that the *Gazette* average was 45s 11d at the beginning of September, 1876; six months afterwards it was 50s 11d; it was as high as 68s 9d on May 18th, and has subsequently suffered a gradual drop until in the week ending on the 1st inst. it was 62s per quarter. It is possible that the recent rains may have so deteriorated the value of the new grain that the average is kept down at the moment, because of the comparative scarcity of wheats in fine condition on the market; and it appears that at Paris wheat for November delivery was in the first week of this month quoted 6d per quarter lower than the actual price; and similarly at Hamburg the future price was 1s per quarter lower also. But all this does not alter the fact that prices stand 23 per cent. higher than at this time last year, and—with the single exception of 1873—higher than they have stood at the corresponding dates in ten years past."

The Lumber Trade.

The Ottawa correspondent of the Perth *Courier* says:—"The trade this year has shown a decided improvement over that of last in some directions The trade of square timber and deals has not improved any, but the shipments to the United States of sawn lumber have been unusually large, the demand being pretty much confined to the coarser grades, such as "shipping culls." Prices are not much better than last year, but there is a great improvement in the demand. Many of the mills have shut down for the season already, while others will run for a month yet. An unusually large number of men are being despatched for the shanties, and there is every prospect of a large season's operations. As an instance of the effort of combinations amongst the lumbermen, last year, when all agreed to curtail operations one-third, the quantity of square timber got out was the largest ever known. It looks as if all thought to play 'rogue,' and, as luck would have it, they only cut their own throats."

The English Grain Trade.

The circular of a leading Liverpool grain firm states under date of Friday evening:—"With some exceptions, the weather throughout the country during the past week has been much more favorable, and fair progress has been made in securing the crops, though generally in poor condition. Large quantities of new wheat are now appearing at market, but mostly in such a state as to be quite neglected by millers, while fairly dry qualities are readily taken at full prices, and in some instances foreign parcels make one shilling per quarter advance on the previous week's quotation. On the coast there is only some cargo of wheat unsoldposed of. Those on passage are very firmly held without much doing. On the spot business has been quiet since Tuesday at unaltered rates. Maize has been dull. The arrivals into port for the past three days were small of wheat and flour, and fair of maize—nearly all from Atlantic ports. This market to-day was thinly attended, though there were several buyers of wheat from distant counties. The usual operators have taken very sparingly. Business in the aggregate is thus of limited importance. Cargoes of wheat it will concession of 1d on white, and 2d to 3d per cental on red descript as. Flour is dull at barely last quotations, with little inquiry.

A Probable Horse Famine.

A piece of very important news for Canada reaches us in a correspondence by the last mail from England. It appears that Switzerland has imposed a duty of 80 francs per horse on the exportation of horses—a measure equivalent to prohibition this following so soon after the embargo placed upon their exportation by Russia, Germany, Austria and Hungary, is somewhat startling. Italy not being a successful breeder, has hitherto drawn her supplies from abroad, and as France is understood to be very short of her complement, with all the markets of Europe, except England, closed against her, she too may be caught with a short supply. In the event of England drifting into war, at least 20,000 horses would be needed at once, and the supply would have to be kept up. It is not generally known that Russia every year imports 25,000 horses. The source from which she draws these numbers are, for the present, unavailable, and will be so for some time to come. Should the war become general the wear and tear of horse flesh will be enormous. The fighting that has already taken place in both European and Asiatic Turkey has used up vast numbers of horses, and we read already of Russia having attempted to purchase 20,000—an attempt which has been foiled through the action of the Governments we have mentioned. Should France be forced to take part in the struggle she must have horses in large numbers at any price. England, with her free trade policy, would not consent to forbid the export or even levy a prohibitory tax, therefore France and Germany would have to go to England to mount themselves. For her requirements England would certainly turn to Canada; the quality of Canadian horses is already well known in England, where they have distinguished themselves in the hunting field and it was recorded by Colonel Jenyns before Lord Roseberry's committee "that Canadians make first rate troop horses, being fairly bred, excellent hacks, wonderfully sound and hardy, capital fencers—and in short, excellent animals." It may be possible for Canada to come to the front at this opportune moment, and there is yet time for a considerable shipment before winter sets in. "It is an ill wind that profits nobody;" let us hope that Canada may reap the benefit of the circumstances which appears likely to arrive.

return up to Friday giving only 28 per quarters, but the supply will not decrease materially for some time to come as the turning point appears to have been reached where the action of Russia will wane, and that of America wax stronger. The few arrivals of new American winter wheat which have reached us have been of excellent quality, and in perfect condition, millers having purchased freely at 62s. to 63s. per quarter ex ship. Inquiries are now being made for spring wheat, and buyers are anxious for the first arrivals so that they may form their own opinions as to whether the crop in which so much interest is taken will bear out the excellent character accorded it by report. The demand for maize increases, and the great scarcity—indeed the almost absolute absence—of really sound corn on the spot, has brought about a further advance, and 28s. to 28s. 6d. per 480 lbs., ex ship, has been obtained off stands for mixed American. The out trade has recovered some of last week's depression, but the exceedingly heavy imports, and the glutted state of the granaries have rendered it necessary to force sales ex ship, under which circumstances it has been barely possible to maintain former prices."

Lindsay Market Prices.
