SUPERLATIVE BARGAINS

St. George's Day.—Next Wednesday is St. George's day and the sons of St. George's national purpose celebrating it at the Osborne House.

A Good Day's Sales.—By a new check system recently introduced into his business, Mr. Baker is able to tell the exact number of cash sales made each day. On Saturday the large number of 1,300 was rolled up, which is encouraging, to say the least. Since Mr. Baker's removal hither, business seems to have centered round the William-st. corner, and his neighbors are also receiving an advantage. It is pleasing at all times to note an instance where enterprise and fair dealing is receiving its reward.

Rural Affairs.—The agricultural department of THE POST this week will be found to be of more than ordinary interest. Some points in connection with the "Local Cattle Trade," bearing on the discussion anent the Lindsay butchers are presented. Our valued contributor at "Little Grange," gives some suggestive hints about "Butter and Fruit Trees." "Growing Corn," supports one of George Calvert's suggestions. "Gardening and Irrigation," by a young farmer, and we hope the young farmers will send us any ideas they may have will prove of interest, though his suggestions may not be carried out for some time. "Model Farm Experiments on Wheat," are of special value. "Large Notes" and "Domestic and Useful," contain a variety of paragraphs of interest. Contributions for THE RURAL POST will always be welcome.

Millinery Opening.—Yesterday was "opening day" in one of our largest millinery establishments, and very naturally the ladies were in a state of expectation as to what new designs the proprietors had had time had to show them. Messrs. Hendry & Flavelle Bros. have carried out their efforts of former seasons, and delighted their customers who crowded the handsome show rooms during the entire afternoon. A large variety of the latest styles in hats, bonnets and mantles was arranged to the very best advantage, exhibiting the taste and refined taste in Mrs. Lee, who has charge of the department. Many novelties in the way of roomers, ladies' furnishings, and ornamental table covers in black and brown. Messrs. Milne & Graham, who are always to the fore in every department, are this season showing a large variety of beautiful goods, which they will not have a formal opening. The department is in charge of Miss Palmer, whose reputation for superior taste and skill in millinery is well established.

Water Shed.—The drill shed is to be the scene of three exciting contests on Wednesday next. Ever since the great international match in Lindsay, south or no south, walking has become a mania with the athletes of both sides. Peterborough has heard of it, Port Hope talked about it, and now Lindsay is taking it up and without doubt completely cast in the shadow of her rival towns. The match is to be for four hours, or longer if the parties so please, and the prizes in all amount to $50, the first being $30. This is a very liberal sum and should be a powerful incentive to our young athletes. Mr. W. A. Weese has the management of the match and has already placed the prize money in the hands of Mr. W. A. Lowe, with whom the entries have to be made. As will be seen from an advertisement in another column the names of the gentlemen who are to act as judges are a sufficient guarantee that the match will be conducted honorably. The Exh Batt. band is announced to play during the match, and seats are to be provided for those who may desire to witness the contest, the charge being 25c. A reserved ticket allowing the holder to take his place on return at will, 50c. As yet a large number of entries have been made, and there are good grounds to look forward to the match as likely to be the best of its kind in this section. A great deal of interest has already been excited in the matter, the order of the day, on the streets every day, to those who are "in the ring" being "who will be the man?" Preparations are being made for a large crowd on Monday last, and Tommy Walker, Rob Hawk, Vincent, the Deputy Reeve, and others having been called upon, moved by Mr. Rice, seconded by Mr. Fitzpatrick, that the accounts be paid, viz., T. Taylor, printing and publishing notices, Times, Fleury, [illegible] furnished E. Lacombe's relief, charity. Carried. Moved by Mr. Fitzpatrick, seconded by Mr. [illegible] that lot No. 24 on the 11th con. be taken from the Lindsay School Board and the same attached to No. [illegible]. By-law passed for that purpose. Carried. By-law passed. The Deputy Reeve entered and took his place. Moved by Mr. Bryans, seconded by Mr. Walker, that the Reeve be requested and authorized to get an opinion from Mr. Hudspeth regarding the petitioners now before the Council respecting drainage and what steps the Council may take thereupon. Carried. Moved by Mr. Rice, seconded by Mr. Bryans, that an order be granted issued to Mr. [illegible] for work done in letting off a car from the Midland Railroad. Order of Council. Carried. Moved by Mr. Fitzpatrick, seconded by Mr. [illegible], that Mr. Deane be allowed to open a concession line between the 3rd and 4th concs. from the 2nd to 3rd quarter line forthwith, and that the clerk notify the parties concerned to remove the fences therefrom. Carried. Moved by Mr. Bryans, seconded by Mr. Walker, that an order be given for the treasurer's salary. Moved by Mr. Bryans, seconded by Mr. Walker, that a by-law be passed to close the road through the farm known as the Brodhead road on lots 10, 11, seven, eight and the south half of lot nine. Carried. By-law passed. Adjourned until Monday, the 5th day of May, then to meet as a Court of Revision.

Mr. Bonner's Benefit.—Bell's Minstrels played to a crowded house on Wednesday evening last, the occasion being the second appearance of Mr. Bonner, who has charge of the management of the Bailey opera company, including the [illegible] and appreciation of the management of the Bailey opera company, including the announcement made that Mrs. Marlowe, late of the Grand Opera House, Toronto, would be entered her services and [illegible] was to be imported for the occasion. The company in question is [illegible] the enterprise and [illegible] forward to with the [illegible] expectation. That the [illegible] these expectations were realized by the frequent [illegible] of Mrs. Marlowe is a matter of congratulation upon the enthusiasm [illegible] which the [illegible] and which [illegible] in Lindsay she will be welcomed by a large audience. Mayor Deane between the pieces delivered a [illegible] eulogistic of Mrs. Robinson and [illegible] during the winter. A publicity [illegible] in two acts, "Naval [illegible]," was first produced. It is [illegible] a sketch with embarrassing [illegible] which [illegible] work out [illegible] *Edward Kingston*, [illegible] Mr. Wm. M. Bonnell, jr. In the opening [illegible] gives a pledge not to marry [illegible] the other, hence [illegible] the plot. The [illegible] is not [illegible] and [illegible] severe illness he [illegible] the entering care and attention [illegible] *Miss Poole*. [illegible] who has slightly the [illegible] of them in years. So deeply [illegible] is he for the good service she [illegible] that he proposes [illegible] which of course is accepted, [illegible] as delayed owing to the [illegible] of a minor nature considerably [illegible] confidence in consult [illegible] the Admiral on the subject. In the [illegible] the Admiral had formed a tender attachment for his [illegible] *Mary Harlowe* (Mrs. Marlowe) [illegible] girl not quite out of her [illegible] manner hesitates [illegible] the pledge. Relieved [illegible] the order other characters are [illegible], and a denouement follows, [illegible] an exchange of engagement [illegible] Admiral's [illegible] the widow and [illegible] the ward. Mrs. Marlowe, we need hardly say, a successful representation. Mrs. [illegible] was if anything in better form than has yet appeared in comedy in [illegible] and divided the honors. In [illegible] Bonnell no better selection could [illegible] made for the dashing young [illegible] his election was good and his [illegible] graceful. Mr Knowlson, as [illegible] made a capital Admiral, [illegible] Giles affected the Irish [illegible] to a [illegible] of *Beaux*, whilst Mr. K. F. [illegible], though inexperienced at [illegible] was a most [illegible] landlord. Mrs. Pilkie sang [illegible] from "Il Trovatore" in the [illegible] and received an encore to which [illegible] responded with an equally happy [illegible]. The audience felt that a treat [illegible] in the absence of Mr. Deane who was down on the programme for Tom Bowling. The ballad opera "The Waterman" which has been presented on two previous occasions this winter, closed the programme. In the cast were Mrs. Marlowe, *Wilhelmina*; Mrs. Robertson, *Mrs. Bundle*; R. J. Matchett, *Robins*; Mr. Otten, *Mr. Bundle*; Mr. Hallett, *Tom Tug*. It was well put on and met with the applause it deserved. The Harris' orchestra is deserving of much praise for the part they took in the programme. The gentlemen who compose this organization have on numerous occasions during the season contributed their services gratuitously and should an opportunity present itself for repaying the debt owed them the people of the town should avail themselves of it. The entertainment was on the whole the most enjoyable of the season and we are pleased to say the receipts were quite satisfactory.

Council.—Mr. Chas. Clarke, surgical machinist, will be at the Benson House April 29th and 30th.

Parties desirous of renting a farm should read Mr. R. D. Orde's advertisement in another column.

Victoria Avenue Matter.—Mr. P. S. Martin has received instructions from the Council to file a bill in chancery against the Victoria Railway Company for non-fulfillment of their bond re Victoria Avenue.

The Staples Assault Case.—John Staples, the man who was so brutally assaulted one night last week, has recovered sufficiently to be able to give his evidence. The case will be tried before the Police Magistrate this morning.

Sold Out.—Mr. R. Hunter has sold out his marble and tombstone business to Mr. C. Mitchell, who will carry it on as usual. Mr. Mitchell is well and favourably known as a practical and skilful marble cutter, and has had experience in the old country. He can be commended to those who may require to do business with him. Mr. Hunter will take orders for Mr. Mitchell.

Bible Society Meeting.—At the annual meeting of the Bible Society, held in the Canada Methodist Church, on Tuesday evening last, Rev. Dr. Smithett, senior Vice-President, took the chair, in the absence of the President. After singing, Rev. Jas. Greenlee read a chapter and offered prayer. Mr. J. H. Knight then read the Treasurer's and the Depository Agents' reports which on motion were adopted. Rev. Mr. Hastie read the report of the executive committee, recommending the election for the ensuing year of the following officers: President, Judge Dean; Vice-President, the resident ministers; Secretary, J. H. Dixon; Treasurer, J. H. Knight; Directors, John Dobson, Wm. Dundas, Jacob Neelands, H. M. Boyce, John Clarke, Alexander Mitchell; Depository Agent, R. S. Porter; Collectors, North Ward, Miss Thexton, Mrs. Bertram; South Ward, Miss Peplow Mrs. Fidler. The report on motion was adopted.

LOCAL NEWS LETTERS.

CAMERON.
(Correspondence of The Post.)

Personal.—Mrs. Oakley, a former resident of this neighborhood, but now of Brussels, is on a visit to her friends here and in Lindsay.

MINER'S BAY.
(Correspondence of The Post.)

Brevities.—Weather fine to-day, 11th, 48° in the shade. Sleighing not very bad yet. Travelling on Gull Lake to-day with teams. Mail stage took the road to-day. Sugar-making just commenced. Hay sells at $20 per ton. Spring birds have come.

LITTLE BRITAIN.
(Correspondence of The Post.)

Public Nuisance.—Every evening a number of small boys from eight to fourteen years of age congregate in the streets, cutting up all sorts of "shines." This is a nuisance, as it annoys every one and is productive of much harm. The parents are greatly to blame in this matter, and a stop should be put to it at once.

Gents' Furnishing Store.—Mr. J. Cowle has made first-class preparations for the spring trade, and will open with a choice stock by the time this paper reaches its readers. The premises he has occupied are being improved and he will make a fine display. During the two years he has carried on business here Mr. Cowle has given general satisfaction and he can be commended as a man of his word and as one who thoroughly understands the branches of trade in which he is engaged.

DUNSFORD.
(Correspondence of The Post.)

Horse Drowned.—As Mr. J. Hunter was returning home with his team from Bobcaygeon on Sturgeon Lake on the 9th inst., when opposite Plum Point he broke through the ice, and before assistance could arrive one of his horses was drowned. He had a very narrow escape himself in trying to save his team. Not having a knife or rope with him he had to unfasten the harness with his hands, and managed to save one of them. The other turned round and tried to get out where the sleigh was, but getting his foot entangled in it both went down and the horse was drowned under the ice.

Carney Shop.—Mr. Kettles has started a cabinet shop here. We wish him success.

Brevities.—The fall wheat so far looks well. The farmers are making preparations to commence work as soon as the soil is ready for working, as the weather has been cold and stormy, with showers of snow. The roads are getting bad.

CAMBRAY.
(Correspondence of The Post.)

Hymenal.—Quite a number of our young men have realized the truth of the words, "It is not good for man to be alone," and have taken to themselves partners for life. The last one so far is our old friend, Mr. Wm. Stanley, who was joined in the bonds of wedlock with Miss Mary Ann Birmingham, of Lindsay, on the evening of the 14th at the Manse by Rev. E. McDonald. Some of Mr. Stanley's old acquaintances thought to play a practical joke on him, so while the knot was being tied they obstructed the gateway through which the wedding party was to pass on their way out. It is thought the design was to force the gentlemen to show their agility in opening a passage, but this was defeated by Mr. McDonald and Mr. R. Irwin, who removed the obstacles and allowed them to pass on. The would-be jokers must have worked well and had their labour for their pains in the end. The party repaired to Mr. Wm. Hancock's residence, where a bountiful tea was laid out. Conversation and singing finished the evening very pleasantly, and we now bid the happy pair good-bye after wishing them a happy and prosperous voyage through life.

GRASS HILL.
(Correspondence of The Post.)

Root Hog or Die.—A pig belonging to Mr. H. McLean worked her way into a hole in the sidewalk so far that she could not be got out unless the sidewalk was taken away on purpose to remove her, so Mr. McLean considered it was best to lose the pig than spoil the straw, and she was left to her fate. At the end of seven weeks the straw was used to the end of the hole and instead of a dressed carcass to Mr. McLean's astonishment he found his pigship could still grunt, and is now able to "root hog or die."

Otis Post-office.—There is some talk that our post-office is to be closed if a suitable person does not buy or rent the house from Mr. Cameron, and it is greatly to be hoped Mrs. McMillan will make up her mind to stop as she has the good will and respect of every person with whom she comes in contact, and gives the utmost satisfaction as a postmistress.

Fenelon Falls.—On account of the lateness of the spring feed of all kinds is getting scarce.

Fall Wheat looks well. Very little sown in this neighbourhood.

Personals.—Dr. John McCrimmon has made up his mind to take up his residence in Kincardine and no doubt will soon acquire a large practice. The Dr. has attended several persons since he came from Scotland with the greatest success. He leaves here with the good wishes of all who know him.—The doctor's record at school and college has been so exceedingly creditable that the Dr. is an exemplary young man and he will make a desirable acquisition to Kincardine. We join with many others in wishing our young friend all success.—[Ex. Post.]

WOODVILLE.

Departures.—In once and twice our villagers are leaving us. Last Wednesday Mr. Peter Clifford, carter, etc., left town without even leaving us a lock of his hair. We miss his beaming countenance and cheering voice, and along with others we weep.... This week Messrs. David Sidey and son, P. Cronter, John Sidney and Alex. Taylor, left for Manitoba and the United States.—[Advocate.

BELLEVILLE.

Scarlet Fever. Several cases of scarlet fever are reported at West Belleville.

No New Cases of small-pox are reported from Marmora, and the eradication of the disease is now thought to be nearly accomplished.

Spring Ploughing.—A farmer in the 5th con. of Thurlow successfully began his spring ploughing on Monday. There did not appear to be much frost in the ground.

MARKHAM.

Dropped Dead.—About five o'clock Thursday afternoon a man named Philip Clarkin dropped dead while working in Alex. Fleury's foundry. Heart disease is supposed to have been the cause of death.

The Dunkin Act.—The repeal of the Dunkin Act for the County of York will be voted on Wednesday, 22rd inst. The vote will be by ballot, and there will be but one day's polling.

Gone Crazy.—A young lady, a Miss Tomlinson, of Bowgrove, is reported to have gone crazy through religious excitement while attending the revival meetings at the Lutheran church, on the 6th con. Markham. Robert Allan, a young man who worked in R. & G. Pringles' waggon shops for a number of years, went crazy on religion last week, and became so violent that he had to be sent to the asylum. He had been attending the revival meetings now going on in the Methodist church here, and being naturally of a weak mind the excitement was more than his intellect could stand.—[Economist.

FRANKLIN.
(Correspondence of The Post.)

Fall Wheat.—The fall wheat in this vicinity never appeared more promising at this season than now.

Port Mantoba.—A number of farmers in this neighbourhood have decided on visiting Manitoba.

Sugar Making.—Farmers are making preparations for the coming sugar season, and a large number have commenced making already.

Hymenal.—Mr. Thomas Adams was united in the bonds of matrimony on Friday last to Miss M. Connell, of Omemee.

Revivals.—The revival services held in the B. C. church here for some time have ceased. The meetings were not very successful in obtaining converts, although Mr. Metherell, our pastor, spared no effort to induce sinners to seek salvation. His sermons were full of gospel truth and he expounded them with simplicity and earnestness.

Blacksmiths and the New Tariff.—Our blacksmiths are finding that the new tariff is 30 against them and have announced their intention of advancing their prices, and the Tories might be asked the following query:

"Oh, why look so disappointed, ye Tories,
When the tariff now is up?
Why not tell your former stories
Of its merits and Sir John?"

Sad Countenance.—If you pass by the hen-roost with careful eye just now you will notice a sadness creeping over the countenance of the old hens. It is not simply the knowledge that they must die, but the thought that they must be sold for spring chickens.

REABORO.
(Correspondence of The Post.)

Cheese Meeting.—I have been waiting until our Ops cheese factory meeting before writing again to THE POST. A meeting was called last week and to it there came dwellers from the mountains of Ops, also dwellers from Emily, and a few scattering Philistines to the number altogether of about sixty too many to do business and after spending three two hours there was nothing done, with the exception of appointing two auditors to look over the accounts. However, another meeting was called on Monday evening, 7th of April, and if the people attending had been all Christians they could not have had a more peaceable meeting. The total of milk sent into the factory in 1878 was 626,363 lbs.; cheese made 1878 22,671 lbs. averaging about 73½ cents per 100 lbs. of milk; amount of cash received $1,606.10. The arrangement has not paid the cheesemaker, but the meeting voted $10 more than the original agreement. Mr. Holbert was re-engaged for this season, his remuneration to depend on the price of the milk. Let all send their milk to the factory.

The Wood Trade.—The shingle mill has made 10,000 shingles per day for the last ten weeks; about 12,000 ties have been sent away, and 300 cords of wood. How is that for Reaboro? also four fingers sawed off at the shingle mill.

Fall Wheat.—I have seen one field to-day and I never saw it look better. The season is very late; no work done on the land nor is their likely to be for some time yet. However we will live in hope that there will be a good season. If our farmers can twist along and those that have money lend to those that have none, and don't charge too much interest, the country will come out all ok.

JANETVILLE.

Spring Poetry.—A young man at this place with some poetical talent informs us that one evening as he entered his room he saw a robin, the first for the year, hopping about on the grass and among the trees, and the spectacle suggested some lines which he encloses. The verses are very fair, but we dare not publish them in full lest other young men when they see a crow in a cram, a goose or a girl should be similarly affected. We may, however, give two stanzas of the "Lines to a Robin."

O little bird! where hast thou been,
All winter, cold and long?
When snows were deep, and frosts were keen,
And winds were loud and strong.

Hast thou in some more genial clime
Thy wings a soaring spread,
Which are for months have counted time,
And we mourned the dead.

Recovery.—The friends of Mr. Robert Magill, sen., will doubtless be glad to know that he is recovering his former health, though he is yet weak.

Accidents.—On Friday morning Tommy Rehill, son of Mr. Thomas Rehill, was thrown off a horse and badly hurt. Dr. McAlpine was immediately sent for and promptly attended to the case. The lad is almost able to again enjoy himself at horsemanship. This should be a warning to the rest of the boys of our village, especially to those who allow the horses to go almost at full speed. As James Baxter, employed at edging shingles in Mr. John McDernald's shingle mill was in the act of picking up a shingle with his right hand, when his left hand came in contact with the saw by which his fourth finger was badly cut. To-day (15th inst.) Samuel Magill, son of Mr. Wm. Magill, had his left hand so badly cut by the same saw that he has lost the first three fingers.

Gone West.—Wm. Magill, son of Mr. Hugh Magill, left for Manitoba on the 8th inst. We wish him prosperity.

HALIBURTON.
(Correspondence of The Post.)

Brevities.—Miserable walking, snow going slow but sure. First waggon out on 15th.

More of Them.—Several additional numbers of THE POST were welcomed to our little town last week.

New Comers.—Quite a number of families have arrived from the front this spring and have taken up land in Monmouth and Harcourt.

Brevities.—Mr. James Dover has had his store refitted inside and is now stocking it with new goods. It has quite a hand-some appearance.

Methodist Church.—Rev. Mr. Ames performed the duties of Rev. G. H. Kenny in the W. M. church on Sunday afternoon. As Mr. K. has had very poor health Mr. Ames has been sent to assist him until he regains his usual condition.

Hard for the Cattle.—Quite a number of cattle have died this spring from starvation. The farmers are endeavouring to keep the rest alive by buying hay at $19 and $20 per ton, which is being brought in from the front by rail by Mr. Niven, of the C.L. and E. Company.

Good Friday was kept in the usual way, all the places of business being closed and services held in the different churches.

Family Affliction.—We regret to learn of the death of the only daughter of J. Anderson (of Finlay & Anderson), who died at 8.30 a.m. Monday morning of congestion of the lungs. Mr. Anderson's many friends in Lindsay will be sorry to hear of his affliction.

Advice to Athletics.—The young ladies of this village do not seem to enjoy athletic sports, as they grumbled considerably about having to jump over ploughs and taking long strides through the snow in order to get their mail by way of looking for the "back door," as our P.M. is averse to opening the front door on holidays.

Funeral.—The remains of Mr. J. A. McMillan, hotel-keeper, were interred in the Haliburton cemetery on the 10th inst under royal Orange honours.

Delegate Appointed.—At a Reform meeting held in the town hall on Saturday evening the following gentlemen were appointed delegates to the convention at Fenelon Falls: Messrs. A. Niven, J. F. Young, A. Patterson, S. Thompson, Wm. Nichol and S. McMeeken.

Revival Meeting.—A vestry meeting of the Church of England Monday re-elected as wardens, Messrs. James Dover and C. A. Westell. C. J. Blomfield, J. F. Young and Dr. Lowe were appointed delegates to the synod.

PORT HOPE.

Supposed Murder of a Port Hope.—Thos. Martin, formerly a bridge carpenter on the Midland Railway, was found dead near Denver City, Colorado. It is supposed he was murdered. He leaves a wife and several children.

CANNINGTON.

Arrived.—From the Emerson International we learn that Mr. Wm. Thompson, of Cannington, Ont., accompanied by his family (11 persons), have arrived at Emerson, Manitoba, and is stopping with N. Dure, Esq. He is a brother of Mr. Dure's partner. In the same party are Mr. C. H. Robinson, wife and two children, of Beaverton, Ont., Peter T. Collinge and a son of Mr. Cowan. Mr. Thompson informed the editor that about 150 people from Cannington and vicinity would emigrate to Manitoba this summer.

Failed to Agree.—At the meeting of the municipal councils of Brock and Cannington, held at Sunderland on Friday week, they failed to come to any settlement of the affairs of the two municipalities in connection with the setting apart of Cannington as an incorporated village. The matter will now have to be left to arbitration, each party selecting one arbitrator, and the two thus chosen a third.

SUNDERLAND.
(Correspondence of The Post.)

Sudden Death.—On Monday last Mrs. Martin, a widow who lives between this place and Cannington while preparing breakfast was seized with a very severe pain in the jaw, probably the toothache as she herself thought. She at once began to faint and was conveyed to her bed where she soon expired. Mrs. Martin as a general thing has been a very healthy woman and her sudden death has caused much sorrow among her friends.

Painful Accident.—Some days ago Mr. Henry Brethour, one of our most prominent townsmen, while leading his horse to water was thrown to the ground and received some internal injuries. He was obliged to keep to his bed. When he began to regain strength he was seized with a very severe attack of erysipelas which has placed him in a very critical position ever since.

Seriously Ill.—John Campbell, the proprietor of the Brock House, has been very ill for several weeks. He is not expected to recover. Bleeding at the lungs seems the chief ailment.

Maple Sugar.—A large number of the farmers in this vicinity are busily engaged in maple sugar making.

Advancing.—Considering the hard times Sunderland still continues to advance in the building line. Together with many others, Mr. Pool has just finished a handsome dwelling house. This is the fifth edifice Mr. P. has erected inside of five years, and all are of first-class style.

COBOURG.

A Fatal Fall.—Mr. Alex. McDonald, Secretary of Hamilton Township Agricultural Society, was on Monday night of last week in Cobourg, and on his way home, to Mr. Kerr's farm on the northeast of the town, he took the short cut by the Grand Trunk Railway. In crossing in the dark the high bridge over the gully to the east of Cottesmore Avenue, he fell to the ground, a distance of twelve or fifteen feet, was stunned by the fall, and suffocated by the mud and water in the gully.

An Outrageous Act.—On Wednesday night last, while Mr. Richard Tinney was being married, a man named Alexander Milne entered the house Tinney had newly furnished for the reception of his bride, and smashed and destroyed almost every breakable article on the premises, and then carried off a watch, some jewelry and other goods, which were afterwards found in his possession. The loss to Mr. Tirney will amount to about $300. Milne was arrested on Saturday morning and brought before Police Magistrate Stanton. He was remanded until Tuesday.

Town Well.—According to the Sentinel, Cobourg is likely to have a magnetic well, and "Sleepy Hollow" is destined to become another Saratoga. The town well has reached a depth of 480 feet, and for the last 80 feet a seam of limestone has been passed through in which there appears to be magnetic particles, and the water is greedily seized by parties who are using it medicinally. The distance that the Council has ordered the engineer to sink the well is only about forty more feet, and the hopes of striking a flowing well for fire purposes are growing faint; but if medicinal water of a high quality is secured, the effort will not have been in vain.

FENELON FALLS.
(Correspondence of The Post.)

Accident.—On Friday last Mr. Geo. Nie was engaged splitting a stick of wood in the grist mill when the axe struck against the corner of a writing desk and glancing off came in contact with his left foot, cutting the second toe almost off in a diagonal shape. On Saturday and Sunday Mr. Nie was confined to his house, but was able to walk around on Tuesday.

Good Friday.—Service was held in St. James' church on Friday last, it being customary to hold service there every Good Friday. This was the only place of worship.

Accident.—On Monday last as a team of horses owned by Messrs. Green & Ellis were drawing a heavy load of lumber to the planing factory, and while in the act of crossing the bridge which spans the creek running along the south side of Francis-st., some of the planks becoming displaced, the horses got tangled up amongst the debris, and by successive plunges the "off" horse, as soon as the harness was unhitched, rolled off the bridge upon his back into the water and would in all probability have been drowned had not assistance been speedily procured. The other animal, after a short struggle, was landed on *terra firma* apparently none the worse for its adventure. Only two weeks ago this firm lost a valuable team in Sturgeon Lake.

Decorated.—During Easter week Mr. S. St. Michel, butcher, had his place of business decorated very prettily with evergreens, flags, and rosettes made of tissue-paper.

Vestry Meeting.—At a meeting held in the vestry of St. James' church on Monday evening last the following appointments were made: Messrs. H. P. Heming and J. Austin, churchwardens, and Mr. Thos. Roberts, delegate to the synod.

A Contrast.—Last year all the ice was out of Cameron Lake on the 29th of March and this year here it is the 16th day of April and teams still crossing with safety from one shore to the other.

N. P.—This national humbug has not yet put any money in the pockets of our farming and labouring men. Where, oh, where! is Hector with all his bright hopes and future prospects for our short-sighted and easily led Tories.

PETERBOROUGH.

Signs of Prosperity.—The Examiner has added to its well-equipped establishment another fast printing press and a quantity of new type. We are pleased to observe this evidence of prosperity on the part of our enterprising and ably conducted cotemporary.

Killed by a Falling Tree.—On Saturday last Wesley Baxter, of Otonabee, while engaged in chopping in the woods for Mr. Wm. Deyell, of the same township, was killed by the limb of a tree striking him on the temple. There was no one with Baxter at the time of the accident.

Robbery at Clark's Tannery.—The tannery of Clark & Johnston, in Ashburnham, was robbed of $41.50 some time during Wednesday night last. One of the employees, who recently came from Brockville, and who gave his name as Chase, was missing next morning, and it was at once known who the thief had been. Chase had only been employed in the tannery for about a month, and had been making arrangements, as he said, to send for his wife and family. Entrance was effected by drawing the nails from the window on the first flat, which held the lower sash down, and the window then could be easily raised. Mr. Sargent, the caster, is also minus $10, which Chase borrowed from him the same evening before he left town. His whereabouts are unknown.—[Daily Review.

True Bill.—At the Assizes, in the Montgomery shooting case, the Grand Jury on Wednesday found a true bill for murder against R. N. Roddy.

Murdered in Michigan.—The body of Benjamin Young, son of the late Wm. Young, Young's Point, was brought here by train on Monday, from East Saginaw. He left home about two years ago, and has been lumbering or working near Saginaw since that time, and from all accounts had saved some money for which it is believed he was murdered, by a chum, with whom he associated. The body was found in an open field, outside the city, where it evidently had been taken after the terrible deed. He had just received his wages a few days previous to his being found, from his employer, amounting to about $350, and afterwards was last seen alive in the company of this associate whose name we have not learned. Up to this time the latter was known to be without a dollar, loafing his time away in the city. Immediately after he was seen to spend money freely, and was arrested on suspicion, but we have not learned whether he has been so closely connected with the murder as to be committed. The murderer must have been almost a fiend, as the dead body contained five cuts in the face, one on the arm, and a contusion on the back of the head. When the body was found all his money was gone; but for some reason his watch, a chequer, and other valuables had not been taken. He was unmarried and about 20 years of age.—[Examiner.

Notices of Births and Deaths, 25c.; Marriages, 50c.

BIRTHS.

Graham.—At Maple Lane farm, Fenelon, on the evening of Easter Sunday, the wife of Mr. J. R. Graham, of a son.

DEATHS.

Anderson.—In Haliburton, on Monday, 14th inst., Emma, only daughter of John Anderson, Esq., merchant. Aged 1 year and eight months.

Bradburn & Co.

FIRST OF MAY NEXT,

AND IN ORDER TO MAKE ROOM FOR

AN ENTIRE NEW STOCK

I SHALL SELL OFF MY PRESENT STOCK

BELOW COST!

UNTIL THE WHOLE IS SOLD.

FOR CASH ONLY.

JOHN DOBSON.

Lindsay, April 5, 1879. 1921-4c

ONTARIO COUNTY.

Convicted of Forgery.—At the Assizes last week James Hortop was convicted on two charges of forging the name of Mr. J. L. Moore, the agent of the Whitby Railway, to bills of lading for flour.

Hopkins' Hall Purchase.—The voting on the purchase of the Hopkins' Hall for a market in the town of Whitby took place Tuesday afternoon and after a close struggle resulted in a majority of four in favour of the purchase.

OMEMEE.
(Correspondence of The Post.)

Personal.—Mr. McQuade, M. P., has been in town spending his Easter holidays.

Lodge of Instruction.—L. O. L. Nos. 113 and 114, Omemee, hold a Lodge of Instruction and a supper this (Friday) afternoon and evening at the Bradburn Hall.

The Council have decided to still further extend our sidewalk accommodation.

Butter Factory.—A butter factory is to be opened at Evan's corners shortly.

Maple Syrup coming in in small quantities but no sugar.

Returned.—Mr. John Bailey, Deputy Reeve of Emily, has returned from his trip to Manitoba. He entertains a high opinion of that country, and has taken up eleven hundred acres of land for himself.

KIRKFIELD.
(Correspondence of The Post.)

Returned.—Mr. Jno. McDonald, J.P., has returned from his trip to Manitoba. He gives a glowing description of the Prairie Province: considering the climate—which he says is milder than in this portion of Ontario—richness of soil, and the immense influx of wealth and population, he believes that in less than a decade it will be the banner province of the Dominion. He took up land there, and intends moving as soon as he can dispose of his property here.

Successful Contractors.—We learn with pleasure that Messrs. McKenzie Bros., of this place, have obtained the contract for building eleven stations on the Credit Valley Railroad, with the prospect of getting the contracting for all the stations on that line of railway.

TORONTO JOTTINGS.
[Special correspondence of The Post.]

Items of any interest are few and far between this week.

Personal.—Mr. F. C. Taylor and Mr. P. B. Smith were in town last week. Percy heard Gilmore's Band and pronounces it very fine.

Vestry Meetings.—The annual vestry meetings of the Anglican churches were held yesterday (Easter Monday) when the churchwardens for the ensuing year were elected and general business of the church transacted.

Navigation Notes.—Several schooners and propellors leave this port on Saturday for the Welland Canal, which is expected to open in a few days. The harbour presents a lively appearance just now.

Serious Fire.—After escaping for nearly two years from fires of any consequence, we had the misfortune to lose one of the largest elevators in the city by fire on Thursday night, the Beard elevator on the esplanade, valued at $50,000, being burned to the ground. Loss above insurance, which was small, $30,000. The city was brilliantly illuminated by the light from the burning building for several hours.

The Queen's Own.—The only way in which the Queen's Own could go to Montreal on the 24th of May was by arranging to pay two dollars per man, towards defraying the expenses of railway transit. The Government have given the usual grant of $3,000, the same as last year, but the Grand Trunk Railway Company having raised the excursion rates this year the regiment will be compelled to supply the deficiency themselves. This will be done.

The Cattle Trade.—Messrs. Reeves & Frankland, cattle dealers of this city, shipped three hundred head of cattle for Liverpool on Saturday last. They have at present 2,200 head feeding here which will very shortly be shipped for England.

Good Friday passed off very quietly in the city. Mass was celebrated in St. Michael's cathedral by His Grace Archbishop Lynch; a special service was held in the Metropolitan, the choir sang selections from the Messiah; and sacred concerts were given in several other churches throughout the city. The annual concert of the Queen's Own Band was a great success, Shaftesbury Hall being crowded.

[Remainder crowded out.]

COMMERCIAL NEWS.

Office of The Canadian Post,
Lindsay, April 17, 1879.

Business and Produce.

General business is improving. In Produce there is nothing worthy of note. The large markets are weak with a declining tendency.

Toronto Live Stock Trade.

The market for export is steady and firm. Good cattle, well fattened Durham grades, of 1,200 lbs. to 1,500 lbs., find a ready market at $4.75 to $5.00 per 100 lbs. live weight, and it is thought that prices will not recede from those figures before the 1st July next. Two shipments of cattle by the Intercolonial and Halifax have been made successfully. First-class for local wants, $3.50 to $4.25; seconds, $3 to $3.25. Sheep in good demand for export, 4½c. to 5c. for May or June delivery. Firsts, for local use, 6c to 7c; seconds, 5½ to 6c; thirds, 5c to 5½c. Lambs, firsts, $6 to $6.50 per head; seconds, $5 to $5.50; thirds, $2.50 to $3. Calves: firsts, $10 to $12; seconds, $8 to $7; thirds, $3 to $4.
