Saw Mill & Timber Land For Sale or To Let.

In the **Township of Artemesia,** in the County of Grey, 4 miles from Flesherton Station, the Canadian Pacific Railway. The Mill is situated at Little Falls, in a block of about 400 acres Timber Land, with other timber land surrounding. The building is substantiolly built on stone foundation. The machinery is all good and driven with great power by a 23 inch Leffel wheel, under 36 feet head of water. There are 1 Large Circular Saw for cutting logs; 2 Small Circulars for sawing Laths and Broom Handles; 1 Guage Lathe for turning Broom Handles, &c.; 1 Shingle Machine with Jointer and Packer complete. The Water-Power is excellent, the stream being very regular. There are several other good Mill Sites on the property. The land in this valley is considered the best in the country. The place would make an excellent Stock Farm when the timber is taken off

This offers a good opportunity for a practical, energetic man to go into this kind of business, as the place will be sold or let on FAVORABLE TERMS. The bush is so convenient to the Mill, logs can be trucked in summer time. Immediate possession given.

☞ *Purchasers should look to the Label on the Pots and Boxes. If the address is not 533, Oxford Street, London, they are spurious.*

The Advance till Jan, 1st, 1885, for 40 cents.

Sheep-Raising for Wool and Meat.

Rural Canadian for July.

The low price of wool leads some farmers to ask if it was not wise to go out of sheep-raising? We do not think so. Wool is by no means the most valuable product of the sheep. It pays much better to breed and feed for mutton, and the demand for lambs and sheep well fed for the butcher is practically unlimited. In the Lake Erie and the River St. Lawrence counties nearly all the surplus lambs are gathered up by buyers for the American markets, and prices always rule higher for good ones; while in the other counties of the Province the town and Province ranging from $2 to $5. They are selling in Toronto at the present time at $3.50 to $6, according to quality. The returns are quick and handsome. The lambs are sold at all ages from two to six months, and the cost of raising them in the spring and early summer months is a mere trifle. If the same animals were kept for wool the farmer would be obliged to feed and wait a whole year for the first return, and assuming the clip to average five pounds and the price 25 cents per pound—a point which it has not reached for several years—it would require three years to produce a wool crop of equal value with a lamb at three months. In Ontario as well as in the markets of the neighboring States the great demand is for sheep under one year, where as in the English markets the demand is greatest for well-fatted two-year-olds, and over. What better could the Ontario farmer want to encourage him in sheep breeding, either for meat or wool? The lambs can be disposed of at home, and the matured sheep can be fitted for the English market after the second shearing. The number shipped from Canada to Great Britain during the calendar year 1882 was 75,905, and last year it increased to 114,352. In 1877, when the trade just commenced, the number shipped was only 9,509. Now in view of all the facts we think that Ontario farmers need not greatly care whether the price of wool rules high or low, sheep-raising for the butcher will pay much better.

PREJUDICED PEOPLE.--Many people are prejudiced against patent medicines but all who try Burdock Blood Bitters are compelled to acknowledge it worthy a patent as a valuable discovery.

The following is from J. W. Ptolemy, of Winnipeg, formly grain buyer for William Gillesby, of Hamilton and Grimsby: "I was for many years much afflicted with Costiveness, Billiousness, and ultimately Dyspepsia, I suffered very much and tried many different medicines, which gave em only temporary relief and then I was as bad as ever again. I was recommended by a friend, who has been restored to health by it, to try McGregor's Speedy Cure. I did so, and it was not long before I felt like a new man, and I have enjoyed excellent health ever since. I first commenced taking it February 7th, 1879. Sold by Richardson's druggist.

A MARVELOUS STORY

TOLD IN TWO LETTERS.

FROM THE SON: "28 Cedar St., New York, Oct. 28, 1882.

"*Gentlemen:* My father resides at Glover, Vt. He has been a great sufferer from Scrofula, and the inclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case.

Yours truly, W. M. PHILLIPS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the SARSAPARILLA in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Any inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. 21, 1882. Yours gratefully,

HIRAM PHILLIPS."

AYER'S SARSAPARILLA cures **Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin.** It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.
