When You Take Cold

One way is to pay no attention to it; at least not until it develops into pneumonia, or bronchitis, or pleurisy. Another way is to ask your doctor about Ayer's Cherry Pectoral. If he says, "The best thing for colds," then take it. Do as he says, anyway.

We publish our formulas
Ayer's
We banish alcohol from our medicines
We urge you to consult your doctor

When the bowels are constipated, poisonous substances are absorbed into the blood instead of being daily removed from the body as nature intended. Knowing this danger, doctors always inquire about the condition of the bowels. Ayer's Pills.
—Made by the J. C. Ayer Co., Lowell, Mass.—

Hon. William Pugsley visited Collingwood, and was the guest of the Roard of Trade at a banquet.

Chalmers Church Business Meeting

The Presbyterian congregation held their annual business meeting on Thursday afternoon last, when there was a good representation of the congregation, and a harmonious meeting. The opening devotional exercises were conducted by the pastor, Rev. G. C. Little, after which J. L. McMullen was elected chairman and T. R. McKenzie Secretary. The minutes of former meetings were read and adopted, after which the Session report was given by the Clerk, which showed that notwithstanding considerable loss by death and removals, the membership of the church was 123, a net gain of one over last year. Never before in the history of the congregation had it suffered so much by death in one year as during the past twelve months, when two of the oldest and most highly esteemed elders—Wm. Neil and A. S. VanDusen—were called to their reward. The auditors' report was very satisfactory, showing the congregation to have had a very successful financial year. On stipend and general account, after meeting all liabilities a balance of $181.56 remained on hand. On building account there remained a balance on hand of $50.44, and on manse account $45. The Sabbath school closed the year with a balance on hand of $84.50 and the Ladies Aid with $76 50.

The following officers were elected: Trustees—J. L. McMullen, D. McTavish, M. Ferguson. On the Managing Board—John Blackburn, George Cairns, Miles Thistlethwaite, M. Ferguson. Secretary-Treas., Joseph Blackburn. Auditors, Charles Stewart, Frank Chard.

TIREDNESS MEANS DANGER.

Indicates Faulty Blood and worn-out Nerves—Build Up, or Total Collapse Will Surely Follow.

When you're tired all day, bothered by trifles, exhausted with nervousness, be sure there is something wrong.

You need bracing up, need more nourishment in the blood, need a powerful medicine to vitalize the nerves and distribute force and staying power to all over-worked organs.

The most marvelous success is Ferrozone, a nourishing tonic so scientific as to be the admiration of every physician. Ferrozone performs wonders for people in poor health; it acts directly on the blood, enriching it with strength and new life that is at once dispatched to all parts of the body. Ferrozone feeds the nerves and vital energies, supplies force, determination and joyous, buoyant spirits.

A case where there was lassitude and lack of strength is told by Mr. David Brown, of post-office box No. 30, Becton, Ont.: "About a year ago my health commenced to fail. My hands and feet seemed always cold. I felt worn out and exhausted, weak as a little child. My face twitched. My limbs and arms commenced to lose their sense of feeling and finally my left side was perfectly numb. All my color left. My appetite ran down. Ferrozone was the first to give me any help. I improved with it quickly. It toned up the blood and started circulation so that the numbness gradually disappeared. My condition was perfectly cured by Ferrozone, and I been have well ever since. (Signed) "David Brown."

SPECIAL NOTICE.—To get satisfactory results be sure you get Ferrozone only. Fifty cents per box or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

As the Stewart Bros., 12th con. of Arran, were going home from the bush with a load of logs on Monday evening last they thought they would go up the river which they had crossed with the team and empty sleigh in the previous part of the day without any signs of the ice giving way. As soon as they struck the ice it started to crack and their big team seemed quite timid, but they urged them on till they were about 40 feet from the shore when first one runner of the sleigh went through the ice soon followed by the other, and in a second the horses were precipitated into water about ten feet deep. The boys had enough presence of mind to jump to the horses' heads and catch the halters so as to keep their heads above the ice, and called for help, but no one came. There were three of them and one ran back to the bush for an axe, while the others with their jack knives cut hame straps and others parts of the harness. When the axe was produced the work of life began to break the ice in front of the horses to enable them to get to the shore. It was hard work, but within an hour they had the horses on shore, but being so long in the water they were very weak. While the frantic animals were plunging and struggling for their lives they pulled one of the boys into the river, but he struggled to the top again. Another was kocked flat on the ice and one horse hit his right arm just above the elbow, hurting him badly, which may prove troublesome for some time.—Tara Leader.

Life Will be Shortened.

Those who fail to observe the fundamental rules of health, especially those who neglect constipation,—will have short lives. Costiveness ruins health, destroys vitality, weakens the blood, causes dyspepsia, nervousness and insomnia. Why not use Dr Hamilton's Pills and be cured. Take one or two pills before retiring and you're well next morning. No gripe or pain, no headache and nausea when you use Dr. Hamilton's Pills,—they cure scientifically. Positively the best laxative known, 25c at all dealers.

Not a Miracle But Medical Science

Dr. T. A. Slocum, Limited,
Toronto, Ont.
Gentlemen:—

"Some time ago I began to lose flesh and failed every day until I had to quit work. My physicians and all my friends said I had contracted consumption. I failed from 165 pounds down to 119. I was advised to go to the Rockies or to the coast. I went to both places under heavy expense. I continued to fail, and was advised by the doctors to come home as nothing more could be done for me. Hope seemed to have left me.

"I tried Psychine and since starting its use I have gained from 119 to 141 pounds. I have used $10.00 worth of the medicine. I am a well man and I cannot say too much in praise of Psychine. The strongest recommendation would be weak in view of the fact that I believe it has saved my life. It is without doubt the best remedy for run-down conditions and weak lungs.

"I sincerely hope and trust that you will continue your good work of saving run down people and consumptive from the grave. Wishing you and Psychine continued success, I remain, one of Psychine's best friends."

ALEX. McRAE,
Sault Ste. Marie, Ont.

Almost every mail brings us letters like the above. Psychine will repeat this record in every case. It is the greatest medicine known. At all druggists, 50c and $1.00, or Dr. T. A. Slocum, Limited, Toronto.

A Man to Cheer for.

Upon his retirement from the Municipal council of the township of Trafalgar, in the county of Halton, Dr. Anson Buck was tendered a complimentary banquet and presented with a beautifully illuminated address and gold watch by the ratepayers of the municipality.

Dr. Buck's record in municipal affairs is probably without a parallel in the Province. For forty consecutive years he has occupied the position of Councillor and Reeve of the township, and during that period he was absent from the council meeting only on one occasion. For 24 years he occupied a seat in the County Council, during which time he did not miss a single meeting.

He was Warden of the county for the year 1896. As a result of his administration of the township affairs Trafalgar, which is one of the wealthiest townships in the Province, has to-day surplus funds of over $45,000 with no indebtedness. As the township is traversed by two streams the expenditure for bridges has been exceptionably large. Altogether Dr. Buck has personally superintended the building of 35 steel bridges, ranging from 30 feet to 120 feet long. As a representative of one of the large bridge companies stated, he has a greater practical engineering ability than the majority of engineers. All bridges were paid for when built, the rate for all township purposes seldom exceeding three mills on the dollar. Dr. Buck was one of the first to introduce the use of cement wherever practicable for culverts, bridge floors and abutments.

At the banquet, which was attended by ratepayers from all over the municipality, references were made by the different speakers to the doctor's many-sided qualities. As a professional man he has been eminently successful, having practised over 54 years. As an agriculturist he has an all-round experience that enables him to speak with authority on all farm matters. As a life-long temperance advocate he has had much to do with the strong temperance sentiment of the township, in which there is total prohibition. As a politician he has been an active Liberal, contesting the county in the Liberal interest in 1886. Notwithstanding his strong political opinions, he has been supported municipally by both political parties.

Born in 1833, educated at the old Palermo Grammar School, he graduated from Jefferson Medical College, Philadelphia, in 1852, and from the Royal College of Surgeons, London, Eng., in 1853, at the age of 19, since which time he has practised continuously in his native village of Palermo. In 1865 Dr Buck, with the late Dr. Freeman of Milton, visited the northern army as a voluntary surgeon to get experience in military surgery. He accompanied the ambulance corps and was at Burksville field hospital when Lee surrendered, 20 miles away. Returning he was in Washington the morning of Lincoln's death. Dr. Buck still continues his practise and enjoys excellent health.
