BEFORE TREATMENT

AFTER TREATMENT

He was surprised at how the sores healed—"I took your NEW METHOD TREATMENT for a serious blood disease with which I had been inflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the NEW METHOD TREATMENT for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish." W. H. S.

We treat NERVOUS DEBILITY, VARICOCELE, STRICTURE, VITAL WEAKNESS, BLOOD, SKIN and PRIVATE Diseases, URINARY, BLADDER and KIDNEY complaints of Men and Women

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our NEW METHOD TREATMENT will cure you. What it has done for others it will do for you. **Consultation Free.** No matter who has treated you, write for an honest opinion **Free of Charge.** Charges reasonable. **Books Free**—"The Golden Monitor," (Illustrated) on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. Everything confidential. Question list and cost of Home Treatment FREE.

The New Walkerton Railway

The new railroad was opened to Walkerton on Monday morning last, and trains now run regularly from there to Saugeen Junction and back twice a day. The electric bell installed at the foot of Garafraxa Street Hill is likely the full measure of protection to be given us by the commission. Though perhaps not so safe as a gate and watchman, it gives sufficient warning for people who have their wits about them, and is certainly not so unsightly as a gate would be. Citizens of Durham have been treated generously by the C. P. R. Co. in the prices they paid for lands along the right of way, and this treatment has a tendency to make us feel kindly disposed towards them. We hope to see such a measure of prosperity that both railroads will be taxed to their utmost capacity.

The new line is already in the enjoyment of quite a share of the busiuess. Passengers to and from Toronto are generally patronizing the new road, although it is not yet fully completed. An hour and a half longer time in the city is an inducement to business men to go by the C. P. R., when it is important to go and transact business and return in the same day. The distance by the C. P. R. is seventeen miles shorter than by the Grand Trunk, which gives them the advantage of reaching the city earlier and returning later than by the Grand Trunk. Trains on both roads are now running pretty well on time, but we do not know how the C. P. R. will fare in the deep snow seasn. There are some bad spots between here and Priceville that will likely give trouble in the winter, especially in those winters when the snow is very deep. Naturally, all passengers to the West leave here now by the C. P. R. instead of taking the Grand Trunk as formerly to North Bay.—Durham Chronicle.

In Good Luck

"About two years ago my father came here from Mason City, Iowa, on a visit" says O. L. Scott, Duffield, Mich. "While here he was taken sick with diarrhoea and cramps. I gave him several doses of Chamberlain's Colic Cholera and Diarrhoea Remedy and it cured him." This Remedy always cures. It is for sale by W. E. Richardson.

A rather unique looking tower has been erected by the Interior Department of the Dominion Government on the farm of Mr. Wm. H. Gillespie, 2nd line of Amaranth. It has been constructed of the best class of timber, is an open work structure and is seventy-five feet high. On the top will be placed a large field glass or telescope with which will be made a geodetic survey of the country for miles around. The site of the tower was chosen by the Government because of its altitude, it being one of the highest points in the province. The work of construction was under the supervision of Mr. J. H. Moorehouse of Brockville, an engineer in the employ of the Interior Department. A number of these towers are being erected throughout the country, four having already been raised, one at Milton, one at King, one at Uxbridge and one at Orangeville. On the completion of the one here the workmen went to Berlin where another is being built. The tower is being built substantial enough to last ten years, a lease for the site being taken for that time, and is situated on such a high elevation that by means of the field glass it is quite possible to see the other towers. In fact it has been stated that through the glass one can see either Toronto or Owen Sound. A number of people from town went out to see the structure on Sunday but a sign prohibits anyone from going to the top. By the erection of these towers the Government is said to have in view the formation of a new map of the Dominion.—Post.

Miss Mellphont, the Bognor young lady, who was so severely injured in a runaway accident and dragged for some distance, is recovering rapidly and was able to be taken out for a drive last week. At one time she was thought to be fatally injured, but she is gradually gaining strength and her sight, which was affected, is being restored.

The storm last week in Orangeville and vicinity was a very severe one. The hail did a lot of damage. Chas. Price of Shelburne is a heavy loser having had 50 acres of grain destroyed by hail at Price's Corners in East Garafraxa. He went down the day of the storm to see how the crop was coming on and found it completely destroyed. All the glass in his house on the farm and the church close by was broken in pieces. Mr. Price's loss will be heavy.—Free Press.

One hundred and twelve children under five years of age died in Montreal last week. This number represents 66 per cent. of the total number of deaths in the city.

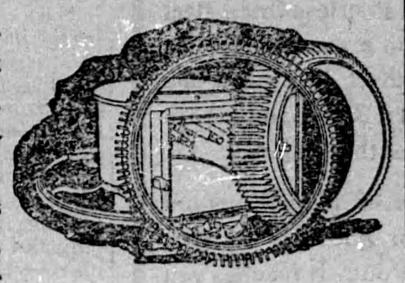
We want you to see the Steel-Ribbed Firepot in the

"Hecla" Furnace



The Firepot of a furnace being in direct contact with the fire, contains its most effective heating surface. Any increase in this surface therefore, greatly increases the efficiency of the furnace. That is why STEEL RIBBED FIREPOTS, which have three times as much radiating surface as any other style of firepot, enable the "HECLA" Furnace to save from 10% to 15% of your fuel bill.

This is only one of the many exclusive features of the "Hecla" Furnace. We want to explain them all to you—and prove, by actual tests, that the "Hecla" is the best and most economical furnace you can buy. Stop in any time for a "Hecla" talk and demonstration.

A RELIABLE

LOCAL SALESMAN WANTED

For Flesherton And Adjoining Country

TO REPRESENT

Canada's Oldest and Greatest Nurseries.

While business in some lines may be dull, farmers were never more encouraged as regards fruit growing than at the present season. High prices for all classes of fruit have been obtained the past season, and there is as a consequence an increased demand for nursery stock.

Our stock is complete in every department, including a new list of specialties which we alone handle.

The right man will obtain a permanent situation with territory reserved for him. Pay weekly. Free sample outfit, etc. Write for particulars.
