Why Colds are Dangerous.

Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgement. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by W. E. Richardson.

New Clothes For Men in "Sovereign Brand."

We have received and passed into stock several lines of new suits for men and many of which are the famous "Sovereign Brand" make. Here are some points of real importance in clothes making—points that are worth thinking about because they mean much to the appearance and wear of the cloth s you buy. The shoulders are slightly concaved and fit smoothly without a wrinkle, the armholes are large enough to be comfortable (a very essential feature in a well constructed garment.) The fronts and lapels are tailored and needle moulded so that these important parts of the garment always retain their shape. The materials used in "Sovereign Brand" garments are thoroughly shrunk before being cut. These are only a few of the features we call your special attention to as we find them in this line of clothing which we have to offer you for the fall and winter.

Our stock of new suits consists of Blue and Black Worsteds, Serges, Dark Fancy Worsteds, English Tweeds. In "Sovereign Brand" the prices range $10.00 11 00 11 50, 12.50, 14.00, 15 00. Sizes 36 to 44.
