Walkerton

Not caring to beg for that which they apparently can take by force, the Walkerton council on Monday last decided to compel the County Council through the court to take over and maintain the east end bridge.

Mrs. Dan Kaechele of Mildmay broke her arm and bruised her leg as the result of being thrown from a rig. The following day her barn, containing nearly all her implements, was struck by lightning and burned to the ground.

None of the hotel keepers in Walkerton take $50 over their bars per day, as not a single cent went out of this town to the Ontario Government for the past month, as provided by the new law requiring a turning over to the Department of 5 per cent. of all daily bar receipts exceeding $50.

During the absence of G. B. Miller from his home some parties unknown to the owner entered his cellar and ate up a portion of a ham, revelled in some nearby pies and cakes, and opened and consumed a jar of preserves, besides carrying disaster into other palatable lines.

Getting her hand between two revolving hot rollers at the steam laundry here Miss Flora Weiler had her entire arm drawn in before the machine could be stopped. On being released from her painful position her hand was found to be terribly bruised and her arm frightfully burned. The young lady had just entered the employ of the steam laundry that morning, and was feeding clothes into hot rollers which are used for ironing them, when the accident occurred. As a result of the mishap her right hand and arm will be put out of commission for many months, if not permanently injured.—Bruce Herald.

Durham

About a hundred and ten tickets were sold here on Saturday for the excursion to the model farm.

Hilton Rowe, about seven or eight years of age, had one of his feet badly cut a few days ago. While running through long grass on the side of one of the streets he stepped on a broken whiskey flask inflicting a very deep gash which bled profusely for a time. He was attended by Dr. Hutton and is now doing well.

It was quite a shock to the citizens of this town when the intelligence was passed around on Monday last that Mrs. (Rev.) Newton had died rather unexpectedly at Alpena, Michigan, where she was being treated for nervous trouble. The family is widely scattered, Mr. Newton being in Hartney, Manitoba; the eldest son, Carl, in San Antonio, Texas; the other son, Keith, in some geological work in British Columbia. As a slight personal tribute to the deceased, we may say that we always held her in the highest esteem, while we regarded the now bereaved husband as the essence of honor and true manhood—Chronicle.

On Monday evening, 5th inst., Mr. Villiers Cripps droopped dead while preparing to retire for the night. Mr. Cripps was in his 83rd year and up to the day of his death was in good health, being blessed with a strong constitution all his life. Mr. Cripps spent most of his manhood's years in this vicinity and was well known to old and young. He was a man who possessed many peculiar characteristics, but underlying all was a firm allegiance to what he considered right, with a strong fearless condemnation of the wrong, as many a wrongdoer knew. The funeral took place Wednesday from the residence of his son, Mr. James Cripps, service being conducted by his pastor, Rev. J. Phimister, assisted by Rev. W. C. Mercer.

Mrs. Mary Greenaway died on Friday morning last at the home of her daughter, Mrs. Bell. Mrs. Greenaway had passed her 87th birthday and the infirmities of old age had rested heavily on her for many months past so that death was indeed a blessed release from suffering. Mrs. Greenaway was buried on Monday at Tottenham beside her husband, who predeceased her fifteen years ago. Rev. W. C. Mercer conducted a sevice on Sunday evening last.

Doctors Condemn Oily Liniments

The Public are Warned to Be Careful of These Strong-Smelling Oily Liniments Containing Harmful Acids, Ammonia, Etc.

Many people have clung to the old-fashioned idea that a thick, greasy liniment is the best kind. Doctors say not—and they know.

Recently a number of these white, oily liniments were analyzed, and they were found to contain an enormously high percentage of harmful acids, and such irritating chemicals as ammonia, etc. For the moment they may cause a warm sensation when first applied, but their continued use never cures rheumatism, and only deteriorates the skin, sets up inflammation and causes endless trouble.

When a doctor warns you to quit using a white, oily liniment—do so. He knows that a thick liniment can't penetrate, can't sink through the pores and reach the seat of the pain.

When asked his opinion a few days ago, Dr. Roberts stated that he considered a strong, penetrating, pain-subduing liniment such as "Nerviline," to be superior to any of the white, ammonia liniments. In his twenty-five years of practice he had witnessed cases of rheumatism, sciatica, and lumbago that simply would not respond to ordinary treatment—but Nerviline cured them. The same physician also spoke of the great advantages of keeping a preparation like Nerviline in the house always, because of cramps, diarrhoea, stomach disorders, earache, toothache, headache, and such minor ailments. Nerviline is a first-class cure. There is scarcely an ache or a pain, internal or external, that Nerviline won't cure. In thousands of homes no other pain-relieving medicine is used. Fifty years' continued success and the endorsement of the profession are proof that Nerviline is the liniment for the home.

Catarrhal Deafness

Successfully Treated By

Catarrhozone

Deafness is not so common as blindness, yet thousands are more o less afflicted by it, and their comfort seriously interfered with.

Catarrhal deafness manifests itself but slowly, yet it must be acknowledged that the great majority of those who become totally deaf might have averted this unfortunate condition if they had treated the catarrhal inflammation at its beginning.

The only remedy that can be safely employed for all forms of catarrhal deafness is Catarrhozone. You simply charge the air you breathe with this healing, soothing agent, and by forcing it gently through the ears destroy the germ life which keeps up the inflammation, and at the same time by the soothing, healing action it heals the inflamed surfaces of the middle ear.

CATARRHOZONE, to those who are just a little deaf, and are growing increasingly deaf, is an agent capable of affording the utmost satisfaction, and its use is attended without danger, and as the treatment can be carried on at home no person threatened with the affliction of deafness should postpone one moment in beginning its use.

From every part of the Dominion glowing accounts of the beneficial action it exerts upon catarrhal conditions of the middle ear have been sent in, and you will be resorting to the only method of cure, and the simplest method too, if you try Catarrhozone. Dealers everywhere sell it, 25c, 50c, and $1.00. By mail from The Catarrhozone Co., Buffalo, N. Y., and Kingston, Ont.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and mental systems are invigorated; all drains cease—no more vital waste from the system. You feel yourself a man and know marriage cannot be a failure. Don't let quacks and fakirs rob you of your hard earned dollars.

THREATENED WITH PARALYSIS

BEFORE TREATMENT

Peter E. Summers relates his experience:
"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, but received little benefit. I was induced to consult Drs. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the NEW METHOD TREATMENT and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and continue to do so.
