School Section Alterations.

We understand that an attempt is being made to change the boundaries of the Flesherton School Section, as also School Section No. 6, or what is commonly known as the "Stone's School Section." The proposition is to take from Flesherton School Section the lots on the second and third concession West from Lot 140 inclusive to Lot 152 inclusive. This will accordingly take in the village at the station, and add them to the said School Section No. 5, which would make it a section of a large size.

The intention, we learn, is to build a new school house at or near the lot owned by Mr. Thomas. McArthur on the base line. As the North-Westerly limit of No. 6 would then be placed disadvantageously from the school house, it is proposed to join lots in that locality to the Priceville School Sections.

There can be no question but what School Section No. 6, under its present circumstances, is too small—with so large a slice of it off for Separate School purposes. But the great difficulty is to reconcile persons and interests. If the school house be built where suggested, would it be as convenient for the Station people and others mentioned, as Flesherton—to which place the roads are usually in a better condition. Then, again, supposing the Separate School of the said school section No. 6 cease to exist, what then? Its supporters are entitled to school privileges and that would be in No. 6. The section in such a case would be as much too large as it is now too small. These things it would do well to ponder before a change is rashly made.

The recent legislat'n provides in a measure for small School Sections—$100 for each school section in bulk is to be levied over the whole Township. It will be seen that small areas, unless villages, will not pay near their proportion of such levy, yet the small section will receive its $100, or, in other words, the larger sections will assist the smaller ones.

It is well for the ratepayers interested to seriously consider a subject of so much importance, and be fairly represented at the Council with their views fully digested, so that the Council be enabled to give an intelligent vote.

A MARVELOUS STORY

TOLD IN TWO LETTERS.

FROM THE SON: "28 Cedar St., New York, Oct. 28, 1882.

"*Gentlemen:* My father resides at Glover, Vt. He has been a great sufferer from Scrofula, and the inclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name many persons who would testify to the facts in his case.

Yours truly, W. M. PHILLIPS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the SARSAPARILLA in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. 4, 1882. Yours gratefully,

HIRAM PHILLIPS."

AYER'S SARSAPARILLA cures Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.
