Base Ball. It is now about time our base ballists were commencing to organize for the season of 1877. Lindsay should place a strong team on the [illegible] for the coming season. Base ball clubs have been amended for '77. The [illegible] leagues have resumed the [illegible] ball. Other amateur [illegible] leagues are [illegible] 1095

Dyspepsia in the Breakfast Cup. We take the following from the "Mail": Thousands are unable to take Cocoa [illegible] commonly sold [illegible] with starch or other farinaceous compound under the plea of rendering it palatable, while in reality it has become thick, heavy and indigestible. Fortunately this can easily be [illegible] of Cocoa thickens in the [illegible] the addition of the starch. Epps's Cocoa containing only [illegible] and sugar, without any admixture [illegible] preparation of Cocoa is comparatively large. Although [illegible] it will be found [illegible] that made from those [illegible] are largely composed of [illegible] and other make weights. [illegible] those attributes [illegible] property peculiarity of Cocoa, the Cocoa need not being robbed of any [illegible] constituents, and the [illegible] of the Cocoa nib not hid [illegible] any other flavor. To the invalid [illegible] is particularly recommended, being a perfect [illegible] healthy and nourishing preparation, which will lie on the most delicate stomach, taking and assimilating where others will cause nausea and indigestion, with all their attendant ills. Persons buying it will pay only for what they ask and get, while in the other cases they pay for farina at the rate of Cocoa. We would suggest that purchasers insist on receiving Rowntree's Rock Cocoa, as the popularity of this article is taken advantage of by unscrupulous dealers to get rid of their stock of "other makers." Mr. C. L. Baker has been appointed sole agent for the sale of the above Cocoa in Lindsay.

Spelling Bees. Inventors are never slack in the United States. Here is the latest, for which doubtless some ingenious Yankee will take out a patent: A new way of spelling, called "base-ball fashion," has been introduced into some of the schools in that country. Sides are chosen as in base ball, with a pitcher and catcher on each side. One side spells at a time. The pitcher on the first side pronounces the words for the other side; and the catcher on the first side "takes up" and corrects a word when misspelled by the other side. Every word that is spelled correctly is tallied for the side that spelled it, and every one spelled word is called out, if spelled correctly by the opposite side. Three out, all out. The scholars say it is lots of fun to spell this way.

Brace up and put on a Little Style. G. A. Mitchell can help you by things new and fresh in Gentlemens' furnishing goods.

Fire Alarm.—The alarm of fire was sounded on Tuesday forenoon last, but the services of the fire brigade were not required. It was Mr. Dart's house in the East Ward which took fire. The flames were extinguished before any damage of consequence was done.

For cheap Pipes, cigars and tobacco, both smoking and chewing, from 50 cents up, all of the choicest brands at Joe Rigg's Hair Dressing and Shaving Parlor and Tobacco Store, opposite the Post Office, Lindsay. 1092-4

Ten Nights in a Bar-Room.—At the request of a large number of friends the Lindsay Amateurs will produce this beautiful drama with all the necessary tableaux and effects. Those who have not seen this drama should see it now as it is the last time it will be played by the Amateurs. The performance will conclude with a farce entitled "One Night in a Bar Room." Notwithstanding the extra expense in producing this drama the prices will be kept as usual, 15 and 25 cents. Full particulars next week. The "Bag Pickers of Paris" will be produced as soon as proper rehearsals on it can be obtained.

DISTRICT NEWS.

BEAVERTON.

From the Beo.

Accident.—The train on the Midland, going north, on Wednesday, 28th ult., ran over a cow at the Drakeville crossing, about one mile from this village, and cut it in pieces. The cow, as the weather continued fair and fine up to the 19th of March, and then snow fell to the depth of three feet in a very short time. Work here, as in other places, is very much retarded, but we are waiting for the good time coming. The induction of the Rev. D. D. McLennan to the united charge of Kirkfield and Victoria Road will take place on Thursday, 15th inst, service beginning about 2 o'clock p.m. at Victoria Road.

One member is again at home among us and well.

BOBCAYGEON.

The "Independent" says:—A numerously attended meeting of the farmers in the immediate neighborhood of this village took place on Saturday afternoon, 24th ult., in the Town Hall. Mr. Wm. Thurston was called to the chair. Mr. J. L. Read stated that he had taken upon himself to call the meeting for the purpose of considering the advisability of establishing a Cheese Factory. He thought that such an establishment would be a great public advantage, and would also be a profitable business to embark in. He would not beat about the bush for a single moment, but would tell them at once that he was prepared to build the factory, and fit it up complete and ready for business, if the farmers in the neighborhood would guarantee him the milk product of one hundred cows for three years. The building would cost about $1,000. He would be able to pay 8 cents per lb. for the milk delivered, or 7 cents at their own houses; or if they wished he would manufacture the milk for them charging only for the work done. A long discussion, of a conversational character, followed, and it was admitted that milk at 8 cents per lb. was equal to butter at 24 cents per lb. A large number of persons put down their names, but as it was only a preliminary meeting there was nothing done of a binding nature.

Correspondence of The Warder.

District Lodge Meeting.—According to announcement the District Lodge I. O. O. F. met at Cameron on Friday the 2nd inst., owing to the bad state of the weather only three lodges were represented. The D. P., Bro., Jos. Ayers occupied the chair, and called the lodge to order at 10 o'clock, p.m. The following resolution was passed: That in view of the increasing evils of intemperance and the danger to which the young of our land are exposed, the necessity to furnish work, and that they adopt which ever system of work best suited to the members. The usual routine of business was then transacted, after which the lodge adjourned to meet at Faithful Lodge, Rosedale, on the first Tuesday in June at 10 o'clock a.m.

Whisky Tactics.—A dastardly attempt to blow up the stove in the Temperance Hall, when the Chaplain was pronouncing the benediction at the meeting of the District Lodge. There was a loud explosion, and the stove door was blown open, and part of the fire was scattered over the floor. Upon examination it was found that one of the sticks had been charged with gun powder, with the intention, it is supposed, of destroying the stove and perhaps burning the hall, but fortunately the plot failed and no harm was done. Perhaps if this modern Guy Fawkes would report himself at the headquarters of the Licensed Victuallers Association he would receive a medal in commendation of his noble and disinterested services.

Entertainment.—The members of Cameron Lodge gave a free entertainment on Friday last. Notwithstanding the inclemency of the weather there was a large attendance. The programme was excellent, especially the singing, which was ably rendered by the choir, Miss Annie Ayers presiding at the organ with her usual taste and ability. The entertainment was pronounced the best of the season, and was prolonged to the "wee sma' hours."

Correspondence of The Warder.

The tea-meeting and social held by the members and friends of the M. E. Church, Cambray, on the 1st inst., was a grand success, all things considered. Notwithstanding the unfavorable condition of the roads and the fact of special services being held in a neighboring church, there was a very respectable gathering, upwards of one hundred persons taking tea. The provisions were very abundant and gave particular evidence of the skill and large heartedness of the committee who certainly spared no pains to please the palate. After all had freely partaken of the viands, our respected friend, Mr. Berkely, was voted to the chair, and gave a short address, calling on Messrs. Brignall and Billings to occupy the platform, which they did, giving short and solid sentences of advice, Mr. Billings dwelling on the elements and philosophy of Christian profession.

The social on Monday evening proved an enjoyable occasion, the church being filled with happy hearts intent on being truly sociable, all were fully served with loaded plates and hot tea, so that one was constrained to say, "these Methodists have hearts as large as much tube," and there was enough to spare. Mr. Berkely was again called to the chair, and Miss Ida Billings to the harmonium. Music and addresses charged the attention for a short time, after which the balance of provisions was disposed of and all departed feeling the better for having been together. Although the speakers who were especially invited failed to put in an appearance (we shall not forget their kindness if opportunity offers) the audience did not fail to make the best of circumstances. The proceeds realized amounted to the nice sum of $50.57, much to the satisfaction of the committee who wish to express their thanks for the opportunity afforded by the public.

the evidence the inquest was adjourned until this (Thursday) evening, when it is probable they will render their verdict.

BOLSOVER.

Correspondence of The Warder.

Accident.—Samuel Jamieson, Esq., of the lumbering company here, while engaged in gumming a saw, had his arm broken, (a compound fracture,) and a very deep cut from the bending of the gummer. Dr. Fair was with him very soon, having driven from Beaverton, 12 miles, in the darkness of Friday night in about an hour and a half. We are glad to know that up to ten o'clock this morning Mr. Jamieson is doing well.

Temperance.—A division of Sons of Temperance was organized here last month and are doing well.

The Presbyterians of this place have lowered the standing of their minister very much, but it was done very gently, and he feels now more at home among his people than before to his too elevated position. The pulpit has been greatly improved in shape. The Rev. Mr. Watson preached in English and Gaelic last Sunday to a very large congregation in this place, and he has the gratitude of the people for many past kindnesses as well as for the present. We are in hopes of getting a little more snow yet. Not the oldest inhabitant of this place remembers 40 years ago a February such as '77 has been, when the weather continued fair and fine up to the 19th of March, and then snow fell to the depth of three feet in a very short time. Work here, as in other places, is very much retarded, but we are waiting for the good time coming. The induction of the Rev. D. D. DEATH OF AN OLD SETTLER.

We have in this issue to record the death of an old settler in the person of Col. Benj. Springer, who passed away on Saturday evening at the residence of his son-in-law, Dr. Tufford, aged 70 years. The father of the subject of this notice was also Col. Springer, a U. E. Loyalist, who came here in 1776, his father being killed by the Americans. Col. Springer, sen., was the first settler in the Western District, there being at that time no road but the old Indian trail now known in part as Brock street. He first settled at Hamilton, and then moved to what is now known as Delaware, London being at that time but a howling wilderness. There deceased was born, and he continued to reside in this section till his death. At the age of seventeen he began to study the profession of civil engineer and land surveyor under Colonel Burwell, and on graduating he went into practice, laying out most of the western townships for the Government of the day. In 1828 he was made a magistrate, and he held the office for many years. During the troublous days of '38 he took up arms, being enrolled as captain, soon, however, obtaining promotion to a colonelcy. He survived his wife some seven years. Col. Springer leaves nine children—all living—one being the wife of Dr. Tufford, and another the wife of Mr. W. H. Flood of this city. The father of deceased, it may be remarked, was the first magistrate in this western part, and also the first postmaster, this being at a time when the mails were brought from Hamilton on foot. Mr. Springer was of a quiet and retiring disposition, and took little active part in the offices of the community during his latter years, but by those to whom he was known he was greatly esteemed, and his death will cause many to feel sad.—"London Advertiser."

AFFAIRS IN PARLIAMENT.

In writing to the "Mail" on the 3rd the Ottawa correspondent of that paper says: If Mr. D'Alton McCarthy were not too sensible a man to be thrown off his balance by the praises alike of friend and foe, we might begin to dread that he would suffer from the eulogy of his last night's speech. There is probably no similar instance in recent times of a man taking, at a single bound, the high position which Mr. McCarthy undoubtedly holds to-day in Parliament. The Conservative Party have need to be proud of such an acquisition to their strength in the Commons.

PAYING RATHER MUCH FOR THE WHISTLE.

Mr. Bowell brought out the fact to-day in the Public Accounts Committee, that the Ottawa "Free Press (Grit) and "Times" (ben Grit) together received $1,140.75 for printing Mr. Cartwright's Budget Speech of 1875. No one can say that this was a legitimate expenditure of public money. It was pap of the kind given to Speaker Anglin, but on a somewhat smaller scale.

THE FOSTER MATTER.

Ottawa, March 4.—Mr. Mackenzie has vouchsafed through his Toronto organ some information as to the iron rails at Renfrew for which he paid Mr. A. B. Foster some $68,000. The facts stated in that paper only tend to make stronger the suspicions of corruption already pretty well established. It is stated that the value put upon the rails is $18 a ton. Why steel rails could have been purchased for less! But it was never intended that the Government should be the purchaser of these rails! Upon whatever quantities required by the contractor, and which he could show to the satisfaction of the Department of Public Works were deposited along the line of road, he was to receive seventy-five per cent of their value. These rails he deposited at a point at least ten miles from the terminus of the railway, and not a sod was ever turned upon it by Mr. A. B. Foster. The case presents but a few of the many singular features of this extraordinary transaction, of which doubtless a good deal more will be heard. A very interesting point is whether the Government own the rails now after having, contrary to the spirit of the Order-in-Council adopted by Parliament in the session of 1875, paid so much money on them. Some contend that they do not.

THE INSURANCE BILL.

It looks as though there would be considerable opposition to the Insurance Bill after all. Insurance men from Montreal and Toronto are gathering in force in the hope, if they cannot secure its withdrawal, of at least obtaining some radical amendments.

Hon. Wm. Macdougall, Hon. Adam Crooks, and Mr. G. D'Arcy Boulton arrived in town this morning, it is understood principally in connection with this bill.

EPPS'S COCOA.—Grateful and Comforting.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack where ever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame." "Civil Service Gazette." Sold only in Packets labelled—"James Epps & Co., Homœopathic Chemists, 48 Threadneedle Street, and 170, Piccadilly, London."

JOHN HAISLEY.

SLEIGHS AND CUTTERS.

L. O'CONNOR

In issuing his third annual winter circular, would respectfully thank his numerous friends and customers for the liberal patronage bestowed upon him since commencing business in Lindsay, and would call attention to the large and varied winter stock, which comprises

Pleasure Sleighs, Single and Double, Portland, Dexter,

Piano Box, Conboy's Turn Down Seat, and Swell Side Cutters, and a large variety of Sleighs—Long and Bob.

The material used in the above is the very best second growth hickory timber, warranted dry, and the workmanship cannot be excelled in this section for design and durability—which have been substantiated by the fact that I have been awarded the first prize wherever I exhibited my goods. This winter's stock is the best ever got up in Lindsay. A large number of rigs are now on exhibition, an inspection of which is solicited. All work warranted. Repairs done on the shortest notice, at reasonable prices and first-class style. A large stock of Collins constantly on hand, which will be sold at least one-third cheaper than at any other place in town.

L. O'CONNOR.
