ANOTHER INTERESTING LETTER FROM MR. J. M. WEBSTER.

Mr. Editor,—In my last to the Standard, which was dated up to Sept. 4—at which date I mentioned my abhorrence of such continual rain. And here let me say, that I expected a good deal of rain in this country and I have not at all been disappointed. September, October, and November, it rained by computation about 20 days in each month. Oh, yes! and nights also! The rain fall for November I know is given at 8.77, or nearly 9 inches!—enough, you will say, for a whole year.

Frost set in about the 19th of Dec. and for a few weeks we had pretty cold weather, the thermometer getting down to 10 below zero. But, although that doesn't indicate much cold with you, yet I think it as cold as though it was 20 below; this I think is owing to the damp atmosphere. About 13 inches of snow fell, giving four or five weeks sleighing. All disappeared during the first week in February. March very dry, and up to date, April 12, only a slight shower.

Seeding operations, potato planting, &c. is pretty well in hand.

Now, Mr. Editor, I have given you as correct an idea of the weather as could be given, but still I find I am misconstrued. Some people say I give a bad account, and then reason by saying it cannot be bad or else I would not stay. All I have to say is that the mildness of the climate is favorable for cattle raising. And, although I am suited, 75 per cent of those who come here are disappointed. I know parties who, after a short stay, have went home, and lo! here they are back again. I wish to state nothing to induce or otherwise prevent those desirous of coming or staying from doing so.

I have before stated that land is hard to clear, and I think settlers here should be placed on the same footing as regards free grants as in Manitoba. The Dominion Gov't cannot be so hard pressed but this could be done. You cannot imagine the difficulty there is in clearing timber land, that is, fir lands.

In so far as travelling is concerned, I may state that the most timid need have no fear. The North'n Pacific officials from Flesherton through the whole route, are most courteous and attentive and give every assistance to passengers. Such is the experience of my family. Even if the C. P. R. was completed to-morrow I wo'd not risk myself on it.

The "CONSTANTLY TIRED-OUT" feeling so often experienced is the result of impoverished blood, and consequent enfeebled vitality. Ayer's Sarsaparilla feeds and enriches the blood, increases the appetite, and promotes digestion of the food, and the assimilation of its strengthening qualities. The system being thus invigorated, the feeling rapidly changes to a grateful sense of strength and energy.

AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs; none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me.

HORACE FAIRBROTHER."

Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,

MRS. EMMA GEDNEY."

159 West 128th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried.

A. J. CRANE."

Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL.

JOSEPH WALDEN."

Byhalia, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles.

F. BRAGDON."

Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will *always cure* when the disease is not already beyond the control of medicine.
