Immortelles.—A fine offer has lately been opened in this Province bearing the name of Hamilton.

Kingston and Lindsay Railway.—The by law granting $12,000 to the above railway was defeated on Tuesday of last week in the township of Harvey by a majority of 17.

Water Works Extension.—Mr. James McKinley, the contractor for the water works extension on William street, commenced work, with a large force, on Tuesday morning last.

East Race.—The double scull race at Orillia on Friday last between Elliott and McKen, of Toronto, and Gaudaur brothers, of Orillia, for $200 a side, was won by the latter with ease.

Mail Car.—The handsome new mail car recently placed on the Whitby, Port Perry and Lindsay Railway, is a great source of convenience to the public. The mail train runs daily between Whitby and Kinmount.

Personal.—Mr. Andrew Walker, ex-Reeve of Ops, and a life-long resident of the township, is taking his departure this week for Essex County, where he has purchased a farm and intends locating. Success attend you "Andy."

Interesting Case.—A case of unusual interest will come up for trial at the next Court here. Suit has been brought against two hotel keepers in Cannington for selling liquor to a young man after being forbidden to do so by his mother. The damage claimed is $200 in each case.

Casualties at Bobcaygeon.—Last Saturday a man named Wm. Long, of Peterboro', in the employ of Messrs. Gilmour & Co., was killed by a tree falling on him while at work in their limits. His body was taken to Peterboro' the same evening. He leaves a wife and one child. On the same day a son of Mr. Wm. Trotter had both his arm and leg badly broken by his team running away and the wagon passing over him. His state is reported to be critical.

Church Dedication.—The new Methodist Church in the East Ward will be opened for Divine Worship on Sunday next. Sermons will be preached at 11 a.m. by Rev. W. Jeffers, D. D.; at 3 p.m. by Rev. J. Hastie; and at 6.30 by Rev. J. Greener. A collection will be taken up at the close of each sermon in aid of the trust fund. On Monday evening a tea meeting will be held in the Church commencing at 7 o'clock, after which addresses will be delivered by Rev. Dr. Jeffers and others.

Exactly What's Wanted.—A correspondent takes his pen in hand to inquire, "Why don't you have folks write for your paper more?" Now, that is just what we do want, to have people write more for our paper. We want them to write for the paper to be sent regularly to their address, but we don't want them to forget to enclose $1.00, which is the subscription price for one year, invariably in advance. And our correspondent may write for our paper, too, if he feels like it, but let him not neglect the inclosure. We will give the paper from now until the end of next year for $1.00.

Lindsay Public School.—Moventry Excursionist, Grade 1. The pupils who passed the last monthly examination are: Class 1. Tettie Mathews, 185; C. Naylor, 155; Mary Rogers, 152; A. Morgan, 150; Mon. Smith, 142; Maggie Keith, 142; Lizzie Wilburne, 134. Class 2. A. Cornell, 368; H. Watson, 280; F. Finch, 262; F. Watson, 258. Class 3. I. Dundas, 318; F. Wardle, 294; A. Wray, 286; May Smith, 216. The full number of marks is 450. Three other pupils were not classed as they failed in one of the subjects, though they succeeded in getting the number of marks necessary to pass. W. J. Hartery.

Helen Blye.—This talented actress, supported by a company, of more than ordinary ability, gave two performances in the Opera House on Friday and Saturday evenings last. In the character of "Camille," Miss Blye's acting was far superior to anything yet presented to a Lindsay audience. Mr. Brian, as "Armand Duval," sustained the high reputation he has earned during his short career upon the stage. On Saturday evening Miss Blye appeared as "Juliet" and Mr. Brian as "Romeo," in Shakespeare's tragedy of Romeo and Juliet, and gave entire satisfaction to a large audience. The manager announced that the Company will return next week. While all were satisfied with the performance, very few appreciated the management of the reserved seats. Parties who engaged their seats at the book store were not a little mortified on finding their occupied by others when they arrived at the hall. We do not expect if the Company performs here again that the management of the reserved seats will be somewhat different. The Company is far above the average, and is deserving of the patronage of the theatre going public.

Worth Twice the Sum.—We are just in receipt of The Chicago Lenoxes, the leading Family Paper of the West, which is now entering upon its seventh volume. The Lenoxes is a large forty-eight column weekly paper, printed upon bold, plain type, which can be read with ease, by either the old or young, and is filled with choice stories and matter of particular interest to every household. This excellent journal is supplied to subscribers, postage paid, for the extremely low price of one dollar and fifty cents per year. In order to more rapidly increase its present large list of readers, the publishers of this paper have just made a new contract for the manufacture of several thousand fine Nickel-plated English Steel Barrel and Cylinder Seven Shot Revolvers 32 calibre, which they propose to distribute among their subscribers at cost, and therefore offer one of these elegant weapons of defence and The Lenoxes one year for Three Dollars. The revolver will be sent by mail, postage paid, on receipt of the price. They have already distributed 3,000 revolvers and are selling hundreds daily. Now is your time to get a first class revolver and the best paper in the country for less than half the actual worth of either. Pure sample copies of The Lenoxes will be sent to any address for ten cents. Address The Lenoxes, Chicago, Ill. 1199-4

The Cobourg Fair.—Speaking of the late Central Fair held at Cobourg, the Peterboro' "Review" says: "However satisfactory the Cobourg Exhibition may have been in other respects, it certainly has not proved a financial success. The entrance money taken at the gates fell short of that at Lindsay no less than $700, and the entrance fees also fell short about another $100, making in these two items a decrease of $800. As the amount handed over from Lindsay was about $800, it will be seen that the result is that things will just about come out square this year and that the Peterboro' Central next year will have no surplus to fall back upon. We have reason to hope that the Agricultural Societies in the front will be more liberal than usual in making their grants to the Central Exhibition next year in consequence of these untoward circumstances." To the sluggishness alone of the Directors in the past must be attributed the non-success of the Cobourg Show. In the County of Victoria the Exhibition was advertised only by a few small bills stuck up at random, consequently the representation from the County was very meagre indeed. Last year the Lindsay papers gave a large amount of gratuitous advertising and they were repaid by having their accounts for legitimate printing and advertising disputed. One paper we know of purposely avoided inserting anything in connection with the Cobourg Fair, in consequence of its editor's experience in that direction. If the Directors mean to be up and doing next year, and cater to the public—and we presume it is—there will be a good fair, and the Directors cannot have a better opportunity than now to change the present unpopular, obsolete, fogy policy adopted hitherto, for a bolder and more liberal one. If they can drive or bribe the press of the Province to be on their side, they need not care a cent for the people, and find for "dear life." When last seen it was making Kent Street on the hill at the Union School.

[illegible] Fire.—About 2 o'clock [illegible] of the 14th inst. a fire was discovered in the house of Mr. Thomas Elliott, Lot 1, Concession 1, Dunsford, township of Eldon, Victoria County. The house was occupied by Mr. Wm. Dunlop, Lot 11—1st, George Henderson; 3rd, John Miller; 4th, Stanley Shank. The names are arranged in order of merit. Wm. G. Mills, Teacher.

G. Rennie Rennet.—One of the Bobcaygeon House "boys" imagined he could do the Rennet business a little better than the original or even the actor of the previous Saturday evening, so last Sunday he ventured, on a slight acquaintance with old Capulet, to call on the fair Juliet and invite her to accompany him not exactly to Friar Lawrence's cell but to some more public conversional. The spurious Rennet was evidently not to the taste of Juliet for he was told to go to the apothecary and poison himself. The "boys" say Rennet don't wrestle with his beats as lively as he used to do.

Narrow Escape.—What might have been a serious accident occurred in the express office on Wednesday of last week. A Winchester repeating rifle, addressed to Jay Ketchum, arrived by express from Peterboro'. While a young man employed in the office was examining it, it went off, and the ball passed through the wall into Mr. Hellger's store breaking three show cases and lodging in a drawer under the counter. A young woman who waited on customers had a very narrow escape, being only a few inches from where the ball passed.

Leaving Town.—Mr. James Neelands, for the last six years connected with his brother's dental office in this town, will leave here to-morrow for Napanee, where he has purchased the practice of Dr. Clemente, which has been established for 22 years. This evening a number of Mr. Neelands' friends will entertain him at a complimentary supper at St. George's Restaurant. In Napanee, as here, we are sure that Mr. Neelands will command the respect and good will of all who form his acquaintance. In his profession he ranks high, having practiced in connection with his brother for over six years. We wish him prosperity. We understand that in his stead his brother has secured the services of a competent assistant.

The Tramp Question.—In opening the assizes at Brockville, Mr. Justice Armour threw out a suggestion about tramps, says the Toronto "Telegram." Tramps are becoming rather numerous in Canada, and as the cold weather begins to set in they begin to gravitate towards the cities. By the time winter arrives the jails are full of able-bodied vagrants who are too lazy to work and who know that they can always calculate upon finding comfortable winter quarters in the county jails, where they are well housed, well fed, and well used. Mr. Justice Armour said he was glad to see that an effort was being made by the Ontario Government to surmount the difficulties which beset the tramp question by supplying outside labour for all vagrants who were sent to jail. In case no suitable labour could be provided, he thought it would not be a bad idea to try the treadmill, which would be the means of deterring many vagrants from obtaining good easy quarters, where they are fed and clothed at the expense of the hard-working classes. The truth is, we have made our jails and prisons so comfortable and inviting that every tramp and vagabond looks upon them as houses of refuge, and has got hold of the impression that the country would feel offended if he did not patronize them by going into winter quarters. The treadmill would soon disabuse their minds of that idea.

Board of Education.—The regular meeting of the Board of Education was held in the Town Hall on Wednesday evening, Nov. 6th. Members present Messrs. Grace, Mann, Cornell, Keith, Wray, Duncan, Deacon, Irwin. Members absent—Messrs. Heap, Twamley, Browne, Crandell. Reports were received from Messrs. Dobson and McFaul of the attendance, etc., in the High and Public Schools for the month of October. The Finance Committee presented a report recommending the payment of the following accounts:—C. D. Bare, $12.75; S. Tucker, $88.85; Jabez Thurston, $81.49; Thos. Clarke, $1.50; J. H. Knight, $58.95; Total, $243.54. Moved by Mr. Cornell, seconded by Mr. Mann, that the report of the Finance Committee be adopted—Carried. Communications were received and read from the Misses Hamilton and English with reference to salary for the holidays, and from Miss Richardson resigning her position at the end of the term. Applications for re-engagement for 1879 were received from Messrs. Dobson, McFaul, Hallett, Irwin, and Mills, and from the Misses Peplow, McSweyn, Hunter, Wray, King, Hempton, Graham and Jewett. Moved by Mr. Deacon, seconded by Mr. Wray, that the resignation of Miss Richardson be accepted, and that the Secretary be instructed to convey to that young lady an expression of approval of this Board of her zeal and usefulness in the position which she now resigns.—Carried. Moved by Mr. Irwin, seconded by Mr. Wray, That the Secretary be instructed to write to the Department of Education for information as to the number of qualified teachers employed in the Separate School in this town with the names of each, also the number of pupils on the Separate School Register.—Carried. Moved by S. Cornell, seconded by Mr. Mann, that the Treasurer be authorized to pay Miss English and Miss Hamilton's salary up to the 27th July last the date of the expiration of their certificates, and that he be instructed to reply to their letters stating that on the expiration of their certificates they ceased to be legally qualified teachers and according to the circular received from the Department on the matter they cannot claim salary after that date.—Carried. Moved by Mr. Deacon, seconded by Mr. Duncan, that Messrs. Dobson, McFaul, Hallett, Irwin and Mills, and the Misses Peplow, McSweyn, Hunter, Wray, King, Jewett, Graham and Hempton, be re-engaged for the year 1879 at their present salaries, and that the Secretary advertise for successors to Mr. Davidson and Miss Richardson.—Carried. Moved in amendment by Mr. Cornell, seconded by Mr. Mann, that the Chairman, Mr. Mann and the mover, be a Committee to confer with Miss Peplow as to her demand for an increase of salary and report to the Board.—Lost. Meeting adjourned.

EPPS'S COCOA.—(GRATEFUL AND COMFORTING.)—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette. Made simply with boiling water or milk. Sold only in packets by Grocers, labelled thus: JAMES EPPS & CO., Homœopathic Chemists, London, England. 1199-1y

COMMERCIAL.

Office of The Warder, Wednesday Evening, Nov. 14, 1878.

THE PRODUCE MARKET.

There has been no marked improvement in the character of the market since our last issue, and with the exception of Saturday last, few farmers have been in town. The receipts of grain brought in foots up about 5,200 bushels as follows: Spring wheat, 4,000; fall do, 800; barley, 400; peas, 200. Barley was selling to-day at from 40c. to 45c., a considerable decline in prices since last week's report. Flour is down from 10c. to 20c. per barrel. Pork and provisions remain about the same as former quotations. Quite a lot of butter has been coming in during the last month. During that time Messrs. Dunlop & Flavelle Bros. have bought about 200 packages, averaging 10c. per lb., some higher than 12½c.

English Grain Trade Last Week.

A Liverpool cable despatch of Friday to the New York press quotes a leading grain circular of that day as follows:—"The wheat trade to Sunday last still continues, and prices have advanced from 1c to 2c per qr for off coast as well as for cargoes afloat. The rates for shipment have also improved. Altogether there is more life and elasticity in the trade. Arrivals into the Kingdom have been smaller. On the spot and generally through this district the tendency is favourable for holders, and more confidence prevails. Make to rather dearer upon the present and anticipated moderate importations. To-day's market was fairly attended. There was a good consumptive demand for wheat at the quotations of Tuesday. Flour was steady. In corn there was a fair business at the last currencies."

Trade in England.

Our English files come down to the 29th ultimo. There is little in the trade circulars to relieve the discouraging reports transmitted by cable following the Glasgow Bank collapse. Manchester is especially gloomy. The "Examiner" sums up the situation there thus:—

"Merchants are not yet able to see their financial way far into the future, and, with that caution which has been bred of the past fifteen years' experience, they prefer to stand aside and consolidate, leaving the market to be cleared in the natural course of all unsoundness before attempting to re-commence operations. Moreover, the banks are scarcely disposed yet to second any efforts at enterprise."

Commercial bankruptcies occupy an unpleasant conspicuousness in the journals. When these are reduced to statistics, the result is, to say the least of it, impressive—thus: during the period from September 24th to October 25th, there have been 102 English and 72 Scotch bankruptcies, 29 winding up notices, and 1,215 liquidations. This list applies simply to England and Wales, with the exception of a small number of Scotch bankruptcies; but it does not apply to Ireland, nor generally to Scotland. Again, during the five weeks alluded to, there had been a total of 1,418 winding up notices, bankruptcies, and liquidations; and when it is remembered that a number of private liquidations which were not registered have taken place in all the great trade centres, nothing further need be said to depict the discouragements of the situation. At the same time it must be borne in mind that since the departure of the mail the cable has advised us of the return of an improved feeling, with the hope that the worst has been passed.
