The hanging of Love

From the Toronto Star

There has been considerable discussion about the execution of Love at Owen Sound for the murder of his wife. Letters have been sent to the Star from readers who argue that his sentence should have been commuted because the evidence against him was circumstantial and because no motive was established. Some of our exchanges have taken this view.

As nearly all murders are committed in private at a time and place secure from the prying eyes of witnesses, convictions for murder are necessarily based on circumstantial evidence. What other kind is there? There is no other kind except in cases where murder has been done in public, or where the guilty person confesses.

As to the question of motive, it is in ordinary cases, possible to find one. But if a man kills his wife in the privacy of their home, how would it be possible for outsiders afterwards to ascertain the motive? We do not see that much importance need be attached to the fact that a motive was not established.

Those who argue in regard to this case, as they do in regard to all cases that capital punishment is wrong, locally demoralizing, and ought to be discontinued, occupy definite and logical grounds. A hanging revolts popular feeling in a town or country only a trifle less than does the crime it punishes.

But as to this case itself, we do not see why any conscience should be disturbed by a doubt as to the man's guilt. We believe any judge on the bench or any expert in such matters would have considered the evidence amply sufficient to warrant conviction.

Geo. Bedesian, an Armenian, was fined $100 and costs for selling liquor at Galt. An informer disguised as a chimney sweep, had taken whiskey in return for his labor.

A German farmer was in search of a horse. "I've got just the horse for you" said the livery man. "He's five years old, sound as a dollar and goes ten miles without stopping." The German threw his hands skyward. "Not for me," he said, "not for me, I live eight miles from town, and mit that horse I have to valk back two miles."

The air in Mexico is said to be clearer than anywhere in the world and is the only country where a view extending to 200 miles can be obtained. By climbing to the top of the Sierra Mountains the lonely peak of Mt. Sparta can be seen. It would take four hours by express train to reach it.

At Le Pas, Manitoba, the southern terminus of the Hudson Bay railway, there will soon be erected the second largest wireless station in Canada. It will include four 250-foot steel towers and will cost about $100,000. Plans are under discussion for establishing several wireless stations in the far Northwest; viz., from Athabasca Landing up the Mackenzie River to Herschel Island, in the Artic Ocean, and from there to Rampart House, in the Yukon. Such stations would be valuable for scientific purposes, especially for collecting meteorological reports, and would also be serviceable to the Northwest mounted police.

HORSE ROUTES

PROHIBITION KING

THE TROTTING COLT

Breed to trotters and get trotters, and to show horses to get show horses. Prohibition King's enrolment No. 975 has been enrolled in accordance with Chapter 67 of the Statute of Ontario 2 Geo V. Prohibition King in his two-year-old form is a nice clean, jet black colt, standing 15½ hands high. He is bred to go fast and is certainly gaited to go fast, being one of those high going, open gaited trotters and we may well expect this colt to step fast in another year, as he is bred and gaited for it. He has made his first appearance in the show ring, defeating such horses as Red Top, Ravonia, etc. What will this fellow do when he comes to his growth. Prohibition King has the fast connections and by reading over his pedigree you will find he is of the same family as Minoo Heir 1.59½, the only horse, living or dead that ever beat Dan Patch, Lady of the Manor 2.04 Dare Devil 2.09, Heir at Law 2.00¾, Lord Derby 2.05¾, Nightingale 2.08, Mocking Boy 2.08¼, King Charlie 2.08, The Abbott 2.03¼, Shadow Times 2.05, The Monk 2.05¾, and under dress others with very low records

His sire, Lord Ross 35673, A. T. R. was one of the best bred horses in Canada and was a winner wherever shown and also won sweepstake for best Standard Bred Stallion and three of his colts: and sired by a full brother to Dare Devil 1279, by Mambrino King the handsomest horse in the world. His dam, Nettie, F by Prohibition 2.21¼, 21812, by Petoskey 3933, he by Geo. Wilkes 519, was one of the few to have 158 first prizes and diplomas to her credit, and that she speaks for herself is the best evidence that can be given.

Monday morning—Will leave his stable, Meaford, to Clarksburg for noon and to Chas. Hill's for night.

Tuesday—South to John Dobson's for noon, then by Maxwell sideroad and H. Guy's, Maxwell for night.

Wednesday—By gravel road to Thos. McArthur's, Ceylon, for noon, and Markdale for night.

Thursday—Berkeley for noon and to Wm. Geo. Dixon's 10th line for night.

Friday—North to Bognor for noon.

DON CARLOS

The Sweepstake German Coach Stallion will have same route and stands. This horse has been enrolled No. 1047 under Chapter 67, of the Statutes of Ontario 2 Geo. V.

The above stallion was under said Act inspected by the officers of the Board and found to be free from the malformations and diseases named in the regulations of the said Act. Arrangements can be made for living colts by applying to the manager.
