Registered Letters must be posted 10 minutes before the close of each mail.

Office hours 8 a. m. to 7 p. m., Sundays excepted

H. GLADMAN,
P. M.

Lindsay July 14th, 1884.

News of the Week.

The inquest, thrice adjourned, on the body of J. Johnston, was resumed at Peterboro on Monday night. It was again adjourned for two weeks.

A petition is in circulation in Guelph praying the mayor to call a mass meeting of citizens to discuss the question of the Grand Trunk railway workshops.

Rates to Chicago from Buffalo have been reduced to $10.50 by the Erie, West Shore and Lackawanna roads, and that scalpers sell for less.

Capt. Rivard and Krebs made a balloon voyage from Meudon to Belancourt, France, on the 8th, and returned, alighting at the point where they started from. They steered successfully.

Edward Wilsnot, a stable boy from Toronto, stole $1,200 from his employer and fled to New York. He was arrested while making a tour of the Bowery. He had $160 Canadian money in his possession.

The postoffice inspector for London district, R. Barker, is arranging to place a memorial window in St. Mark's church, Kingston, in memory of his father, the late Dr. Barker, and other members of the family deceased.

The body of Capt. Griffiths, of the wrecking schooner New Dominion, washed ashore at Port Maitland, was taken to his late home at St. Catharines for burial. This is the only body found since the wreck was first discovered.

It is understood that the supreme court has sent a report to the government sustaining the validity of the Scott act petition from Kent county, Ontario. It is decided that as it is not claimed the signatures were obtained by misrepresentation they cannot be withdrawn.

Cali and other towns in Southern Columbia report that the severest shock of earthquake experienced for three years was felt on the 6th. The church of San Pedro at Cali is wrecked. Another church and several houses suffered severely. Other towns escaped without serious injury.

The National portrait gallery at Ottawa has received thirty-two pictures from the South Kensington art school. They are all copies of works done by the students of that institution and form a valuable addition to the works in the Canadian gallery. They are varied in matter and are in position now.

There is a little boy at Dayton, Pa., who should be hanged right away, for if he is allowed to grow up he will probably commit shocking crimes. His name is Houser; his age is fourteen, and his latest atrocity was to strip his little sister naked and place her on a red hot stove, and holding her there until she was frightfully burned. The little girl will probably die.

The innocent and harmless oyster sometimes becomes a "delusion and a snare." It is said that, when fresh dredged, the unfortunate bivalves are often thin and dyspeptic looking. Before getting into the market they undergo a wonderful transformation, becoming plump and hearty. This is affected by plunging them into the bed of some fresh creek water and allowing them to what is termed "drink," the water during the ebb and flow of a single tide. One day's dip enlivens them and doubles them in size. There are also methods of feeding and fattening them. In the cool fall weather they are laid out on a sandy cellar floor in such a position that they can open their shells without difficulty. Above them is spread a woolen blanket which is covered with meal and sprinkled with sea-water. This process is repeated until they attain a satisfactory state of corpulency.

Port Dalhousie can boast of three of the smartest old ladies in Canada. Mrs. Duffin, an Irishwoman, is 94; Mrs. Philmore, English, will be 92 on January 1st, 1885, and Mrs. Mathieland, Irish, is drawing toward her 93rd year.

Hon. Alexander Mackenzie is now in New York. He is afflicted with partial paralysis of the left arm, but his physicians entertain a hope that the use of the arm will be fully restored and that the trouble about his voice can also be removed.

The Joseph Hall Manufacturing Company, of Oshawa, which has been weighted down with debt for years, has at last come to a stoppage. Tuesday of last week the court of chancery ordered the Co. to go into liquidation, and an administrator has been appointed.

The personalty of the late John Riordan is sworn under $400,000, while the value of the real and personal property is not less than $1,000,000. The widow receives an annual sum of $12,000 for life and the family residence at St. Catharines. Charles Riordan, testator's brother, gets half of the mill property at Merritton. Considerable legacies are bequeathed to testator's sisters, Mrs. W. J. Douglas and Mrs. Carlisle, and to Mrs. Mooney, of Buffalo, his widow's sister. John Riordan, the only child, gets $4,000 per annum till he is 25 years old, when the remainder of the estate will pass into his hands. John Green, an old servant, get $2,000.

One morning last week Jas. Hogg, a well to do farmer of Puslinch, was given an unpleasant surprise. On going to his stables he found three of his horses missing. His first thought naturally was that they were stolen. A search was accordingly instituted, and after looking over their own farm for a short time they found one of the missing horses running around a field with a halter on. A short time afterwards they found the other two in a swamp on the farm lying side by side with their throats cut from ear to ear. About two years ago Mr. Hogg's large barn was destroyed by fire under suspicious circumstances, and last spring his reaper was broken to pieces.

It appears that during the recent contest on the Scott act in Dufferin the following circular was largely distributed by the anti-Scottites: (Private.) Ottawa, 28th October, 1884. "Fellow Conservatives—It is with the deepest regret that I have to announce to you that the temperance party has betrayed its trust by throwing itself into the hands of the Liberal leaders. All loyal Conservatives will therefore do their duty by opposing this party to the utmost of their power. Leonard Tilley." When asked whether the circular had been issued at his instructions Sir Leonard denounced it as a base forgery. The venerable knight seems greatly incensed at the trick that has been played on him.

The firm of Gillespie, Ansley and Martin, of Toronto, were recently swindled out of a quantity of furs by a most impudent fraud perpetrated by a boy. It appears that about a fortnight ago a lad called at the store and handed in an order for several Astrachan skins, signed "J. A. Perry." The order was written on a bill-head bearing the name of J. A. Perry, a Toronto hatter. The order looked so authentic that the goods were delivered to the lad without parley. A few days after the boy returned saying that the goods should have been Persian lamb skin instead of Astrachan. The goods were changed as desired and the boy then left. On the firm sending in their account for $70 to Mr. Perry they were informed that that gentleman had never made such an order and knew nothing about the goods.

One day last week a woman entered a shoe store in Windsor and asked to be shown some shoes. The clerk brought down several pairs from the shelf and placed them on the floor for her inspection. None appeared to suit her, however, and the clerk went to the shelf for another pair. No sooner was his back turned than the woman, quick as a flash, caught up a pair of shoes and attached them to her leg just below the knee with a lace. The clerk finally obtained a pair of shoes that appeared to suit the woman, and she brought out her pocket book to pay for them. She discovered, to her dismay, that she had only $1, while the shoes cost twice that sum. Not being able to pay the cash for the shoes she concluded not to take them, and arose to go out. She had taken but a few steps when the shoes fell to the floor with a thud. She then stooped down, untied the string, left the shoes on the floor and passed out.

The Orillia Packet says: "In every community of this democratic country there are to be found aspiring men who imagine that a newspaper "organ" will be a great aid to them in reaching the object of their ambition, whatever it may be. But a little experience will show that they are men who do not learn wisdom from the experience of others. Dr. Ramsay, with a view to a seat in parliament, established an "organ" in Orillia, which proved to be a most disastrous failure financially, and the genial medico was beaten in a parliamentary contest by over a thousand votes—for the largest majority ever given against a candidate in North Simcoe. With a similar object in view Mr. H. Sutherland sank probably three thousand dollars in an attempt to build up an organ in Orillia. The result was that the support of the paper was almost invariably fatal to its friends, and Mr. Sutherland himself was defeated in East Simcoe, at that time politically in sympathy with him, by an overwhelming majority. Mr. Thos. McMurray's designs, in Muskoka, sought to be forwarded in a similar manner, also came to nought, and resulted in a most complete financial collapse. These are simply local examples which might be multiplied almost indefinitely by going outside our own county, clearly proving that a newspaper known to be simply the mouthpiece of a solitary individual, or a narrow clique—instead of being published in the interest of the entire community—so far from being a power in promoting the ends of those for whom it is conducted, is a positive injury not only to the people most immediately interested in it, but to all whose cause it may espouse."

A farmer was beaten out of $175 by two confidence men between Montreal and Quebec on Tuesday.

Mr. Wills, the immigration agent at Ottawa, has just returned from a trip to the Opeongo district. He says there is excellent sleighing in that quarter, there being upwards of 18 inches of snow.

If there is a quiet retreat in the hereafter for faithful politicians, John Moore, of Athens, Ga., should be allotted a corner there. He died for Blaine the other day. He was murdered by a man named Stiles, because he cheered for the Republican candidate for the presidency.

The trial of the petition against the return of Mr. Allison to the house of commons for Lennox was commenced on Tuesday at Napanee. Mr. Frayn, the Conservative candidate, who was defeated by only five votes, is the petitioner, and claims the seat. Three witnesses were examined Tuesday.

A wicked woman is just as bad as a wicked man—some people say a great deal worse. Anyhow, nobody needs to shed tears because the governor-general has refused to commute the sentence of Mrs. Boutinel, who is to be hanged at Quebec on the 20th inst, for poisoning the wife of her paramour, Lavoie.

It isn't always wise to shoot at a person whom you suppose to be a burglar. Your dearest friend may walk in his sleep or get up in the night on account of sickness or sleeplessness. C. W. Bunn, lawyer, of Lacrosse, Wis., mistook a domestic servant named Maggie Eckert, for a burglar the other night and shot her dead.

Still the Mormon community grows from within and from without. One hundred and sixty-three Mormon converts arrived in New York from Europe on Wednesday. Nearly every ship brings a detachment of recruits from Europe, and the missionary work is going bravely on in the South. Besides, the birth rate in the community itself must figure up pretty rapidly.

A sensation has been created in Kingston by the marriage of a youth to an elderly lady, and the reputed wife of another. The mother of the young man declares that the son is under age; that the license was procured under false representations, and after the issuer had been forbidden to give it. The first husband of the bride is believed to be living in Toronto, Detroit or Chicago. The mother was warned by a letter from her daughter-in-law to hold her tongue, that she had "married Charlie," but only for spite.

The action for libel brought by Mr. L. A. Senecal, president of the Richelieu and Ontario navigation company and North Shore railway, against the Toronto Mail, claiming $100,000 damages, is now before the courts at Montreal. The article complained of appeared in the Mail in December, 1883, and there Mr. Senecal is spoken of as returning from European monetary circles "a greatly depressed and disappointed gentleman." He is said to have returned "entirely unsuccessful in his financial mission abroad; his mammoth colonization company has collapsed, and Mr. Senecal's investment of of a quarter of a million dollars is almost certainly lost."

Mr. G. W. Ross says the Ontario government's revenue will suffer by being deprived of its share of the license money by the operation of the Scott act. Well, what is his remedy? How shall the government be recouped? Are we leading up to direct taxation of the land on the plan Mr. Henry George suggests? It would seem so. Already influential Grit organs are advocating Mr. George's theories, which, as applied to Canada, are designed to tax the farming lands of the country for the raising of public revenue, rather than by a tariff. Mr. G. W. Ross is quite willing that the annual deficits of the Mowat government, which threaten to be increased, shall be made up by the sale of timber, which is but a shift of impending bankruptcy when regarded in its true light, for it is taking so much from the provincial capital to meet current outlays. In commercial life this is called living at a loss. There is only a short step from squandering the timber resources of the people, which are said to be only good for ten years longer at the present strain upon them, to taxing the farmer's land directly. Are we to put Mr. Ross down as in favor of a land tax, in place of a tariff for revenue? It sounds like it.

A gentleman from Michipicoten reports a dreadful state of affairs as still existing there. When the Toronto police left with their prisoners, four of the outlaws, among whom is a man named Walker, formerly chief of police at Michipicoten, and another desperate character named McGillivary, who escaped to the woods, where, it is positively asserted, they were supplied with provisions by citizens, to prevent their arrest, returned to town and instituted a regular reign of terror. Wallace wore in true bandit style, a belt from which protruded the handles of four heavy revolvers and a huge bowie knife. He also carried a Winchester repeating rifle. The other three were also heavily armed. The men then boarded the steamer Steinhoff, which was about leaving for the Sault. They clambered to the main deck and all four commenced a fusillade on the people ashore. Wallace yelled to the crowd to stand aside—they only wanted to shoot Mr. Macdonald, Canada Pacific railway agent. That gentleman, however, got under cover. The Canada Pacific railway building was fairly riddled with ball from Wallace's repeating rifle, which fires seven times without reloading. The ticket office was pierced with balls and a number of tickets and other valuable papers destroyed. The captain of the Steinhoff seemed powerless to do anything, but a telegram has been sent to the Sault ordering the arrest of the men as soon as the boat arrives there. It is said by an eyewitness that the deck of the boat after the engagement was covered with cartridges, as all the men were well supplied with ammunition. The arrest of the party will not be easily accomplished. Further advices say the desperadoes have been arrested and handed over to the authorities at the Sault.

Rev. Mr. Langford, Hamilton, asked for $1,500 at a plate collection on Sunday, and got $8,098.16.

Diphtheria is increasing to an alarming extent in Montreal, and typhoid prevails also. The doctors attribute both epidemics to defective city drainage.

Ottawa lumbermen's agents say that work in the shanties this winter will be good. Men are sent daily to the shanties.

A young messenger has been captured in the department of railways and canals at Ottawa stealing letters containing money addressed to the officials.

The petition for the submission of the Scott act in Wellington was deposited in the sheriff's office, Guelph, last week. The number of signatures is 3,565.

The Paris management of the credit Foncier Franco Canadian have subscribed 5,000 francs for relief of distressed fishermen on Gaspe and Labrador coasts.

The Rathburn company are planting a number of shade trees in different parts of Deseronto. They are also setting out six hundred apple trees, placing five or six on each tenant's plot.

The other Sunday night the police raided a Chinese gambling house at Victoria, B. C., and surprised twenty-seven celestials deep in the mysteries of tan-tan. They were arrested at once.

A special train on the Canada Southern with millionaire Vanderbilt and party on board, run over and killed a cow at Comber, Tuesday. The headlight of the locomotive was all smashed up.

Mrs. D. Young, of Syracuse, N. Y., has written to Kingston for information as to the whereabouts of John D. Ripson, an embalmer, who had the "brazen effrontery" to run away with her daughter.

Socialism seems to have a strong hold on Germany. In the recent elections the socialists cast a quarter of a million more votes than three years ago. The autocrats must view the movement with fear.

Benjamin Hull, of Hull, has been lodged in jail on a charge of attempting to murder his wife. He was in the act of firing a revolver at her when some outsiders interfered. He will be sent down for trial.

James Stewart, 65 years of age, was found dead in bed at Palmerston. It appears that he had been drinking rather freely, and during the night had an attack of vomiting, a portion of which lodged in the windpipe, causing death by suffocation.

A later despatch in reference to the schooner Emelie, before reported as wrecked at Point Desmonts, confirms the statement, but says that the crew have all been saved. They are now on Cariboo island, and without provisions.

The engineers engaged in the construction of the Canada Pacific railway, between Columbia river and Kamloops in British Columbia, confirm previous reports as to the existence of great timber wealth in that region. The Douglas fir, so largely used for ship-building, red pine, red cedar and cotton wood abound on the sides of the mountains throughout the district. When the Canadian Pacific railway is in operation through the mountains the existence of this extensive timber region will, with the recent coal discoveries further east, satisfactorily solve the fuel question in the Canadian northwest.

It seems that the Great Eastern is once more to be put to use. After lying useless so long at an English dock it is said that she is once more to cross the Atlantic instead of being sold for bindling wood and old iron. The New Orleans exhibition managers knowing and acknowledging the value of advertising have resolved to make her do duty in the furtherance of their objects. "Their latest effort," says an exchange, "is their chartering the Great Eastern to carry the exhibits from the Healtheries in London to New Orleans free of charge to the owners of the consignment. They will then turn the leviathan of the deep into a huge floating hotel, were receptions and entertainments will be held." We are glad to know that even this little good come out of this large Nazareth. The Great Eastern has always been regarded as simply a burden, and it is cheering to hear that she is once more to brave the battle and the breeze (of the Atlantic) and be put to use. It is said that she will leave for New Orleans on the first of December.

The shipments of wheat from the north-west are already very large, and millers are buying freely. The Ogilvie milling company express their intention of buying two and a half million bushels, and are taking in at the rate of 14,000 to 16,000 bushels per day. They have already shipped 200,000 bushels to Port Arthur by the Canadian Pacific railway. At Port Arthur the wheat was taken on the steamers of the line, which have special facilities for loading grain, and carried them into Owen Sound, whence it came forward by rail. Of the 400,000 bushels 150,000 have come down to Montreal, and the company hope to ship out at least 400,000 before navigation closes. The quality of the wheat has fortunately improved very much since the first receipts and is also very much better cleaned. This latter point is one that farmers have neglected too much for their own advantage and one that will effect them greatly. The Toronto millers are said to be looking into the laws affecting the classification of wheat, so as to compel the farmers of the north-west to clean the grain thoroughly. Among Montreal merchants the opinion is expressed that the farmers are making a mistake in holding back for higher prices and consequently keeping business very quiet and dull. The crops this year were on an average double those of last year, and farmers would get from a quarter to a third more than they did last year, and yet they were holding back in expectation of getting the same prices as last year with double the quantity. If they were wise they would sell out quickly for the price they could get, and not wait till values went down, as they certainly will do.

Hotel Cards.

BENSON HOUSE,
The only first-class house in town, Kent street, Lindsay. Charges moderate. E. BENSON, Proprietor.

VEITCH'S HOTEL.
The only second class house in Lindsay. Corner of Kent and Cambridge streets. A first-class Veterinary Surgeon always in attendance. E. VEITCH, Proprietor.

ARTHUR O'LEARY. HUGH O'LEARY

Dentistry.

J. NEELANDS,
L. D. S.
OVER 20 YEARS' EXPERIENCE.
The most successful dentist in this part of Canada. The GOLD ALLOY used by Mr. Neelands for artificial teeth is a grand success, notwithstanding the false statement made about it by a Lindsay dentist jealous of Mr. Neelands' enterprise in buying the patent right. This individual exhibits to his patrons a piece of *gross* metal resembling soft solder or lead, and tells them it is a poison and the same as Neelands' Gold Alloy, which is a falsehood, as the Gold Alloy used by him contains both gold and silver and no poison.
Mr Neelands inserts numbers of perfect fitting sets of teeth for people in Lindsay, Ops, Mariposa after this dentist had tried and entirely failed to give satisfaction. Black Rubber has been used by Mr. Neelands for the last 17 years The only genuine English Black Rubber kept constantly on hand. Teeth inserted on any plate desired. In extracting teeth with gas it is a common thing for Mr. Neelands to extract from 10 to 15 teeth with one dose of gas and the person leaving quite well and strong. Mr. Neelands made a special study of this gas under Dr. Colton, of New York, the inventor, who writes to Mr. Neelands that he has given the gas to 136,613 persons without an accident. Teeth filled to last a life time. One lady says she had her teeth filled with gold by Mr. Neelands over 15 years ago, and her teeth are all good yet. The Peoples' Dental instructor, a book worth its weight in gold, call and get a copy free. Office—Next door to R. Smyth's store. May be found after hours at private residence, Mill St., near Kent. Persons from a distance will please send postal card before coming.

W. H. GROSS
DENTIST.
OVER 24 YEARS' EXPERIENCE.
Mr. Gross has recently introduced the latest and most perfect system of Vulcanizing, whereby any variety of rubber can be hardened without a risk of impairing its strength or injuring its texture. This new process was invented more particularly for the working of BLACK RUBBER, which, being perfectly pure, to secure the best results, requires a more uniform and higher degree of heat than is attainable by use of the ordinary Vulcanizing machine. The inventor says, that with Ash & Son's GENUINE ENGLISH BLACK RUBBER, hardened by the new Vulcanizing process, he can produce one of the best, if not the very best, dental plate in the world. Mr. Gross, with this improvement, is enabled to make his BLACK RUBBER plates, heretofore good, still better than ever. All wearers of BLACK RUBBER plates are delighted with them. Artificial Teeth inserted on any kind of plate desired, including Red Rubber and what is called Gold Alloy. A set of teeth on the latter material for $8. A stock of about 10,000 ARTIFICIAL TEETH of all shapes, shades and signs to select from. An upper or under set of teeth from $6 to $65. No charge for extracting teeth when new ones are to be made. VITALIZED AIR administered, and ELECTRICITY still used with success. The natural teeth preserved by filling with gold and other good materials. Mr. Gross, having superior facilities for getting valuable improvements as soon as they are invented, always avails himself of this advantage, thus keeping in advance of all competitors Rooms over Kennedy's store, Kent St., Lindsay.

Professional Cards.
