NOTES FROM THE CAPITAL.

THE OCEAN MAIL AND OTHER CONTRACTS.

Mischievous Statements—Tidal Observations—Death of Earl Cavan—Customs Appointments—A Treasury Board Decision.

OTTAWA, Jan. 17.—Mischievous and interested parties continue to spread the false information that trouble is being caused by Canadian Customs officers refusing to allow Manitoba grain sent through the States a free entry into Canada. The Minister of Customs has received considerable correspondence on the subject, owing to the publication of erroneous statements in the press, and it may be of interest to give the views of Assistant Commissioner Parmalee on the subject. He says:

"There is of course no truth in the statement, but just so long as it suits the interests of certain parties to keep the falsehood rolling, so long will they do so, notwithstanding the unqualified contradictions that have been published. The Northern Pacific Railway and its connections are treated in precisely the same way as any other road, and cars shipped in transit from Canada over it are served just as any other of their kind."

It is understood that the report of the Minister of Marine will contain the results of tidal observations on the Atlantic coast conducted last season by Commander Gordon. The observations were taken upon the representations of the British Association for the Advancement of Science.

The announcement is made of the death of Earl Cavan, father of the Hon. Octavius Lambert of the Department of the Interior. The new peer, Lord Kilcoursie, who is member of Parliament for South Somerset, has ever since he sat in the House of Commons been a warm supporter of Mr. Gladstone.

Seven of the crew of the schooner Volant, wrecked at Souris, P.E.I., who were reported to be in a destitute condition, have been assisted by the Marine Department to reach their homes in Newfoundland. The Volant was registered at Montreal.

The ocean mail contract is understood to be still undecided, but the impression gains ground that arrangements will be made with the Allan and Dominion lines for a new contract for an improved service. Rumors having been afloat that the two great railway companies had been asked to contribute towards the increased subsidy which a faster service must involve, Postmaster-General McLelan was questioned on the subject, and said:

"The idea has been expressed that the great railway corporations, such as the Grand Trunk and Canadian Pacific Railway Companies, who will benefit, so largely, by the proposed improvement in the service, should contribute a portion of the increased expenditure, that the change will necessarily involve. There has, however, been no materialization."

The Public Works Department has let the contract for the proposed public building at Cowticook, P. Q., to Mr. Thos. T. Shurtliff, of that place, and the contract for the public building at St. Jerome, P. Q., to Mr. J. Fitzgerald, of St. Alphonse-DeKildair. Both were the lowest tenderers.

Orders-in-council have been passed, making the following Customs appointments: Messrs. Joseph E. Pinonneault, to be a sub-collector in Her Majesty's Customs at the outpost of Lacolle, under the survey of the port of St. Johns, Que., vice F. Dozois, superannuated; Gray Farmer, to be a preventive officer at the outpost of Campbello, under the port of St. Andrew's, N.B.; Chas. B. O'Reilly, to be a sub-collector at the outpost of Front River, under the port of Dundee, vice McGibbon, deceased.

The Treasury Board recently considered the question of gratuities to the widows and other representatives of deceased officials and decided that the order-in-council confirming such gratuities to an amount equal to two months' salary of permanent clerks only must be adhered to, and that if it was deemed desirable to grant a gratuity to the representatives of any employe not on the permanent list the money must first be voted by Parliament.

Suicide at Halifax.

HALIFAX, Jan. 17.—Losford Woolrich, a commercial traveler belonging in Halifax, committed suicide this morning by hanging himself in his sample room in a Sydney hotel. He was a sergeant in the Halifax Battalion that served in the Northwest Rebellion and was very popular here. The coroner's jury found that he was temporarily insane.

Ice-Jam in the St. Lawrence.

CORNWALL, Jan. 15.—The first ice-shove here this winter took place between 1 and 2 o'clock yesterday morning, but without doing any damage to the town. The ice rose mountains high, and the roaring of the waters and jamming of the ice could be heard miles away. Had the ice not given way near Sommerstown as it did, Cornwall would likely have had a repetition of what occurred last winter. However, the water fell eight or nine feet in less than two hours, and the mills were running a full bin at yesterday as usual.

CANNINGTON.

Special to The Warder.

MRS. YOUMANS, the much talked of prohibition lecturer, paid us a visit on Thursday last, and delivered an address to a fair-sized audience in the town hall. She is a very chatty LITTLE lady, her manner of address putting us very much in mind of, we will say, not a large proportion of the fair sex, that before unfolding the burthen of their tale, admonished the listener "to be sure and never mention it again," and then start off at a rattling 2 40 pace, keeping up the speed throughout without a break, and finally finishing up in grand style; on resuming her seat, bestowing a peculiar inquiring look on the audience, a sort of "Now, what do you think of that?" And that's just where the question rests, and there we will leave it.

WE HAVE REASON to believe that a change is about to take place in the management of the "Gleaner," the present proprietor and editor, Mr. W. L. Edmons, having decided to sell out to the Robinson Bros. It is with regret we learn this. Mr. Edmons, by his kindly disposition and obliging manner, has during his all too short sojourn among us, made many firm and lasting friends, and wherever may in the future his lot be cast, he will bear away with him their best wishes for his happiness and prosperity.

SIGNS are not wanting of a busy season again next summer in building. Large quantities of brick, stone and other building material are daily being drawn into the town and deposited at the different points of erection, our contractors already having made several engagements of a more or less extensive character.

LOS ANGELES, CAL.

Special to the Warder.

There is not much change in affairs since my last. The weather still keeps fine, although there has been some frost in low grounds; but nothing to do any damage to fruit. The first heavy rain of the season took place on Thursday last, and was a real California rain—lasted about 24 hours, and was, as the old darkey would say, a right old gully washer and trash remover. It flooded basements, undermined walls and cut gullies in some of the principal streets fully six feet deep and the same in width; and I must say that Los Angeles is the muddiest city, after a rain, of any city I was ever in. The people here never think of wet weather when they are making streets or building houses; they are all fine weather houses. There were two more large fires in the city a few days ago. The first was the Belmont Hotel, one of the largest hotels here, situated on the west side of the city, which was a fashionable resort for tourists, and was occupied at the time by 300 guests. The fire occurred about 11 o'clock in the day. The alarm was promptly given, but the fire department, like the postal service of Los Angeles, is far from being perfect. It was just forty minutes from the time the alarm was given until the brigade reached the place. However, most of the furniture and effects of the guests, were saved. The next night another, a fine livery stable, was set on fire, as usual by unknown parties, and a large number of rigs and five fine horses perished in the flames. It is something unusual, Mr. Editor, for your correspondent to see a circus on New Year's Day; but it is just as strange to see Christmas come in the summer, as it appears to be here. For really, the climate on that day was more like the 24th of May in Ontario than like a winter's day. A paw's show paraded the streets yesterday (Sunday) both Xmas and New Year's days like any other. Sunday is not observed any better here than the 24th of May would be in Lindsay, with regard to the closing up of business places. Building is not progressing as rapidly as it otherwise would be if it were not for the scarcity and high price of material. The following rates will give you an idea of the cost of a building here:—Undressed lumber, $35 to $40 per thousand; dressed, $50 to $60; lath, $15; shingles, $4; brick, $9; lime, $3 a barrel; bricklayers, $4 to $5; carpenters, $3 to $4; teams, $4.50 a day. Although wages are good, living is also high. A 4 room house brings $40 per month; 6 room, $60; an 8 room house, $90, and so on upwards. Butter, 50c. to 60c. a lb.; eggs, 50c. per doz.; beef, all poor and tough, at 15c. to 50c. a lb.; sugar, 10 lbs. for a dollar; rice, 3 lbs. for a dollar; the most called for of all articles, whiskey, 10c. a drink. Some farmers have commenced seeding, although some crops are above ground. In driving a short distance in the country the other day I noticed large fields of Alfalfa clover in full bloom, and a field of grain fully a foot high. The rush of people still continues coming in from all parts and at the present I suppose there is not less than 20,000 strangers in the city, and a great part of them are laboring men who were induced to come by glowing accounts of wages and scarcity of laborers, and when they came found the supply greater than the demand. However all will find employment in a month or so.

Wishing all my friends a happy and prosperous New Year, as ever, TRAVELLER.

TORONTO MARKETS.

TORONTO, Jan. 17.

On the local stock market to-day, the bids for Montreal rose from 215½ to 217. Ontario was held at 112¾ as against 113 yesterday. Federal commenced to fall yesterday after 12, when 84½ was bid till to-day it stands at 86½ asked, and 79½ bid. Dominion was firm and remained unchanged. The transactions to-day were: Commerce 2 at 110½; Federal 19, 10, 5 at 86; Dominion 10 at 212; Consumers' Gas 6 at 176½; B. and Loan Association 8 at 102½.

St. Lawrence Market was well stocked this morning with meats and vegetables, but a marked dulness prevailed in the dairy and poultry sections. Potatoes sold readily at $1.10. Several unfortunate farmers lost the sale of their stock of potatoes, owing to the frost touching them before they reached the city. Beef, by the quarter, dropped 2c. The market was overstocked with hay and straw, and as a result the best timothy dropped from $15 to $14, and straw from $11 to $10. The retail prices of meat remain unchanged. The grain market was active; 350 bushels of fall wheat sold from 82c to 84c; 400 bushels of spring brought from 78c to 82c; 300 bushels goose changed hands at 73c. The market for barley opened auspiciously with signs of firmness, but before 11 o'clock it weakened and the prices fell from 76c to 81c to 75c to 80½c, at which price 1500 bushels were sold. 500 bushels of oats sold at 50c to 51c. No peas were offered.

TORONTO, JAN. 17.

Business picked up a little on the local stock market to-day. Montreal was placed at 216 and 214½ to-day, as against 213 and 212½ yesterday. Ontario was quoted at 113 and 110 to-day, as against 112 and 110 yesterday. Toronto was rated at 192½ and 187, while yesterday the quotation was 192 and 185. Federal stock took a stride with a sale for 15 shares at 85; the quotations to-day were 87 and 84½ as against 73 and 68½ yesterday.

Monday was especially blue about St. Lawrence Market to-day. What produce there was offered brought good prices, but the quantities were small. Potatoes that sold readily on Saturday at $1.20 were bought this morning for $1.05. Meats remained unchanged. Barley was wanted at 74c and 75c, but no sale was made lower than 76c. Lard dropped from 12c to 10c. One sale of 300 bushels of barley was made at 77½c, 200 bushels of fall wheat went at 83c to 84c, one load of oats was sold at 50c.

We quote the following prices: Beef, hindquarters, per lb, 5c to 11c; beef, forequarters, per lb, 3c to 7c; mutton, per carcase, 6c to 10c; lamb, per carcase, 7½c to 8½c; veal, 6c to 0c; pork, $6.90 to $7.10; chickens, per pair, 40c to 55c; ducks, per pair, 80c to $1; geese, per lb, 8c to 9c; turkeys, per lb, 8½c to 10½c; wheat, fall, per bush, 83c to 84c; wheat, spring, per bush, 78c to 83c; wheat, goose, per bush, 73c to 74c; barley, 76c to 81c; oats, per bush, 50c to 51c; peas, 66c to 68c; timothy, $11 to $15; clover, $11 to $13; straw, $11; butter, pound rolls, 24c to 25c; butter, tub, 20c to 22c; cheese, per lb, 12c to 15c.
