FRIDAY, JULY 3, 1891.

KIRKFIELD.

Special to The Warder.

CELEBRATION.—The Odd-fellows intend holding a grand picnic in McKenzie's grove on the 1st of July. The public are cordially invited to attend.

FOOT BALL.—The Kirkfield and Balsover foot ball teams played a match at Balsover last Saturday evening. The game resulted in a draw after an hour and a half hard playing.

BOLSOVER.

Special to The Warder

MRS. Cameron, who lived with her son-in-law, Mr. Duncan Mathieson, in this neighborhood, died last week. The large funeral passed here on Monday to Argyle burying ground.

ACCIDENT.—Last week while Mrs. Angus McPherson was driving a young horse and buggy to Beaverton, it took fright passing the railway station and ran away. Mrs. McPherson being a strong active woman held on to the lines, but could not hold him; one line broke, then she took a jump clear from the buggy and let the horse go. The buggy and harness was broke to pieces and the woman got very little hurt.

MRS. John Nichols is very low at present. She is not expected to live.

We had a little rain last week, but wish for more. The crops look well.

ROSEDALE.

Special to The Warder.

We have not favored you with any correspondence for a week or two but will show up occasionally while we remain here.

THE remarkable dry season has been broken by a very slight shower last week, but as little rain as we received it has had a marked effect on growing crops. Still we notice that the farmers carry a mournful countenance yet. Do not be discouraged, the weather has been threatening for the last week and may end up in a wet week which would have great effect on the crops and cause an agreeable surprise to all.

THE fishing season has opened and the sport is being well followed already. Row boats can be seen in all directions on our beautiful lakes; the white tents may be seen at intervals all around the shore. This tells us that outsiders have already came to join in the sport. There is also to be seen a few Toronto pleasure yachts. I think as a play there is no summer accommodation at Rosedale for those from a distance. I am sure it would be well patronized as these lakes are far in advance of any summer resort I have ever seen either for health, good sport, or natural scenery. A well kept summer hotel would be a paying business.

WE are pleased to note that our friend from Cameron point, Mr. Andrew Smith, is fast recovering from the wounds received from the vicious horse, Rob the Ranter. Mr. Smith lay in a precarious condition for some time from the terrible mangling he received from the merciless beast.

THE gloom cast by the death of our noble Chieftain, the honorable, faithful, patriotic statesman, the grand old man, Sir John A., still hangs over all, both grit and tory. The conservative sympathy and feeling is genuine, but many of the reform tears that are shed for him are crocodile tears.

WHAT brings Mr. Darren driving through Somerville calling secret meetings of a few of his select and faithful followers. Was he foolish enough to think another election would be held.

THIS appears to be the season for visiting. Mr. R. M. Perdue is at present visiting his brother William. Mr. Perdue has made a prolonged stay in Manitoba and the North West. We have not yet had any conversation with him to find what he thinks of the country but hope to meet him soon.....Mr. Peters of Diamond Hollow, is away on a protracted visit among friends in the south. Is it any of our business what takes our young men down to Cameron point so often.

FAREWELL PRESENTATION.—On Wednesday last a number from the village gathered to the parsonage, where they made a present of a silver fruit dish to Mrs. Means. A very appropriate address was read, and was signed by Miss Stella Caverly, Mrs. Meyer, Mrs. Webster, in behalf of the friends that were present. Mr. Means replied in behalf of his wife, expressing with his usual good ability his thankfulness, to receive the token of remembrance, while he expressed his feeling for his friends on this parting occasion.

PICNIC.—A friendly union picnic was held at "The Fort," Balsam Lake, on Tuesday of this week. Kinfield, Victoria Road and Bexley were well represented, and notwithstanding the light showers which only lasted for a short time, all seemed to enjoy themselves very much

BEXLEY.

Special to The Warder.

DEATH.—Infant son of Mr. and Mrs. Robert Reed, died June 15th., at the family residence. The people of this community extend their sympathy in their very heavy bereavement.

HYMENEAL.—Mr. John T. Borden of Manitoba, and Miss C. Brentnell of Avensdale, were united in the holy bonds of matrimony. The wedding took place at the residence of the bride's father, where a pleasant evening was spent after which the happy couple took the train for Orillia.

PERSONAL.—Miss C. Peel, who has been visiting her friends in Millbrook, has returned home; and also Mr. John E. Peel of Rochester has returned home for his holidays. He looks well. We think a little of the country air will do him good.

BASE BALL.—The Bexley Clippers have organized their club for the coming season. They are no longer going to take a back seat, for we expect a match game is approaching them soon.

PERSONAL.—Mr. Edward Ward who has been away for some time returned home last week, looks hale and hearty, and means to settle down as he has purchased a farm. We hope the ladies of this community will not keep him in suspense.

NORLAND.

Special to The Warder

FAREWELL SERVICE.—On the last Sunday of his conference year at 2.30 p.m., the Rev. A. J. Harvey Strike conducted his farewell service in the methodist church. The church was fitted up for the occasion by the ladies of his congregation. The pulpit, the altar, and the organ were profusely decorated with flowers. The sacred edifice was filled almost to its utmost capacity. The Rev. Mr. Strike during his year of labor here had won the greatest respect and highest esteem of the people and to-day the highest tribute is paid him. As he enters and views the quietly arranged wreaths of fragrant roses and choice bouquets sunny June's most beautiful flowers, no doubt the thought of how the hands that had so quietly placed these emblems here—that had in co-operation with his own, performed so much for the promotion of God's Kingdom—that had in this the last service of the conference year thus paid their last and most pathetic tribute of respect were now perhaps to be clasped in a final farewell, and for a moment he is almost overcome with the deepest emotion. But the duty of the hour is not to be neglected. He takes his text from Acts, chap. 20, verse 32; and after referring to many of St. Paul's noble traits of character he exhorted his hearers to strive to imitate the great bible hero's many heroic acts in life, to hold Paul's life up before them that its reflection might so radiate and brighten their future lives, that finally like St. Paul they would be brought off more than conquerors. He pathetically referred to the many acts of kindness shown him by the people during his stay among them, and also to the way that many had stood by him in his pastoral work. He then appealed to his hearers to likewise stand by and assist their new pastor, the Rev. J. F. Mears. He spoke of that gentleman's many estimable qualities and had no doubt but that the people would be abundantly blessed under his ministry. In closing, he in St. Paul's words, commended them to God and to the word of his grace. The large congregation was deeply moved. It was clearly evident that the pastor had by his faithful discharge of duty and kindness of heart endeared himself to all, and the occasion was one of solemnity. The Rev. Mr. Strike goes to his new field of labor in Prince Edward county followed by the prayers of the people here that the year's labor now ceased in Norland may be the index to a long life of like usefulness in "the vineyard of the Lord."

THE TWELFTH.—It is not the intention of the orange brotherhood to have any celebration here this year. Several members of 1112 propose going to Cannington to join in the county celebration there on Monday, the 13th.

CROPS.—With hay as an exception the crops are looking fairly well in this locality. A deep green color is yet retained, but the growth would be much hastened by more rain. Fall wheat promises a yield fully above the average; there was however but a small acreage sown last season.

MARIPOSA.

Pigmies vs. Giants.

Lilliputian as they are in size (being no larger than mustard seeds), they achieve results that their Brobdingnagian opponents utterly fail in. We refer to the efficacy of the powerful preparation known as Dr. Pierce's Pleasant Pellets, compared with that of their gigantic competitors, the old-style pill. Try the little giants, when dyspepsia, liver complaint, constipation, biliousness, or any kindred ills assail you, and you'll make no mistake—they'll disappear at once.

The Witty Irishman,

when told by his doctor that his liver was almost gone, said, "Faith it's glad I am, it allers bothered me!"

The liver more than any other organ, is the index of the body. With a morbid liver the whole system is out of gear! Most powerful for the restoration of this "citidel of health," is Dr. Pierce's Golden Medical Discovery. Its action is direct, prompt, effectual! Recommended by eminent physicians, it has gained a universal reputation as the "Great Liver Regulator!" Corrects the liver, and you cure many ills! The "Golden Medical Discovery," *is guaranteed* in all cases of liver disease and blood disorders to benefit or cure, or money promptly and cheerfully refunded.

The Usual Way.

THE usual way is to neglect bad blood until boils, blotches, and sores make its presence forcibly known. Every wise person ought to be careful to purify the blood, by using the best blood purifier and tonic Burdock Blood Bitters. Its purifying power is unrivalled.—89.

Malarial fever and chills are best broken up and prevented by using Milburn's Aromatic Quinine Wine.—89 5.

The Australian Commonwealth.

The Australian Commonwealth will have grand results but the results of using Burdock Blood Bitters for diseases of the stomach, liver, bowels, and blood, surpass all expectations. Dyspepsia, headache, biliousness, scrofula, etc., are promptly cured by B. B. B.—89-2.

Destroy the worms or they may destroy the children. Freeman's worm powders destroy and expel all kinds of worms.—89-5.

Goldwin Smith.

Goldwin Smith is opposed to Sir Charles Tupper in many ways, but doubtless both would agree that no better remedy for dyspepsia, constipation, biliousness, headache, kidney troubles, skin diseases, etc., exists than Burdock Blood Bitters, the best family medicine known.—89-2.

TRADING WIVES.

A Curious Case and a Russian Solomon's Decision.

A curious instance of trading with wives is reported in the newspaper Kavkaz of Tiflis. In the village of Zadroba a peasant by the name of Goossin married a good-looking young woman. A few weeks later his neighbor, Kerimoff, offered to buy his wife from him. He was satisfied to sell her for cost price if Kerimoff would pay him 150 roubles which he had spenton his wedding. The bargain was made. Goossin signed a paper renouncing all his rights on the woman, and Kerimoff took her to his home. Two weeks later the woman disappeared from her new home. A search was instituted, and she was found in the village of Karadjaly, living with a man named Abdaly-Effendy-Ogly, who had been her suitor before she was married to Goossin. Poor Kerimoff, deprived of his wife and of the 150 roubles he had paid for her, was in despair. He applied to the adminstrative authorities and to the clergy, but neither could help him. At last he sued Abdaly-Effendy for the sum of 150 roubles which he had paid for his wife. The latter appeared before the Justice and pleaded that he had neither robbed nor stolen the woman. She had come to him of her own accord, and was at liberty to go wherever she chose. The Justice dismissed the defendant and advised the plaintiff to sue the woman herself. She in turn appeared before the Court pleading that she had never received any money from Kerimoff and owed him nothing; she was not responsible for the money he had paid to Goossin. Finally Goossin, her first husband, was sued. All the three husbands of the woman, the Tartar, the Mussulman, and the Slav came to court; the Slav, Kerimoff, as plaintiff, the Tartar, Goossin, as defendant, and the Mussulman, Abduly-Effendy, as the one who had the woman in his possession. After much talking and arguing on either side, the Justice rendered the following Solomonic decision: "Goossin has purchased a right on the woman for the sum of money he had spent on his wedding. The latter is consequently entitled to the possession of the woman. But since Abdaly-Effendy is now the actual owner of the woman, he must refund to Kerimoff the sum he had expended on the article of trade." "Proratum est!" says the paper in which this case is reported, "The woman is estimated as an article of trade, but the free will which she exercises as a human being may be the cause of trouble and litigations which her purchasers take into the bargain at their own risk."

Length of Days.

The longest day of the year at New York, is 15 hours, at London 16½, at Hamburg 17, at Stockholm 18½, at St. Petersburg 19, at Tornea (Finland) 22, at Spitzbergen three and one-half months.

Misrepresentation Exposed.

Guide to the catacombs in an Italian village—Here, gentlemen, you will see the skulls of our village dead—2,000, to a skull!

Shrewd tourist—Come now, old fellow, do you take us for simpletons? Two thousand dead! Why, there are not 500 inhabitants in the whole village.—Fliegende Blaetter.

Annihilation of Smoke.

An English electrical paper, in view of the large number of central stations which are now being erected, wishes to impress upon station designers the necessity of organizing proper smoke annihilating arrangements in connection with their stations. It shows, in addition the devices so well known, of washing the issuing smoke into a dirty froth by the impact of dashing water, a German blast furnace maker has now discovered a method by which the smoke and soot are deposited by water spray in a chamber. From the resultant froth the ammonia and sulphur can be condensed and recovered and yield a handsome profit. It is further surmised that "it is really not too much to prophecy that future electric light companies can emulate the gas companies' example in the matter of by-products, and can have better burning fuel, absence of smoke nuisance and valuable products in chemicals, which shall even recoup them for the actual cost of fuel."
