Class C—H LeGard (1) 59, R Belfry 58, O Lockhart (1) 57, K McDonald (2) 45.

Spring Time Is Paint Time

At the recent annual meeting of the Commission of Conservation Hon. Senator Edwards made the statement that unless Canada exercised more care with her forest resources, the day was not far distant when we would be without our supplies of lumber.

While the statement referred particularly to the protection of forests,it might with equal force be applied to the protection of our buildings, fences, farm implements, etc., for the reason that, in the latter case, there is not only the value of the original forest product, but also the value of the human energy necessary for the transformation of that timber into its various wood products.

Spring. from time immemorial, has been known as house cleaning time. During recent years this period has developed a popular slogan, "Clean up and paint up." As a conservation measure this would be hard to improve upon. Wood, when exposed to the weather without protection, soon deteriorates. It bears a shabby and neglected appearance and is in a great majority of cases but an indication of the enterprise or carelessness of the owner.

Our soldiers are coming home, they are coming from a country of homes where thrift is paramount, where the people take pride in their premises and keep them in the best condition. Can we not, this spring, bear this in mind, and let our boys see that the home folks have awakened to the advantages of cleaning up and painting up, that their homes bear that well kept and cheery appearance that bids them welcome.

DURHAM

Mr. and Mrs. C. L. Grant of Durham announce the engagement of their daughter, Margaret Josephine, to Mr. Alan Stewart Muir, son of Mrs. Muir and the late Alexander Muir of Ceylon, the marriage to take place quietly in June.

On Friday night a horse belonging to Wm. Noble near Hutton Hill ran away and did considerable damage to a new buggy to which he was hitched. The driver, Mr. George Noble, had stopped on the front street in front of McKechnie's store when another horse,frightened by firecrackers, ran into him, sideswiping the buggy and frightening the horse which bolted and, throwing the driver out of the buggy, got away. The animal was captured at Hutton Hill. We understand the damage consisted of a bent axle and smashed buggy top, with, fortunately, no injury to either horse or driver—Chronicle.

In Memoriam

In loving and affectionate memory of Pte. E. C. Smith of the 4th C. M. R. R. who was killed in action at the battle of "Festubert," June 7th, 1917.

To "Petit Vimy" our thoughts oft turning
To that grave so far away,
There they laid our dear son and brother
Whose soul had flown to meet his God.

Sadly missed by father, mother and sisters.

A Study In Sames

Walkerton Times Herald

"Squee" Huck and Bert Carwright, familiarly known in their battalion as "The Siamese Twins," returned to town on Monday last after being nearly five years in khaki. Rooming together at the same hotel, sidesmen on Sundays at the same church, chumming together after hours on workdays and kicking together on the same football team on holidays, they demonstrated that even the turmoil of war, which had just broken out, couldn't disrupt the union, by enlisting together in October, 1914, in the same unit, the old 18th battalion of London, with which force they fought through the entire campaign, and after marching side by side into Germany returned without a scratch on the same ship, with the same unit, and on the same train back to the same city. If there is anything in the war that can beat this we're open for suggestions. That they both returned single, when men shorter in the fight brought back brides to remind them of the turmoil, is probably solely due to the fact that they both couldn't marry the same woman at the same time, and as they couldn't think of doing anything that wasn't alike they didn't break the union on the matrimonial rock and come sailing in any different than they breezed out.

Milk Cows Pay If ....
Milk cows pay well if you keep the cost of feed down—and if you feed right.
Ensilage is essential winter food, not only for cows, but for all stock.
Have lots of ensilage—*good* ensilage. Build a *good* silo of ample capacity.
Toronto Silos hold several tons more than other silos. The *hip roof* allows you to tramp the ensilage right to the top of the staves.
To match the high quality of the Toronto Silo, we have produced the new Toronto Ensilage Cutter—built on a new principle and wonderfully efficient in operation. No more choked feedway or burst knife wheel. The Toronto Ensilage Cutter is *safe* and speedy as well as efficient. You should own an ensilage cutter—not depend on a hired machine.
Our literature on silos and ensilage cutters covers this important subject thoroughly.
These booklets will be sent free to farmers who write for them.
