FLESHERTON.

Special reductions on goods for presentation purposes.

The Local News.

What is Happening in Our Own Vicinity.

A few lines left yet in summer goods at M. Richardson & Co's discount sale continued. Bargains going.

The Ladies Aid Society of the Flesherton Presbyterian church intend holding a concert on the second evening of our fair, further particulars of which will be given later on.

When used according to directions, Ayer's Ague Cure is warranted to eradicate from the system Fever and Ague, Intermittent, Remittent and Bilious Fever, and all malarial diseases. Try it.

Suggestions are being considered as to making the Boyne bridge spring (the best in the township, by the way,) a drinking fountain and watering trough for the benefit of the public.

Rev. T. Watson has been elected by the Flesherton Division Sons of Temperance, and appointed to the office of D.G.W.P., in place of A. R. Fawcett, whose removal made a change of affairs necessary.

Mr. B. Thompson is making extensive improvements on his property, situate at the corner of Beechol and Elizabeth streets. He is evidently bent upon doing his part to make the most of the natural beauties of our village.

Disorders of the stomach, liver, and kidneys, can be cured by restoring the blood to a healthy condition, through the vitalizing and cleansing action of Ayer's Sarsaparilla. It is the safest, and powerful and most highly concentrated alterative avalable to the public.

In Union Cashmeres, all wool Cashmeres, fouille cloth, crepe cloths, opera twills, Scotch tartans, plaids, fancy meltons, tweed effects, etc., you can get excellent values and a large and choice stock to select from at M. Richardson & Co's.

The new Boyne bridge is to be a stone and brick structure, in which good workmanship and artistic taste will doubtless be displayed. The bridge ought to bear a memorial tablet to the individual on whom the oversight of the concern falls, and who for so many years has devoted himself with untiring zeal to the welfare of our township.

Mr. P. Loucks desires to inform the public in general that the rumor lately circulated, to the effect that he has been selling roller flour, is utterly false. Mr. Loucks informs us that he has never sold roller flour, and never intends to; also that he has always had his own stone flour for sale since last winter, all rumors to the contrary notwithstanding.

Returned.

Mr. Wm. Suggitt dropped in on us quite unexpectedly on Monday. He is looking hale and hearty after his ocean voyage.

A Burglary.

The store of Mrs. Thos. Jordan, of Epping, was burglarized on Wednesday night last, a full account of which will be found in our Kimberley correspondence. Since receiving the above correspondence we learn that several of the articles stolen have been recovered from where they were hidden by the thieves, including some of the clothing and a gold ring.

Fall underwear just in. A large stock, fine lines, prices low, at M. Richardson & Co's.

Lusus Naturæ.

Our exchanges may revel in stories of big squashes, tall corn and bloated hens eggs, but we have the medal on fruit. Mr. John Beecroft has a crab apple tree loaded with both blossoms and fruit. In the same garden are also pear and apple trees in bloom. We intend shortly to advertise Flesherton as a winter sanitarim for invalids who are in the habit of wintering south of the 35th degree of latitude.

Personal.

Mrs. T. Akitt, of collingwood, is visiting at Mr. Beecroft's.

J. W. Henderson and family returned to Toronto last week.

Miss House and Mrs. Scott, of Hamilton are the guests of Mr. Petch for a few days.

New goods arriving daily at M. Richardson & Co's for fall and winter trade. In dress goods, mantle goods, fine fabrics and newest designs, a large stock. M. Richardson & Co.

Garden Party.

The ladies Aid Society of the Methodist church, Flesherton, held a garden party at the residence of Mr. Benthall on Wednesday evening last. The evening was cool, but pleasant, and the attendance good. The ladies provided an overabundance of good things. Flesherton's band enlived the proceedings, and everybody appeared to enjoy themselves thoroughly.

On Friday evening a young people's social was held at the same place to dispose of the surplus viands, when the boys and girls enjoyed themselves with games, etc., and did full justice to the purpose for which they were assembled.

For bargains in gloves, hosiery, buttons, gents ties, and parasols, go to M. Richardson & Co's discount sale this week.

East Grey Exhibition.

The committee appointed at the last meeting of the board to arrange for special attractions during the show to be held here on the 24th and 25th inst. met last Friday, and decided to have baseball and lacross matches on the first day of show, to entertain visitors. The directors, in order to assist in making it a success, will purchase two valuable cups, with private funds, to be awarded to the best lacrosse and baseball teams (to be known as directors' prizes) and to be competed for on the first day of show on the exhibition grounds. In addition they will offer prizes for bicycle races, bagpipe competition, foot races, etc. The directors' efforts to make our show a grand success will meet with the approval of our enterprising citizens, who will render them such assistance as may be needed to make it by far the best exhibition ever held in the County of Grey. Let us all unite in keeping the ball rolling.

Flesherton Station Items.

Considerable sickness still prevails, in spite of the generally healthy character of the locality. None of the cases, however, are now considered dangerous.

Mr. A. McLeod has lately made an addition to his house. He and his family are away for a short time.

Mr. D. Mair has erected one of the largest and best barns that is to be seen in this part.

Burnt debris at the old station, carlessly deposited telegraph poles, piles of stone, sand heaps and mortar pits all combine to give tourists the impression that considerable improvements might be made in the visible character of the place.

The Literary society expects to reopen during this month, and it is hoped will have an increasingly interesting term.

The natural, social and spiritual advantages might be made far more of than they are. Unity, enterprise and perseverance are growing but not fast to grow faster.

Self-Binder Contest.

A test of self-binders came off on Tuesday as announced, on the farm of Mr. Geo. Stewart, near this village. Only two machines competed—a Noxon and a Patterson. The judges on the occasion were R. Oliver, J. R. Graham and A. Stewart, jr. A large number of spectators were on the field. The field of grain cut by the two reapers during the contest was about five acres. After examining the different points of both machines, the judges agreed in awarding the palm to the Noxon reaper, but not without some dissatisfaction on the part of a number of gentlemen who express themselves elsewhere in this issue.

A Sad Accident.

On Wednesday of last week Mrs Sproule, living near Maxwell, mother of our fellow-townsman, R. J. Sproule, and Dr. Sproule of Markdale, M. P. for East Grey, met with a severe, and what may prove fatal, accident. Mrs. Sproule is now an old lady of 75 years. While walking along the road in the vicinity of Maxwell she attempted to turn around, suddenly, when she fell, breaking both her arm and thigh. The attending doctor does not hold out much hope of her ultimate recovery.

Mole skin dress goods, plain and fancy, cheap and pretty, new goods, at M. Richardson & Co's.

A Remarkable Meteor.

A meteor of extraordinary brilliancy and erratic in its movement, lit up the darkness last Wednesday evening about 9.30. It appeared from this point to go upward towards the northwest at an angle of about 45 degrees, and was exceedingly bright. A large number of people who witnessed it here imagined for a time that it was a very large rocket which some one had fired, but it was proven to be a meteor of rare beauty. It was observed all over Ontario, and from the Rochester Observatory we learn that it was the finest single specimen of meteoric fireworks which the professor there had ever seen. The stone appears to have come in contact with the earth's atmosphere at an angle, the resistance of which gave it an upward turn, just as a bullet fired at a slant into the water will return to the surface.

Valuable Property for sale in the thriving Village of Flesherton. For particulars apply to A. R. FAWCETT, *Review* office, Streetsville, Ont., or to J. W. Armstrong, Flesherton.

NOTICE.—All accounts due me for Job Printing and advertising must be paid in to J. W. Armstrong as soon as possible.
