Chevrolet Price Problem

The Chevrolet Motor Company in a recent announcement deals with the present price problem in a most sensible and logical way.

It seems that a part of the company's program is based on the production of 50,000 Model "Four-Ninety" cars. This model is well known and there are about 500,000 in use The company proposes to build the 50,000 before August 1, 1921 and if it reaches this number, and it has every reason to believe that it is going to be successful, each purchaser of an open car of the "Four Ninety" type will receive a refund of $70, and those who buy closed cars of this type will receive a refund of $100.

A certificate setting forth the terms of the plan will be given to each retail purchaser and the total number of Model "Four-Nineties" produced by Chevrolet factories during the period which governs the proposed plan, will be published not later than August 10, 1921.

Those who purchased Model "Four-Ninety" Chevrolets under the Chevrolet Motor Company's price guarantee of last October, benefit by the refund plan.

During the period of readjustment, the Chevrolet Motor Company, mindful of its duties to its employees, its patrons and the general public alike, refrained from making any impulsive price change. They knew that a drastic cut, based on a guess as to future conditions could have only one effect—the destruction of the nation's buying power. It would tear down public confidence and stagnate the movement of crops and merchandise. It would slash wages and visit suffering and hardships on millions of people.

But conditions have changed. Raw material prices have found new low levels Inventories have been readjusted to the bottom of the market and it is therefore possible for the company to make a definite proposition based on quantity production.

NOTICE

Remember the Old Reliable Singer Sewing Machine. You can buy on terms to suit you at a very reasonabl price. 10 year guarantee.

HUGH KNOTT, Agent,
Markdale, Ont,

Don't Do It

Don't start the spring house cleaning and washing without THE RED STAR WASHER. A substantial built machine made of Cypress, (the wood everlasting), all metal parts galvanized to prevent rust, runs easily as the mechanism runs on bicycle ball bearing a slight psessure will send the fly wheel spinning, runs quietly as the gears are spiral shaped machine cut. The lid fits tight and keeps in the steam so that the water remains hot during the entire washing. Come in and let us show you.

Also Paints and Varnishes, etc., for house cleaning.

$70 Refund

CHEVROLET

51647 Cars sold in 1916

186147 in 1920

For power and economy of fuel the "Four Ninety" Chevrolet has no equal among the light cars. Give us a chance to prove it against any car on the same road with the same load.

You don't have to go to low gear on every hill or in every soft place with a "Chev." Her speed of 10 to 12 miles on intermediate is away ahead of 4 or 5 miles snail pace on low gear—with the noise thrown in.

The "Four Ninety" for years has been the best car value in low priced cars. In appearance, performance and equipment it is in a class by itself at under $1400.

In these days of uncertain prices, Chevrolet manufacturers point out that they can afford to sell at a reduced price only if they dispose of 50,000 cars before July 31. If this modest volume is reached they refund to every purchaser, dating back to Oct. 1, 1920, $70. Ask us for details.

Chevrolet "Four Ninety," $1050 f. o. b. Flesherton, with full equipment. See us about Special Refund Proposition.

D. McTAVISH & SON,
