LACROSSE

Owen Sound is sending their junior squad to Markdale on the 24th of May.

Markdale have entered a team in the intermediate series and will be grouped with Owen Sound and Durham.

Norman Zimmer and "Chuck" Robson, who played hockey on the champion junior O.H.A. team in Stratford the past winter, will be on the line up of the Hanover juniors this season.

A steam roller with a grading machine and a gang of men are putting Owen Sound's lacrosse field in shape for the coming season.

BASEBALL

Flesherton Ball Club will celebrate the 3rd of June.

Who is going to be the "Babe Ruth" of the Centre Grey Baseball League?

The opening game of the League will be played at Glenelg Centre on Monday, May 16th, when Ceylon will play Glenelg.

So far the weather man has been giving us bad weather and very little practising has been done to get the teams in shape. Here's hoping it will clear up soon and let us get to work.

Two weeks ago the Flesherton team had their diamond skinned on Agricultural Park and expect to have the steam roller on it this week.

Ceylon will likely play all their home games on the Flesherton grounds, as accommodation cannot be secured at home.

Scrap Durham Plant

The plant of the Durham Portland Cement Co. is being scrapped. Mr. Ed. Sargent of Owen Sound has the contract of dismantling the plant and demolishing the buildings; and he left for Durham yesterday to start at the job. It is quite a big job; but Mr. Sargent has had experience in a good many big jobs of the kind, and expects to finish it in a few weeks

We understand that the grinding plant will not be touched, as there is a plan to use it in connection with a rock proposition; but the rest of the mill will be completely wrecked.

The Durham Portland Cement Co. was formed some years ago, when the cement business was developing; and for some years it did well. For some time Mr. R. H. McWilliams of Owen Sound was manager. It was a marl proposition. But after a few years of fair success it fell on evil days, when the business became crowded and the rock process, cheaper than marl, came into use. For some time the plant has been idle; and some months ago it was taken over by one of the banks to which the Company was heavily indebted.—O. S. Advertiser.

What Sulphur Did

Mr. Andrew McKenzie, of the townline Minto and Howick, had quite an experience. He had put a fair sized parcel of sulphur into a stove at home. The sulphur, after ignition, caused a dangerous fume, and Mr. McKenzie drew the burning package out of the stove. The burning sulphur fell on the floor and Mr. McKenzie, in picking it up, was suffocated. He was in a serious condition some hours before reviving.

Card Of Thanks

Mr W. A. Dingwall wishes to thank the many friends and neighbors for their many acts of kindness and sympathy shown during the sickness and death of his wife.

The Red Cross Carries On---Why?

1. Because of demands made upon it in dealing with the terrible aftermath of disease and suffering which always follows war.
2. Because of the serious health conditions revealed by the war—more than half of our Canadian young manhood unfit for combatant military service.
3. Because an international conference of medical experts, realizing that voluntary organization was necessary as an aid to Governments in solving the world's health problems, decided that **"no other organization is so well prepared to undertake these great responsibilities as the Red Cross," and that "no movement deserves more the hearty and enthusiastic support of all people than does this."**

ONTARIO ENROLLMENT, MAY 22-28

Enroll with your local Red Cross Branch or Enrollment Committee, or, if there is none in your community, with the Ontario Provincial Division, 410 SHERBOURNE STREET, TORONTO.

CHEVROLET "FOUR-NINETY" SALES RECORD MORE THAN HALF A MILLION.

The Chevrolet Motor Company's plan to make cash refunds to the purchasers of 50,000 Model "Four Ninety" cars brings to light the fact that more than half a million of these famous models have been sold.

This number covers a period of six years production. In other words, an average of 83,000 "Four Nineties" a year have been sold since the model was first introduced in the 1915 season.

This average is one of the records of the automobile industry. It is a record of continuous growth and steady increase in popularity.

The 83,000 average is only half the story. For, in the first season less than two hundred "Four-Nineties" were sold.

A year's test proved the merit of this popular priced, economical car, however. The second season won nearly forty thousand converts to this Chevrolet model.

Since its immediate success the sale of these cars has increased consistently. 1920 purchasers took nearly twe hundred thousand "Four-Ninety" cars.

This brings the total to more than half a million. And this record has been made by only one model. In this it is unique.

Many of the first cars of this model are still running. In fact, it recently became known that one of these has travelled more than 160,000 miles—27,000 miles a year for six years and is still running.

The sale of 50,000 more of these models between January 1st and August 1st of this year will enable the Chevrolet Motor Company to maintain its average quantity production.

And if this is done in such a selling year as this, the Company will refund its profits to purchasers—$70 on Runabouts and Touring Cars and $100 on Coupes and Sedans.

D. McTAVISH & SON,

CHEVROLET DEALERS, - FLESHERTON, ONT
