Travers Let Few Tear Drops Fall

"Why do you wish to see Mr. Dewart before you give your evidence, Mr. Travers?" This question, asked by a Toronto reporter at Thursday's enquiry into the affairs of the Farmers Bank, at Osgoode Hall, drew a flash of indignation from the former bank manager as he arose to put on his coat. "Is it fair to jump me into this hearing without hardly knowing what it is about?" he demanded. "I have not had a scrap of paper to read since I went to prison; I have not been told a thing about how the case had been settled, and I never even knew that a royal commission had been appointed. I have not been given a chance to consult my solicitor. I would like to have told the commissioner why I did not want to testify, and I am sure he would have understood. I only succeeded in seeing Mr. Dewart for ten minutes and he told me that he wanted to have a two-hour talk before I went on the stand."

One of the lawyers connected with the investigation stepped up to Travers and offered a word of condolence, patting the banker on the back as he did so. Travers turned his face to the wall and tears flowed from his eyes in spite of all attempts to hide them behind a large handkerchief. It was only a few tears, but for a moment the real man was revealed from behind the mask of indifference, which the manager had assumed at both his own trial and when giving evidence against the other officials of the defunct institution. Chief Keeper Atkins said that Travers worries nearly all the time he is in prison, but as soon as he comes to a hearing he adopts a new expression.

OBITUARY.

MRS. HENRY EYERS

Just 62 years ago on March 22, Jane Irwin was born into this world, and her death which occurred this morning on the anniversary of her birthday, is deeply regretted by a host of friends.

The deceased lady, who was predeceased by her husband the late Henry Eyers some three years ago, has for a number of years been residing in Ops, but for some six months past has been ailing, death not being entirely unexpected. She was born in the Township of Emily and when a small child left with her parents to reside at Silver Lake, near Kinmount. The family then moved to Verulam, the former homestead, and later on to Ops. In religion she was a Methodist standing high in the estimation of the community as a good Christian woman with estimable character.

She is survived by the following sons and daughters: Messrs. Irwin and William Eyers, of Gainsboro Sask.; Robert John, of Fenelon; George Sandford and Henry at home; Mrs. Geo. W. Kettles, of Verulam; Miss Minnie Eyers at home. Mr. William Eyers, a son living in Gainsboro, Sask., has been home for some time. Three brothers and one sister also survive, namely: William Irwin, of Peterboro; Robert, of the Canadian Soo; Alexander, of Harvey Township; Mrs. Jas. Purdy, of Bobcaygeon.

How Nerve Cells Are Broken Down

Every man or woman who works with the brain uses up daily an enormous amount of nerve force. Millions of tiny nerve cells are broken down and must be replaced if mental and bodily efficiency is to be maintained.

If brain fag, headaches, sleeplessness or irritability set in, the evidence is plain that nature is not rebuilding as fast as work is breaking down. You cannot allow this depleting process to continue long if nervous prostration or paralysis is to be warded off.

Dr. Chase's Nerve Food will help you to get the balance on the other side of the account, so that each day will add a little to your stock of health and vitality. A man whose work is largely mechanical may keep going with health below par, but the brain worker must have a clear head or fall behind in the race. Restore the wasted nerve cells with Dr. Chase's Nerve Food and know the joys of good health and success.

THREE KILLED IN C. P. R. COLLISION

North Bay, Ont., March 24. — Another serious wreck occurred on the C.P.R., Lake Superior division on Saturday morning following closely the accident to the Colonist special on Thursday last. Yesterday's wreck was a head-on collision between a freight train with settlers' effects and stock going West, and an east-bound freight train and occurred near Amyot, a station 362 miles west of North Bay, through misinterpretation of orders. Both trains had orders to meet and pass at Birch Station, six miles west of Amyat, near where the accident occurred. One of the trains had two engines, and the eastbound train passed Birch instead of stopping to wait for the other train, and both met with a frightful impact, demolishing a number of cars, killing the cattle and horses, besides destroying the settlers' effects and tearing up the track for a considerable distance, tying up traffic for many hours. A farmer named Jamieson, of Owen Sound, was killed. J. Smith, engineer, of Toronto, was injured. He was taken to Toronto, and subsequently died in the hospital. Fireman Nyal is missing and it is supposed he was killed. Engineer Dooner was injured. Trainman Loyst was seriously injured and may not recover.

A farmer named Conley was also seriously injured.

Jas. Loyst, the breakeman, is in the General Hospital, Toronto, suffering from burns, about the face and head, the result of escaping steam. While his condition is serious it is noth thought that the injuries will prove fatal. Loyst's relatives in Peterboro have been notified.

Suggest Remedies To Game Law's

Below will be found extracts from the reports of Government fish and game inspectors in this picinity:

Observer H. B. Parker, of Bobcaygeon, reports that the bass fishing was not so good this season as other years, but the maskinonge fishing was better. He would again call the attention of the department to the need of a fish hatchery on these waters. He would recommend that all fishing through the ice on the Kawartha Lakes be stopped; that the open season for bass be from 20th of June to 1st December on these waters; that the open season for maskinonge be from 1st June to 1st December on theses waters; that muskrat be from 1st March to 1st May; that there be no sale of duck or any other game birds.

Overseer Charles W. Parkin, of Valentia, reports that the bass is decreasing in numbers owing to the fact that so many are taken out by fishing through the ice. He did not sell any fishing licenses this season, owing to the fact that only a few non-residents visited in his locality, and they did not care to do any angling. In regard to the catching of frogs for domestic purposes, he would suggest that the close season be extended for at least three years. Muskrats in his district, and in fact in the lake generally, were very plentiful in the past season, they having been protected by the low condition of the water, which did not give the trappers the same chance to secure them. As to the meadow larks, which do not now exist on the game list, he would suggest that this kind of game be put on the list.

Overseer Manly Maybee, of Cameron, thinks spearing through the ice is a thing of the past. The catch of muskrats on McLaren Creek and Goose Lake was very large this year. It would be well to protect frogs for a year or two in Victoria county. He sees that some of our overseers advise that every man that carries a gun or rifle should be obliged to have a permit or license. In the first place it would conflict with a right that they have long enjoyed. As for the farmers, they like to have a day's hunt in the year, or the privilege if they want to without looking for a permit. Besides he thinks it would be harmful to the military system, as the boys, in general, that join the militia are very fond of firearms and an outing, being the reason why our volunteers distinguish themselves when they are called out for action.

Overseer John Jones, of Fenelon Falls, reports that the bass and maskinonge have been more plentiful this season than for the last fifteen years. He would suggest that the close season for bass and maskinonge should be from the first of April until the fifteenth of June instead of from the 15th of April. He would suggest that the frogs be protected for at least two years. He would suggest $20 a head bounty for wolves instead of $15. He thinks it the right move to have only one month of open season for partridge.

memee Man Gets a Grant

Omemee, March 21. — Henry Nugent will get $100. He is the only veteran of the Fenian Raid around this section. He belonged to the 45th Battalion, connected with the company at Lifford in Manvers, at the time under officers who are all dead. Colonel Williams, Captain Preston, Lieut. Richard Touchburne, and Ensign William Engram.

TORTURED FOR NEARLY TWO YEARS

MRS. POULIN FOUND RELIEF IN DODD'S KIDNEY PILLS.

RHEUMATISM, BACKACHE AND HEADACHES WERE HER PORTION BUT NOW SHE IS A NEW WOMAN.

McCreary, Man., Mar. 22.—(Special)—"Four boxes of Dodd's Kidney Pills made a new person of me." The speaker is Mrs. Oliver Poulin, of this place, and her numerous friends here fully verify her statement.

"For nearly two years," Mrs. Poulin continues, "rheumatism tortured me. My back and head also ached. My eyes were puffed and swollen. I am sixty-three years of age, and you can see I was a pretty sick woman. But Dodd's Kidney Pills cured me."

Mrs. Poulin is only one of many who have had a similar experience. They were weak and run-down, and sick all over. Dodd's Kidney Pills cured them. How? Simply by curing the kidneys. The diseased kidneys were the cause of all the trouble. They were failing to strain the impurities out of the blood, and the result was disease all over the body. Dodd's Kidney Pills cured the kidneys, the impurities were strained out of the blood. The result was pure blood and good health all over the body. The cause of the disease had been removed.

Thirty-two men were killed by the explosion of a locomotive engine at San Antonio, Texas.

THE EASTER HAT.

Oh, Easter hat,
Of thee I sing.
Thou art a most
Deceiving thing.
A 10-cent frame,
Five yards of lace,
A rooster's tail
In foremost place.
The total cost,
Is ninety cents;
That is to say,
The first expense,
They place it in
The window and
The women say
It's "simply grand."
The price they charge,
Sad to relate,
Sad to relate,
We've got to pay—
$12.98.

THE MILITIA ON SOUND BASIS

Col. Sam Hughes Supplies a Lot of Information

Ottawa, March 18.—Col. Hughes, minister of militia, has circulated among members of parliament printed memorandum giving remarkably full explanations of the estimates of the militia department. It takes up feature after feature of the votes and gives particulars as to the service involved; likewise notices of new departures in policy and information as to organization aimed at. Much of questioning to be expected when the estimates are before the house is anticipated. The estimates for 1912-13 are $8,334,450, an increase of $191,000.

THE ANNUAL DRILLS.

The increase in the vote for the annual drill is $405,000, reductions elsewhere cutting down the increase. Provision is made in the annual drill vote for the training of cadets for a week in camp. If the expectations as to the good turn-out of cadets are realized, the number of trained boys and men should approach 94,000.

59,963 TRAINED MEN.

The authorized training establishment for the militia is 59,962 and 13,637 horses, exclusive of a permanent force of 3,400 with 577 horses. Thus the total is 63,362 men and 14,414 horses. The increase in the permanent force is largely due to garrisons at Halifax and Esquimalt, which require between them 1,500 troops.

500 TEACHERS.

Provision is made in the estimates for 500 teachers taking the course, but the explanation is that nearly 1,000 will apply for permission to attend, as follows: Ontario 400; Quebec 100; Maritime Provinces 225; Northwest 250.

TO CLOTHE THE SOLDIERS.

It is noted that it costs approximately $40 a year to clothe a private of the permanent force and $6.30 a private of the active militia.

Information is given as to the cost of separate articles.

Another subject upon which information is given is the numbers and cost of the staff at headquarters and the district headquarters. Out of 61 permanent staff officers 29 are at Ottawa and 32 at various district headquarters.

$700,000 IN SALARIES.

Chicago, March 19.—According to figures obtained at American league headquarters in this city, 276 ball players are the property of the eight clubs in the Ban Johnson circuit—99 pitchers, 39 catchers, 86 infielders and 52 outfielders.

If it were possible to keep all these men through the coming pennant race, experts figure they would draw more than $700,000 in salaries, with an average of $2,000 each. But under the rules each club must reduce its players to 25 shortly after the championship campaign begins, so that it will be necessary to turn back 75 players to the minor leagues.

To prepare these men at the southern training grounds, it is estimated the club owners must spend $80,000, including railroad and hotel expenses, with practically nothing coming in, as exhibition games in southern cities as a rule are poorly patronized.

GORDON TO VACATE.

Ottawa, March 24. — It seems assured that Mr. D. A. Gordon will drop out of the representation of East Kent and will cause a bye-election to be held in that constituency. Mr. Gordon has extensive business interests, his health is not of the best, and he has no particular liking for life on the Opposition benches of the House of Commons. East Kent is a riding with a strong Liberal history. The name of the anxious and ever-ready Mr. Mackenzie King has, of course, been mentioned for the vacancy by different persons, including Mr. King.

Rev. James Hannon, D.D., died at St. Marys.

YOUR BLOOD IS TAINTED

ULCERS, BOILS, SWOLLEN GLANDS, BLOTCHES, PIMPLES, AND ALL SKIN AND BLOOD DISEASES ARE COMPLETELY CURED BY THE NEW METHOD TREATMENT

We desire to call the attention of all those afflicted with any Blood or Skin Disease to our New Method Treatment as a guaranteed cure for these complaints. There is no excuse for any person having a disfigured face from eruptions and blotches. No matter whether hereditary or acquired, our specific remedies and treatment neutralize all poisons in the blood and expel them from the system. Our vast experience in the treatment of thousands of the most serious and complicated cases enables us to perfect a cure without experimenting. We do business on the plan—Pay Only for the Benefit You Derive. If you have any blood disease, consult us Free of Charge and let us prove to you how quickly our remedies will remove all evidences of disease. Under the influence of the New Method Treatment the skin becomes clear, ulcers, pimples and blotches heal up, enlarged glands are reduced, fallen out hair grows in again, the eyes become bright, ambition and energy return, and the victim realizes a new life has opened up to him.

YOU CAN ARRANGE TO PAY AFTER YOU ARE CURED

GOOD PROGRAM

ARRANGED FOR ANNUAL MEETING AT TORONTO

The Ontario Educational Association which holds its fifty-first meeting in Toronto during Easter week April 8th to 11th, is making this year an interesting departure from its usual procedure. For many years past it has had as the chief speakers at its evening meetings distinguished educators from abroad. While these visitors have been cordially welcomed and while their remarks have been much appreciated, the Association has decided to give this year the places of honor on its program to Canadians.

The Venerable Archdeacon Cody, of Toronto, has consented to address the Association on "Education in Relation to National Character," while Principal MacIntyre of the Winnipeg Normal School will bring a message from the western provinces and will deliver an address on the topic "An Efficient Education."

Additional interest is added to the program by the fact that Dr. Henry F. Cope, of Chicago, Secretary of the Religious Education Association and a speaker of note, has consented to be present and to give two addresses, one before the Training Department on the Wider Aspects of Religious Education and one before the General Association on the Public School as a factor in the development of religious character.

The President for the present year, Mr. J. H. Loughton, of Parkhill, represents the Public and High School Trustees of the Province. This emphasizes the scope of the activities of the Association and the representative character of its membership.

FRUIT SPRAYS BAD.

BEEKEEPERS OBJECT TO LIME SULPHUR.

Belleville, March 22.—Many of the fruit-growers of Prince Edward county are preparing to use lime sulphur for the season's spraying. There is, however, a strong feeling against the movement by the beekeepers who claim they lost heavily last season on account of bees coming in contact with spray poison being put on the trees at the wrong time.

The new St. John's Lutheran church was dedicated at Toronto.

Lindsay Knight Was Appointed

Kingston, March 20. — The Grand Black Chapter of Ontario East elected the following officers this morning.—

Right worshipful grand master, W. H. Sproule, Ottawa.

Right Worshipful Deputy Grand Master, W. Meechan, Madoc.

Right worshipful associate, Grand Deputy Master, Sir William Warren, Lindsay.

Right worshipful grand chaplain Rev. W. F. Fitzgerald, Kingston.

Right worshipful grand registrar, W. J. Rhodes, Hassard's Corners.

Right worshipful grand deputy registrar, W. E. Tummon, Madoc.

Right worshipful treasurer, T. C. McConnell, Springbrook.

Right worshipful deputy treasurer, T. H. Moore, Madoc.

Right worshipful lecturers, E. A. Morrow, Stirling, and T. C. Holden, Peterboro.

Right worshipful censors, C. E. Moury, Peterboro; W. J. Straight, Athens.

Honorary Grand Register Grand Black Chapter of Ontario East, Sir Kt. John Kelley.

Pursuivant, H. A. Graham, Kingston.

It is understood strong resolutions on home rule, the marriage question and bilingual schools will be passed by the Grand Lodge.

It is said that Dr. Merchant's report on the bilingual schools question will be fully discussed at the Grand Lodge. Members are, of course, meeting in private, and very little is being given out to the public. In fact, following the reports given out at the sessions of the Order in London, Ont. just a few days ago, it was decided that very little would be given to the press about the sessions, and, as a result the members are mum and reporters are having their own troubles endeavoring to find out what has been done. The members of the Black Chapter and the Grand Orange Lodge here expressed themselves as being very much dissatisfied with the very extensive reports which were given out in London and decided that curtailed reports would be given out in Kingston.

NEW BRICK MACHINE.

Mr. Frank Curtin has purchased a new Martin brick machine from the Parkhill Mfg. Co., which will take the place of the one now in use. The new machine will have a much greater capacity, and several thousand more brick can be turned out each day. Mr. Curtin is adding several new features this spring to his already well equipped yard.

—The following members of the Orange Order returned on Friday last from Kingston, where they had been attending a meeting of the Loyal Orange Order of Ontario East: William Warren, County Master, of Victoria L.O.L.; William Burke, Wor. Preceptor of Lindsay; William Patrick, Dunsford, District Master of Verulam; Geo. Dawkins, Co. Master of Haliburton L.O.L.; Jas. Erskine, Past County Master of Haliburton L.O.L.; Dan. Spence, District Master of Fenelon.

A Severe Rebuke

The Christian Guardian, in its latest issue, has the following comments on the recent exploits of the militant suffragettes in England:

The cause of woman-suffrage must surely be a good one if it will stand the strain that its supposed friends have placed upon it in the world's metropolis during the past few days. After reading the story of the window-smashing crusade that Mother Pankhurst and her cohorts, all thirsting for the martyr's crown, indulged in, one gets an idea of when Kipling saw his ideal of the sex as portrayed in his recent poem. To believe that the movement that such women are setting forward by such methods has in it intelligent and honest and altogether worthy purposes and motives will be a very difficult achievement for many from this time on. And in this way a good and worthy cause may suffer serious checking and ill-repute. Well-dressed and wealthy women turned hoodlums do not make any nicer spectacle than do slatterns and fishwives in the same capacity, and the hope that any such methods as these will accomplish anything worthy leaves out of consideration some of the most elemental human facts. Woman-suffrage as a propaganda has certain legitimate weapons it can use. Destroying plate-glass fronts and insulting prominent statesmen hardly seem to be among these. It would seem at this distance as if the British statesman had enough of real problems on hand at the present moment without being pestered by workless women thirsting for cheap notoriety.

Feed The Hungry

The project of feeding famished millions in China with the damaged wheat of the Canadian West is taking definite shape. As a result of floods and droughts some 4,000,000 men, women and children will starve to death before June unless succor is received from across the sea. That succor, or at least part of it, is likely to go from Canada.

The wheat damaged by an unseasonably early winter lies on the prairies. The farmers would be glad to part with it. The Ogilvies and Lake of the Woods Milling people are understood to have agreed to grind it free. The Canadian Pacific Railway will facilitate its transportation to the Orient. Canadian boards of trade and business men everywhere agree that the project should be pushed if only for commercial reasons.

It will give Western grain growers some return for the injured portions of last year's crops, and it will tend to make the Chinese regard us in kindly fashion. They will be more inclined to trade with us, to buy our goods and to put up with our embargo upon their free movement into this country. But after all the humanitarism consideration should impel us most strongly. Over there people are starving. Over here are millions of bushels of grain. Let us get the grain, or rather the flour it will produce to the famine stricken ones as soon as possible.—Toronto News.

A DAILY THOUGHT.

The broomball game advertised for last night at the Lindsay-st. skating rink did not materialize, owing to the small attendance.

DAMAGES OF ONE CENT.

Stratford, March 20. — The Stratford Beacon to-day defended a joint libel action, Mr. P. Duval and Mrs Jessie Etherington were the plaintiffs, and the libel consisted of a personal item in The Beacon on November 27, 1911, evidently sent in as a joke to the effect that "Mr. and Mrs. Duval (nee Etherington) had returned from their wedding trip and had taken up residence at Moderwell street." Duval was a boarder at the Etherington house at the time. The jury returned a verdict for the plaintiffs, but without damages. His Lordship fixed the damages at one cent for each plaintiff, costs to be paid by each party.

—Miss Hattie Clark, of North Ops, left to-day for Peterboro.

IF THE LIVER IS LAZY

STIR IT UP BY THE USE OF

MILBURN'S LAXA-LIVER PILLS.

They stimulate the sluggish liver, clean the coated tongue, sweeten the breath, clean away all waste and poisonous matter from the system, and prevent as well as cure all sickness arising from a disordered condition of the stomach, liver and bowels.

Mrs. Matthew Sullivan, Pine Ridge, N.B., writes:—"I had been troubled with liver complaint for a long time. I tried most everything I could think of, but none of them seemed to do me any good, but when I at last tried Milburn's Laxa-Liver Pills I soon began to get well again; thanks to The T. Milburn Co. I would not be without them if they cost twice as much."

Milburn's Laxa-Liver Pills are 25 cents per vial, or 5 vials for $1.00, for sale at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Divorce of Counties of Durham and Northumberland May be Result

Port Hope's feelings towards Cobourg for the latter's action in refusing a hospital for the counties as are such that the separation of the outlined in the late John Helm's will counties, Northumberland and Durham, may be the result. The Port Hope Guide, speaking for Durham's interests, says:

Our only hope is a permanent division of territory — there is now a great division of interests and the pie is always cut to suit Northumberland; we do not have a look-in on anything; we can't spend out own money; couldn't even have a bridge fixed unless Northumberland allows it; can't have a say as to who the county officers shall be for their vote is 22, against our 16, consequently the improvements and permanent good work is done to the east and the plums are fed to Cobourg people.

In this hospital business every means and argument were used to defeat the purpose of the late John Helm, even to producing a straw offer of $50,000 to establish a Counties Hospital in the farthest eastern point in Northumberland, instead of almost on the boundary of the two as the Helm Homestead and this offer from an alleged source which people who think they know believe would not put up $50.00 as an inducement. Anything to beat Durham—especially the township of Hope and Port Hope.

Hope has been the patient good milch cow for the Counties for all these years; paid the way, never made a request for anything until now, when it is almost insultingly refused.

A few years ago Victoria and Peterboro Counties were united. Mr. John D. Smith, now residing in Port Hope, was one of the several to take the first step towards dividing these Counties. Can anyone say that it was not the wisest thing that could have taken place for both Counties? Would either Peterboro or Victoria agree to reunite? Not on your life and it is high time that Durham and Northumberland were divorced.

"Sore"—any sane man or community would be sore under the circumstances. If the soreness only results in the needed amputation of one county from the other, it will be the only good that will come out of it.

The provision of the will that $140,000 be spent for a hospital for the two counties was defeated and Cobourg accepts $20,000 instead for its own hospital and $60,000 goes to a Toronto hospital and Port Hope's dream of a big hospital for the counties has vanished. Hence the strained relations between the two rival lake front towns.

"SOVEREIGN"

TRADE MARK REG.

SHEATHING FELT

Makes Houses Snug and Warm

"Sovereign" Sheathing Felt compared with ordinary building paper is like a woollen blanket compared with an ordinary cotton sheet.

"Sovereign" Sheathing Felt is made partly of WOOL, saturated and coated with the same tasteless, odorless gum that gives Ru-ber-oid Roofing its recognized superiority. It does more than break the wind—it acts like a blanket in the wall, and prevents the heat from leaking out in winter or filtering in in summer. As a result it makes a substantial saving in your winter coal bills and adds to your summer comfort.

"Sovereign" Sheathing Felt is waterproof—will not mould, rot, dry out nor crack, and is strongly fire-resisting.

Get a sample of "Sovereign" from the nearest Ru-ber-oid Dealer, or write us for sample and Booklet.
