Artemesia Council

Artemesia Council met at the town hall on Saturday, June 4, as a Court of Revision of the assessment roll of 1921. There being no appeals, it was moved by Mr. Burnett, seconded by Mr. Mathewson, That the roll as finally revised by this Court be the assessment roll of the township of Artemesia for all purposes for 1921—Carried.

The Council then met for general business, the Reeve in the chair. The minutes of last meeting were read and confirmed.

The following communications were read—the several commissioners' reports for May; Mr. Alex. Hill, tender for steel and concrete bridge at lot 9, South Line; John Paul, burial expenses of Miss Ann Cooper, $70; Municipal World account for treasurer's cash book, $8.16.

Mathewson—Burnett—That J. A. Hogarth's report for May be received, expended $29.50, and he be paid $2.95 commission, and $18 for four and a half days' overseeing expenditure of $94.50—Carried.

Latimer—Hogarth—That J. F. Mathewson's report for May be received and he be paid $32 for overseeing expenditure of $156.50, and $8 for two days' of committee work—Carried.

Burnett—Hogarth—That J. Latimer's report for May be received and he be paid $2.85 commission on $22.50 expended—Carried.

Hogarth—Mathewson—That J. Burnett be paid $2.85 commission on $28.25 expended and $4 for one day's work—Carried.

Mathewson—Latimer—That the acct. of the Municipal World of $8.16 for treasurer's cash book be paid—Carried.

Hogarth—Mathewson—That the Reeve be paid $4 for one day overseeing work on Valley Road—Carried.

Latimer—Hogarth—That John Paul's Account for burial of Miss Cooper, $70, be paid—Carried.

Burnett—Mathewson—That tender of A. Hill of $2222.00 for construction of bridge over the Saugeen at lot 9, South Line, be accepted.

Mathewson—Burnett—That the request of T. Elliott and others to have base line from lot 100 to lot 110, con. 3, N E T & S R, closed, also sideroad between lots 10 and 11, con. 14, be entertained and the Clerk advertise the same and a bylaw for the purpose be prepared and passed, giving effect to the resolution—Carried.

A Meaford fisherman captured a lake trout that tipped the scales at 29¼ lbs. and measured 44½ inches in length.

EUGENIA

Although there was no account of the garden party and concert on the 24th of May, nevertheless the day proved a great success. The baseball in the afternoon played between Eugenia and Ceylon was very exciting. A good clean game was played, the score being 19 to 15 in favor of the home team. The ladies provided a splendid supper and in the evening the Vandeleur Dramatic Club gave their play entitled "The Spinster's Convention." It was with great difficulty that the ladies were able to do themselves justice, being cramped for room, nevertheless they did their parts exceptionally well and we hope to have them with us again when they have their new play in readiness, "The Spinster's return," when we also hope the accommodation will be better. The proceeds of the day were something over $150.

Our memorial is being brought in from the station this week and with great difficulty, owing to the great weight of the stone and the road being badly torn up. Those who have volunteered to do the hauling deserve great credit. The monument will weigh over ten tons. Mr. Borland of Collingwood is doing the work, and names will be received by the Secretary, Mrs Large, during the next ten days, for inscription.

A bee is called for Thursday of this week for putting in cement base and walks, etc. Everyone turn out, as this will be the last chance to do our bit for the boye who made the supreme sacrifice. Bring along yoor teams, wagons, picks and shovels, and the ladies will bring baskets.

Messrs Walker Sloan and Stoby of Toronto are guests at the Munshaw House.

Archie Cairns of Manor, Sask., paid friends a short visit during the past week.

The Sheep Breeders' picnic on the 10th was well attended and of great interest to farmers. Owing to the storm the demonstrators were unable to give the lantern slides in the evening but the afternoon program was very interesting.

Ted Parsons, Gerald Large, Leslie McMullen and Carl Humberstone left for Niagara Camp on Friday last.

Mr and Mrs L R Munshaw, Alliston, visited the former's parents here during the past week. Mrs P Munshaw returned with them to Alliston on Monday.

Mrs Tuohy and Master Harold of Meaford visited with friends during the past week.

Mr Earnest Morgan has been appointed by the Great War Veterans Association as secretary on the executive board for the Dominion. Congratulations.

Eugenia has been without lights for over a week owing to the transformer being out of commission, but thanks to Walter Thompson who very soon rectified the trouble and once more we have lights.

Mrs Leonard Latimer has gone to Toronto to visit friends.

Mr and Lyons, Mrs Parliament and Mrs Lyons Sr. motored over to Meaford during the past week and visited friends.

THE CONTROL OF WEEDS

Measures and Methods for Getting Rid of Them.

Education Must Accompany Legislation — Farmers Like to Be Shown — Results of Experiments on Over Seventy Farms.

(Contributed by Ontario Department of Agriculture, Toronto.)

IN Ontario two methods have been tried for the control of noxious weeds, namely legislation and education. Under legislation there is "The Act to prevent the spread of Noxious Weeds." The main clauses of this act are as follows:

"Every occupant of land, or if the land is unoccupied, the owner, shall cut down or destroy all Canada Thistle, Ox-eye Daisy, Wild Oats, Ragweed, and Burdock growing thereon and all other noxious weeds growing thereon to which this act may be extended by bylaw as hereinafter provided, so often in every year as is sufficient to prevent the ripening of their seed, if such cutting or destruction does not involve the destruction of growing grain.

"The council of any local municipality may, and upon a petition of fifty or more ratepayers shall, appoint at least one inspector to enforce the provisions of this act in the municipality, and fix the amount of remuneration, fees, or charges he is to receive for the performance of his duties; and if a vacancy occurs in the office the council shall fill the same forthwith.

"Any person who knowingly sells or offers to sell any grass, clover or other seed, or any seed grain among which there is the seed of Canada Thistles, Ox-Eye Daisy, Wild Oats, Ragweed, Burdock, or Wild Mustard shall for every such offence incur a penalty of not less than $5 and not more than $20.

"Any person who sows any wheat or other grain knowing it to be infested by the disease known as smut without first using some proper and available remedy to destroy the germs of such disease, shall incur a penalty of not less than $5 and not more than $20."

A few years ago an investigation was made into the effectiveness of this act and it was found that out of the six hundred townships of Ontario, only ninety-two were making any effort to enforce it. In forty-nine only had inspectors been appointed. In regard to the work of inspectors, seventeen townships reported the work of the inspectors as satisfactory; fourteen reported that the work was partially satisfactory. Out of the six hundred townships of the province, fifteen only reported that this act was successfully enforced; seventy-two that it was partially enforced; and the remainder reported that it was practically a dead letter. It would seem from this investigation that legislation is having but little effect in the control of weeds in Ontario.

Legislation without education is, in the opinion of the writer, useless. It is only when the sentiment of those concerned is behind an act that is can be successfully enforced and such sentiment can be created only by proper education.

In regard to education, considerable has been done by the Ontario Agricultural and Experimental Union. This organization in co-operation with the Department of Botany at the Ontario Agricultural College has carried on, during the past eight years, co-operative experiments in weed eradication. Over seventy farmers have conducted successful experiments. The weeds experimented with were — Perennial Sow Thistle, Twitch Grass, Bladder Campion or Cow Bell, Wild Mustard, Ox-Eye Daisy, Field Bindweed, Wild Oats and Chess.

The objects of these experiments is to get data from which definite statements may be made regarding the best methods of controlling the various bad weeds. It is hoped to include more weeds each year until exact information has been obtained concerning the eradiction of most of the bad weeds in the province.

The results of this work are presented each year at the annual meeting of the Experimental Union at Guelph and the more important results are published in the annual report.

Six of these experiments have now been carried on for eight successive years, and some very valuable information obtained regarding the control of such weeds as Perennial Sow Thistle, Twitch Grass, Bladder Campion, and Wild Mustard. This information may be briefly summarized as follows:

1. That good cultivation followed by rape sown in drills provides a means of eradicating both Perennial Sow Thistle and Twitch Grass.
2. That rape is a more satisfactory crop to use in the destruction of Twitch Grass than buckwheat.
3. That rape gives much better results in the eradication of Twitch Grass and Perennial Sow Thistle when sown in drills and cultivated than it does when sown broadcast.
4. That thorough deep cultivation in fall and spring followed by a well cared for hoed crop will destroy Bladder Campion.
5. That mustard may be prevented from seeding in oats, wheat or barley by spraying with a twenty per cent. solution of iron sulphate without any serious injury to the standing crop or to fresh seedings of clover.

In addition to this experimental and educational work of the Agricultural and Experimental Union, the Department of Botany has carried on various experiments in the eradication of many of the worst weeds of the province.—Prof. J. E. Howitt, O. A. College, Guelph.

Insurance Is Good, But—

Insurance will, in a measure, repay you for loss from fire due to lightning.

But *it will not prevent the fire.*

It takes the DODD System of Lightning Protection to do that.

In the past thirty years over 300,000 buildings have been rodded by the DODD System and in not a single instance is there a record of the DODD System properly installed, having failed to prevent damage by lightning.

The fact that you haven't yet suffered loss by lightning only means that you are fortunate, not that you are proof against it. ***Ask us today what it will cost you to have DODD protection.***
