Insurance Is Good, But—

Insurance will, in a measure, repay you for loss from fire due to lightning.

But *it will not prevent the fire.*

It takes the DODD System of Lightning Protection to do that.

In the past thirty years over 300,000 buildings have been rodded by the DODD System and in not a single instance is there a record of the DODD System properly installed, having failed to prevent damage by lightning.

The fact that you haven't yet suffered loss by lightning only means that you are fortunate, not that you are proof against it. ***Ask us today what it will cost you to have DODD protection.***

Dept. of Agriculture

County of Grey

As the year is drawing to a close, the time for making application for Premiums is rapidly shortening. The Grey County Department of Agriculture, Markdale, is receiving some every week. To those who have purchased a Registered Ram for the first time the Federal Department of Agriculture, Ottawa, will give $5 this year and $5 next. All applications must be made before Dec. 31st.

SCHOOL FAIR LETTERS

In an endeavour to secure the co-operation of all the schools in Grey County, the Department of Agriculture, Markdale, sent a package of 20 letters to all the teachers in the schools which were not engaged in School Fair work during 1921. The request was made that these letters be distributed to the children.

The aim is to have the circulars distributed so that the people can read them and learn the facts of the School Fair Work. From past experience we know that the majority of the schools once engaged in the work do not care to drop the fair. The Department hopes for a large increase in 1922.

During January the Department of Agriculture, Markdale, will conduct a four weeks' course at Chatsworth and Dundalk. The latter named is a jointly conducted in co-operation with the Department of Agriculture, Orangeville. Folders have been sent out relative to the courses. At these courses practical demonstrations on Stock and Seed Judging, Milk Testing, Seed Identification, and other things relating to Agriculture are given. Members of the class will be eligible to enter judging competitions at Toronto and Guelph. Winners will receive handsome prizes. Other competitions are Beef Feeding, Dairy Profit, Profit Acre, Plowing, etc. The prize in this will be a two weeks' free course at the O.A.C. in Stock and Seed Judging.

Domestic Science and Home Nursing courses for the ladies will also be held. Last January these proved the most popular, as there were 114 in Domestic Science and 154 in the Home Nursing courses at Durham. The courses are worth while, as they are practical and designed to give information that the average woman is seeking for whether she comes from the farm or town.

Hermon Johnston, a mason at Dundalk, had his left leg broken between the hip and knee when the scaffold on which he was standing gave away, letting him fall to the frozen ground.

Hospital for Sick Children

COLLEGE ST., TORONTO.

Through Support of Public, Ontario Maintains Greatest Children's Hospital on This Continent.

Dear Mr. Editor:—

Nowadays people look ahead more than they used to. They realize, for instance, that the child of to-day is the citizen of the future. The privilege of this Hospital is to provide a service whereby any Ontario child, who is weakly, may be made strong, or if he is crippled, may be set straight.

Part of this service consists of personal medical and surgical care of the children. Part is in the schooling of doctors and nurses to carry the high of medical science into the uttermost corners of the province.

The whole is a contribution to CHILD WELFARE work which must commend the Hospital to the sympathy and support of your readers.

You probably saw a Quebec despatch deploring the great infant mortality in that province. One great factor which gives the Ontario-born child so much better a chance in life is the maintenance of public philanthropy of the leading Hospital for children on this continent. And that child, whether it be pallid of cheek or crooked of limbs, is helped over the rough spots of infancy and adolescence by this same Hospital. Here are the average day's figures of 1921 attendance:—

Cot patients	268
Other patients	158
Total	426

During the year the Hospital actually saves the lives of scores upon scores of children. It restores health or straightens limbs for hundreds more. Every contributor to the Hospital funds is a shareholder in an enterprise which wins back health and happiness for thousands of children, and thereby gives joy to thousands of anxious homes.

Remember, however, that every child to whom the Hospital's doors are opened—and none are refused—adds something to the financial burden which the GREAT MOTHER CHARITY has to carry. But it has never defaulted on its dividends, which are paid not in money, but in service.

The continued service of the Hospital depends on the continued support of the public. A minute of mercy costs fifty cents, and the clock in the treasurer's office is six months slow. So there are a lot of minutes to catch up.

The Hospital is accomplishing fifty per cent. more work than before the war. Owing to higher prices it requires almost twice the money. May I place that simple but serious fact before your readers in connection with the 46th Christmas appeal of the Hospital for Sick Children for funds to carry on another year of service?

Faithfully yours,
IRVING E. ROBERTSON,
Chairman of Appeal Committee.

Apply The Death Penalty

The number of hold-ups, bank robberies, and forcible lootings of private property for some time back, accompanied by the use of fire arms to threaten life, has grown to such proportions that some more drastic action than fine and imprisonment is necessary. The man who presents a pistol at a victim with a demand for money is virtually a murderer, and should receive a murderer's punishment. That he is a murderer has been proved more than once by actual shootings. If we are to retain the death penalty, we think it should extend to this class of desperadoes, and an example or two would have a salutary effect. The desire to get wealth at the expense of the life of another and innocent victim must not be allowed to grow.—Durham Review

Pure bred Yorkshire Boar for service on lot 37, con. 6, Artemesia. Terms $1.00 —JOHN HARGRAVE, Prop.

HAVE YOU HAD YOUR CAR OVERHAULED

If not, now is the proper time to have it done. In the past, it has been the custom to leave any repairing required at this season of the year until Spring. You can readily see that we are then forced to work 50 per cent. above normal capacity, and it is almost impossible for us to give your work the proper attention. Just now and during the winter season our repair shop is only working at about 50 per cent. capacity. With your co-operation in this way it will greatly assist our service to you and you will be better satisfied. Come in and let us know repairs you will require and we will tell you how we can take care of your work to your great advantage.

We have made a specialty of battery work and can guarantee first class repair on any make or size of battery. For winter storage and care of your battery we have reduced our charge to $2 50.

We do not specialize in overhauling or repairing any partienlar make of automobile, but pride ourselves on being competent to handle the most complicated work on **YOUR CAR.**—(No matter what the makers call it.)

We also handle Sleighs, Melotte Cream Separators, Cutters, Gasoline Engines, Cockshutt Implements.
