Sending Money to Distant Points

YOU can send any amount of money to any point in Canada at a minimum of expense by using a Standard Bank Money Order. This method is the simplest, safest and most convenient way to send remittances by mail in the Dominion; if the mail goes astray no loss is sustained. Should you desire to send money to a point outside the country, a Standard Bank Draft will serve your purpose for forwarding money to foreign places.

BORN

COLQUETTE—At Port McNichol Ont., on Tuesday, March 10th, 1925, to Mr. and Mrs. W. R. Colquette (nee Lila Alexander) a son, Richard Allan.

IN MEMORIAM

THOMPSON—In loving memory of our dear son and brother, Walter J. Thompson, who departed this life March 15th, 1922.

The depths of sorrow cannot pass,
The loss of one we loved so well,
And while he sleeps a peaceful sleep
His memory we shall always keep.
His smiling face to us so dear,
His gentle step we no more hear,
His willing hands and face so sweet
In heaven some day we hope to meet.

Sadly missed by father, mother and sisters.

SINGLE COMB WHITE LEGHORN EGGS FOR HATCHING

We have two pens to choose from this year. A special pen composed of graddaughters of that great hen Keystone Maid with an official record record of 306 eggs in her pullet year, mated up with a grandson cockerel of the famous hen, Lady Victory, with an official record of 304 eggs in her pullet year or 1225 eggs for 5 years. **Price per setting of 14, $2.00.**

Then we have our general pen composed of females, same as above, along with females from the Delarme pen, which won the Ontario contest last year with a clear lead of 124 eggs, mated to an imported cock bird. **Settings from this pen $1.50 per setting of 14, after 1st setting $1.00 per setting.**

Ten of these birds were exhibited at Kimberley poultry fair and won 9 firsts, 2 seconds and 1 third in the utility classes. It is just as easy to feed hens laying 150 to 300 eggs as those laying 75 to 150. Remember we guarantee satisfaction and you will find it hard to get any better bred-to-lay chicks to start a flock with. Order ahead so we can fill all orders as they come in.

Agricultural Board Presents Its Report

A proposal for creation of a National Export Marketing Commission constitutes the main recommendation of a report tabled in the Legislature by Hon. Dr. Jamieson, chairman of the special agricultural inquiry committee which was appointed at last session of the House and has been busy most of the time during the recess. The other members are Messrs. Thompson of Lanark, Trewartha of South Huron, Black of Addington, Keith of North York, MacBride of Brantford, and Lethbridge of West Middlesex. The committee held 54 meetings throughout the province, also conferences with representatives of the railways, manufacturers, retail, wholesale, and labor organizations, and authorities on economic and social conditions, and accomplished a survey of farming conditions in Ontario by questionnaires sent to Wardens, Township Clerks, and agriculturists.

The report tabled in the House reviews all branches of Ontario agricultural production and outlines a national marketing scheme for the exportable surplus of this production. Some of the complaints received at the sessions held have already resulted in the removal of grievances. The committee was able to obtain substantial reduction of feed charges at the cattle markets, improvements in handling of last season's fruit crop by the railways, improved accommodation for stock and express at different railway points, to bring co-operation between the Federal departments and the railway for better shipping facilities in Northern Ontario. At the present time, the committee is continuing efforts to obtain better rates on agricultural limestone; on feeder cattle from the West to Ontario; on seed potatoes from north-western Ontario; restoration of settlers' rates to Districts of Kenora, Rainy River and Thunder Bay.

The committee recommends that the National Weeds Act be revised, and that new legislation on this subject include enforcement by the Department of Agriculture. The committee also suggests a strong province-wide campaign to combat weeds with the co-operation of councils, schools, agricultural representatives, and organizations of various kinds.

The committee recommends establishment of a station in the Eastern district to test cultivation of profitable varieties of apples for that section of the province, and also recommends that experts be appointed to assist agricultural representatives in large apple-growing counties.

In the interests of Canadian farmers and consumers, the committee recommends that bacon from United States hogs sold in Canada or abroad be plainly marked to indicate to the consumer that it is the "product of United States hogs."

The committee recommends that the Ontario Govt. strongly urge upon the Dominion Govt. full consideration of the interest and requirement ofOntario shippers in whatever federal policy may be decided upon to obtain reduction of ocean rates.

In regard to the marketing proposal, the report explains that "to make a National Export Marketing Commission representative of co-operative organizations, co-operation must become inter-provincial in its scope. A central co-operative council representing all the provinces is not only a feasible plan but it is already an accomplished fact. The Canadian Council of Agriculture is an effective agency in linking up the co-operative bodies of the different provinces and in realizing Dominion-wide uniform standards. Its representation in a National Export Marketing Commission would be a forward stride in co-operation, bringing Canadian agriculture to the threshold of a great future. The federal government should prepare to meet the province co-operatively linked up to furnish volume of export trade. In cheese and bacon, Ontario is the largest feeder of the Montreal agencies operating the present export system. Rates are imposed by New York upon Canadian Government ships which exert no beneficial influence upon Canadian trade or upon the problem of ocean transport.

"In the opinion of this committee the government of Ontario should immediately endeavor to obtain co-operation of the Dominion and other Provincial governments to meet any British plan of buying the export surpluses. Action in Canada should be entrusted to a National Export Marketing Commission on which the federal and provincial governments, co-operative organizations and manufacturing interests would have representation."

The committee found the rural sections of Old Ontario insistent in their demands for electric service. While appreciating the sympathetic attitude of the government, and the measures of assistance already given, towards rural distribution, the feeling is general that nothing would have a greater tendency to make rural life more attractive and profitable than more general distribution of electric light and power on the farm. The committee recommends that the government pursue as vigorous a policy as possible in seeking to effect a more general use of electric light and power in the rural districts of the province."

NATURAL METHOD OF HATCHING

The following tips may be of advantage in setting a hen:—

1. Place the hen where no others disturb her.

2. Box 12in. square and 6in. deep, in which is placed an overturned sod or some earth, making sure all corners are filled so the eggs cannot roll out. Put about 2 inches of straw or chaff.

3. Place in some dark corner and set hen at night using a few earthen eggs to make sure hen will take the nest.

4. Have feed and water within easy reach and a dust bath also.

5. A hen will be in better condition if dusted with Pyrethrum or insect powder when first wet and also a few days before the eggs are hatched. This will keep the lice in check if some mint leaves are used mixed with the chaff in the nest.

A. G. Bright has been elected Pres. Meaford of the Board of Trade.

DEPENDABLE

Auctioneer Service

When an auctioneer travels over more than one section of the County he can make you a better sale because the scope of acquaintance and confidence is correspondingly increased.

List your Pure Bred or Farm Stock Sale with me and be assured of the benefit of a life experience along these lines. Terms moderate.
