SCOTT & BOWNE, Belleville.

The Canadian Post.

LINDSAY, FRIDAY, MAY 22, 1891.

SHE IS A FIGHTING EDITOR.

Miss Dortch Knows How to Reply to a Rival's Insinuations.

Miss Ellen Dortch, a graduate of Mount St. Mary's Academy, Maryland, is publishing a weekly paper in Franklin County, Georgia, where she has the county printing. That she is able to take care of herself is developed in a recent issue of her sheet. Landon McConnell has lately started an opposition newspaper. Miss Dortch thus handles him:

"The Tribune has heretofore endeavored to preserve pleasant relations with the person (we use the term 'person' advisedly) whose name heads this column. Now, Mr. McConnell has made the awarding of the public printing a pretext for serving up an article the most offensive and repugnant that a man with white skin who claims to have a heart of the same color can offer to a woman who is independent, young, and strong. That he seized upon a few hasty and inconsiderate words of the grand jury, and thereupon colored and built his tale, is no excuse for the insult offered. The man who offends without intending to do so is not culpable, but the man who dishes up that offense and offers it to the public through the columns of a newspaper, and then crawls behind the innocent offender and says, 'He did it, not I,' holds himself up to the public gaze as a most contemptible coward. In branding Mr. McConnell a contemptible coward I have no intention of doing him an injustice. I think the sequel will prove that my assertion is correct. McConnell wishes to crawl behind the grand jury as a cloak in order to escape all censure, and hold us up to the public as receiving support because of our sex, environments, etc., and pose himself as a martyr to justice and to chivalry towards women. Therefore I have dubbed him a coward.

"No one understands more clearly than Mr. Landon J. McConnell that we print a better paper than any man has ever printed in Carnesville, and that our circulation entitles us to vastly more of the public patronage than we are at present receiving. Knowing all this, only a coward would urge through the columns of a newspaper our sex as an excuse for patronage that honest, conscientious hard work entitles us to. That he did it behind the cloak of the grand jury is evidence of his double cowardice. O, no; we have received nothing because of our sex, and Mr. McConnell knows it. He knows, furthermore, that the man who would come to the Tribune office and offer such a support would get a sound cowhiding. Now, Mr. McConnell must rise up and designate the men who had sinister motives in supporting the Tribune. He must state what those sinister motives were, what axes they had to grind. Hints and threats and suspicions will not answer here. He will make an open and full statement or he will hold himself up to the public eye not only as a contemptible but as a falsifying coward. It may be pleasant to Mr. McConnell's sympathetic and chivalrous nature to know that I have at this moment at my disposal a lucrative position in my chosen field of labor in a Northern city, and in a Western city, and also in a Georgia city. It may be interesting to Mr. McConnell to know that I propose to stay in Carnesville and witness his efforts to kill the Tribune."

He Knew His Own Advantage.

It was in a street car about the time the shoppers are homeward bound. There was but one man in the car and he sat so twisted in his seat, with his knees widely spread, as to occupy the space of two good-sized passengers. All of the seats were filled and several ladies were standing. At Yonge and Queen Sts. the train stopped and there stumbled into the isle of the car a well-dressed young man whose unsteady walk and vacant expression marked him as the possessor of what fashionable youth terms a "jag." He hooked his wrist through one of the straps and swayed back and forth as the car jerked along. His eyes wandered aimlessly about the interior of the vehicle, and as he realized that there were a number of ladies standing near him, he removed his hat with his disengaged hand and muttered "'Scuse me, everybody, please. I've got my skates on and the sun is in my eyes and I 'pologize. 'Scuse me." Then he discovered the man who occupied two seats and reaching forward, touched him on the shoulder with the remark: "Seems to me, 'scuse me, that you're taking up more room 'n a gentleman ought to when ladies are standing up. Just sort of contren—contr—funny I can't say that word—con-concentrate yourself and let some one sit down."

The man in the seat glared at the owner of the jag, and then, as he unwillingly moved along, growled: "You are a disgrace, sir,

A Brave Teacher.

The Western school-teacher, Miss Lole M. Royce, whose heroic helpfulness during the blizzard nearly cost her life and lost her both feet, has just married a newspaper man out in Michigan. Miss Royce has got there with both feet just the same. There is pleasant ring in the wedding bells. The young woman should make a treasure of a wife.

LINDSAY TOWN COUNCIL.

Communications—The Wellington-st. drain Drain—Reports—The Steamboat Wharf—The Waterwork Contract adopted at a Special Meeting.

The council met Monday evening last in regular session. Present: Mayor Walters, Reeve Fisher, Dep.-reeves Bryans and Kylie, and Councillors Cahill, Bryans, Connolly, Touchburn, Dr. Kenny, Winters Armstrong and Crandell.

The minutes of last meeting were read and confirmed.

COMMUNICATIONS.

From J. Head, secretary of the Central charity committee, asking for the usual grant of $125.—Laid on table.

From S. G. Parkin, stating that he was desirous of establishing an electric system in town, and asking permission to erect poles.—Referred to the fire and water committee.

From Hannah McCabe, offering to purchase lot 10, Queen's square, at $500.—Referred to town property committee.

From Thos. Stewart, (of McIntyre & Stewart), directing attention to the bad state of the main drain on Kent-st.; immediate steps should be taken to abate the nuisance or legal steps would likely be taken by those whose health is endangered.—Referred to the street and bridge committee, with instructions to get information regarding the putting in of proper traps.

A petition from J. H. Lennon and others was presented, asking for 300 feet of 5 inch tile for a drain to be constructed on Peel-st. north.—Referred to street and bridge committee.

Mayor WALTERS said it would be necessary to appoint some person to proceed to Ottawa and present the memorial, forwarded some time ago, asking that the municipality be recouped the money granted in bonuses.....With regard to the town map, he had appointed Mr. Dickson, P.L.S., of Fenelon Falls to inspect the same, and that gentleman had not as yet reported.

On motion Mr. Hugh O'Leary was heard in behalf of Mr. Deane. Mr. Dickson, he understood, had taken exception to the sub-division of a park lot on Brock-st, east ward, claiming that it should contain 9 lots instead of 8 to accord with the registered plan, but this plan was incorrect; in reality there were but eight lots, as the registrar was ready to certify. The matter should be dealt with at once..... Mayor Walters said that he did not doubt but that Mr. O'Leary had stated the facts, but the services of Mr. Dickson had been called in, and until he reported nothing could be done. He would, however, wire him at once and hurry the report.

THE WELLINGTON-ST DRAIN.

Coun. WINTERS introduced the report of the special drainage committee relative to the proposed Wellington-st., sewer. Plans of three sections had been prepared by Mr. Duffus, and were laid on the table; No. 2 cedar sewer, with curved brick bottom; No. 3 was merely a deep drain open a great extent of its length. The committee, after careful consideration, has decided in favor of No. 2 sewer, for the reason that it would be substantial and would form a portion of any future system undertaken by the town.....Coun. CRANDELL, a member of the committee, said he could not "go" the scheme at all—the cost was too great in view of other improvements that must be made. Besides, it would be unfair to other portions of the town as badly off for drainage if the citizens had to pay for the proposed drain, the benefit of which would be purely local. The sewer should be constructed on the local improvement system. He held that the scheme suggested by Reeve Fisher providing for a small drain to carry off surface water would be sufficient..... Mayor WALTERS agreed with Coun. Crandell that the proposed sewer would be too costly for the town to undertake as a town work.... Coun. CONNOLLY was of opinion that it would be possible to construct the sewer recommended and still keep the expenditure on streets and bridges down to about last year's figures—or very little more. He looked upon Coun. Crandell's suggestion that the sewer be built on the frontage plan as unfair; the water came, not from private residences, but from the township of Ops. ....Mayor WALTERS strongly favored the frontage plan—the town might pay one half, but he was opposed to paying the whole.....Dep.-reeve KYLIE thought the sewer could be built by cutting down the expenditure on streets and bridges this year.....After some further discussion the report was laid on the table until the next meeting.

REPORT OF TOWN PROPERTY COMMITTEE.

Dep.-reeve BRYANS, chairman, read the report, which dealt chiefly with Queen's square leases to be taken over by the town as they expired.—The report was adopted.

REPORT OF THE FINANCE COMMITTEE.

Coun. WINTERS, chairman, read the report, which recommended payment of accounts amounting to $155.68. The request of Messrs. Duffus and Crandell, assessors, for an increase of salary, will be considered after the meeting of the court of revision.—The report was adopted.

A WHARF WANTED.

On motion permission to address the council was accorded the members of a large deputation of citizens who had certain views relative to a steamboat wharf to present. Mr. J. R. Dundas started the ball rolling by saying there was little hope of obtaining any portion of the $3,000 granted by the Dominion government for the building of a wharf, but it might be expended in still further improving the channel. In view of the fact that it was proposed to have a landing at the foot of Peel-st., where the turning point for steamers was now being dredged, it was felt generally that the council should purchase Mr. McConnell's river lot and erect a suitable wharf—in no way could $1,000 be spent to better advantage....Mr. Hopkins said that considerable sums were coming into the treasury from the sale of Queen's square property, and he thought the town could not do better than purchase the lot at $800, if only as an investment.... Mr. Needler referred to the dangers surrounding the present landing owing to the network of railway tracks.....Mayor WALTERS said he realised the advantages that would accrue from having the steamboat landing at the point named, but he was not prepared to say at once that the council could comply with the request made.....Coun. WINTERS thought the cost would exceed the sum named by the deputation. The question of approaches was an important one.....Consideration of the proposal was finally left to a committee and the deputation withdrew.

REPORT OF THE POLICE COMMITTEE.

Coun. CONNOLLY, chairman, read the report, which certified to the correctness of Chief Bell's returns for March and April. —The report was adopted.

PROCLAMATION WANTED.

Dep.-reeve KYLIE, chairman of the fire and water committee, brought in a short report recommending that Dr. Wilson and Mr. Jos. Maunder be granted building permits, metallic sheeting to be used.—The report was adopted.

REPORT OF THE STREET AND BRIDGE COMMITTEE.

Reeve FISHER, chairman, presented a short report dealing with applications for tile and sidewalks, which was adopted.

ARBITRATORS' COST.

On motion of Dep.-reeve BRYANS, seconded by Coun. O'HALLORAN, the treasurer was instructed to pay over to Mr. Geo. Ingle the sum of $23, arbitration fees in the matter of queen's square leases.

A CHARITY GRANT.

On motion of Coun. CONNOLLY, seconded by Coun. WINTERS, the usual grant of $125 was voted to the Central Charity committee, the usual portion to be paid over to the St. Vincent de Paul society.

CLOSING UP AN AWARD.

On motion of Dep.-reeve BRYANS, seconded by Coun. O'HOLLORAN, the treasurer was instructed to pay over to Norman P. Clarke the sum of $600, less $11.50, half the cost of arbitration upon lease of Queen square property.

A WHARF COMMITTEE.

Moved by Coun. WINTERS, seconded by Coun. TOUCHBURN, that Messrs. Kylie, R. Bryans, Crandell, Connolly and Armstrong be a committee to examine Mr. McConnell's lot and report upon the advisability of purchasing it and building a wharf.... Upon request the names of the mover and seconder were added and the motion passed.

MORE BY-LAWS.

On motion the council went into committee of the whole on by-law No. 630, authorizing the mayor and treasurer to borrow $12,000 to meet current liabilities, and it passed in usual routine. The third reading of by-law No. 629, confirming the appointment of Mr. C. Callaghan as market clerk at a salary of $400 was then pressed for, and met with considerable opposition. Coun. WINTERS moved, seconded by Mr. CONNOLLY, an amendment to the effect that the by-law be referred back in order that the salary might be made $375, but on a vote being taken it was declared lost, and the third reading was given.....By-law No. 628, regulating the erection of wooden buildings, was then passed through, and the council adjourned until Tuesday evening to receive the report of the special committee on waterworks.

The Adjourned Meeting.

At eight o'clock Tuesday evening most of the councillors were in their seats and the others strayed in at intervals. Mayor Walters occupied the chair. Previous to taking up the waterworks contract the clerk read communications from Mr. J. O'Leary and Sanitary Inspector Douglas refering to the unsatisfactory condition of certain drains, and the grievances were referred to the street and bridge committee to be remedied.

REPORT OF THE SPECIAL WATERWORKS COMMITTEE.

The clerk then read the report of the joint committee of members of the town council and board of trade as follows:—

At a meeting of the joint committee of the town council and board of trade held in the council chamber on Tuesday, the 19th day of May, inst., there were present the following members: His worship, the mayor, Messrs. Kennedy, Flood, Winters, Kylie and Knowlson. After the town solicitor had read the communication from Mr. Galt suggesting some alterations in the contract, also some amendments suggested by the solicitor:

"Moved by Mr. Kennedy, seconded by Mr. Flood, that this committee recommend the town council to enter into contract with the waterworks company represented by Mr. Galt on the terms of the contract as now amended, and that the mayor and town solicitor be deputed to go to Toronto to-morrow with the object of completing arrangements.—Carried."

Town Solicitor Hopkins then read a draft of the proposed contract to be entered into, and afterwards discussion became general in character..... Coun. CRANDELL objected to the clause providing for guaranteeing the bonds of the company to the extent of $50,000; the town might as well build the system and guarantee its own bonds. The offer made by Mr. Quillan was, in his opinion, a better one than Mr. Galt's, but it had not received fair consideration by the committee.... Mayor WALTERS said he wished to set Capt. Crandell right—Mr. Galt was not a favorite beyond the fact that the system offered by him was deemed the better one. Mr. Quillen had been given an equal show..... Col. DEACON reviewed the waterworks negotiations at some length. Seven proposals had been received, and after being considered the committee unanimously favored Mr. Galt's. He was in favor of the town adopting the system, but objected to the clause in the agreement providing for guaranteeing the bonds—he would be in favor of doing so to the extent of the rental paid by the town for its fire protection, but not a cent beyond.

Mr. J. KENNEDY took exception to Capt. Crandell's statement that the lowest tender had not been accepted, and showed by a comparison of figures that Mr. Galt's tender, taken all round, was by far the lowest. In his opinion the proposal was a very favorable one and the council should endeavor to have it ratified at once.

Mr. J. B. KNOWLSON explained the meaning of the guarantee clause. By the town endorsing the bonds $700 a year would be saved the company, while the town would run no risk, being secured by a first mortgage on the system.

Town Solicitor HOPKINS discussed at some length the various safeguards embodied in the contract, and held that the town would be amply protected. The only danger was that Mr. Galt would deem the agreement too stringent, but in that case that case they could give way a little.

The acceptance of Mr. Galt's proposal was then put to a vote and carried, Couns. Kenny and Crandell alone dissenting, and Mayor Walters and Town Solicitor Hopkins were instructed to proceed to Toronto in the morning and endeavor to have the contract signed and a bond attached for its due fulfilment.

TILE FOR STREET DRAINING.

Reeve FISHER brought in a short report recommending that Mr. Lennon's request for 300 feet of 5 inch tile be granted, the work to be done under the control of the street superintendent. It was agreed that a by-law should be framed regulating similar demands.

THE RAILWAY BONUSES.

On motion Dep.-reeve BRYANS was appointed to proceed to Ottawa on the 21st and support the memorial sent in by the council some weeks ago asking that the town be recouped a portion of the large amounts granted as railway bonuses.

Council then adjourned to meet again at the call of the mayor.

VARIETIES.

Woman's field—Tennis.

—Dyspepsia has driven to an early and even suicidal grave many a man who, if he had tried the virtues of Ayer's Sarsaparilla, would be alive to-day and in the enjoyment of health and competence. Sufferer be warned in season and don't allow the system to run down.—54-1.

"PECTORIA" the people's remedy.—77-tf.

A St. Louis Lady has most appropriately named her pet cat "Mince Pie," because it so often keeps people awake.

—The entering wedge of a complaint that may prove fatal is often a slight cold, which a dose or two of Ayer's Cherry Pectoral might have cured at the commencement. It would be well therefore to keep the remedy within reach at all times.—51 1.

Wcr.d's Dispensary Medical Association.

A MAD POET

rushed into a newspaper office recently, and threatened to clean out the establishment, because they printed his verses wrong. Said he: "I wrote, 'To dwell forever in a grot of peace,' and you idiots put it 'a pot of grease.'" The mortified editor presented him with a vial of Dr. Pierce's Pleasant Pellets, a year's subscription and an apology.

The little "Pellets" positively cure sick and nervous headache, biliousness, costiveness, and all derangements of the stomach, bowels and liver. It's a large contract, but the smallest things in the world do the business—Dr. Pierce's Pleasant Pellets. They're the smallest, but the most effective. They go to work in the right way. They cleanse and renovate the liver, stomach and bowels thoroughly—but they do it mildly and gently. You feel the good they do—but you don't feel them doing it.

As a Liver Pill, the "Pellets" are unequaled. Sugar-coated, easy to take, and put up in vials, and hermetically sealed, and thus always fresh and reliable. A perfect vest-pocket remedy, in small vials, and only *one* necessary for a laxative or *three* for a cathartic.

They're the *cheapest* pill you can buy, because they're *guaranteed* to give satisfaction, or your money is returned.

You only pay for *the good* you get.

That's the *peculiar* plan all Dr. Pierce's medicines are sold on, through druggists.

Always open

—the offer made by the proprietors of Doctor Sage's Catarrh Remedy. It's a reward of $500 cash for an incurable case of catarrh, no matter how bad, or of how long standing. They'll carry it out, too. It's one thing to make the offer. It's a very different thing to make it good. It couldn't be done, except with an extraordinary medicine. But that's what they have. By its mild, soothing and healing properties, Dr. Sage's Remedy cures the worst cases. It doesn't simply palliate for a time, or drive the disease to the lungs. It produces a perfect and permanent cure. Try it and see. If you can't be cured, you'll be paid.
