W.C.T.U. LADIES TALK PARK

THE MEETING TUESDAY EVENING WAS SLIMLY ATTENDED.

Undue Haste in Launching the Scheme, and Lack of Proper Details, Cause a Hitch in the Proceedings—A Deplorable Lack of Interest Displayed —Only Five Ladies Present.

Great things were expected of the meeting announced for Tuesday evening by the ladies of the W.C.T.U. to discuss matters connected with their proposal to take over the market square, transform it into a park, and then present the fruits of their labors to the citizens as an offering commemorative of the diamond jubilee of her most gracious majesty Queen Victoria. The scheme was well conceived, but, like many another commendable movement, lukewarmness and a few minor errors at the outset came near wrecking it.

At 8 o'clock, when the reporters entered, the gathering comprised Mesdames Mitchell, Sharpe, Trew and Robinson, Messrs. W. M. Robson, chairman, and Geo. Beall. At 8.30 it was still lonesome, but the chairman bravely faced the issue, and after expressing his regret at the small attendance he read a short address he had prepared with reference to the object of the meeting.

Mrs. Sharpe, secretary, read the following resolution, which had been passed at the last meeting of the local union:

Moved by Mrs. Sharpe, seconded by Mrs. Mitchell, that the town property known as the market square, or queen's square, be converted into a public park, the said park to be an offering (through the efforts of the local Woman's Christian Temperance Union), from the town and citizens of Lindsay, in commemoration of the diamond jubilee of our sovereign Queen Victoria, and that it be named Victoria Park in honor of her gracious majesty.—Carried.

At this juncture the audience was increased by the arrival of Mayor Smyth, Reeve Touchburn, Dep.-reeve Gillogly, and Couns. Sootheran, Killaby, Baldwin and Burrows, R Kylie and several others, and Mrs. Whiteside joined the ladies.

Chairman Robson invited inspection of his plan for the proposed park, adding that he had prepared it a couple of years ago when the council contemplated improving the market square.

Mayor Smyth said he was puzzled somewhat by the wording of the motion read, which proposed to give to the town property it already owned.

It was explained that the ladies meant to take over the plot, beautify it, and then present it in its improved condition as a gift.

Mr. Beall said he had understood from the chairman's opening remarks that the preliminaries had already been arranged. The first thing to be done was to find out if the council would hand over the plot to the ladies, next decide upon the plan to be followed, and finally, ascertain if sufficient funds could be procured.

Chairman Robson explained that he had made a careful estimate a couple of years ago: the cost according to his plan would be $500 or $600, towards which many of the leading citizens had then offered subscriptions ranging from $20 down. The size of the plot was 150 ft. square.

Dr. Burrows said it would be necessary to abandon either the flower plot or the band stand idea—it would be folly to plant flowers and shrubs to be trampled upon and uprooted by the crowds attracted by a band concert. Personally, he was in favor of the band stand.

Coun. Sootheran said he had attended with the object of acquiring information concerning the project taken in hand by the ladies, and thought it unusual that the scheme should be debated until the council had first been consulted. He agreed with Dr. Burrows that it would be wise to have the band stand located there, in which event an elaborate system providing for flower beds and a fountain would be unsuitable. The ladies had neglected to broach the matter to the council, and delay would probably result, as the council would not meet again till the first Monday in June; in the meantime money could not be collected for a scheme that had not been properly sanction d.

Mrs. Sharpe said the ladies of the union might have erred in their procedure, but it was with the best of intentions. They were not committed to the flower bed idea, but would like to have the band stand and a fountain. As for the probable delay, it was not proposed to have the improvements completed by jubilee day. Of course they would like to have a few flowers and shrubs to brighten and beautify the plot.

Mayor Smyth remarked that citizens who had ever allowed garden parties in their grounds would understand the destruction wrought by crowds to plants, trees and shrubs.

Mrs. Whiteside thought $500 would be too much money to spend on such a small plot of ground, and she would also prefer to have the scheme taken hold of by the ladies of the town generally, rather than leave it entirely in the hands of the members of the W.C.T.U.

Mr. Beall said he had now a better grasp of the subject than at first, and even that was not much. The scheme as yet was very incomplete, and the ladies who had spoken all entertained different views as to the course to be followed. He was entirely in sympathy with Dr. Burrows' view that the plot, if embellished according to the plan, would be an unsuitable place for the band stand. The matter should have been brought before the council properly; it was also proper that the citizens who would be asked to subscribe money should insist upon the plan submitted being carried out, yet it was proposed to go ahead and allow the ladies to make changes where desired. That should not be. He was also doubtful as to the correctness of the estimate furnished—for instance, what was the probable cost of the proposed fountain? A committee should be appointed to select a plan that would be in keeping with the size of the plot to be treated. It was obviously necessary that a band stand should be provided.

Chairman Robson—"The matter is now in the hands of the ladies of the W.C.T.U., and cannot well be taken from them."

Mr. Beall—"Am I to understand that the council have handed the plot over to them? I would suggest that the ladies leave the matter just as it is for the present until some business arrangements are made."

Dr. Herriman said he would like to see a drinking fountain on the plot, but it should be supplied with water from the flowing well on the hill-side. There should also be a band stand—it was not creditable to the council to have the streets blocked and citizens inconvenienced on band nights, and besides, there was great danger of accidents. The ladies were taking a commendable step, but should have asked the necessary permission from council at the outset.

Chairman Robson—"A great deal has been said about authority, yet the ladies applied to the chief officer of the town."

Mayor Smyth—"Do you mean last year's mayor?"

Chairman Robson—"No, I mean the present chief officer."

Mayor Smyth—"Oh, no, I never gave permission."

Dr. Herriman—"The mayor couldn't, he doesn't own the market square."

Mrs. Sharpe explained that she had spoken to Mayor Smyth regarding the scheme and the advisability of holding a public meeting, and he had said "Go on."

Mayor Smyth—"Yes, but I meant to go ahead with the preliminary arrangements; of course I knew it would be necessary to get the council's permission."

Dr. Burrows regretted that more ladies had not shown an interest in the scheme. It would be all right for them to go ahead and prepare plans, etc., as the councillors would no doubt consent to hold a special meeting to discuss their report.

Mrs. Whiteside thought that would be the better plan.

The following resolution was then submitted by Messrs. Beall and Herriman:

That in the opinion of this meeting it is most desirable that that portion of the town property west of the market buildings be set aside by by-law for the purpose of a band park, and that a committee composed of William Flavelle, Henry Ferguson, John Kennedy, and Mesdames Sharpe and Trew, be appointed (with power to add to their numbers) to take the proper steps to bring the matter before the council at its next session with the necessary information to enable the council to give the proper authority by by-law.

Dr. Burrows suggested that the names of Mrs. Keenan and Miss Steers be added to make the committee more representative, and this was agreed to. Mrs. Mitchell's name was added later on.

Mr. Beall enquired if the ladies would consent to the gift being made on behalf of the ladies of the town generally, instead of from their organization.

Mrs. Sharpe replied that as the original intention had been to make the gift through the efforts of the W. C. T. U., she would feel impelled to remove her name unless that was adhered to.

Coun. Sootheran pointed out that the plot was the property of the citizens of all creeds, and the council could hardly hand it over to a particular organization. Of course the ladies of the W. C. T. U. or any other body would be at liberty to supply a fountain or any special embellishment in their own name.

Mr. Beall—"Hear, hear."

Chairman Robson—"It is not uncommon for ladies to take the plan they propose."

Coun. Sootheran—"No, I grant that, but land is also presented, and in this case the market plot is the property of the citizens generally; hence the difficulty."

Reeve Touchburn thought it would be preferable to have the gift presented in the name of the ladies of the town, rather than by the members of the W.C.T.U.

Mr. Kylie said the latter had first conceived the project, and were thus entitled to carry it through. He did not think there would be the slightest ill-feeling on that account. The ladies simply wished permission to beautify the plot and then present the results of their labors to the citizens in commemoration of a special event, and he was certain that neither Protestants nor Catholics would object to their doing so, but instead would applaud their efforts.

Mayor Smyth said he did not think it was the wish of anyone to throw obstacles in the way of the ladies who had made the generous offer—the suggestions had been made with a view to arriving at the best possible method for carrying out the work successfully.

Mr. Beall endorsed Mayor Smyth's remarks.

Mrs. Sharpe said she was president of the county union, and Mrs. Mitchell of the town union. There were many ladies who had at one time or another been members of the union, and it was felt that these would rally and cordially support the proposition to establish a park.

Mrs. Mitchell said the meeting for that evening had been announced for two weeks, all ladies of the town being invited. As they did not respond, she was not willing that the union should withdraw in favor of others who had evinced no interest in the scheme.

The resolution was then put and was declared carried, whereupon the small gathering dispersed.

HIS RIGHT LEG BROKEN.

The Engineer of the Alice-Ethel met with a Painful Mishap.

When the steamer Alice-Ethel arrived in port last Monday about seven p. m., Dr. White was at once summoned to the aid of Engineer Robt. Herriman, of the east ward, who was in great pain as the result of an injury sustained a couple of hours earlier. The Alice-Ethel had gone after a tow of logs, and Herriman, while assisting the men, got in the way of a rolling log, which struck him on the right leg. Upon examination, Dr. White found that the limb had been broken below the knee.

CHARGED WITH INDECENT ASSAULT.

A Young Man from Cardiff Township in Trouble.

Last Tuesday County Constable W. J. Austin, of Haliburton, arrived in town with a prisoner named Daniel Southwick, 16 years of age, who had been committed yesterday by Magistrates Dover and Prust, of Haliburton, upon his own admission that he had attempted on three occasions to commit an indecent assault upon the nine year old daughter of his employer, Robt. McCormick, of Dysart township. The prisoner, whose parents reside in the village of Havelock, was transferred to gaol, and will receive his trial at the next court of general sessions on June 18th.

LINDSAY CHEESE BOARD.

The Opening Meeting—Only 141 Boxes Boarded.

The first sale of cheese for 1897 took place on Wednesday, when the Victoria county cheese board met in the council chamber. President Robertson, of Dansford, Secretary Shine, of Downeyville, and buyers Whitton, of Belleville, Fitzgerald, of Peterboro, and W. Flavelle, were present, in addition to a number of salesmen and patrons of the factories represented. Very few factories began manufacturing on the 1st May, as anticipated, hence the quantity of cheese offered was small, amounting to only 141 boxes, divided as follows:

Star	6
Cameron	27
Janetville	34
Reaboro	29
Maple Leaf	24
Omemee	20
Dunsford	10

Mr. Fitzgerald began the bidding by offering 8½c for the board. Mr. Whitton raised to 8¾, Fitzgerald to 8 13 16c, and Whitton finally to 8¾c. All the factories accepted, subject to Lindsay inspection.

Mr. Whitton said the board would confer a favor on outside buyers by adhering strictly to the meeting hour—11 o'clock—so that they would be able to leave by the mixed train for the east. Salesmen coming in by the 11 o'clock train might send a post card to the board secretary the day previous, stating number of cheese to be boarded, so that the preliminaries could be attended to promptly. The suggestion was approved of.

The board adjourned till Thursday, June 3rd, Peterboro taking Wednesday hereafter.
