Another View of the Bread Question

[To the Editor of THE POST.]

SIR,—I notice in last week's paper an article written by "Citizen" in reference to the price charged by the bakers of this town for bread. I have been figuring a little on the subject and do not come to quite the same conclusion as "Citizen." He says that a hundred of flour will make 32 four-pound loaves with the addition of yeast, salt, potatoes and water. Now, a hundred of papa's King costs $2.40; one third or a bushel of potatoes, 15c.; yeast and salt, say 5c.; total, 2.60, which would make the cost of the material of 32 four pound loaves, 8.2c. Now, if manufacturing our two pound loaves a week I can take a man and a boy whose wages would be at least $12 a week, therefore the cost of the labour for each loaf would be about 3c. So the total cost of the loaves would be 11.2c. Now, I think we must be taken more cool, bad debts, wear and tear of tools, insurance, rent, taxes, interest, depreciation of plant, etc. The balance that would be left I do not think even "Citizen" would call exorbitant. The fact is, Editor, they are selling the bread at the same price as in other towns. The wheat, flour, etc., is the same. It is the business that should be looked after; the price is right for good bread and full weight. Thanking you for the interest you take in our behalf—I am yours truly, LABOUR.

"Clear Havana Cigars."

"La Cadena" and "La Flora." Insist upon having these cigars.—23.

Now is Your Chance.

THE POST will be sent to new subscribers to January, 1894, for $1.00.

Furniture at a Price.

Having decided to remove to other premises I will sell all lines of furniture during the next few weeks at a great reduction. Those thinking of buying in the near future will save money by selecting from my stock now. M. E. TANGNEY, opposite Hurley & Brady.—23-3.

Our New Story.

—In our next week's issue we purpose commencing a new story entitled "Thorns," written by a well-known author. It was first published in 1883, in Godey's Ladies' Book, and the story made such a decided hit that the publisher could not supply the demand, and it was the means of increasing the circulation tremendously. While the story does not bristle with thrilling situations, it is an intensely interesting pourtrayal of the trials endured and surmounted by a good, pure woman. Our lady readers, especially, will appreciate this wholesome tale of domestic life. New subscribers should commence with the first number, but back copies may be procured for the next month. THE POST will be sent till the 1st of January 1894, for $1.

Personal.

—Mr. Albert Duck of Toronto spent a few days in town last week, the guest of his brother-in-law, Mr. E. Benson.

—Mr. E B Calkins and wife of Watertown, N. Y., were in town last week and returned home on Monday morning.

—Mrs. Howson, the new organist of the Cambridge st. Methodist church, handled the keyboard last Sunday. She is a most imposing musician, and will open a new era in music in Lindsay.

—The many friends of Mr. J. H. Hart, bookkeeper for Sadlier, Dundas & Co., who has been suffering from a bad dyspeptic attack for the past couple of months, will be pleased to learn that he is somewhat better. He is at Grassmere, Muskoka, the guest of relatives.

Obituary.

—A large circle of friends the country over will have learned with regret of the death of Richard R Clarke, manager of the Orange Sentinel, Toronto, which occurred suddenly Saturday in Toronto, at his residence, St. James' avenue. Deceased was a brother of ex-mayor Clarke and was in the prime of life, being but 47 years of age. Mr. Clarke was of a most genial and kindly disposition, and favourably impressed all with whom he came in contact.

—Deep was the regret felt by all classes of the community Sunday last when it was learned that Mr. Wm. Duffus, the well-known architect, had passed away at an early hour in the morning from an attack of inflammation of the lungs. The news came to many as a severe shock, because it had not been generally known that the deceased had been indisposed. Mr Duffus was born in 1835 in the township of Osnabee, of Scotch parents, and came to Lindsay in 1857. He worked for several years at carpentering, spending all his spare time in close study, by which means he qualified himself to take rank as an architect, and speedily acquired a high reputation in his profession, many of the leading buildings in town were erected under his supervision, including Loretto convent, St Paul's church, St. Andrew's church, the collegiate institute and others, and those working under him ever found him straightforward and just, yet firm in doing what he deemed to be his duty. He served a term in the town council, and for several year past had acted as one of the town assessors. The deceased was for years of age was a staunch reformer in politics and a consistent member of the Roman Catholic church, and took a deep interest in the welfare of the separate school, being a member of the separate school board for many years. He leaves behind a wife and eight children to mourn his loss. The funeral took place Tuesday morning last to St. Mary's church, where a solemn high mass of requiem was chanted, his brother, Rev. Father Duffus, of Delhi, read the burial service, Father Spratt of Wolfe Island officiated as deacon, Father Jeffcott of Sarnia as subdeacon and Rev. Father O. Collins, Dut., acted as master of ceremonies. Rev. Father Rutten, O'Connell and Scott of Fathers Rutten, Vicar Rev. Laurent, Rev. Father Chevrier, Vicar Rev. Lamarche, Rev. Father Scanlan, Indian and Rev. Father Brabender, Victoria Road, were also present. The remains were followed to their last resting place in St. Mary's cemetery by a large concourse of sorrowing friends.

Call on Cathro & Co.

In their new premises, (the old Dominion Bank stand), where with better accomodation, and a larger and choicer stock they are ready to *suit* all comers. Their prices are away down as low as the times.—30.

Lamps! Lamps! Lamps!

ARCH. CAMPBELL has just received a large consignment of Hanging Lamps and Stand Lamps of the latest designs. These have been bought *right*, and will be sold at prices that will make every one a bargain. Call and make a selection.—30-2.

Local Brevities.

—A flurry of snow Tuesday evening gave the earth its first winter mantle.

—The Esturion will probably go into winter quarters about the end of next week.

—On our seventh page will be found the report of the proceedings at the C.E. convention at London.

—Mr. F. Jordan shipped a mixed load of cattle, sheep and hogs to the Toronto market yesterday (Thursday).

—Four carloads of steel rails for Mr. Pussey's extension of the Irondale and Bancroft railway went north Monday.

—Dr. Bryce, of the provincial board of health Toronto, predicts that cholera will visit Canada next summer, and warns all boards of health to prepare for its coming.

—Mr. John Carew of the north ward has broken ground adjoining Mr. Frank Crandell's residence for the foundations of two dwelling houses. They will be brick-veneered and of comfortable dimensions.

—Monday a young lad named Staunton, whose parents reside on Durham-st., while wrestling with a companion on his way home from school was thrown heavily and two small bones in the wrist were fractured.

—Very little interest was manifested Tuesday evening as to the result of the presidential contest. Some bets were made that New York state would go democratic, but beyond that our citizens ventured not.

—Mr. Ross, manager of the Dominion bank, is having a number of large growth maples planted on the William-st. side of the building. In a few years they will cast a grateful shade and greatly improve the appearance of the street.

—Yesterday (Thursday) being Thanksgiving day, all business places were religiously closed. The hunting fever being now prevalent, a large number of our citizens hied to the woods and spent the day "potting" squirrels and other small game.

—The evangelists Messrs. Crossley and Hunter, have received an invitation to conduct special services at Bridgeport, Conn. also from the pastor of one of the largest Methodist churches in Brooklyn, N. Y. We advise them not to go, as they might come under the alien labor act and be sent back.

—Next week Mr. B. F. Reesor will have his new all night incandescent electric light system in operation. The poles were brought up by steamer early in the week, and the wiring will be gone on with at once. The system selected is the Thompson Houston, and it will supply 500 lights of 16 candle power each.

—A little over a week ago Mrs. H. J. Pearson, mother of Mr. John Pearson of the eastward, slipped on the steps of the Presbyterian church while leaving one of Messrs. Crossley and Hunter's meetings, and received a bad shaking up. One of her arms was severely sprained and is yet swollen and painful. Being an aged lady the shock has told very severely upon her.

—Compelled to seek more commodious premises by the needs of a rapidly growing business, Mr. JOHN DUCK, grocer, is this week removing into his own block, two doors east of his old stand, which he has had specially fitted up to suit his trade in staple and fancy groceries. Owing to having no rent to pay and small staff expenses he will be in a position to sell goods at the low eatprices.—23.

—On Saturday last Mr. Wm. Northcotte, blacksmith, whose shop is located on Cambridge st. south, met with a serious accident. While attempting to remove a charge from a gun that had long been loaded it exploded, blowing the gun to pieces and badly mangling his right hand and arm. Dr. Herriman is attending him, and says there is a probability of the limb being permanently maimed.

—Our masculine readers should scan Paterson & Co's. advertisement in another column very closely. Other stores may sell clothing low but Paterson & Co's. slaughter prices will be found hard to beat. The ladies, too, will find interesting matter therein. The firm have gone into patterns,—Butterick's, of course—and will also supply the Delineator. No doubt this departure will make their store more popular than ever with the fair sex.

—On November 23rd next Messrs. Mossom Boyd & Co. of Bobcaygeon will offer for sale, through Messrs. Oliver, Coate & Co. of Toronto, all their timber berths, including a section of sixty square miles of white pine timber near Lake Nipissing; their large mills at Bobcaygeon; the big Beaubocage and twelve scows and, in fact their entire lumbering plant. The recent death of a member of the firm, we understand, renders it necessary to realize on the whole estate.

—Mr D. J. McIntyre, our new police magistrate, has evidently made up his mind to do what he can to stamp out the spirit of rowdyism that has been far too noticeable in our town of late. A $20 fine for a fight and $5 for an ordinary drunk are moderate "racers" dispensed at his bar of justice He has also signified his unmistakeable intention to stand by the health officer in his efforts to improve the sanitary condition of the town, and those brought before him for a breach of the health regulations need not expect to be leniently dealt with.

—Mr. A. M. Reekie of Melita, Man., in renewing his subscription to THE POST writes under date of Oct. 30th:—"We have had a very nice season here this year, although the weather was very hot just before harvest so that the grain ripened too fast and was not as heavy as last year but was free from frost. Since about the middle of harvest we have had excellent weather, but the last few days has been some colder. We have only had one little flurry of snow this fall—on the 17th inst. Our town is still growing fast; a great many new and better houses have been put up this season that makes the place look well."

—The Rathbun Co. are rapidly extending the scope of their business dealing with the public of the counties of Victoria and Haliburton. A large storehouse has been erected at their mill in the east ward, where cement, plaster of paris, and charcoal will be kept on hand in large quantities, and it is almost needless to add at reasonable prices. A large trade has been done at the Kent-st. store during the past few months in sash doors, mouldings, hardwood flooring, etc. See advt. in other columns.

—Mr. Nathan Day of Fenelon, the well-known horseman, was in town Saturday last on business, and called at THE POST to show us an immense been stalk grown by him It is known as the Californian, and would almost fill a bushel measure. No less than 220 pods, containing 1,280 beans, were picked off it. Mr. Day secured a couple of seeds a few years ago from a relative in California, but was at first doubtful whether they would grow as well as the common variety in our climate. Mr. James Keith has a quantity of the beans for sale.

—Examination of Lindsay separate school. Subject, arithmetic, (maximum, 100 marks.)—Senior class—Eugene Malone, 88; John Hurley, 85; Lewis Primeau, 78; Thos. Brady, 65; John Hammet, 61; Chas. Harkrove, 60; Frank Fleury, 60; John Devoy, 60. Junior class—Albert Mulcahy, 90; William Hetherman, 61; Geo. Brady, 60; Joseph McCabe, 60; Harry Bush, 60; Lou Biette, 54; Edward Burke, 50; Wm. Cudahee, 50, John Hurley, 50; Geo. Curtin 50; Wm. Powers, 42; Chas. Meehan, 40, Felix Forbert, 40, Herold Burke, 36; P J. Shannon, 35; Edward Dorgan, 30.

—Mr. J. B. Begg of this town has bought out Workman's livery and feed stables, Mr. McGee of Peterboro having given up the lien he secured upon the premises at the sale held a few weeks ago. Mr. Begg is known to most of our citizens as an experienced livery man, having owned the business at present conducted by Mr. Clendenan for some years, consequently the public may rely upon all orders being carefully and promptly attended to. A number of fast horses have been added, and the vehicles have an air of elegance about them, and the fittings will be found beyond fault-finding.

—Mr. Smith Miller of Toronto, manager for the Haliburton Mining and Phosphate Co., was in town Tuesday on his way north to have a look over the company's property. Nothing has been done of late in the way of working the property, as he has secured a sample from Hinchinbrook which the discovery of large deposits in Florida, in which English dealers largely interested themselves. It was now seen discovered that the Florida phosphates contain too much iron to permit of profitable working, and the Haliburton article is the exceptionally pure, is again attracting attention. The extension of the Irondale & Bancroft railway to a junction with the Peterboro, Westport & Sault Ste. Marie R. R. at Maynooth, now being pushed forward, will place Haliburton as much for shipping facilities on a par with Haliburton minerals. The line will be pushed to Rice Lake, within four miles of the phosphate mines about Christmas, and in time will pass through the middle of the company's 1,200 acre block of mining lands which will permit of profitable working.

Marriage Licenses

at PORTER'S Bookstore, Kent-st., Lindsay.—14.

Sale Adjourned.

Owing to the illness of Mrs. Dr. Allen the sale of Household Furniture is adjourned until Tuesday, Nov. 15th, at one o'clock.—30-2.

W. C. T. U. Notes.

—The regular monthly meeting of the W.C.T.U. was held Monday, Nov. 7th. The attendance was small owing to bad weather and a misunderstanding about the hour for meeting. The hour has always been half-past three on the first Monday of every month, and will remain so until changed by a vote of the union. ....A communication was sent to the mayor and town council asking that a by-law be passed prohibiting children from running on the streets after a certain hour at night.....A hearty vote of thanks was tendered the delegates for their full and instructive report of the convention, which report will appear in the local papers in due time.

Railway Notes.

—The first elevated railroad in England is now approaching completion. It traverses the entire length of the Liverpool docks, a distance of six miles.

—Last week 229 trains were handled on the Picton division of the G. T. R.—149 specials, 12 way freights, 38 passenger trains, 24 mixed trains and 36 regular trains.

—Mr. J. N. Riddell, G. T. R. district superintendent recently stationed at Belleville, took possession of his new and handsome quarters in the Bonaventure depot, Montreal, Friday last.

—The projected Parry Sound railroad, which will connect with the Canada Atlantic & Ottawa R. R., and extend to Georgian Bay, where it will connect with the steamers of Lakes Michigan and Huron, will lessen the water route between Chicago and the western States and the Atlantic by 450 miles, and as the land route from Parry Sound to Montreal is 150 miles less than from Buffalo to New York there will be a total saving of 600 miles.

Church Notes.

—Rev. Mr. Ware will preach at the Reaboro Baptist church Sunday next, 13th Inst., at 3 p. m.

—Rev. Mr. Hunter will preach in Cambridge-st. Methodist church next Sunday morning, and conduct a reception service. Several will be baptized, and the Lord's supper will be administered.

—A special farewell meeting with Messrs. Crossley and Hunter will be held on Tuesday evening next, in the Cambridge-st. church. It will be a meeting of great interest especially to those families members of which have been converted. A thanks offering will be taken for the evangelists, and surely they deserve it.

Hunting Notes.

—W. H. Simpson and party secured three deer in their week's outing. The weather was vile and in all they enjoyed but a couple of day's good sport.

—Messrs. R. J. McIntyre, W. J. Morrow, Col. Louckes and a couple of other Peterboro gentlemen passed through Friday last, bound for the "happy hunting grounds" of Haliburton county.

—The Sadler-Reeves-Keowlson party, who are at Bali Point looking for ducks, have had but poor luck so far. Contrary to their usual habits the birds have not arrived in any considerable numbers, and those on the feeding grounds are very shy owing to the constant "peppering" they receive from the Indians.

—Dr. Simpson and party returned on Monday from their hunting trip up north, bringing three fine deer as gratifying proofs of their skill and marksmanship. Asked if many hunters were in the woods, the answer was, "About ten thousand." They hunted in the vicinity of a little lake about two miles long, and the people who carried guns in their vicinity might by joining hands have formed a corral about it.

Salvation Army Notes.

—On Sunday evening services of the salvation army will commence at 7 o'clock instead of 7.30 as formerly. By this means those who attend will be enabled to remain till the close, which will be not later than 10 minutes past eight.

—On Wednesday, Nov. 16th, a lime-light memorial service will be held in the barracks, in which extracts from the writings of the late Mrs. General Booth will be thrown upon a screen, with well-known army songs, subjects, consecrations and petitions. This service will be under the direction of Staff-Capt. McIntyre of Toronto, and will comprise a most unique religious gathering, unprecedented in the history of the Dominion. Admission, 10c.

—On Thursday, Nov. 17th, a special meeting to receive contributions to the self-denial fund will be held. The money raised by this effort will go toward the work in Canada and Newfoundland. Contributions and letters approving of the scheme have been received from Sir O. Mowat, Principal Grant, S. H. Blake and many others. Envelopes containing explanatory circulars have been distributed among the residents of the town, who are respectfully asked to contribute something to this fund. "Freely ye have received, freely give."

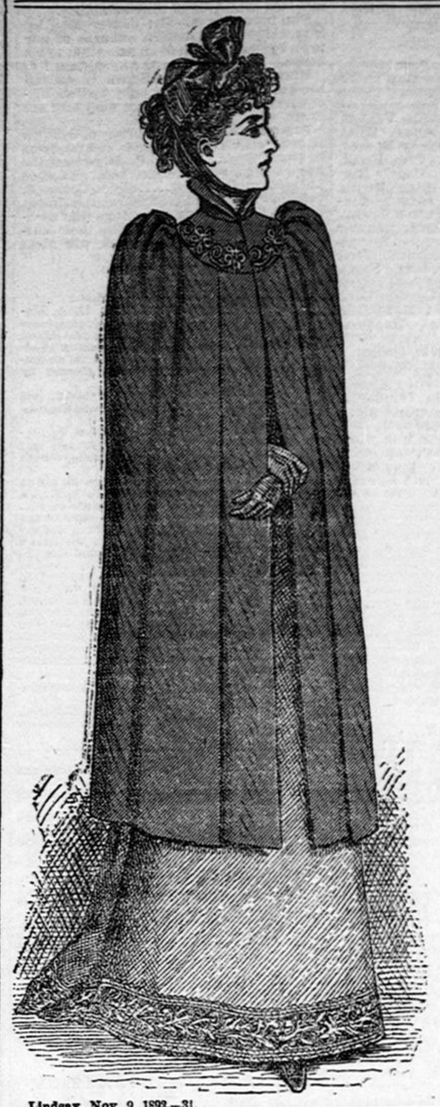
The Crossley and Hunter Meetings.

The revival meetings continue and with growing interest—night after night, no matter about the weather, the people pour in until the church is filled. Sunday night the congregation in Cambridge-st church was immense. The church is said to seat 1,200, and for this service 400 additional sittings were provided by chairs and seats from the lecture room—not only were these all occupied but the lobby and every additional space for a pair of human feet was filled. The service throughout was stirring—the choir did grandly, giving to the hymns a true expression of their sentiments and making the congregation feel the gospel in the music Mr. Hunter's bible reading was one of his best, and Mr. Crossley's songs and sermons were expressive, impressive and grand. The after meeting filled the lecture room, where scores of inquirers were directed to Christ. Such a Sunday of religious services has never been seen in Lindsay nor thought of. The day opened with early meetings at 9 30 or 10 o'clock in all the churches. Mr. Crossley preached in the Queen st. Methodist at 11 a. m., and Mr. Hunter in St. Andrew's at the same hour. At 4 p. m. Mr Hunter addressed a meeting of ladies, when Queen-st. church was full to the doors, and Mr. Crossley at the same hour spoke to a packed audience of men only in St. Andrew's on mysteries. These two addresses are spoken of as masterpieces of thought and moral power. Following these came the evening meeting as above described. This week the night meetings are held in Cambridge-st. Methodist church. Monday night the subject was the dance, and the audience was almost as large as on Sunday night. Mr. Hunter's bible reading, as well as Mr. Crossley's sermon, discussed this theme, and our private opinion is that after this no church member in Lindsay will dance for a long time to come. The spiritual power which marked these dancing sermons was evidenced in the great after-meeting which followed and kept up till 11 o'clock. A real Pentecost is upon all the churches in Lindsay.

Serious Shooting Accident.

Saturday evening last Mr. A. B. Terry, who accompanied the Simpson-Daly party of hunters to Concession lake, Harvey, last week, met with a very serious accident. The party had scattered for the day's shooting early, and Mr. E. Daly and Mr. Terry were in a canoe on Black Duck lake watching for deer. About five o'clock they started to return to camp, and landed in order to portage their craft to Round lake, a distance of about half a mile. Daly stepped out first with his rifle, and while Terry was stooping down to get the Daly heard a report and Terry cried out, 'Ned, I'm shot.' Daly hastily turned, and upon examination found that a bullet had torn its way through the flesh and muscle of the left arm. Taking a large handkerchief he hastily adjusted it in the form of a tourniquet above the wound to stay the rapid flow of blood, and then considered how to get the wounded man to camp. The heavy canoe had to be carried and dragged over the portage, and he then returned for Terry. Crossing Round lake another portage had to be made to reach Long lake, and it was after dark when the camp was reached. Here all luck again awaited them—none of the hunters had returned from their stations. By repeatedly firing off his gun Mr. Daly at length succeeded in apprising them that something serious had happened. When they had assembled a start was at once made for Bobcaygeon, the trip having to be made partly by canoe and partly by wagon, and it was Sunday night before the village was reached and medical aid procured. It was found that the bullet had entered just above the elbow and passed upwards, emerging from the other side near the shoulder. His overcoat had been buttoned up at the time of the accident, and after passing through the arm the bullet seemed to have "ricocheted" across his chest, cutting through buttons of the cloth like a knife, and finally lodged beneath the top button hole on the other side, as evidenced by its torn condition. Dr. Burton dressed the wounded arm and Mr. Terry was brought up on the Esturion Monday. He now lies in a very exhausted condition owing to loss of blood and the exposure he was forced to undergo. Dr. Clark, while feeling that some other place than the bush should be the wounded member, is sanguine that no more serious consequences will issue. It is not known just how the accident happened, or whose gun went off. Mr. Terry parted his at half-cock, and the Rochester rifle gave the last kick out of the boat it is likely that the hammer was released.

Dundas & Flavelle Bros.



Lindsay, Nov 9, 1892.—31

WHY DOES IT PAY

TO TRADE WITH US?

Dundas & Flavelle Bros.

Reason in this way--we buy from the fountain head, visiting personally the Best Markets of the Old World, buying for Spot Cash direct from the Manufacturers of Great Britain, France and - - Germany. - -

Attend the Auction Sale

at Mr. Thomas Twamley's residence, rear of Mr. Robert Spier's, on Wednesday, November 9th, at 10 o'clock. JAS. H. LENNON, auctioneer. —30 1.

Coal Stove, Cook Stove.

Carpets, and other Household Furniture, to be sold at auction on Wednesday, November 9th, at Mr. Thomas Twamley's residence, rear of Mr. Robert Spier's. J. H. LENNON, auctioneer. —30-1.

New Law Firm.

We notice that Mr. D. H. Chisholm, of the law firm of Chisholm & Chisholm, Port Hope, has just gone into partnership with Mr. G. H. Hopkins. We wish the new firm of Hopkins & Chisholm every success.

A Right Proper View.

No paper can be published without home patronage, and every man is interested in keeping up a home paper. If a railroad or factory is wanted the newspapers are expected to work for it. If a public meeting is wanted for any purpose, the newspaper is called upon for a free notice. If any of the societies have a supper or reception of any kind, the newspaper is expected to give the necessary notice. The newspaper must puff the schools and everything else to advance the interests of the business men of the place, and then give them a handsome notice when they pass away. And yet some of them do nothing to keep up a home paper.

Presentation.

Monday evening a number of the members of the Lindsay rifle association waited upon Mr. Thos. Matchett, C. P. R. telegraph agent, at his residence, and presented him with a handsome silver tilting water pitcher and goblet, the lid being suitably engraved, as a mark of their appreciation of his kindness in reporting the results of league matches and in many other ways lending gratuitous aid and courteous service. Mr. S. Hughes made the presentation in a neat speech, to which Mr. Matchett made a happy response, though taken greatly by surprise. Refreshments were then served by Mrs. Matchett, after which a pleasant hour was spent in conversation.

Monthly Prizes for Boys and Girls.

The "Sunlight" Soap Co., Toronto offer the following prizes every month till further notice, to boys and girls under 16, residing in the province of Ontario, who send the greatest number of "Sunlight" wrappers: 1st, $10; 2nd, $6; 3rd, $3; 4th, $1; 5th to 14th, a handsome book; and a pretty picture to those who send not less than 12 wrappers. Send wrappers to Sunlight Soap Office, 43 Scott-st., Toronto, not later than the 20th of each month, and marked "Competition" also give full name, address, age and number of wrappers. Winners' names will be published in Toronto Mail on the first Saturday in each month.—108-tf.

Unsolicited Praise.

Messrs. Crossley and Hunter are expected to visit this town some time during the coming spring. Many here will give them a hearty welcome and hope for good results. We hear that some one started a story that these worthy and popular evangelists invariably stipulate as to the amount of money they are to receive per week. This is a base falsehood They never make any reference to what they are to get but invariably trust to the spontaneous and free will offerings that are given them. It is true that they often get large sums, but never stipulated ones, and further, they give more to worthy charitable and religious objects than many whose names are constantly before the public as great benefactors.—Berlin News.

Had a Live Lizard in Her Stomach.

For some two or three years past a Miss Vanatto, who is employed by Mr. John Poe', a well-known Ops farmer who lives near Salem, had been a sufferer from what she and her medical attendant thought to be dyspepsia. Lately the complaint seemed to have become aggravated, and she sought the advice of Dr. W. H. Clarke of this town, who was much puzzled by some of the symptoms. One day early last week as Miss Vanatto was seated at her desk she felt something in her throat, and an indescribable feeling of nausea and faintness came upon her. Going outside to seek relief she vomited forth a strange-looking but very much alive reptile about four inches long, which was at once pronounced to be a lizard by a member of the family. It was caught and enclosed in a bottle, and shown to Dr Clarke upon his next visit, and it is needless to say he was very much surprised, though he had felt that something in of the ordinary course was the cause of the woman's peculiar feelings. The lizard lived until a few days ago in a bottle, being fed upon bread crumbs, butter, etc., the lady being left at home by being left stationed in an open window. Dr Clarke now has the lizard preserved in alcohol and even in its dead state it looks sufficiently repulsive to send a shudder through one at the thought of its scurrying around the lining of one's stomach ... Miss Vanatto now feels much better, as is quite natural, but is haunted by the dread that perhaps it is not dead yet. She can dread that perhaps it is not dead yet. She can hardly think of the time when the reptile occupied the strange holding place, but, no doubt she swallowed it while taking a drink of water in the dark.

M. J. Carter.

YOU ARE BETTER OFF

when you buy your Clothing from

M. J. CARTER

than you would if you received $1.00 per bushel for barley and dealt elsewhere.

We have just received 17 cases of Overcoats,

Bought at about 50c. on the Dollar for SPOT CASH, and which we are going to sell this hard season at a very small advance. Come along with the crowd. All the best people in town are wearing Overcoats bought from us, but which are supposed to be made by the best city tailors.

We commence them at $3.75

for a Tweed and Tweed-lined, and do not stop until we show you the best goods manufactured.

P. S.--A PLEASURE TO SHOW GOODS.

M. J. CARTER.
