Miss Frances, Marge and Jean Collinson ares pending their summer holidays with their grandmother in Owen Sound.

OIL FIRM SAYS RECKLESS DRIVING MUST STOP

No more timely effort has come to the notice of this department in recent years than the advertising campaign about to be launched by the British American Oil Co., Limited, of Toronto.

This company has prepared a series of advertisements to be run in the Canadian press inviting the attention or drivers of cars and pedestrians alike to the rapidly amouting number of so called motor accidents on the streets and highways of Canada, most of which it is claimed could be obviated by the mere observance of common sense rules.

Conditions to-day are such that much of the real pleasure of motoring is lost. A man driving is in more or less constant fear of the other fellow and when the car is intrusted to any other member of the family the need for worry is still greater.

Something had to be done to improve driving conditions. Apparently it remained for this public spirited organization to make the start.

Ah, well; statistics teach us that the grindstone postpones the tombstone.
