Agents for Happy Thought and the Souvenir Stoves.

The Weekly Post

LINDSAY, FRIDAY, SEPTEMBER 2.

A MENACE TO PUBLIC HEALTH.

Nothing can be more in the interest of manufacturers of canned goods—jams, jellies, and similar put up goods—than that the public should be able to place implicit confidence in the purity and freedom from adulteration of the articles of this nature which they buy at the stores. Yet recent analysis show that this ideal condition is very far from being reached. A short while ago Hon. Mr. Fretteur, of the Canadian Ministry, has inspectors visit several retail stores and obtain various samples of articles offered to ordinary purchasers in the daily course of business, such as jams, jellies, condiments, etc. Of jams and jellies the number of samples was seventy-four, and these included raspberry, strawberry, plum peach and other fruits. Analysis showed that only fourteen samples were genuine, fifty-five being classed as adulterated and five doubtful. Not all the daulterating material could be classed as positively harmful, but it included many substitutes, as well as much stuff as glucose, coal tar, dyes and salicylic acid. Investigation in the quality of ground peppers, cloves, ginger, cinnamon, allspice and other spices showed only eighty-eight pure out of one hundred and eighty-eight analysed, the impurities being found to be chiefly stone, husks, shells, sand, charcoal, sweepings, hair, chips and dirt.

Surely this a disgraceful state of things, and one that should be remedied without delay in the interest of the manufacturers and importers, who do put upon the market a genuine article which really is what it purports to be. We are glad therefore, to learn the the Government intends to act in a way which it has already the power to do, under the provisions of the Food Adulteration Act, and that those who have been responsible for putting on the market, goods which were not what their labels claimed to be, will be prosecuted with vigor.—Monetary Times.

EDITORIAL NOTES

Mr. Arthur W. Marchmont, author of "By Right of Sword," has stated in an interview that in England the impression prevails that Lord Dundonald should have kept clear of politics in Canada. No doubt Lord Dundonald thinks so himself now.

Japan will find the present war costly, but it has not yet interfered very seriously with her industrial and commercial condition. For the first six months of 1904 her imports were eight and a half million dollars and her exports five and three-quarter million dollars more than during the first half of 1903.

The robbery of which Mr. B. L. Hess, of Rychman's Corners was the victim of a peculiarly mean order. Mr. Hess got out of his rig to succor a man lying on the ground. The supposedly helpless one then assisted a confederate to beat and rob his would-be benefactor. This is a new version of the Good Samaritan. It is, moreover, calculated to lead to the conclusion that the policeman was a wise man when he passed by on the other side.

Men's suits, Overcoats and Single Carments, made to order at moderate prices. Reliable workmanship and guaranteed clothes always to be found here. Suits to order $18. $20. $22. $24 Overcoats to order $18. $18. $20. $22. $25.

LINDSAY AGAIN VICTORIOUS

BASEBALL PASSWORD "ITSOEZIE" MIDLAND LEAGUE GAME.

Port Hope were Outclassed—Good Battery Work—Score 13-0

In the last league game at home Lindsay took the Port Hopers into camp, by giving them a shut out. Lindsay played very snappy ball and everything that came their way was gobbled up as neatly as could be. While Port Hope let heaps of chances slip through their fingers. A team can never get along well and play good ball unless they all pull together. Port Hope are the opposite—the players could not agree and if the catcher gave a sign the pitcher would be sure to throw the wrong ball to him. The Port Hope players are getting too old to play ball, there being three or four with full grown mustaches on. Give the young fellows a chance. Although the game was all one-sided, the playing at times was good. "Curly" and "Cinn" worked hard, "Curly" having 18 strike outs to Pethick's 5. Pethick, in the spectator's idea, is to——well you know. But for the game as it was played;

1st Innings—Mr. Bennett called the game sharp on time and "Curly" began to swing his arm. Walters, the first man up, singled to Workman, Edmonds fanned and Marvin was fooled on a quick delivery. McGill, for Lindsay, sent a driver to right garden into the fielder's glove and was retired. Workman and "Curly" fanned. Two strike outs for both pitchers.

2nd Innings—Hobbs hit to "Curly" who made a quick throw to 1st, McGill dropped the ball, making Lindsay's only error as Hobbs landed on 1st base. Clarke popped up an infield to "Curly". Henderson made a pretty hit to Marks and advanced Hobbs to 2nd, but ran him off 2nd, with the result Cinnamon catches him in a box. Henderson then tried to steal 3rd, but "Curly" was not napping and retired him. Miller got to 1st on the 3rd strike. Hobbs muffled the ball, and was advanced to 2nd on Menzie's beauty over 3rd base. "Curly" advanced both a base. With three on bases Mark became excited and fanned, but Lennon did the good thing by banging out a two-bagger, bringing Miller and Menzies in, and while the Port Hope players were getting over the shock, "Curly" stole home. Stalker was put out at 1st, but advanced Lennon to 3rd, who scored on McGill's drive to centre field. Workman out to Hobbs. Score 4-0.

3rd Innings—Hudson was a victim to "Curly's" drop. Lockington hit to "Curly" and died at 1st and Pethick fanned although he said he was going to hit it. "Cinn" fooled them on a bunt and reached 1st, but was caught at 2nd on Miller's hit to short stop. Menzies hit a fly to short. "Curly" hunted a fly out to right field and advanced Miller on 3rd. "Curly" stole 2nd. Marks brought Miller in on a liner to short stop. Lennon popped up a fly to 2nd. Score 5-0.

4th Innings—Walters out on a fly to Cinnamon. Edmonds retired at 1st by "Curly" and Marvin was an easy victim on a trio of shoots. Stalker hit to 2nd, who made a neat pickup, retiring runner at 1st. The 3rd baseman spoiled McGill's liner. Workman hit to Pethick, who retired McGill at 2nd. "Cim" fanned.

5th Innings—Hobbs fanned. Clarke out on Workman's throw to 1st. Henderson beat Menzie's throw to 1st, and was advanced to second on wild pitch. Lennon fanned.

Port Hope now make a shift, Lockington catching and Hobbs going to centre field.

Miller was an easy out to pitcher. Menzies beats short stop's throw to 1st, and was advanced to 2nd on "Curly's" drive to left field, but was retired at 3rd on Marks' hit. "Bud" Lennon again did the grand, by hitting another two-bagger, bringing "Curly" in and putting Marks on 3rd, who came in on Stalker's hit to 1st, who muffed the ball. McGill put one by the 2nd baseman and brought Lennon and Stalker in McGill was advanced to 2nd by Workman, and both runners walked a base on a pass ball. "Cim" hit to short stop, who was so mixed up with all the hitting and running, that he did not know where to throw it. McGill come in and shortly afterwards Workman stole home. Miller was retired at 1st. Score 11-0—that was killing the ball some.

6th Innings—Hudson fanned and Lockington fell a victim on a foul tip to "Cim". Pethick walked to 1st being hit by pitched ball. Walters hit to workman, to "Curly" who started a double to McGill—four out.

Another change follows - Pethick goes to right field, Hudson pitching and Hobbs catching.

The 2nd baseman handled Menzie's liner at 1st. "Curly" got to 1st on the 3rd strike, but was caught stealing 2nd. Marks lands on 1st, and stole 3rd. Lennon got a walk and Stalker was put out at 1st.

7th Innings—Edmonds fanned. Menzies captured Marvin's fly and Hobbs fanned. McGill hit a fly to 3rd. Workman banged a liner to short stop who made a pretty throw to 1st, but that man on 1st was a one-hand man and dropped the ball. "Cim" jabs one out for a three-bagger and brought "Bud" in. Miller was retired at 1st, but "Cim" come in on Menzie's timely hit. Menzies stole 2nd and 3rd, but "Curly" was put out at 1st.

8th Innings—Clarke fanned. Henderson hit the first fly which the Port Hopers got outside of the diamond, but Stalker took it in. The next up fanned. Marks and Lennon were retired at 3rd and short stop, respectively and Stalker retired by Edmonds at 2nd.

9th Innings— Lockington fanned. Pethick (the man who was going to kill the ball) fanned, and the last man up was out to Menzies on a fly.

The line-up was as follows;

Port Hope	Lindsay
Walters... ... ...3rd base... ...	...Menzies
Edmonds... .....2nd base...	Workman
Marvin... .....short stop... ...	...Miller
Hobbs... ...c. and c. field.....	Cinnamon
Clarke... ... .r. field..... ...	...Mark
Henderson... ... ...1st base...	McGill
Hudson.....l. f. and pitcher.....	Stalker
Lockington...c. f. and catcher...	Lennon
Pethic.....p. and l. field...	Curly Mack'

Strike-outs—McLaughlin 13, Pethic 5.

Three-base hits—Cinnamon.

To-base hits—Lennon, 'Curly,"

Singles—Hobbs 1, Henderson 2, McGill 3, Workman 2, Cinnamon 2, Miller 1, Menzies 2, McLaughlin 2, Mark 3, Stalker 1.

Stolen bases—Workman 1, Menzies 2, McLaughlin 2, Marks 1.

Errors—Lindsay 1, Port Hope 10.

Umpire—A. Bennett, Bowmanville.

Notes on the Game.

Menzies is a sure man.

A $55 gate is not too bad, either.

Lindsay outfield had nothing to do.

In the small boy's opinion, the Port Hope team couldn't hit a baloon.

Lennon was in the hitting class yesterday. That's what we want.

Perhaps Henderson can steal bases at Port Hope, but at Lindsay he does not shine.

The Port Hope outfield could be improved. They were too slow in starting for the ball.

Edmonds couldn't get along without his glove, and by the way, "Cim" has got a new one. Wonder if he put the old one in the museum.

Mr. A. Bennett, as umpire, was perfectly satisfied when he gave his decisions and both teams were also perfectly satisfied. He is all right, all right.

New Fall Styles in Men's Felt Hats Christys English and Hawes American, take the lead, $2. 2.50 $3 each.

DUNDAS & FLAVELLE L'TD.

COMMUNICATIONS.

ANNONYMITY.

Sir,—It was with quite a shock I read the reply of P. Palmer Burrows, Doctor and general critic to my communication of last week. Of course we all know the doctor—there are no half way measures about him. He reminds me of the drummer, who arrived at the station in time to see the train move out and who immediately proceeded to make the air bule with his feelings. After getting relief in this way he turned to go back, and almost ran into the pastor, who had been listening to his soliloquy. Hardened as he was, being a drummer, he actually blushed, and as if in justification of his remarks, explained to the minister, that he was a plain man and always called a spade "a spade", to which the other replied that he was surprized at that, as judging by the few remarks he had heard, he would judge that he would have called it a — — shovel. I really think the good doctor is rather strong in his adjectives in describing those, who write over anonymous names. It is not every one who is blessed with a name that they can part in the middle, and besides not every one likes publicity, although they may feel compelled to discuss current subjects in the newspapers. If the subject is worthy of attention, what matters it, what name is under it? whereas it might just be possible that no matter how important or interesting the matter, at issue, the public would smile and even actually jeer, if they saw a name attached. look at it from another stand point. Supposing that the writer's name was attached to the communication, look at the fun the doctor would lose. Here, in answer, he can write as strongly as he has a mind to, and use as many superlatives as you. Mr. Editor, will allow to pass, but if the writer's name was attached, the doctors criticism would be strong or mild in inverse ratio to the size of the writer Now as regards the subject matter in question, the doctor takes me up wrongly when he says I "reflected invidiously" on the gentleman spoken of—Edistinctly stated that I did not doubt, but that he deserved all he got, but that the other both actually and by comparison, was very shabbily treated. I can speak without prejudice in this matter, as I was interested in the testimonial, and was at the banquet, and do not mind seeing the doctor there either. The only reason I mentioned this care was that both the citizens left town about the same time and it was a common remark at the time—the difference in the treatment. I do hope the doctor won't think it is either "insincere" or "dishonest" because it is neither.—Yours

CITIZEN.

THE BURLEIGH POWER.

(To The Editor of The Post.)

Sir,—It is perhaps time that correspondence in this matter ceased, but as it has been nearly all one-sided, I desire to make a few explanations so that the public will not be under any misapprehension in the matter. Mr. Culverwell is not, as Mr. Beal thinks, an enemy who desires to take the town. He is simply a man of ideas, who, like many others, has found difficulties in the way greater than he anticipated. With him it is not a matter of friendship or enmity to the town. He is simply endeavoring to carry to a successful completion an enterprise initiated by himself. The success of his enterprise, however, is in the interest of the citizens of Lindsay and it is consequently desirable for them to do what they can to further it. It was fifteen years from the time the L. B. & P. Railway charter was obtained, before the first train reached Lindsay, and then it was with the help of over $300,000 in subsidies and bonuses. No person to-day would think of punishing the enterprising men who obtained the original charter, because they found it impossible to finance their enterprise within the time they expected. Mr. Culverwell, single handed and without bonuses or subsidy, is endeavoring to put through an enterprise of nearly equal magnitude, and of perhaps even greater importance, to the town of Lindsay. He has been working at it for five years now. I suppose it is human nature, that a great many people, when an enterprise is completed and success attained, present the gold headed cane, etc., but who during the days of struggle and difficulty gave little encouragement, in fact put obstacles in the way when they can.

The delays in connection with the Burleigh power have been no fault of Mr. Culverwells, yet he has been penalized to the extent of a $1500 mortgage, and now the town has added to the penalty $1500 stock, which is to be forfeited by Mr. Culverwell in case the power is not brought to Lindsay within three years. Mr. Culverwell did not, as Mr. Beal says, approach the town in an insolent manner. I attended with him at the first meeting of the Council when his propositions were made and when the matter was referred to the finance committee, and also at the finance committee when the first agreement was arrived at, and everything was of the most cordial character When the Council afterwards repudiated this agreement as a result of an agitation got up by people who did not understand the circumstances, it is not to be wondered at if Mr. Culverwell exhibited a certain amount of annoyance. Mr. Culverwell's contention is simply that the mortgage was given only to protect the town against loss, in case any loss should be sustained by reason of granting him an extension of time to undertake the lighting of the town. No loss was suffered, but the town was rather a gainer. Fenelon Falls power was brought in the meantime. Mr. Beal, in one of his letters, states to the effect that the town did give value for this mortgage, as they would have been tied up for twenty-five years. This is a mistake. Mr. Culverwell never asked to tie up the town for a single day. The franchise that was being given Mr. Culverwell to place his poles upon the streets, was not an exclusive franchise, and is a franchise that the town is, and always will be, willing to grant any company who will bring power to be used in the town. Neither the holding of a $1500.00 mortgage, even if it were good, nor the holding of $1500.00 of stock, will have any effect on bringing Burleigh power to Lindsay. A half a million dollar enterprise is not affected by a matter so comparatively trifling. I may say now that if Mr. Culverwell can get his enterprise financed at the present time it is coming to Lindsay, provided takers can be got for the power at a reasonable rate. It should be plain to any one that power cannot be brought here without a market. If the market is supplied and the Burleigh enterprise financed, the power will come to Lindsay, and if it is not financed within a short time, citizens interested in the town are taking the preliminary steps to bring power from another quarter. There are several fine powers within a distance of forty-five miles of Lindsay.

In making these explanations, I am not desirous of casting any reflections upon our town Council as, notwithstanding certain differences of opinion every member of the present Council is undoubtedly anxious to serve the best interests of the town.—Yours truly,

R. J. McLAUGHLIN.

Lindsay, August 31, '04.

GUNS DOMINATE ENTIRE TOWN

Fighting Has Not Been Altogether Suspended and Some Desperate Russian Sorties Are Yet Looked For—Japanese Will Not Say Anything Officially Until Enemy Surrenders or Is Annihilated.

London, Aug. 29.—A Central News despatch from Rome says that it is stated on good authority that Port Arthur has fallen. There is no official confirmation.

After Two Days Fighting.

London, Aug. 29.—The correspondent of The Evening Standard cables from Tientsin that the Japanese have captured Port Arthur after days of fighting, and although the battle is still raging inside the city and the garrison under Gen. Stoessel is stubbornly contesting every inch of the way, the invasion has actually taken place, and it is surrender or extermination for the brave defenders.

News Generally Believed.

This is the news that has reached this city and, while it lacks official confirmation from Japanese sources, it is generally believed, and The Evening Standard openly announces the fall of the fortress on the authority of its Tientsin correspondent. Under date of yesterday this correspondent, of whose reliability there can be no doubt, writes:

"Have good reason to believe from private information that the Japanese have effected an entrance to Port Arthur, and that the fall of the fortress is consequently virtually accomplished. The Japanese, however, are reluctant to say anything officially until the fighting is altogether suspended. The entrance was effected at the Etseshan forts. The Japanese occupied the Peiyushan parade grounds within the forts at dawn of the 24th, from which point they swept down with an unceasing fire throughout the day. The Japanese casualties were very heavy, but their courage remained undaunted to the end."

Losses Enormous on Both Sides.

London, Aug. 29.—A despatch from Fusan to Lloyd's Weekly says: "After a desperate day and night of fighting the Japanese penetrated the principal defence of Port Arthur. Their guns dominate the entire town. They hold every position they won despite the desperate and furious counter attacks of the Russians. The losses on both sides were enormous."

Desperate Sortie Likely.

A despatch from Kobe to The Weekly Despatch dated Sunday says news from a reliable source states that the Japanese have captured the outlying fortifications of Port Arthur. The Russians still hold the citadel on Antseshan, northwest of the town, the Golden Hill forts and the forts on Tiger's Tail Promontory. The Japanese hold the parade ground. The fall of the fortress is believed to be imminent. The Russians are likely as a last extremity to make a desperate sortie, for which it is believed they are in readiness.

Fall Imminent Saturday.

London, Aug. 29.—The Daily Mail's Kobe correspondent, in a despatch dated Saturday, says: Following is the position of Port Arthur. The Japanese have captured all the outlying fortifications, but the Russians still hold the citadel on Antseshan, Golden Hill Fort and the forts on Tiger's Tail and Liaoti Mountain. The Japanese are in possession of the parade ground and barracks under the Antseshan Fort on the outskirts. The fall of Port Artuur is believed to be imminent. It is believed that the garrison will make a desperate sortie before the end comes.

More Jap Troops.

Che Foo, Aug. 29.—Seven Chinese who went to Port Dalny in the hope of sharing with the Japanese in the business boom there, returned to Che Foo yesterday, and reported that the Japanese are monopolizing all opportunities at the port. These Chinese say that twenty transports, bearing 20,000 troops to reinforce the besiegers at Port Arthur, have arrived at Port Dalny during the past fortnight.

How Japs Lost 600.

Che Foo, Aug. 29.—Information which, to a very great extent, confirms previous reports of the conditions at Port Arthur was received here by junks which left there on Aug. 24 and 26.

The most important statement confirms the reports that the Russians have been driven from the fort immediately east of the railroad.

During the night of Aug. 22 a heroic band of 500 Japanese attempted to capture Fort No. 5 in the midst of a storm. Almost the entire detachment was killed.

Fired on By Torpedo Boats.

On Aug. 27 the fort on Liaoti Mountain was fired on from six Japanese torpedo boats, but the result of this action has not been made known. The Russian marines are working at the land batteries. Shells from the Japanese fire continue to fall in Port Arthur and the dockyards, and the warships have been scattered about the harbor in attempts to protect themselves from the enemy's projectiles.

Russian Battleships Damaged.

A Chinese who was employed at the docks at Port Arthur says that the battleships Retvizan, Poltava and Sevastopol are badly damaged. The battleship Pobleda is in fighting condition. There are also four gunboats and several torpedo boat destroyers in the harbor. The recent report that eight destroyers escaped from Port Arthur cannot be confirmed. The Japanese are constructing forts at Louisa Bay, northwest of Port Arthur.

Japs Move on Laempine.

St. Petersburg, Aug. 29.—The general staff has received the following telegram from Lieut.-Gen. Sakharoff, dated Aug. 27: "Our advance guard on the southern front yesterday retired slowly towards the fortified position at Anshanshan. The Japanese artillery cannonaded our position at different points. Our heavy fire eventually compelled the enemy to move their vast camp from Palmaina to Baisiaza. At 6 o'clock in the evening there was a lull in the firing. The hottest fighting occurred on the left flank on the south front, where our losses amounted to 200. During the night our advance guards retired to the principal position.

Lost at Least 400.

"Five divisions of the enemy took the offensive against our south front. Our troops repelled towards the southeast all attacks, while our troops on the right, towards evening, drove the Japanese back on Lounsinpu. Our losses on the southeast front were about 400.

Six Guns Abandoned.

"A turning movement by the enemy against the left flank of the Tsegow position and the enfilading fire of their batteries on Khaouio Heights forced the Tamboff Regiment to retire and the retreat was effected in good order. Six guns were abandoned, but they were rendered useless. The Japanese attacked like fanatics, and their losses must have been great.

"A wounded Japanese officer, who was taken prisoner, escaped observation after his wound was dressed and killed himself by dashing his head against the stones. Our troops captured many rifles, and articles of equipment. Our losses on this front have not been definitely ascertained, but they exceed 1,500 killed or wounded.

"On Aug. 27 the enemy had not assumed any defensive movement at any point along the whole front, and our troops retired gradually to new positions. At about 2 o'clock in the afternoon it was discovered that the Japanese were moving on Laempine."

Cut Army in Two.

Tokio, Aug. 29.—The general staff maintained silence throughout yesterday concerning the fighting in the vicinity of Liaoyang. It is reported that Gen. Kuroki has seized and cut the railroad south of Mukden, thus separating the Russian forces and cutting Liaoyang from a direct line of retreat, but confirmation of this report cannot be obtained. The fighting reported east and southeast of Liaoyang is regarded here as preliminary to a larger contest in the immediate vicinity of Liaoyang. It is expected that Generals Kuroki, Oku and Nodzu will press forward speedily.

Japan Shows Her Mettle.

Washington, Aug. 29.—Japan has addressed a note to the powers informing them that unless Russia forthwith disarms her warships in Shanghai Japan will be forced to take whatever steps she deems necessary to protect her interests. Mr. Takahira, the Japanese Minister, called at the State Department Saturday and left with Mr. Adee, the acting Secretary of State, the communication of the Tokio Government.

The Minister spent some time with Acting Secretary Adee, but further than to receive the communication, Mr. Adee was careful not to disclose the attitude of this Government, although the Minister was assured that the continuation of Chinese neutrality was earnestly hoped for by the United States.

It is understood that a similar note also was delivered at the various Foreign Offices by Japan's diplomatic representatives.

Commission on Contraband.

St. Petersburg, Aug. 29.—A joint commission representing the Foreign and Marine Ministers, to be presided over by Prof. Demartens, professor of international law at the University of St. Petersburg, will sit forthwith to consider the distinction between conditional and absolute contraband of war. It is expected that the result will be communicated to the American and British Ambassadors and that it will tend to the removal of existing causes of friction.

Good Meats

Geo. H. Calvert & Sons, butchers, keep on hand a varied stock of Fresh Meat, Salt Meat, Vegetables, Eggs, Butter and Lard. Also a special line of heavy roasts for farmers, and threshers, at reduced rates. Call and see them and you will be repaid for a visit to their shop. w3.
