A woman won a prize as the best husband caller. Many a woman would take a prize for this, if she had an audience when he gets home in the early morning.

One way to make matrimonial bonds safe would be to provide sinking funds.

HOTEL FOR SALE OR RENT

THE SECRET OF FEEDING CHICKENS FOR LAYING

The practice of feeding pullets intended for contest is of considerable importance as changes in daily routine, even though the same grains are used, often produce unsatisfactory results. The method of feeding birds in the Canadian National Egg Laying Contest is given below and contestants would be well advised to adopt the method and follow it fairly closely.

The scratch grain used in the feeding contest birds is made up of equal parts of cracked corn, wheat and oats. All grains are of good quality Shrunken or heated grains are never used. This scratch grain is feed sparingly morning and late afternoon in deep, dry litter, the object being to induce the birds to work.

Perhaps the secret of success in feeding for egg production lies in the proper administration of feeds so as to induce birds to eat dry mash. The dry mash used in the comencement of the contest year consists of equal parts by meal, 5% ground charcoal and 1% cod liver oil. This mash is placed in a self feeding hopper and kept before the birds at all times.

Birds should be regularly supplied with green foods such as kale, cabbage, mangles or fine cut clover or alfalfa. Fresh water, grit and oyster shell should be before them at all times.

Purchased Laurel General Store

Mr. Frank Tate of Waldemar recently purchased the general store business at Laurel from Mrs. S. Hutchison, who purchased the business from Mr. W. Grosskurth in March last. The deal also includes the property. Mr. Tate took possession on October 5th. Mr. Tate sold his 230 acre farm Lot. 3 Con. 10, Amaranth, together with stock and implements, to Mr. Hutchison, who is now in possession. —Grand Valley Star & Vidette.

They Laugh— as Health Comes Back

Rose and Valerie are sisters. Their charts say they are 23 and 18 years of age, respectively, but to look at them you would think they were 15 and 12—so slight and delicate are they. And when you hear the laughter and chatter of these two—for they are resting side by side in hospital cots—you feel sure they must be the lesser ages.

Yes, they are both very slight, but the wonder is they are here at all, for just a few months ago they were admitted, victims of the ravages of consumption. They are happy now because they are gaining weight and strength again; and you, who—have never lost your health, can hardly understand what a wonderful difference that makes to people who never expected to get well. But then—that is the work of the Muskoka Hospital for Consumptives, and it is being carried on for over three hundred patients each day throughout the year.

Rose and Valerie are a farmer's daughters, in a home where there are eleven children, and they say they are learning all about the disease so they will do their best to see that no other members of the family walk unawares into the dread path that leads to consumption.

Would you not like to contribute to this excellent work? It depends largely upon subscriptions.

Contributions may be sent to Hon. W. A. Charlton, President, 223 College Street, Toronto 2, Ontario.

The girls of to-day are not what they were ten years ago, says a critic. No, some of the dear things are quite three years older than they were then.

ROD AND GUN

Dealing with many aspects of outdoor life and hunting and fishing, the November issue of Rod and Gun and Canadian Silver Fox News which has just been published, contains a most interesting collection of stories and articles. Among them is a very good yarn on surveying the mouth of the Nelson River in Hudson's Bay, by Robert James, stories from the Tabusintac River in New Brunswick by the well known writer Bonnycastle Dale, a stirring fiction story of the old days of the "fur lords" in the north by Samuel A. White and a good trapping article by Raymond Thompson.

The regular special departments dealing with fishing, shooting, trapping, outdoors and kennel also contain very interesting material while the Silver Fox News section contains the latest news of the industry, together with interesting and helpful articles on the care and management of foxes.

Rod and Gun and Canadian Silver Fox News is published monthly by W. J. Taylor, Limited, Woodstock, Ontario.
