Sap Was Running During Mild Spell

Regular spring weather has prevailed in this district for the past several days and there is very little snow on the ground, just enough to make fair sleighing. Cars are still continuing to run and our 'bus man, Mr. W. Moore, is still operating his motor 'bus to the station to meet every train. The roads are open in all directions from Flesherton and the motoring is very good.

To make one believe that spring is here, bushmen state that the sap in the trees was running quite freely last week and the buds on the trees were swelling. Ice on the rink is receiving a warm reception also and it is hard to keep a good sheet. In fact, so far there has been very little skating at the rink.

Had Operation on Hand Injured in Planing Mill

In order to correct the further deformation of his hand Mr. Howard McAulay underwent an operation in Owen Sound hospital last week and had the bones straightened. Although an excellent job was done on the hand at the time of his accident last summer when the member was so terribly and painfully mangled in a planer, a couple of the bones became misplaced and were partly grown together. These had to be separated and a nerve which was causing trouble located. The injury was the result of an accident in his planing mill last summer, when his hand became caught in the knives of the joining machine, resulting in the loss of two fingers on his left hand, besides badly lacerating the back of the hand. Mr. McAulay's friends wish him speedy recovery.
