
will you be picked up next?

The Police are busy every day stopping motorists at random and testing the brakes of their cars.

YOU may be the next one picked up with faulty brakes and receive a stiff fine. For your own safety and the safety of others get your brakes relined with genuine Raybestos Brake Lining and drive secure in the knowledge that you can stop quickly, safely and surely in any emergency.

Silver Edge Raybestos BRAKE LINING

Grey County Club To Hold Third Party

Former Grey County residents now living in Detroit and Windsor are gatherin for another of their parties at the Detroit-Leland Hotel, Detroit, Friday evening, May 18th. This is the third party given by the club this season, the former parties having been held in the Supper Rooms of the Masonic Temple. The Club have secured the Ball Room of the new Detroit-Leland for this, the last party of the season.

These get-togethers have been enjoying an unusual attendance in Detroit. Several hundred guests meet and enjoy themselves dancing and card playing at each party. Several additional features have been planned for Friday night. The commttee declare that this party is sure going to be a "wow". They are getting hearty and generous co-operation from the friends in the Old Home Town. Local friends are asked to send the names and addresses of friends and relatives living in Detroit and Windsor to the committee that they may be placed on the invitation list. Mr. Herbert C. Lamb of Markdale is the father of the Grey County Club idea. The committee office is at 578 Maccabees Bldg., Detroit.

Public Bodies in Ont. Should Try Alta. Coal

An article appeared recently in the Peterboro Examiner that is applicable to Flesherton and all other towns and villages in Ontario. The article in question says:

The very reasonable suggestion is offered by J. A. Ellis, fuel controller for Ontaroi, that the municipalities, school boards and other public bodies in Ontario should try Alberta coal next winter in at least one public building under their control where anthracite has formerly been used.

Undoubtedly such a plan would afford an opportunity to thoroughly test the Alberta fuel under conditions that would enable an intelligent comparison to be made, and the suggestion made by the fuel controller should receive the consideration of municipal bodies throughout the Province.

It is of the greatest importance to this country that so far as possible we should meet our fuel wants within the borders of Canada, and now that the transportation into Ontario of Alberta coal and care is to be taken to ensure coal of excellent quality being sent here, everything possible should be done to open a market for the Western fuel.

At last we should be willing to give the Canadian article a chance to prove that in quality it compares to the fuel we have been bringing over the border and for which many millions of Canadian money leave this country every year.

The grocery business of the late T. D. McIntyre in Dundalk will be carried on under arrangement of the administrator of the estate.

DIPHTHERIA PREVENTABLE

Diphtheria is caused by the poison or toxin produced by the diphtheria germs lodged in the human body, usually in the throat and nose.

When this toxin attacks the body, the latter seeks to protect itself, and it does so by producing diphtheria anti-toxin or anti-poison, which counteracts or neutralizes the toxin. If this occurs quickly enough and a sufficient quantity is produced, the body wins and recovery results. Not only does recovery take place, but something happens inside this human body which enables it, in most cases, to prevent a second attack of the disease.

Can protection similar to that conferred by one attack of the actual disease be gained without the danger of death and without fear of the suffering that comes with the disease. The answer is "Yes."

Diphtheria can be prevented by the injection of diphtheria toxoid or toxin-antitoxin. This method is known as diphtheria immunization. The injections stimulate the body to produce the substances whch are the fighting forces against diphtheria. These substances are not developed at once; it takes several weeks for this to occur, but after the development has taken place, the person is immunized or protected against diphtheria just as he would have been had he had an attack of the disease.

The menace of diphtheria can be eliminated. Lives can be saved and suffering prevented. Ask your family physician to give your children this protection by immunizing them against diphtheria.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

STAND BY YOUR TOWN

If you think your town is the best,
Tell it so.
If you'd have it lead the rest,
Help it grow.
When there's anything to do
Let the fellows count on you—
You'll feel bully when its through.
Don't you know.
If you'r used to giving knocks,
Change your style.
Throw bouquets instead of rocks
For a while.
Let the other fellow roast,
Shun him as you would a ghost,
Meet his hammer with a boast
And a smile.
When a stranger from afar
Comes along,
Tell him who and what you are—
Make it strong.
Needn't flatter, never bluff,
Tell the truth, for that's enough;
Join the boosters—they're the stuff
Sing your song!

It costs 14½ cents a day to feed the prisoners in Middlesex county jail three meals a day in the quarter just closed.

Advertisement of By-law

1. The Municipal Council of the Corporation of the Village of Flesherton, propose to pass a by-law "To authorize the purchase and renovation of the property known as "Chalmer's Presbyterian church," by the Municipal Corporation of the Village of Flesherton, for use as a village hall, and the raising of $2,500. upon debentures of the said Village of Flesherton, to pay for such purchase and renovation of said building" and to borrow on the instalment plan the sum of $2,500 to pay for such property and renovation.

2. The amount of the debt or liability to be created is $2500.00.

3. The amount to be borrowed is to be payable in ten years.

4. The amount to be raised to pay the debt and interest will be as follows:

1st year	$331 67
2nd year	$331 67
3rd year	$331 67
4th year	$331 67
5th year	$331 67
6th year	$331 67
7th year	$331 67
8th year	$331 67
9th year	$331 67
10th year	$331 67

Dated the 8th day of June 1928
W. J. Bellamy Clerk.

NOTICE

TAKE NOTICE that the foregoing is a true synopsis of a proposed by-law of the Corporation of the Village of Flesherton to be submitted to the votes of the electors on the 31st day of May, 1928, between the hours of nine o'clock in the forenoon, and five o'clock in the afternoon, at the following places:—

POLLING PLACES
Town Hall.

AND FURTHER TAKE NOTICE that a tenant who desires to vote upon said proposed by-lay must deliver to the Clerk not later than the 10th day before the day appointed for taking the vote a declaration under the Canada Evidence Act, that he is a tenant whose lease extends for the time for which the debt or liability is created, or n which the money to be raised by the proposed by-law is payable, and that he has by the lease covenanted to pay all municipal taxes in respect of the property of which he is tenant other than local improvement rates.

AND that the 28th day of May, 1928 at one o'clock, in the afternoon at the Reeve's office in the said municipality has been fixed for the appointment of persons to attend at the polling places, and at the final summing up of the votes by the Clerk.

AND that if the assent of the electors is obtained to the proposed by-law it will be taken into consideration by the Municipal Council of the said Corporation to be held after the expiration of one month from the date of the first publication of this notice, and that such first publication was made on the 9th day of May, 1928.

W. J. BELLAMY, Clerk

25 Years Ago
(Flye of May 14, 1903)

Reeve McTavish will leave for Ottawa on Tuesday.

A new cement verandah will take the place of the old board one at the Munshaw House.

Mr. George Boyce of the Stones Settlement has just finished planting evergreen trees around his house. Seeding is almost completed.

Mr. Archibald McPhail, S. R. passed away on Monday, May 2, at the age of 64 years. He resided one half mile east of Priceville.

Mrs. Hooper of Eugenia is preparing to make a trip to her old home in England.

Mr. P. Munshaw is a delegate to Ottawa on the railroad question.

Mrs. Robt. Fawcett, 3rd line near Kimberley passed away on Monday morning.

Garden seeds were on sale, 10 packages for 25 cents.

Butter 16 to 17; eggs 11; hay $5 to $6 and wheat 65 cents.

Things That "Can't Be Done"

The world has always been in need of men to do things that could not be done. The need is more pressing to-day than ever.

When Columbus started out to sail around the globe men laughed at him and told him it could not be done. Columbus did not succeed in the attempt, it is true, but he proved that the thing could be done.

When Samuel Morse started to transmit messages between distant points by means of a tiny wire, people said it could not be done, but Morse soon proved differently. Fifty years later Marconi showed people how to talk through the air without even using wires.

Edison achieved two things that most people declared to be impossible when he used electric current to produce light and when he reproduced the sound of the human voice. Motion pictures are another of the "impossibilities."

There are other achievements seemingly impossible today, awaiting accomplishment. They started as a challenge to the ingenuity of mankind. The need of the world is for men who can do these things.
