BOAR FOR SERVICE.

A Chester White Boar for Service at Little Mills.

East Grey Electoral District Agricultural Society.

Your Directors in presenting you with their annual report, regret their inability to report that amount of success attending the labors of the Husbandman as has been our pleasing duty in some of the years gone by. However, the past year has been an exceptional one, as owing to the excessive rain falls which retarded the progress of seeding during the proper season. This part of the work not being done until a late date, followed by a very wet summer, kept the grain from maturing until fully three weeks beyond the usual time, consequently, but little of the crops were harvested when the frosty season set in which was on the 9th day of September. By this frost, a great deal of the crops, especially those in the southern townships of the riding were damaged. However, from what we know and learn by reports from other parts of the country, East Grey can compare favorably with other portions of the Dominion, and with few exceptions will be able to tide over this season without seriously feeling the damaging effects referred to. As we have had some very prosperous years preceding the past, and as prices for all kinds of farm produce are fairly remunerative and are likely to continue so for some time to come especially for horses, cattle, sheep and dairy produce all of which are bringing a large amount of wealth into the country, your Directors therefore think the hard times looked for will turn out blessings in disguise, as farmers will be more likely to practice economy, and as feed for cattle is very plentiful, the same being liberally dealt out, good care being taken of the stock in a very few months they can be turned into money, thus enabling the agriculturalist to draw early on the produce of the current year, and as farmers of late years realize the advantages to be derived from mixed farming, grain raising is not so much depended upon as was the case some ten or twelve years ago, or is it likely to be as it has become a well known fact that the land in East Grey affords pasture for stock equal to any in the Dominion, while the water for stock dairy and other purposes is plentiful and of the very best quality. Taking these things into consideration, together with the fact that the inhabitants are a peaceful and law-abiding people, and the climate extremely healthy, it is therefore not surprising. But never-the-less a fact that foreigners and others are seeking for homes in our midst and paying for them, the fancy prices varying from $30 to $70 per acre.

In reference to the Fall Exhibition which was held on the Society's Grounds in the village of Flesherton, on the 2nd and 3rd days of October. The display in every department was good, beyond our most sanguine expectations. The exhibit of horses and cattle was at least and improvement on former years, while the various other departments was fully up to the average. The receipts at the gate did not amount to that of last year, the attendance not being so large, which was owing to the fact that many of the farmers had not their harvest fully gathered in. Notwithstanding this, the annual payment on the society's ground and all other demands has been met as is shown in Treasurer's Statement. Of course we regret our inobility to fully carry out what Agricultural Society's are expected to do in the matter of procuring new seed grain and thorough bred stock, the procuring of which would be a great boon to the farming community of the riding and feel disappointed at not having secured the seed grain promised by the Government of the province last year. In conclusion your directors beg leave to state that Township Societies in the riding are getting to be rather strong rivals of Electoral District Societies, as the grants they are securing from Township and County Councils are high in proportion to that received by Electoral District Societies. Consequently your Directors are likely to become unable to pay prizes in keeping with the dignity of your society, unless a larger membership is worked up the importance of which we strongly urge on those whom you may appoint as your standard bearers for the current year. All of which your Directors beg leave to submit.

HELP REQUIRED.—Dyspepsia does not get well without assistance. It reqires careful diet and thorough treatment. Burdock Blood Bitters have effected the most remarkble cures on record of chronic Dyspepsia.

Rev. Father Wilds' EXPERIENCE.

The Rev. Z. P. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes as follows:

"78 *E. 5th St., New York, May* 16, 1882.
MESSRS. J. C. AYER & Co., Gentlemen:

Last winter I was troubled with a most uncomfortable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough; my appetite was poor, and my systems a good deal run down. Knowing the value of AYER'S SARSAPARILLA, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and itching were allayed, and all signs of irritation of the skin disappeared. My catarrh and cough were also cured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred per cent stronger, and I attribute these results to the use of the SARSAPARILLA, which I recommend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good.

Yours respectfully, Z. P. WILDS."

The above instance is but one of the many constantly coming to our notice, which prove the perfect adaptability of AYER'S SARSAPARILLA to the cure of all diseases arising from impure or impoverished blood, and a weakened vitality.

Ayer's Sarsaparilla

cleanses, enriches, and strengthens the blood, stimulates the action of the stomach and bowels, and thereby enables the system to resist and overcome the attacks of all *Scrofulous Diseases, Eruptions of the Skin, Rheumatism, Catarrh, General Debility*, and all disorders resulting from poor or corrupted blood and a low state of the system.
