JOS. ALLISON, - - PROPRIETOR.

HALL'S
Vegetable Sicilian
HAIR RENEWER

was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalleled success can be attributed to but one cause: *the entire fulfilment of its promises.*

The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction.

The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic preparations, but remain a long time, which makes its use a matter of economy.

BUCKINGHAM'S DYE
FOR THE
WHISKERS

Will change the beard to a natural brown, or black, as desired. It produces a permanent color that will not wash away. Consisting of a single preparation, it is applied without trouble.

PREPARED BY
R. P. HALL & CO., Nashua, N. H.
Sold by all Dealers in Medicines.

FOR ALL THE FORMS
OF
Scrofulous, Mercurial, and Blood Disorders,
the best remedy, because the most searching and thorough blood-purifier, is
Ayer's Sarsaparilla.
Sold by all Druggists; $1, six bottles, $5.

Progress.

To the Editor of The Advance.

Sir,—When we look around us and see the rapid strides being made from day to day in the arts and sciences, and the new and ingenious uses to which the most common things around us are being applied, we sometimes think the word "impossible" should be struck out of our vocabulary; but, though somewhat familiar with the present lightning speed of progress, we were totally unprepared for the display of gigantic originality of genius displayed by the man whom we saw the other day splitting wood with a crobar.

Q. K.

Feversham.

(From our own Correspondent.)

There was a very pleasant entertainment in the school house here on Friday night last. The chair was ably filled by Rev. Mr. Chisholm. Some dialogues and recitations were well rendered by Feversham amateurs; also vocal and instrumental music by the Singhampton choir, Miss Drummond and Mr. McKay, of Maxwell.

Mr. John Graham has sold his farm to Mr. George Lash for $2,700.

Hall Bros. are doing a rushing business in the general store line. That is the place to go for oysters and mixed pickles!

[Correspondents will kindly give us their real names as a guarantee of good faith—ED.]

Ayer's Hair Vigor stimulates the hair cells to healthy action, and promotes a vigorous growth. It contains all that can be supplied to make the natural hair beautiful and abundant; keeps the scalp free from dandruff, prevents the hair from becoming dry and harsh, and makes it flexible and glossy.

Wareham Items.

(From our own Correspondent.)

Wareham has met with a great loss by the departure of that enterprising, shrewd, and farseeing merchant, Wm. Crabb. It is now about a year since that worthy came and commenced business in this place, and has, no doubt, amassed a colossal fortune during his short stay, but has been generous enough to remove and give some other person a chance to go and do likewise. As to whether he succeeded financially some are in doubt, but in one thing he must have really surpassed his most sanguine expectations in getting the illwill of the whole neighborhood to such an extent that not one was on hand to bid him a friendly good-by, but he seems to have one friend that stuck closer than a brother, in the person of that inexorable Bailiff in buffalo skin coat. That he belonged to a genus of crab supposed by Geneologists to be long ago extinct, is not probable, as we are informed, they abound in Proton Township in large numbers, but chiefly of the Feminine Gender, from which we might infer that the race is degenerating, but on the contrary, Crabb is making gigantic strides in the propagation of his species. A casual observer who explored the premises he left, mildly suggests that in case the house was cleaned out there would be no scarcity of fertilizing material, as both inside and out it prevails to an alarming extent both human and canine, but as the very name of Crab is repulsive to human nature, no more could be expected than the very essence of low life, and profligacy. Hoping that the place he has *just vacated*, well ne'er look on his like again.

Business lively at the Steam Flour Mill, the proprietors are importing wheat from Collingwood Township where they get it of a good quality. They are also getting in a large stock of cordwood.

W. J. Percey, the enterprising blacksmith of this place, has just received a full car-load of coal direct from the mines, and notwithstanding the hard times, he has laid in a full stock of iron and steel for sleigh shoes.

The Cheese factory, we are informed, will be under the able management of Mr. A. Kiseboro again who conducted it very satisfactorily last year. We wish the patrons success, knowing that it is a paying business if properly managed.

We notice an unusual number of credit sales this year, we cannot account for it in any other way but that the National Policy has fallen so far below the expectations of its supporters, as to necessitate the selling of farm stock to meet the demands.

Great panic among the bachelors on account of the numerous proposals they are constantly receiving from those awful girls, who will take advantage of the situation this year. If they still persist until the end of this year it will certainly terminate in the total annihilation of the entire bachelor community.

Cochrane's Foundry Destroyed.

On Monday night Cochrane's large foundry in Durham was completely destroyed by fire together with all the machinery and a great quantity of finished and unfinished horse rakes, land rollers, horse powers, and mowers were consumed. The total loss is estimated at $25,000; insurance as far as can be ascertained $3,000.

Preparing for the Garden.

Rural Canadian for March.

The success of a garden depends much on its early preparation and planting in spring. Crops which do not need putting in till warm weather arrives, are greatly benefitted by the thorough preparation and the pulverizing and enriching of the soil. It is well, therefore, to apply in winter all the manure which may be wanted. Pulverized by frost, and leached into the soil by rains and melting snow, it will be worth more than if spread in lumps after spring opens and is imperfectly intermixed. All new gardens for vegetables should be arranged for horse-cultivation, by extending the plants in drills across it from end to end. This will greatly reduce the labour of keeping it clean, and the few minutes required to cultivate it once a week, will be trifling compared with long and laborious hand-labour. The crops will grow vigorously by keeping the soil constantly mellow and clean by a frequent passing of the narrow one-horse harrow or cultivator. Gardens which are already laid out may be modified by re-arrangement, so that much, if not most, may be subjected to horse-cultivation, and the amount of hand-hoeing materially lessened. There are many crops which are commonly planted in beds, and kept clean, if at all, with hand labour which may be arranged in drills for this purpose.

A QUESTION TO THE POINT.—Reader, have you a languid, weak and tired feeling, with nervous exhaustion, especially in the early spring? Then your liver is inactive and circulation poor. Arouse the torpid liver cleanse the sluggish blood and regulate the secretions with that purifying tonic Burdock Blood Bitters.

The Profit Of Eggs.

From the Rural Canadian for March.

The Poultry World thinks it more profitable to raise eggs than chickens. This is what it says:—"We make no allusion to those large establishments where raising chickens as chickens for a near city market is undoubtedly a paying business; but we address the common poultry raiser, living perhaps a considerable distance from market, who wishes to make, the most of his stock. And to such we say raise every pullet your premises will accommodate. Treat them in such a manner that they will lay early and constantly through the winter, and you will make more money than you can by raising chickens to sell for broilers unless at the fancy prices that such bring in cities. Most country breeders have no such market for what they chance to have to sell, and the small prices they obtain at the country hotel or the house of the wealthy citizen, by no means pays for extra trouble and care that early chickens cost. Of course, if you have a large number of fowls there would necessarily be cockerels and old hens to fatten for sale, but do not make it your business to sell dead stock instead of making live hens give you hundreds of eggs every year of their lives

A VALUABLE HINT.—Artizans, actors, sportsmen, mechanics and laboring men, in fact all who unduly exert muscular strength, are subject to painful contractions of the cords, stiff joints and lameness; to all such Hagyard's Yellow Oil is a prompt relief and perfect cure.

NAMES, FACTS AND FIGURES.—Will be cheerfully given by the proprietors of Burdock Blood Bitters, regarding the many certificates of wonderful cures made by that medicine in chronic diseases of the blood, liver and kidneys, revealing proof that is beyond the possibility of dispute by the most incredulous.

GOLD for the working class. Send 10 cents for postage, and we will mail you FREE, a royal, valuable box of sample goods that will put you in the way of making more money in a few days than you ever thought possible at any business.
