IT'S WISE TO CHEVROLET CHOOSE A SIX

A Truly Modern Car You Will be Proud to Own

IT is wise to choose a Chevrolet Six—because this is definitely a better low-priced automobile. Priced as low as $635 at the factory, it is more modern—in design, performance, appearance and features—than any other car in its field. It is a car to be proud of, wherever you go.

More than two million owners have found that Chevrolet's modern six-cylinder design means more enjoyable motoring. That six-cylinder power is always smooth and flexible. That six-cylinder speeds are always quiet and comfortable. That "Body by Fisher" means infinitely smarter appearance and finer construction. And that six-cylinder performance, as Chevrolet provides it, is just as economical as any other kind!

In selecting a low-priced car, you should also consider this fact.—Because the Chevrolet Six is so far ahead of its field today, it will be modern tomorrow—and command a better resale value when you come to trade it in.
