THE ADVANCE.

A. R. Fawcett, — Editor.

FLESHERTON:
THURSDAY, JULY 10, 1884.

GOOD GROUNDS FOR "BLOWING."

A number of our esteemed, but rather jealous contemporaries, have time and again accused us of "blowing," or boasting of the merits of THE ADVANCE. Now we are not surprised at this, for we are aware that the "esteemed" gentlemen referred to look with anything but pleasure on the growing popularity of THE ADVANCE. But, so long as the public continue to show by their hearty approval that we are meriting their esteem and patronage, we don't care a button for the adverse criticism of ungentlemanly opponents.

To show that we have good reasons to blow about THE ADVANCE, we may state that we *last week received orders for over two hundred copies of* THE ADVANCE *more than the regular number issued!* On several former occasions we have received orders for almost as many copies of our paper (over and above the regular issue) as in the instance given. Any public meeting or gathering of any kind, attended by us in person—or by one of our numerous staff of special correspondents—is fully and faithfully reported. Men who have opposed us "tooth and nail" have received equal justice at our hands with our best friends. "*Truth before favor*"—"*Principles, not men,*" is and ever shall be our motto. And, thanks to an intelligent and enlightened public,—who have shown their approval in the most practical and encouraging manner—THE ADVANCE has been enabled to tide over three years of its existence, and has brighter prospects than ever for its continued success.

SCOTT ACT MEETING.

A meeting of the friends of Temperance in this district will be held in the Town Hall, Flesherton, on Thursday next, the 17th inst., to organize for the Scott Act campaign already commenced in this County. The necessity for the friends of so good a cause forming in a solid phalanx, and fighting shoulder to shoulder for the passage of the Act, is the more apparent when it is considered that thousands of dollars have been raised by wholesale brewers to defeat it. A word to the wise is sufficient.

THE TWELFTH.

The "glorious, pious, and immortal memory of King Wm. III" will be commemorated in Shelburne this year by Artemesia Orangemen. We would like to have seen the event celebrated by the "boys" some place near home; but leaving grumbling aside, we wish them a good time. Tickets will be issued we believe, at reduced rates between all stations on our popular T. G. & B. R.

The Vandeleur correspondent is somewhat excited, and relieved his overburdened soul in last week's *Standard*. His nerves are rather unstrung owing to our exposure, but we hope he will survive sufficiently to prove to the public that he is even a bigger goose than we took him for.

The Markdale *Standard* man tells us, that he was "overpowered with work" last week,

That very interesting bird, *Grip*, entered his twenty-third volume last week, which was not the least important event of Toronto's semi-centennial celebration week. *Grip* is and always has been an enterprising, energetic, humorous, interesting, instructive, and clean cartoon paper, and deserves the hearty support of all Canadians.

"Whistlers" Reply.

To the Editor of the Advance.

Sir,—Some time ago I mentioned in your paper, that Mr. Jenkins of Durham was making a tour through Proton in the double capacity of Dominion Licence Inspector, and canvasser for the *Chronicle*. This has apparently aroused his unsettled blood and the poor fellow pours out his wrath on me, the ADVANCE, and in fact everybody else who may be so unfortunate as not to be *Chronicle* subscribers. He informs us, that his tour was not very successful—only one party, Mr. Scarlett of Hopeville, applying for license in the whole Township! And that gentleman subscribed for the *Chronicle!* And Mr. Jenkins calls him by some fancy pet names. He says: Mr. Scarlett *is a thoroughly honorable man.*" Be this as it may, I feel very grateful to Mr. Jenkins for telling the public through his paper, that the village of Hopeville—a part of the Township of Proton—has a valuable citizen. It should be well for that village to have such a worthy man amongst them. Who can doubt it, when it comes from a man who, I have heard, is likely to lead the Durham branch of the Salvation Army! Lot of old was promised from on high, that Sodom and Gomorrah would be saved if only ten righteous people were found in those cities, and I think there is a chance for Hopeville yet.

Now, as to the abuse showered on you, Mr. Editor, I have only to say I have found you very mild and different from the manner in which you are painted in the *Chronicle*. My advice is—don't bother Jenkins this hot weather, or there will be a case of spontaneous combustion somewhere in the neighborhood of Durham.

Yours truly,
WHISTLER.

[We heard of a certain editor of a Conservative paper once, who played the lick-spittle and toady with a prominent M. P. P. (now no more) in order to prevail upon that gentleman to *assist him to keep his newspaper business afloat;* although this self-same editor was at that very time boasting of his large circulation and extensive patronage!! We also heard of an editor who was so drunk while attending a Township show in the village of Priceville, that he had the audacity to insert, that he at one time wrote editorials for the Toronto *Mail!*—which, it is needless to say, was a falsehood pure and simple. These are merely a few instances showing the littleness of soul and want of principle of the editor we refer to; and should we hear of a case of "spontaneous combustion" occurring in a certain locality, we will not be very much astonished.—ED. ADVANCE.

Where are Those Fenians?

The Maxwell Prophet Requested to Rise and Explain.

It will be remembered by our readers, that a rather startling prophecy was published in THE ADVANCE last spring to the effect that the villages and towns of Ontario would be over-run by Fenians sometime during the first week in June last. The public were advised to seek seclusion in the caves and rocky fastnesses until the storm blew over. Mr. Sterling of Maxwell, in the Township of Osprey, was the originator of this remarkable prophecy. As before stated he founded his predictions on something said concerning Armageddon in the book of Joel. Now what we want to know is, why didn't those Fenians turn up per promise? What averted the predicted catastrophe? June has come and gone, and still we are in the land of the living, and we didn't have to "seek seclusion in the caves," &c., &c. worth a cent. What does Mr. Sterling mean by disappointing us in such a manner anyway? We don't like to be humbugged, and the fact of the matter is, we won't be humbugged—unless we can't help ourselves. Therefore, Mr. Sterling, prophet and what not, be kind enough to explain what you mean by predicting things which do not come to pass, and thus humbugging a respectable community.

A SUDDEN ATTACK.—All people, and especially travellers, are liable to a sudden attack of Cholera Morbus, Colic, Diarrhœa and Dysentery. Dr. Fowler's Wild Strawberry is the most prompt and reliable remedy known.

REMARKABLE RESTORATION.—Mrs. Adelaine O'Brien, of Buffalo, N. Y., was given up to die by her physicians, as incurable with Consumption. It proved Liver Complaint and was cured with Burdock Blood Bitters.

Cures Cholera, Cholera Morbus, Dysentery, Cramps, Colic, Sea Sickness and Summer Complaint; also Cholera Infantum, and all Complaints peculiar to children teething, and will be found equally beneficial for adults or children.
