FLESHERTON:
THURSDAY, JULY 17, 1884.

OUR FUTURE COURSE.

When fighting with sweeps one is very often obliged to use sweeps weapons; and as the weapons used are frequently degrading in their tendency it is our intention in future to speak of any public matter that may be brought under our notice, solely on its own merits. We shall, as in the past, give our opinions fearlessly and impartially; but nothing will ever again induce us to descend to the depths in order to meet an ungentlemanly opponent on his own footing.

GREY DIVISION GRANGE NO. 2 AND THE SCOTT ACT.

The Committee on Temperance, of Grey Division Grange No, 2 brought in the following report at a recent meeting, a copy of which has been kindly furnished us for publication by the Secretary, Mr. John Weber:—

Judsonville, July 3rd, 1884.

To the Worthy Master, Officers and Members of Grey Division Grange No. 2:

We, your Committee on Temperance, beg leave to report, that in view of the Scott Act being about to be submitted to the Electors of this County (Grey) and from our opinion of the working of the said Act in the Counties in which it has been passed, your committee would recommend that this Division pledge their support in favor of said Act, and that the Secretary be requested to furnish the leading papers in the County with a copy of this report.

Adopted.

J. I. GRAHAM,
Chairman.

As the above represents the sentiment of a large and important class of the agricultur'sts of Grey, the significance of such a report at this juncture is apparent to the most obtuse mind. We congratulate our Grange friends on the manly stand they have taken on the all-absorbing question of the hour.

THE TWELFTH.

Although the weather was anything but promising in the forenoon of the "glorious twelfth" of July, yet the afternoon turned out fine. Five lodges of Orangemen, with banners waving in the air, and drums beating, boarded the train at Flesherton Station *en route* for Shelburne. One lodge got on the train at Markdale, and another at Proton station. Thus every lodge in Artemesia celebrated the anniversary of the Boyne at Shelburne It has been estimated that there were fully five thousand people in that village on the occasion named. No less than twenty-five lodges, headed by the Citizens' Own Band of Owen Sound, paraded the streets after dinner. The utmost enthusiasm prevailed. Osprey, Artemesia, and Melanothon Townships were largely represented.

WORMS often cause serious illness. The cure is Dr. Low's Worm Syrup. It destroys and expels Worms effectually.

THAT POLL TAX.

The Flesherton pathmasters were very diligent this year in collecting the poll tax. All men twenty-one years of age and over are obliged by law to contribute in this manner to the village finances once a year. The funds thus collected are used, in keeping the roads within the limits of the place in repair, constructing new sidewalks, repairing dilapidated ones, &c. In short the money is or should be expended to the best possible advantage. Now, while no one will question the right of pathmasters to collect the tax mentioned, objection has been raised on the grounds that several of our citizens have not yet paid their last year's poll tax, although much more able to do so than the majority of those who have promptly discharged the same. The plea put forth in their defence is a weak one, viz., that they would themselves expend their poll tax money to the best advantage possible—in their own good time. There should be no such unjust discrimination. The pathmasters should collect from *everybody* liable to pay the tax, and not allow Tom Jones to build a sidewalk around his premises, or Dick Smith to make a gravel walk in his back yard at the expense of the public.

It might be asked: what has been done with the funds collected? What have our pathmasters to show for the money squeezed out of our citizens, at a time of the year when the "needful" is a mighty scarce article?

THE PRINTER'S STRIKE.

The following remarks, clipped from last week's Owen Sound *Advertiser*, anent the printer's strike in Toronto, are to the point, and render comment unnecessary:—

The compositor's in nearly all the printing offices struck last Saturday owing to a proposed reduction in wages, notices of which were posted up in the offices Saturday morning. The compositors demanded that the notices be taken down, and the non-compliance with his order resulting in a pretty general strike thoroughout the city. The *Globe* claims that it has won the battle, but the *Mail* looks very dilapidated, and is apparently suffering both in point of popularity and pocket. There is not much sympathy expressed for either the *Globe* or *Mail* by the public. These two papers have been trying for some time back to cut each others throat by reductions in advertising rates. They have been also engaged in a very fool-hardy trick of selling their weekly aditions for less than cost, no doubt with the intention of driving the weeklies published in towns and the country down stream. This maniac game has resulted in so financially crippling them both that they now find it necessary to replenish their straightened positions at the expense of the compositors. The *Globe* and *Mail* had better stiffen their backs and return to the old system of conducting their business on business principles. The country weeklies can't be injured; they were called into existence by the public to fill a public necessity, and as such will live.

PREJUDICED PEOPLE.—Many people are prejudiced against patent medicines but all who try Burdock Blood Bitters are compelled to acknowledge it worthy a patent as a valuable discovery.

The following is from J. W. Ptolemy, of Winnipeg, formly grain buyer for William Gillesby, of Hamilton and Grimsby: "I was for many years much afflicted with Costiveness, Billiousness, and ultimately Dyspepsia, I suffered very much and tried many different medicines, which gave em only temporary relief and then I was as bad as ever again. I was recommended by a friend, who has been restored to health by it, to try McGregor's Speedy Cure. I did so, and it was not long before I felt like a new man, and I have enjoyed excellent health ever since. I first commenced taking it February 7th, 1879. Sold by Richardson's druggist.
