Saw Mill & Timber Land For Sale or To Let.

In the **Township of Artemesia,** in the County of Grey, 4 miles from Flesherton Station, the Canadian Pacific Railway. The Mill is situated at Little Falls, in a block of about 400 acres Timber Land, with other timber land surrounding. The building is substantiolly built on stone foundation. The machinery is all good and driven with great power by a 23 inch Leffel wheel, under 36 feet head of water. There are 1 Large Circular Saw for cutting logs; 2 Small Circulars for sawing Laths and Broom Handles; 1 Guage Lathe for turning Broom Handles, &c.; 1 Shingle Machine with Jointer and Packer complete. The Water-Power is excellent, the stream being very regular. There are several other good Mill Sites on the property. The land in this valley is considered the best in the country. The place would make an excellent Stock Farm when the timber is taken off

This offers a good opportunity for a practical, energetic man to go into this kind of business, as the place will be sold or let on FAVORABLE TERMS. The bush is so convenient to the Mill, logs can be trucked in summer time. Immediate possession given.

Toronto.

(From our own Correspondent.)

Having now spent some weeks in the capital of our great province, I thought perhaps some jottings of what I have seen might be interesting to your readers.

To begin at the beginning, I took passage on a mixed train, circumstances causing its selection; and oh! the pleasures of a mixed train! We left Flesherton Station about 10.20 a. m., and arrived in Parkdale about 8 o'clock p. m. What with shunting, loading cattle, and what not—well there is something to be said in favor of mixed trains: you are not hurried!

While passing down the line we observed that the crops in general were good and promised a bountiful return; and yet we found the people grumbling about the prospects of prices, and the thought occurred to us—could man be satisfied with anything in this world? and echo answered, no!

Arriving in Toronto, I found all hurry and bustle as usual, and soon got interested in what was going on in every direction. Improvement is the order of the day. Buildings, large and small, according to the location, are rapidly being erected and occupied almost as soon as ready, Railway extensions and improvements, street pavements, &c., give employment to an immense number of men. From 5 to 7 o'clock in the morning, thousands of men and boys may be seen hurrying through the streets with their lunch pail, basket, satchel, or parcel, while the street cars leading towards the busier parts of the city, are loaded to their fullest capacity. In the evening the tide flows in the opposite direction, and day after day it still goes on. Judging from present appearances Toronto is destined to be a mighty city.

While strolling through the various parts of the city, I have been forcibly struck with the strange contrasts of city life. 'Tis only in a large city that life can be viewed in its various phases. There alone we see wealth and style alongside of poverty and squalor. Perhaps at some future time (if acceptable) I may enter more minutely into the subject. Suffice a few words and a few points which seem to be agitating the public mind here just now. As the great Semi-Centennial Exhibition is upon us, this and all its belongings are naturally uppermost in the minds of the citizens. I have just returned from a meeting in the Temperance Hall under the auspices of the Toronto Electoral Temperance Union, called to express their indignation at the conduct of the Dominion License Commissioners in granting a transfer of tavern licenses to the Industrial fair grounds during the Exhibition, in the face of a Special Act of the Provincial Legislature, passed at its last session, declaring that no such license should be granted, thus over-riding all law in the case, and although such license was also protested against by the Temperance men of the city; also at the conduct of the Provincial Commissioners for granting a renewal of a certain tavern license, which was first refused on reasonable grounds; and refusing an audience to a deputation having a petition against its issue. After a lengthy and earnest discussion by many of the old veterans of the cause of Temperance in Toronto, ably supported by many noble young men, and ably handled by the celebrated Mrs Yeomans, it was almost unanimously resolved, that in the face of the facts above stated, and seeing that license laws are, have been, and always will be a grand humbug, the time has arrived in the city of Toronto, as well as elsewhere, to strike for freedom by taking steps at once to bring about the submission of the Scott Act in the city, and the matter was placed in the hands of the Temperance Electoral Union to proceed to agitate the question at once. The result of the vote in Halton is looked for with intense interest here, and at a meeting of one of the divisions of S. of T. last week, I found that they were not only extending their sympathy to their Halton brethren, but also liberally assisting in a financial point. The battle waxes hotter as it proceeds, and surely it is storming the strongholds when Toronto is taking it up, but the recent action of the several boards of commissioners for the city seems to have added the last straw to the already heavy load, and they have determined to assert their rights.

Hoping you will pardon me for trespassing so far upon your time and space at present, I shall in a future issue, resume the subject of this beautiful city.
