FLESHERTON:
THURSDAY, OCT. 16, 1884.

MR. BUSKIN AND FLESHERTON CHEESE FACTORY.

A great deal of unpleasantness has resulted through a difficulty between Mr. Geo. Buskin of this township and the Directors of Flesherton Cheese Factory during the past season. It seems Mr. Buskin is a patron of our cheese factory. Early this season it was discovered that the milk from that gentleman's cows would not stand the test. This fact gave rise to considerable discussion at the various meetings of the board of Directors held during the season; and although the milking of Mr. Buskin's cows was superintended by outsiders, the milk still did not stand the test. At a meeting of the Directors it was moved, seconded and *carried unanimously*, "that Geo. Buskin be paid only 50 "per cent. for what milk he has sent "up to the 15th July, and that he be "served with a copy of this motion." This was on the 23rd July last. Now, if Mr. Buskin's milk did not stand the test, why was it manufactured into cheese along with the milk that *did* stand the test, and yet considered worth only *half* as much as the latter? Why was not the milk returned to Mr. Buskin in the usual way?

There is something really mysterious about this affair, which has now assumed rather a grave aspect. It seems *no one* can discover the cause of the milk not standing the test. There is no doubt but that the Buskin family are as much in the dark as the Cheese Factory men, the Directors, or the general public. If the Directors are "waiting for something to turn up," alright; but in the meantime we conceive it is their duty to put the matter in a clear light before the public and remove the stigma which has been attached to a respectable family through this unfortunate milk difficulty. This would be simply performing an act of common justice, in our humble opinion.

A DESPICABLE TRICK.

The Scott Act vote in Northumberland and Durham will not take place soon enough to prevent the hotel-keepers in those counties from taking out licenses for another year. The reason of this is to be found in the following paragraph which we clip from last week's Owen Sound *Times*:

Somebody made short work of the Scott Act contest in Northumberland and Durham by stealing sheets of the petition containing a thousand names while it was deposited in the Sheriff's office. The trick will probably prevent a vote taking place soon enough to bring the Scott Act into force next May, if carried; but it will be sure to create a feeling which will help the Act when the vote does take place.

AN EX-ALDERMAN TRIED IT.—Ex-Alderman Taylor of Toronto, tried Hagyard's Yellow Oil for Rheumatism It cured him after all other remedies had failed.

THE "SCOTT ACT WITH A VENGEANCE" LETTER.

Our esteemed correspondent, "Valentine Muggins," is usually very correct in his statements, but we are inclined to think that he drew somewhat largely on his imagination in the article in last week's ADVANCE, under the heading, "Scott Act with a Vengeance." We do not believe that Mr. Firth's Temperance proclivities had anything to do with the course Mr. Munshaw saw fit to pursue in the matter, whatever else the cause might have been. A careful enquiry into the *facts* of the case, lead us to this conclusion, which we firmly believe to be correct.

RECIPROCITY.

In last week's Markdale paper there is a very good description of Mr. M. Richardson's handsome new store in this village; there are, also,—in the same article—some very appropriate references to Dr. Christoe's new block, the Presbyterian church, and some contemplated improvements. Had our cotem, been a little more enterprising, however, the article in question would have been published some time ago; but, of course, considering our editorial friend's lack of originality, we do not wonder that he did not publish his "description" sooner. THE ADVANCE usually supplies the *Standard* with "ideas" for descriptive articles of this sort. It is quite welcome to them—even if it does forget to give us the credit which is our due. THE ADVANCE has a large circulation in East Grey and the United States, and therefore doesn't feel a bit jealous of its little Markdale brother. Perish the thought!

PRICE OF WHEAT IN DAKOTA.

A friend writing to S. L. M. Luke from Dakota, and who lives on the line of the Northern Pacific Railway, says that he can only get 45 cents per bushel for wheat! and good wheat at that. What would many of our Canadian farmers say if our grain buyers offered them such a "frosty grain" price as that? And yet many of them grumble because they are offered 25 cents per bushel more than they could get in any of Uncle Sam's western territories. True, wheat is cheaper in Canada than it has probably been for the last twenty years; but to counterbalance this, we have just reaped a most bountiful harvest. It must, also, be gratifying to know, that a much higher price is paid for wheat in Canada than on the other side of the boundary line.

SIMCOE.

On Thursday last the Scott Act was carried in the County of Simcoe and several Townships in the Parry Sound and Muskoka districts by an overwhelming majority of nearly twelve hundred. On the same day the Act was carried in Stanstead, Quebec, by a majority of nearly three hundred. Of the number of large and important towns and villages in Simcoe, only one—Collingwood—gave a majority against the Act.

The results in these places, following so closely the great and decisive victory in Halton, has paralyzed the Anti Scott Act men,—so much so that they have virtually given up the fight. They find it impossible to stem the tremendous Temperance wave which is now sweeping over the land.

In view of all these facts, the Temperance people should "thank God and take courage."

JOTTINGS.

Sir John Macdonald has gone to England on a visit, for the benefit of his health.

The Valley Road will soon be a reality, if we are to judge from the recent determined and wise action of Euphrasia Council. So mote it be.

The Grey Fall Assizes will be held in Owen Sound early in November. The libel suit between the Durham *Chronicle* and *Grey Review* editors, as well as the one between the Thornbury *Standard* and *Venture* editors will be among the main features. The famous Cook Teet poisoning case will also come up for trial.

Municipal elections are once more "looming" up, but we have not yet heard that any opposition will be offered to the present members of Artemesia Council. In Osprey the probability is that there will be another lively contest for the Reeveship between Messrs. Andrew McGirr and Thomas Gamey. There is likely, also, to be a contest for the Reeveship of Proton. In Euphrasia municipal matters are quiet.
