South Grey Teachers' Association.

Grey Review.

On Thursday and Friday last the semi-annual meeting of the South Grey Teachers' Association was held in the School House, Durham. There was a little disappointment experienced by the non-appearance of gentlemen from a distance, who were to take part in the meetings. There was a good attendance on both days, and a keen interest was shown in the subjects under discussion. The following are the

MINUTES.

The President, W. Ferguson, Esq., took the chair at 10:30 a. m., and the meeting was opened with prayer by Mr. C. Ramage.

The following motions were then carried:—1st, That W. L. Dixon be appointed Secretary of the Association *pro tem* in consequence of the late Sec., Mr. McMaster, having removed from Grey. 2nd, That we dispense with minutes, as they are not yet received. The President's address was the first paper read. Mr. Ferguson traced the advancement made by our Association during the last seven years, and then read the new regulations from the Educational Department, regarding our future meetings. Mr. Tilly is to attend next meeting to be held on the 28th and 29th May, '85.

On motion, a question drawer com., consisting of Messrs. Ferguson, Ramage and Winterborne was appointed.

A discussion on Tp. associations took place, during which Messrs. Ferguson, Ramage, Thompson, Campbell, and others expressed themselves in favor of Tp. local meetings, after which it was moved by J. C. Campbell, seconded by Wm. Gorsline, That a com. consisting of Messrs. Sharp, Reid, Ball, Ramage, Thompson and the mover and seconder be appointed to consider the subject of Tp. Associations, and report next day.—Carried.

Mr. J. Winterbourne then gave an illustration of teaching a language lesson to a class of young pupils.

AFTERNOON SESSION.

Dr. Gun took up his subject "Dietetics." The essayist showed that the race is deteriorating, especially in large cities, where families often disappear after the third generation. The principal causes were enumerated. The Dr. showed the evils resulting from eating too much, and from eating improper kinds of food. Very little butcher's meat should be eaten by persons of sedentary habits, and its excessive use is hurtful to the digestive organs of such persons. Alcoholic drinks were condemned, as alcohol in all its forms is injurious, being not a food, but a poison. Hence its use should be confined to medicine. It's constant use, even in small quantities, produces evil results.

In answer to several questions asked by Mr. Winterborne and others, the Dr. advised teachers to take only a lunch at noon and have dinner after the labors of the day were over. He also urged the necessity of physical exercise and recommended a walk of at least five miles a day.

The Dr was tendered a vote of thanks for his instructive lecture.

Mr. H. C. Rose then discussed teachers and teaching. His address was eloquent and practical. He believes that teachers leave the profession because they are so poorly remunerated—they are literally starved out. He advised a united effort to increase their salaries.

A lively discussion took place in which Messrs. Thompson, Dixon, Campbell and Winterborne took part.

Mr. Samuel Neily next favored the Association with the essay on "corporal punishment." He quoted from scripture to show that it is not only allowable but necessary; and believed that if parents and teachers used the rod a little more judiciously fewer children would grow up to be criminals.

Mr. Winterborne, in illustrating the teaching of literature to a fourth class, occupied the attention of the Association for the next hour. His method was marked by thoroughness, and was such as to lead the pupils to think for themselves, and also to express their ideas in correct language.

Next came Dr. Hixon on "Uniform Promotion Examinations." He gave an interesting account of their rise and progress in West Middlesex, where he taught a few years ago. Among their advantages he mentioned the following: 1st, They form a sure and perfect basis for classification. 2nd. They prevent undue promotion. 3rd, They afford an incentive to work. 4th, They train pupils to pass future examinations. 5th, They excite public interest in the school. Some slight disadvantages were also mentioned.

Dr. Hixon received a vote of thanks for his admirable address, and the Association proceeded to discuss the subject of Promotion Examinations for the schools of South Grey, and after doing so it was moved by Mr. Winterborne, seconded by W. L. Dixon, That in the opinion of this Association the introduction of uniform promotion examinations would help to advance the standing of our schools, and hence we propose that a com. be appointed to carry out a plan for such examinations to be held near the close of present year.—Carried.

The following were the com. which were appointed:—J. Winterborne, C. Ramage, W. L. Dixon, J. S. Campbell and W. M. Atton.

EVENING ENTERTAINMENT.

In the evening a musical and literary entertainment was held, the proceeds of which were $18.38. Mr. J. Winterborne was appointed chairman, and the order was excellent throughout. Among those who sang were Mrs Asbury, Miss Elliott, Mr. Jas. Watson, of Normanby, and Mr. Telford, Durham. Mr. M. C. Black gave two of his famous comic readings. The Rev. Mr. Forrest gave an instructive and interesting address, for which he received a vote of thanks from the assembly.

SECOND DAY.

The question drawer was next opened and Messrs. Winterborne and Ramage answered a number of difficult questions.

Mr. Geo. M. Farlens' subject of "Investigation of Pupils' Difficulties" was listened to with much interest.

Mr. W. M. Atton illustrated with class his method of teaching grammar to beginners.

J. M. Sharp next read an essay on "Geography to Beginners." He showed how this study may be made very interesting to young pupils, and a means of developing the use of language. By systematic questioning they will learn to observe for themselves. He was opposed to their learning definitions from books.

The report of com. on Tp. associations was next submitted, and adopted by the meeting. It was as follows:—

The com. beg leave to report that they recommend the formation of Tp. Ass's. by voluntary effort, and in order to further such action they recommended that the following be a managing com. for the various Tps. for selecting the times and places of first meeting of the local associations and arranging programmes therefor:—Artemesia—Munroe and Dixon; Bentinck—Neily and Bell; Egremont—Sharp and Reid; Glenelg—McDonald and Binnie; Normanby—Ramage and Campbell; Osprey—McKay and Chant; Proton—Rundle and Gillespie.

After some discussion about the library of the Association it was moved by Chas. Ramage, seconded by W. M. Atton, That Mr. Winterborne be requested to accept the position of Librarian for the eastern end of the Inspectorate, and that the two librarians co-operate and get a supply of new catalogues printed for the use of Association.—Carried.

The question "Where shall we hold our next meeting" was then discussed. It was moved by W. L. Dixon, seconded by W. K. Reid, That the next meeting of Association be held in Priceville.—Lost.

Meeting adjourned.

AFTERNOON SESSION.

The President read a letter from Mr. McMaster, expressing his regret at not being able to attend the meeting. The letter contained information about the Association accounts, &c.

The following motion was then carried: That in order to save time and get through subjects on the programme, there be no unnecessary discussions allowed.

Mr. C. Ramage, Delegate to the Prov. Ass'n., read his report, which gave the essence of all the proceedings in expressive and apt language

Mr. J. Winterborne then solved a few difficult mathematical problems, which had been sent to the question drawer.

Mr. J. S Campbell gave an address on drawing in which he showed its great value as a means of training the hands and eyes.

Mr. Jas. Binnie was next called upon and read an interesting paper on "Encouragements and Discouragements of Teachers." The essay was humorous and instructive, and the writer took his seat amid great applause.

David Grier gave a carefully prepared address on "Public Opinion," in which he showed its great power for evil when not properly directed. He showed also the influence of the Teacher in educating public opinion, and urged teachers to fulfil their duty in this respect.

Mr. Gorsline being called, said as it was nearly four o'clock he would rather hear Mr. Winterbourne, who had offered to give the Association the benefit of the instructions contained in the new regulaisons sent to Model School Teachers. Accordingly Mr. Winterbourne gave some valuable information about teaching grammar, arithmetic, and Geography. He pointed out what should be taught to each class in these subjects. He also illustrated the best method of teaching Arithmetic to very young pupils.

A communication was read from J. H. James, Music Teacher, who offered to form a class for teachers', and offered to come to next Ass'n't meeting, if invited, and give an address on Tonic sol-fa system.

This ended the meeting which adjourned to meet at Flesherton on the 28th and 29th May, 1885.

This has proved one of the most useful and best attended meetings of the Association, about seventy teachers being present each day, besides several visitors from Durham and vicinity, prominent among whom were Revs. Forest and Park, and representatives of the local papers.

W. L. DIXON, Sec'y-Treas.

OBSTRUCTIONS of the Stomach, Liver and Bowels, are promptly removed by National Pills.

AN AGREEABLE SURPRISE.—Those who try Burdock Blood Bitters as a regulator of the bowels, or to purify the blood, aid digestion, regulate the liver and kidneys, or strengthen tired nature, are agreeably surprised at the prompt benefit derived.

Those requiring extra good Pianos, Organs, Sewing Machines, Shuttles, Needles, Oil, &c., are invited to apply for them to C. TREADGOLD, Flesherton.

A SAFE INVESTMENT.—Investing twenty-five cents for a bottle of Hagyard's Pectoral Balsam, the best throat and lung healer known. Cures coughs, bronchitis, asthma and all pulmonary complaints.

A SUCCESSFUL RESULT.—Mr. Bloomer, of Hamilton, Ont., suffered for many years with a painful running sore upon one of his legs, which baffled all attempts to heal until he used Burdock Blood Bitters, which speedily worked a perfect cure.

C. TREADGOLD, Flesherton, has on hand for sale very cheap for cash, a famous new Organ, having fourteen Stops, six sets of Reeds.

PROMPT MEASURES.—Prompt means should be used to break sudden colds and cure coughs in their early stages. Hagyard's Pectoral Balsam does this most speedily and effectually.

A DECIDED HIT.—Hagyards Yellow Oil touches the right spot every time when applied for rheumatism, neuralgia, pain, soreness or lameness, and internally for colds, sore throat, etc., it is equally infallible.

A MARVELOUS STORY

TOLD IN TWO LETTERS.

FROM THE SON: "28 Cedar St., New York, Oct. 28, 1882.

"*Gentlemen:* My father resides at Glover, Vt. He has been a great sufferer from Scrofula, and the inclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using our medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case.

Yours truly, W. M. PHILLIPS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the SARSAPARILLA in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. 21, 1882. Yours gratefully,

HIRAM PHILLIPS."

AYER'S SARSAPARILLA cures Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists; $1, six bottles for $5.
