The latter animal being severely wounded by Jack, charged on him, striking fiercely at him with his feet, and chasing him around a tree once or twice. A second shot "downed" his buckship, and Jack came off victorious, to the no small envy of his comrades.

### Death of Robert A. Shannon.

We regret to announce the death of Robert Arthur Shannon, Meaford Road, Artemesia. The sad event, which was not unexpected, occurred on Saturday morning last about seven o'clock. Deceased has been afflicted with consumption for several years past. He was esteemed by all who knew him. The family physician, Dr. Christoe, was assiduous in his attentions, as he always is. Deceased was 23 years of age last March.

### Death of Mr. James Sproule.

We are called upon this week to record the death, at a ripe old age, of Mr. James Sproule, at his residence, Osprey Township, on Thursday last, Oct. 23rd. Deceased had been for many years a resident of Osprey, and leaves a large circle of friends to mourn his loss. Two of his sons are engaged in mercantile pursuits in the city of Winnipeg, Manitoba; another, Mr. R. J. Sproule, has been in the general store business in this village for many years; he also holds the position of Post-Master. Dr. Sproule, the popular M. P. for East Grey—and who resides in Markdale—is also a son of deceased.

The remains of deceased were followed by a large concourse of people to the Methodist burying ground, Maxwell, where they were interred. An impressive and instructive sermon was preached by Rev. Mr. Shaw.

### Mormons in Proton.

Since our last issue we have been informed that there are and have been disciples ot Brigham Young in Proton for some time past. It is also said that quite a number of Protonites have been converted to the "faith," and that a number have already departed for the Mormon "paradise," Utah. How any intelligent persons can be so-gulled and imposed upon as to swallow the obnoxious and immoral doctrines held by these so-called Christians is simply beyond our ken. There is scarcely a redeeming feature in Mormonism, and we cannot imagine how any moral and refined person can become so lost to all decency and relf-respect as to ally himself or herself to a doctrine which not only robs them of their manhood or womanhood but renders them slaves to the most vitiated and depraved tastes. It is almost too revolting to contemplate without a shudder, and were these Proton converts to see the dark side of the picture—which the crafty emissaries of a damnable creed will take good care not to show them for the present—they would pause and reflect before taking such a terrible "leap in the dark." Once the step is taken, in which their future lives are wrapped up in the surpentile coils of Mormon slavery and sensualism, it rarely occurs that they ever find their way back to intellectual and refined society.

### Eugenia.

*(From our own Correspondent.)*

A short time ago Mr. T. B. Gilliland succeeded in killing a large Mink which had been slaughtering the village fowl "right and left."

Mr. D. W. Jamieson, of the 9th con., Artemesia, lost a fine young horse last week. It was playing around and by some means broke through the boards covering the well. Before it could be got out it was dead.

On Tuesday last, Mr. F. T. Carr had a narrow escape from a very serious accident or death. He was working in the flume of Mr. Akitt's grist mill, when a large hand axe, which was being handed down to him, fell and struck the side of his knee, inflicting a large gash and exposing the side of the knee joints to view. Mr. F. Bowerman sewed the wound, putting in three stitches in a very neat manner. The accident will lay Mr. Carr up for some time.

Over one hundred loads of wheat were brought into Stayner on Friday of the week before last. Flesherton can beat that by a dozen or more.

### Catarrh—A New Treatment.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for Catarrh. Out of 2,000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermination—this accomplished, he claims the Catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure Catarrh in this manner, and no other treatment has ever cured Catarrh. The application of the remedy is simple, and can be done at home, and the present season of the year is the most favourable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Messrs. A. H. Dixon & Son, 305 King street west, Toronto, Canada, and enclose stamp for their treatise on Catarrh.—Montreal Star, Nov. 17, 1882.
