Manitoba Products.

The Canadian Pacific Railway's exhibition of "Manitoba Products" at Flesherton Station on Tuesday last was visited by a large number of our village people and others from the neighborhood. The exhibition consisted of a car, in the interior of which the products of the great lone land, lying along the Pacific railway, were tastefully arranged. The products exhibited were grown this season on the company's experimental farms, and in quality were unsurpassed by anything of the kind grown in the banner grain growing Province.

Daring Robbery.

On Monday forenoon last, about ten o'clock, the house of Israel Boyce, 4th line, Artemesia, was the scene of one of the most daring robberies we have ever chronicled.

It seems Mr. and Mrs. Boyce were away at the time, the latter's sister, a girl of ten years of age, being left in charge of the children—a little boy aged three years, and a little girl only 8 months old. Shortly after the parents went away, a medium-sized man, with light-colored side-whiskers, long, dark hair, and bluish colored eyes, and wearing old-fashioned smock,—came to the house and asked for a drink of water. His request being granted, he next inquired if the "boss" was away. This queston being answered in the negative, he next asked if the "boss" grew much grain. He then assaulted the girl, whose screams brought the little boy to the rescue with the broomstick with which he thumped the intruder several times on the back. The robber then drew a revolver and threatened to blow the girl's brains out if she made any more noise. Having by this forcible method succeeded in quieting the terrified girl, he kicked open a trunk and after abstracting therefrom the sum of Twenty-one dollars (two tens and a one) he cooly took his departure and has not since been heard of although a diligent search was made as soon as the facts became known to Mr. Boyce.

Feversham News.

(From our own Correspondent.)

It is so long since Feversham has been represented in your columns, I was beginning to think you might be under the impression we were lingering under some serious epidemic that causes this silence. I am glad to state that we are all hearty and well and things are beginning to assume a more business-like aspect.

Rev. C. Shaw, of Maxwell, preached a highly interesting sermon on Sunday afternoon in the church here.

R. H. Henderson, of the Dominion Bank, Uxbridge, is visiting his sister, Mrs. John Paul. Bob is always a welcome visitor to our little town.

Captain Ned, of the Lord's Army, is still holding meetings here with good results. A barracks is under course of construction.

The deer is not a very plentiful animal in this vicinity, but Willie Clemis, a boy of 14 years of age, of Lady Bank, was successful in bringing home a fine buck on Friday evening.

On Friday of last week a painful accident occurred at the residence of Mr. Wm. Hodgins, of the 12th line of Osprey. It appears that two af his children, a boy and girl, aged five and seven years respectively, were playing around the house when the little girl foolishly attempted to empty the powder into the stove when it suddenly exploded in their faces. The girl is badly burned about the face and neck, but fortunately her eyes are uninjured. Too much care cannot be exercised in leaving such explosive material where children can get it, for quite a number of serious accidents occur thro' thoughtlessness in this respect.

Catarrh—A New Treatment.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for Catarrh. Out of 2,000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermination—this accomplished, he claims the Catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure Catarrh in this manner, and no other treatment has ever cured Catarrh. The application of the remedy is simple, and can be done at home, and the present season of the year is the most favourable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Messrs. A. H. Dixon & Son, 305 King street west, Toronto, Canada, and enclose stamp for their treatise on Catarrh.—Montreal Star, Nov. 17, 1882.
